

The Amazing Son In Law (Charlie Wade)

Chapter 3498)

The Wanlong Temple in the Middle East has suffered extremely heavy losses.

But if these 5,000 people are captured again, the loss will be unprecedented.

It will definitely make Wanlong Palace more passive and even more miserable.

Although Charlie has no direct hatred with Wanlongdian, his intuition always makes him feel that this Wanlongdian will definitely become his enemy in the future.

Therefore, rather than retreating with his whole body, he is more willing to seize this opportunity to wipe out the Wanlong Temple in the Middle East!

The price of achieving this goal is at best a rejuvenation pill.

The Rejuvenation Pill is of course precious, but a Rejuvenation Pill may wipe out the 5,000 people in the Wanlong Palace, so for Charlie, it is still very worthwhile.

then. He didn't hesitate to take out a rejuvenating pill, intending to put it directly into the population to save it.

But to calculate, the effect of this rejuvenating pill, it is estimated that there will be more left after he is rescued.

Just like when government officer was about to die. Eating a rejuvenating pill not only saved the life and healed the injury, but also greatly improved the body's function, and the person also became much younger.

government officer is his own, so Charlie doesn't feel sorry for the Rejuvenation Pill.

But this buddy of the government army, he saw it for the first time today, and there is no need to benefit him extra if he wants to.

So he broke off half of the Rejuvenating Pill and stuffed the other half into the population.

soon. The effect of the medicine began to take effect in his body, the damaged heart was repaired, and the hypoxic organs were quickly recovering.

However, when the effect of the medicine was over, the other party did not wake up immediately.

Charlie investigated carefully and found that the opponent's brain seemed to have not been fully repaired, so he took the remaining half of the Rejuvenation Pill again, digging and searching for a third, and stuffing it into his mouth.

Soon, the government commander woke up quietly.

The first time he woke up, he felt pain all over his body, especially his heart, as if he had been stabbed by a knife.

In addition, the brain has a strong sense of pain and dizziness due to hypoxia for several minutes, and even a very strong urge to vomit.

And his body is also weak, and the whole person feels like he has just crawled out of the ghost gate halfway, and the back half is still hanging there and can't come out.

If Charlie eats the remaining half of the Rejuvenating Pill, it is estimated that he will be alive and well right now.

But Charlie did not intend to do this, but silently put away the rest of the rejuvenating pills, because he felt:

First, I and this buddy are neither relatives nor friends, nor enemies nor friends, so there is no need to give him such a big face;

Second, I have to make this guy hate Chen . If he gets a blessing in disguise, he might have to thank Chen for giving him this opportunity to some extent.

Therefore, it is the most appropriate level that will make him come alive and make him feel all the pain.

This is exactly the answer to the four-character proverb left by the ancestors: "If you can save, you will save."

And the first thing this person woke up was struggling to get up, while glaring at Chen and cursing: "Chen ! You son of a bitch, you want to kill me!"

Although Chen couldn't make any response at this time, he was horrified deep in his heart!

He didn't expect that Charlie used more than half an unknown pill to save this guy who had been beaten to death by himself!

This... how is this possible? !

It was also at this moment that he realized that Charlie was no longer just as simple as his supernatural powers. He really didn't understand how Hunter (Hamid) could have such a powerful military division. This person's ability is much higher than that of the Hallmaster of the Wanlong Temple, and even stronger than the Patriarch behind the Wanlong Temple!

Charlie looked at the commander at this time, and said lightly: "You don't have to blame him here, his consciousness has been controlled by me."

The man asked in surprise: "Is it under your control? What...what does this mean?"

Charlie said calmly: "He almost beat you to death just now, and I rescued you back. Don't you plan to thank me for saving Your life first?"
