

The Amazing Son In Law (Charlie Wade)

Chapter 3520)

James really didn't expect that his eldest brother would have been so rough during the recent period.

In contrast, being locked here, it can be regarded as a quiet time.

Although personal freedom is restricted and living conditions are a bit more difficult, it is not necessary to live under artillery fire all day, and it is still a remote and war-torn place in Syria.

The two brothers were full of emotions for a time, and the two of them who had been fighting from childhood to adulthood, at this moment, suddenly felt a sense of sympathy.

At this time, Don Albert's men had already sent two bottles of Erguotou with a temperature of 56 degrees. The two brothers who were sighing at it simply picked up the liquor bottle and drank from the bottle.

The two of them hadn't tasted the taste of wine for a long time, and they were upset and sighed, so they quickly drank so drunk that they leaned against the corner and fell asleep.

On the other hand, after Charlie explained Don Albert and asked him to take care of these people, he left the kennel and returned to the home of Tomson Yipin.

The major defeat of the Wanlong Temple in Syria is now triggering a chain effect of destruction.

Only one day later, this matter spread more and more internationally, and even China's media reported this news rarely.

According to the news, the Wanlong Temple, an illegal foreign mercenary organization, intended to infringe upon the sovereign state, and was subsequently captured by the country. This is the country's biggest victory in the sovereignty war in recent years, which is a great encouragement. The morale of the people of the country.

The definition of Wanlongdian as an illegal foreign mercenary organization is not exclusive to China Media.

Almost every country in the world that reports this news has the same attitude.

Because, in the face of countries and nations, a sovereign state is the foundation of legal principles.

The Wanlong Temple, an armed organization, stood on the opposite side of legal principles.

Everyone is a sovereign country, so they will naturally condemn such behavior.

It's as if countries all over the world have had various competitions and intrigues before, but everyone's attitude towards Somali pirates is the same, that is, to resolutely crack down and never tolerate them.

Because of this, the situation of Wanlong Temple in the international arena is becoming more and more passive.

Africa, as well as other countries in the Middle East that have hired Wanlongdian, immediately ended cooperation with Wanlongdian and drew a clear line.

Yesterday we were still comrades in arms fighting side by side, and today we immediately issued an ultimatum, asking the soldiers of the Wanlong Temple to leave the country within a time limit, and never allow any soldiers of the Wanlong Temple to stay in their country.

At this time, Wanlongdian fell into a huge business crisis.

If Wanlongdian is a foundry with tens of thousands of employees, now, this foundry has lost all orders and completely lost its source of income.

However, the salaries of this group of mercenaries are extremely high. Even if they are not fighting, they must pay a high base salary according to a certain percentage, otherwise they will immediately leave the Wanlong Temple and join other mercenary organizations with orders.

Therefore, on the second day after Charlie returned, the soldiers of the Wanlong Palace collectively asked the senior leaders.

If Wanlongdian can't arrange work for them in a short time, then either Wanlongdian will pay them daily according to 70% of the normal salary; or they will leave Wanlongdian immediately.

When his three great war kings reported this information to Abbas, he was already worried and worried.

Abbas gritted his teeth and cursed at everyone: "Trash! All the f*cking is a bunch of trash! How do you middle-level and high-level officers lead the team? Why do they have no sense of collective awareness or sense of collective honor at critical moments?"

"Why didn't anyone take the initiative to express their willingness to accompany the Wanlong Palace to tide over the difficulties?"
