

The Amazing Son In Law (Charlie Wade)

Chapter 3546)

Charlie's first glance at Helena was not like other men, surprised at her beautiful and exotic face, but surprised at her excessively fair complexion.

It is normal for the white race to have fairer skin, but Helena is a bit paler.

Her skin tone gave people a feeling, very much like the elven princess in the movie "The Lord of the Rings", not only white, but also much whiter than the average white person.

Therefore, Charlie paid more attention to her physical condition, and at a glance she could see that her body was much weaker than ordinary people, and the typical year-round severe deficiency of Qi and blood.

It can be said that the whole person is in a precarious state, and may collapse at any time.

At the moment when she shook hands gently with her just now, Charlie silently checked her body with aura, and at the same time found her actual lesions.

In his opinion, Helena's heart and the arteries and blood vessels of the heart, brain, and lungs all have very obvious congenital deficiencies.

On the one hand, it is the defect of the ventricular septum between the heart's ventricles, which causes a large amount of heart blood to flow back, thereby increasing the heart load;

On the other hand, because her pulmonary arteries are too narrow, the overall cardiopulmonary function is much worse than normal.

In addition, her symptoms are accompanied by ventricular hypertrophy and aortic displacement.

Charlie doesn't understand western medicine, so she doesn't know what kind of disease her heart problem is in modern medicine.

However, under the perception of aura, he can conclude that Helena is not in a good state now.

Not only is her heart not very good, but her body is also very weak. If she continues to develop like this, her life span will probably be a few months at most.

This is still all stable, if there are other unfavorable external factors, or she herself is too tired, or feels dull and painful, it is very likely that she will die directly.

Helena was startled by Charlie's sudden words just now.

She looked at Charlie with an incredulous expression on her face. She really couldn't understand how Charlie could see that she was not doing well.

But at this time, her heart was also particularly nervous, for fear that this matter would be known to others in the Wade family.

So, she hurriedly said to Charlie: "Mr. Wade may have misunderstood, I am in good health, but I haven't been in reverse jet lag recently."

Charlie wanted to say something. Jon Wade said with a displeased look at this time: "Charlie, I know you can do feng shui fortune-telling tricks, but you shouldn't talk nonsense in front of your sister-in-law!"

Charlie shrugged his shoulders and said to Helena: "If you can't stand the heartache, bite your right middle finger hard."

As he said, Charlie stretched out his hand, pinched her right middle finger with one hand, tapped her fingertip with the other hand, and said: "Hey, it's this one, remember, only this finger Can save your life."

No one knows that when Charlie spoke just now, the tap of Helena's right middle finger was actually quietly staying at the fingertip of her right middle finger, leaving a trace of aura.

This aura was cleverly sealed on Helena's fingertips. Once it was squeezed vigorously, it could immediately flow into her body, saving her life at a critical moment.

If two days ago, Charlie hadn't had such a strong ability to control aura so cleverly.

It's because after taking the Pill Pill, the aura in his body has not only doubled several times, but even the ability to control the aura has been enhanced a lot.

However, no one knew that Charlie left a life-saving talisman for Helena just now. On the contrary, both Jon Wade and Brenden thought that he was talking nonsense.

Jon Wade even felt that Charlie grabbed Helena's finger to deliberately take advantage of Helena!

So, he stepped forward with a bit of sullenness, blocking Helena behind him, and said to Charlie angrily: "Charlie, although you are my brother, if you dare to think about your sister-in-law, Don't blame me for being rude to you!"
