

The Amazing Son In Law (Charlie Wade)

Chapter 3499)

This government army commander is not a fool, he knows exactly what happened to him just now.

The moment Chen shot himself, he knew that he would definitely not survive.

Unexpectedly, he was rescued by the Chinese man in front of him.

and. Even Chen , who was outstanding in strength, was controlled by him.

This shows that the strength of this person is far above Chen .

Wanting to understand this level, he hurriedly said to Charlie gratefully: "Wade...Master Wade, thank you for your life-saving grace!"

Charlie nodded with a bit of arrogance, and asked, "I don't know what you call it yet?"

The other party hurriedly said: "My name is Said."

Charlie snorted and said, "Sayed, you should be able to see what happened just now. Chen has already murdered you. He is one of the four kings of the Wanlong Palace. He dares to kill you and prove that Long Dian high-level leaders have reached a consensus long ago, and sooner or later they will act on you."

"So your top priority now is to quickly remove the threat of the Wanlong Temple and save your motherland. If you can handle this matter cleanly, you will become the national hero of your country in the annals of history!"

After hearing this, Said nodded without hesitation and said, "Master Wade is right! I can see their true colors thoroughly! I'll call our high-level staff to tell them, and let them make a decision immediately. !"

Charlie said: "Report the situation to them clearly, and then tell them that you have a way. All the 15,000 soldiers in the Wanlong Palace will be captured."

Said exclaimed: "Master Wade, do you really have a way?"

Charlie nodded, pointed at Chen who was blank beside him, and said lightly: "He is there. It must be no problem."

Said said excitedly: "That's great!"

Having said that, he immediately walked to a corner of the conference room and used the battlefield phone here to call directly to the top floor.

After the call was connected, Said spoke in his native language. Reported all the situation here to the leader on the phone.

Charlie couldn't understand what he said, but he could hear his emotions getting more and more excited, and even choked up several times.

A few minutes later, Said hung up the phone, looked at Charlie, and said with a red eye: "Master Wade, I have communicated with the senior management.

The senior management is very grateful for your help and promises that if you can help us solve the soldiers in the Wanlong Palace, We are willing to make a permanent truce with Hunter (Hamid)!"

Charlie nodded and said indifferently: "In this case, you immediately need to support your high-level staff, and send all the troops you can send here!"

"Good!" Said was so excited that he immediately made another call.

Soon, the government army dispatched more than 20,000 soldiers from all directions. Came here quickly.

During this period, Charlie still pretended to negotiate with Said and Chen. The Samsung warlord Shivam who was in charge of picking up Charlie knocked on the door several times and asked. Charlie asked Chen to send him away, so it did not cause Wanlong. The vigilance of other people in the hall.

A few hours later, Shivam knocked on the door again, and said nervously: "Commander, the government has sent a lot of soldiers here. Do you know what's going on?"

Under Charlie's instructions, Chen said, "Master Wade has some doubts about our strength, so we decided to invite Master Wade to review our team with the government army. You pass the order and let all Wanlong Temple soldiers go to the forefront of the camp immediately. The team gathers. In order to reassure Master Wade and ensure the absolute safety of the review process, all weapons are forbidden to be loaded with ammunition. Offenders are imprisoned for one month and fined for two months' salary, understand?"

Shivam thought that Chen wanted to brighten up Charlie's muscles. This behavior of brightening up muscles by inviting review is often seen in the world. Said review is actually a deterrent and let the other party see his own strength. Go back and weigh it carefully.

Therefore, it is an international practice to ensure that the weapon is not loaded with ammunition in this kind of inspection link of muscle display, so Shivam did not think too much, and immediately said: "Good commander, I will let you know!"

At this time, Chen's consciousness was about to collapse.

He naturally knew what Charlie was going to do. Once his five thousand soldiers unloaded the ammunition, wouldn't he be a lamb to be slaughtered?

But he couldn't do anything at this time, he could only worry about fear in his own consciousness.

At this time, Charlie said for Said, "Are you ready?"

Said said, "Master Wade, I have communicated with all the commanders. I will fully arrest the 15,000 mercenaries in the Wanlong Temple in a few minutes. When the time comes, heavy machine guns and armored vehicles will be guarded. Anyone who dares Anyone who resists will be killed!"
