

The Amazing Son In Law (Charlie Wade)

Chapter 3524)

Charlie hung up Stefanie Sun's phone and drove out of Tomson's first product. He saw Aurora in sportswear, standing in front of a tall Ford pickup truck.

This little girl is tall and outstanding, coupled with her years of martial arts practice, she is full of heroic spirit, standing in front of this kind of muscular pickup truck, it seems more sassy.

Seeing Charlie driving out, she hurriedly waved to Charlie and said happily, "Master Wade!"

Charlie pulled the car aside and stopped with a smile: "Aurora, is your dad letting you come?"

"Right!" Aurora smiled, pointed to the back of the pickup truck, and said: "My dad said you need a lot of medicinal materials, so I asked me to drive you over."

Charlie nodded and smiled: "That's really hard for you, Aurora."

"No hard work!" Aurora hurriedly said, "Master Wade, you open the trunk, and I will help you put the medicinal materials in."

Charlie pushed the door and got out of the car, and said seriously: "How can I let a lady come in this kind of thing? I'll move it myself."

After all, he came to the back of the Ford pickup, glanced at the large boxes inside, and asked her: "Aurora, are these all for me?"

"Yes!" Aurora hurriedly said: "They are all prepared for you. My dad asked me to tell you. If it is not enough, please call him at any time, and he will arrange for the goods immediately."

Charlie smiled slightly and said, "That's enough, thank you dad for me."

After speaking, he opened the trunk of his BMW car and put all these medicinal materials in it.

Mr. Qun prepared too many medicinal materials, and the trunk of the BMW car was far from enough, so Charlie packed all the remaining medicinal materials into the rear seats, which was barely finished.

Aurora couldn't help but asked curiously: "Master Wade, how big a pot is needed to cook so many medicinal materials? Is it necessary to use the kind of large reactor equipped in the pharmaceutical factory?"

Charlie smiled and said, "Who told you that these medicinal materials are cooked?"

Aurora asked incomprehensibly: "Aren't you going to make medicinal materials? Don't you need to cook it?"

Charlie shook his head and smiled: "Use my own method."

Aurora stuck out her tongue and said with a grin: "That's right, Master Wade, you are definitely different from ordinary people..."

As he said, Aurora said with some dismay: "Master Wade, since you want to make medicinal materials, Aurora will not delay your business, but when will you have time, can you come to my house to guide and guide my training?"

Charlie said, "I'm going to the far gate in the past few days. I'll talk about it when I come back. I will definitely make time to go there."

Aurora immediately became happy, and said excitedly: "Master Wade, let's just say so!"

"Okay." Charlie agreed and said with a smile: "Aurora, I have something to leave the city, so I won't talk to you for now."

"Okay." Aurora said hurriedly, "Master Wade, drive slowly."

...

Charlie drove out of the city and went straight to the Champs Elys Hot Spring Villa in the outskirts of the mountainous area.

In Aurous Hill in early April, the weather has already been much warmer, and the flowers and plants in the urban area have already given a new round of vitality. However, due to the lower temperature and higher altitude in the mountains, the growth cycle of plants is slower than that in the urban area. At this time, the trees on the mountain and around the villa have just sprouted some green buds, and all kinds of flowers have just grown out of bones, but have not yet bloomed.

After Charlie drove the car directly to the courtyard of the villa halfway up the mountain, he moved all the medicinal materials to the inside of the villa, and then began to prepare for the refining of Pei Yuan Dan.

The refining of pill medicine does not rely on boiling medicinal materials in a cauldron, but uses the spiritual energy in the body to screen out the essence of each medicinal material, and then merge the essence of the medicinal materials together according to the method recorded in the "Nine Profound Heaven Classics". In the end, a superior pill with pure medicinal power can be refined.
