## Chapter 3501 )

At this time, 15,000 soldiers of the Wanlong Palace were completely fried!

Who could have imagined that such a huge change would suddenly happen!

Who could have imagined that the friendly forces who were fighting side by side suddenly turned to each other with guns?

Just when everyone did not know what to do, Chen said loudly: "All the soldiers in the Wanlong Temple obey the orders! I order you to surrender to the government unconditionally and wait for the government to fall. No one can resist. Otherwise, you will be at your own risk!"

At this time, the soldiers of the Wanlong Palace collapsed.

If the friendly forces suddenly turn their faces, they can barely make sense. But his highest commander also turned his back.

What the hell is this? This is one of the four kings of the Wanlong Palace. !

shivam, who has the best relationship with Chen , couldn't help but blurt out, "Commander. This...what the hell is going on?!"

Chen said coldly: "I f\*cking told you to surrender, you don't understand human words?"

shivam was dumbfounded. He didn't want to believe that his closest comrade-in-arms, the brotherhood that grew up together, betrayed everyone. He couldn't help but ask: "Brother , what's the matter with you?! Why are you doing this?" !"

Before Chen became the king of the Four Great Wars, shivam always called him brother . This has always been shivam's name for Chen since he was a child. At this time, he also hopes to use this method to wake up his brothers. Let him know when he is lost.

However, Chen had already lost control of himself.

His consciousness was about to collapse and he wanted to kill himself. But his body strode uncontrollably in front of shivam, slapped his face severely, and said angrily: "If you talk nonsense, I will kill you!"

shivam burst into tears immediately, and he couldn't help sobbing: "Brother ! You are one of the most loyal veterans in the Wanlong Palace. The Wanlong Palace is your lifelong belief. How can you..."

Chen 's own consciousness has been extremely painful. But his body still couldn't control his pistol, put the muzzle on shivam's forehead, and said in a cold voice: "One more nonsense, I will shoot!"

shivam looked at Chen 's murderous eyes, desperate in his heart, and at the same time gave up the struggle.

Although he didn't know what Chen went through, and why it became like this, he knew that Chen was determined at this moment, and it was useless to say anything.

Seeing Shivam no longer speaking, Chen put away his gun and said coldly: "You surrender obediently, the government will not embarrass you, but if you dare to resist, you will immediately kill it on the spot!"

At this time, the armored vehicles of the government army were surrounded in all directions, and the muzzles of the armored vehicles and the muzzles of the heavy machine guns were all aimed at the 15,000 soldiers of the Wanlong Palace.

Chen paused slightly, and then said: "You must remember! You are a non-government armed force. Even if you are killed by the opponent's army in other countries, the other party can completely define you as a hostile force that is invading illegally. No one will do so by then. Say a word about your death!"

After hearing Chen's words and the dark guns in front of them, the soldiers of the Dragon Temple had completely given up the idea of resistance.

is that there are still many three-star and four-star fighters among them, and they dare not make a second at this time.

Because they know that the other party still wants to solve the problem peacefully. If they make a mistake here, the other party can shoot directly.

What is the significance of the three-star and four-star battles?

Even a five-star warrior can't afford the AK47 a shuttle.

So, they have no choice but to catch it!
