

The Amazing Son In Law (Charlie Wade)

Chapter 3591)

Charlie said indifferently: "Since the other party can kill the head of the Wade Family's nursing home, he will definitely be able to kill everyone you are sitting in. What's more, he is not alone. Other people who are walking with him are probably also masters. Masters, if you are unwilling to go out, if he gives an order and these masters rush in, you will all be lambs to be slaughtered, and no one can escape!"

Having said that, Charlie walked towards the gate and said as he walked: "If you are afraid, follow me behind, so at least they will kill me first if they want to kill."

Charlie's words made Lord Wade's heart stunned, and immediately, he said in a deep voice, "Charlie is right, Ma is the strongest one in Wade's courtyard, and the opponent can easily hit him. Kill, let alone ordinary people like us? Is it a blessing, not a curse, or a curse that cannot be avoided! It is better to listen to Charlie, and go out!"

After speaking, he immediately turned around and walked out after Charlie.

At this time, the others also gave up their illusions completely, and could only follow the old man yearning to walk one after another.

Seeing this, Jon Wade hurriedly pulled his father, and said in a low voice, "Dad, the shot was shot. Since Charlie is willing to die, let Charlie rush in front, let's stand back!"

Corran Wade nodded.

He didn't want to take any risks, so he deliberately hung himself at the end of the crowd.

Everyone came out of the villa one after another, only to realize that the other party had already surrounded the entire villa.

In the huge yard, rows of flatbed trucks filled with coffins were parked neatly.

When the Wade Family saw this situation, all their faces were pale in shock!

With such a big life, I have never seen anyone send more than a hundred coffins to other people's homes. The impact and pressure of this scene on them is really too strong!

The rest of the Wade Family were scared by this battle, but Charlie was not surprised by the battle in front of him. He kept looking at the man in white, headed by the other party, because he could see that among these people, his strength Highest.

Charlie discovered that the man in white clothes was the same as Chen who had been arrested to China by himself, he was a six-star warrior.

However, his strength is a bit worse than Chen, Chen has a vague meaning of breaking through, and this white-clothed man is still in the middle stage of a six-star warrior.

As for the other people around him, their strengths are all weaker.

There are three five-star warriors, and a dozen four-star warriors, and the remaining dozens of people are almost at the level of a three-star warrior.

Charlie also had to admit that the strength of the people in Wanlongdian was indeed much stronger than the average martial arts family.

It is not easy for ordinary martial arts families to come up with a three-star martial artist.

And the three-star warriors of Wanlong Temple are like f*cking dumplings, just throwing so many dumplings into the pot, they can't be cooked at once.

At this moment, when Salmaan saw that the Wade Family were all panicked, he sneered and asked sharply, "Where is the head of your Wade Family?!"

Lord Wade was panicked in his heart, but he could only bite the bullet and stood up and said: "I am the Wade Family Patriarch!"

Having said that, he looked at Salmaan and asked: "My Wade Family asks myself that I have no grievances with you in the Wanlong Palace, why did you bring so many coffins to my Wade Family?"

"No grievances and no enmity?" Salmaan laughed, and said: "I tell you the old thing, Wanlongdian and your Wade Family are not just not innocent, but they don't share the same heaven!"

Having said that, he said again: "Today, I am ordered by Abbas, the lord of the Wanlong Temple, to come and pass the order to you Wade Family. You have to put your ears up to listen to every word I say next! "
