

The Amazing Son In Law (Charlie Wade)

Chapter 3574)

Outside the rescue room at this time, the immediate family members of the Wade Family and the two maids of Helena were still waiting anxiously.

Everyone had already decided that Helena was bound to die, so everyone was waiting for a clear message.

Lord Wade even instructed Jon Wade to immediately send the video to the butler of the Nordic royal family as long as he was sure that Helena was dead, and then to clear the relationship.

However, Jon Wade felt more or less regretful in his heart.

After all, Helena, a stunner full of exotic flavors, is simply the object of all men's dreams.

However, he has never been able to find a chance to kiss Fangze, which is completely violent.

Cynthia Wade thought of something and asked Lord Wade quietly: "Dad, do you want Charlie to come over? He said that Orrin Sun was cured by him, and Helena's body was also an abnormality he found at a glance. Maybe he could save her, or even have it. Way to cure her!"

Lord Wade waved his hand: "No!"

Cynthia Wade asked puzzledly: "Why dad, if Charlie has a way, wouldn't everyone be happy?"

Lord Wade shook his head firmly, lowered his voice, and said solemnly: "Absolutely not! No matter what method Charlie has, his method of bringing people back to life must be precious! It is definitely not worth wasting on Helena!"

Speaking of this, Lord Wade said again: "This woman has been concealing her illness from our Wade Family, and it is not a bad intention in itself. Why should our Wade Family use such a precious way to save her? Do you repay grievances with virtue? I, Lord Wade, is not so great! "

Cynthia Wade immediately understood what Lord Wade meant, and said quickly: "Dad, you think it all!"

In fact, Lord Wade only said half of his thoughts.

The other half of his thoughts that he didn't say was that Charlie's method of bringing people back to life and rejuvenation has not had the opportunity to experience it personally. How can he give this opportunity to a mere Helena?

While the Wade Family was waiting for Helena to settle, the door to the rescue room suddenly opened.

Jon Wade was lowering his head to fiddle with the phone. He heard the door opening. He thought it was the doctor who came out, so he didn't lift his head, and hurriedly asked, "Is the person dead?"

As soon as the voice fell, he just raised his head and saw the person coming out of the door clearly.

What made him, and all the Wade Family members, including the two maids, didn't expect that the one who came out of the rescue room was Helena, who had already been sentenced to death by the doctor and could last up to an hour or two.

It turned out to be Helena, everyone was struck by lightning, and there was no reaction for a long time.

Lord Wade looked at Helena with a horrified face, and blurted out: "Helena?! You...how do you..."

Helena looked at the Wade Family in front of her, and she was also very disappointed, because she had completely seen the face of the Wade Family just now.

However, she was also very clear in her heart that she was in the first place and couldn't blame the Wade Family for being overly realistic.

And she couldn't turn her face with Wade Family now, because she knew in her heart that only Charlie could save herself now.

It can even be said that Charlie is the only one who can save his mother.

So, she looked at Lord Wade, bowed respectfully, and said, "Thank you, Mr. Wade for your concern, I'm fine."

Lord Wade was completely dumbfounded. He was dying just now. Now he suddenly ran out and bowed to himself and said it was all right. Isn't this too magical?

Just wondering, he suddenly saw a row of bloodshot tooth marks on Helena's right middle finger, which made him instantly realize!

"I even forgot what Jon said when he came to file a complaint with me that day. Charlie told Helena that she would bite her right middle finger in an emergency, so that she could save her life. It seems that Charlie is not Open your mouth!"
