

The Amazing Son In Law (Charlie Wade)

Chapter 3512)

Seeing that his subordinates came to report so nervously, Abbas immediately asked: "What's the fuss about!"

The subordinates were almost crying, and blurted out: "Hall Lord! The government army just announced a major news to the world. We have 15,000 soldiers in the Wanlong Palace, all of them arrested for the crime of endangering national security!"

Abbas's first thought was that it was impossible.

How could he be arrested by a government army that lacks guns and medicines for a powerful elite unit like his own, with the blue-eyed wolf king Chen sitting in town?

Who has heard that tens of thousands of peasants captured 15,000 regular troops?

Isn't this the tale of sliding the world?

Thinking of this, he couldn't help frowning and questioning: "Today is April 1st, April Fool's Day, didn't you come to tease me?"

The subordinates shook their heads and blurted out: "How dare I make such a joke, Lord! The other party has even announced the video, and all of our 15,000 people have been captured, and none of them have escaped!"

Abbas only feels that five thunders are on top! He felt like he had a nightmare in his childhood, and he couldn't wait to wake up and end everything in his dream.

He stood up subconsciously, ignoring a strong dizziness, and blurted out: "What are you talking about?! 15,000 elites, all captured by their third-rate soldiers?!"

The subordinate nodded cowardly, and whispered: "Yes...Yes...Hall Master..."

Abbas almost collapsed, clenching his fists and cursing: "f*ck, that would be 15,000 pigs and 15,000 donkeys. In the hilly wilderness of the Middle East, their gang also It's impossible to catch it so soon, right?!"

"Hall Master..." the subordinates said nervously: "Not only did our 15,000 soldiers have been captured, many officers also gave out all our strategic plans...The other party has now given all the evidence, transcripts, etc. The video recordings have all been released. In the video recordings, including the Blue Eyed Wolf King himself admitted, this information has caused a huge international response, and many countries are condemning us..."

As he said, he handed over a tablet, opened one of the videos, and said: "Hall Lord, this video of the Blue Eyed Wolf King confession has already caused a huge response on the Internet..."

Abbas suppressed his anger and clicked to play. In the video, Chen was sitting in the interrogation chair, revealing all the confidential information related to Syria in the Wanlong Temple.

Seeing that Chen completely betrayed the organization, Abbas grabbed the satellite phone on the table, snapped it into pieces in his hand, and shouted in anger: "Chen, as one of the four kings of the Wanlong Palace, will also be captured, did he, a six-star warrior eat dry food?! Even after being captured, we announced our strategic intentions. Doesn't he know that this has violated my death penalty in Wanlong Temple?!"

Salmaan was also blinded and blurted out: "Hall Master, based on what I know about the Blue-eyed Wolf King, he will never betray the Wanlong Palace. Is there anything hidden in it?"

"Hidden?" Abbas cursed angrily: "Didn't you see the video just now? He told the other party, and the other party is now telling the world, our Wanlong Palace will soon fall into everyone's yelling and beatings. To the point! Who else will cooperate with us in the Middle East countries in the future?!"

As he said, he clenched his fist, gritted his teeth and said: "Moreover! These five thousand people have been captured, which is a great loss for my Wanlong Palace!"
