

The Amazing Son In Law (Charlie Wade)

Chapter 3506)

In Chen 's confession, he unreservedly revealed everything he knew about the Wanlong Palace.

Regarding this attempt by the Wanlong Palace against Syria, Charlie skipped it directly, because he had already known these things, and what he was more curious about was actually some conditions inside the Wanlong Palace.

According to Chen 's confession, the founder of Wanlongdian was named Abbas. The reason why he was able to form Wanlongdian at a young age and led Wanlongdian to grow and develop was mainly due to his overseas experience. An honorable person I met.

The identity of this nobleman is very mysterious. Most of the soldiers in the Wanlong Temple do not know his existence. Only the Wanpo Army and other core members of the Wanlong Temple know his identity and respectfully call him Patriarch.

The true identity of the Patriarch is actually a top martial arts master.

And Abbas was the direct disciple of this ancestor master.

According to Chen , after the Abbas gained a certain level of strength in the martial arts, it began to recruit troops from overseas Chinese circles. Almost all the warlords and generals in the Wanlong Palace were disciples of the Abbas.

With the continuous improvement of the strength of these core members, Wanlongdian quickly became famous in the field of mercenaries, and then Abbas began to expand again, and privately divided the Wanlongdian into three classes.

The first tier is naturally the Wan Po Army and other warlords and generals. These warlords and generals are all disciples of the Wan Po Army. They know most of the secrets of the Wanlong Palace, and they are all very sincere;

The second class is the middle-level officers of the Wanlong Temple. These officers have played an important role in connecting the ten thousand people in the Wanlong Temple.

These people all know that the first class of the Wanlong Temple is practicing martial arts, but they just know that if you want to practice martial arts, you must pass the first class assessment, so the loyalty of this group of officers is also very high;

As for the third class, they are the mercenaries hired by the Wanlong Temple from all over the world.

These mercenaries actually don't know the core secrets of the Wanlong Temple. They just work for the Wanlong Temple with the high salary of the Wanlong Temple. If there is a very good performance, they can be promoted to an officer and become the second class of the Wanlong Palace.
