

The Amazing Son In Law (Charlie Wade)

Chapter 3596)

Corran wade was stared at by the old man and felt his whole body shook. He hurriedly said, "Dad...I think...this is everything...it's the most important thing to have no life safety..."

After speaking, Corran wade continued to swim and said, "Moreover, the assets of our Wade Family are more than one trillion yuan? If we take out half of it, the rest will be enough for us to spend our whole life without worries.

After all, money is itself a raw material. If you don't bring it, die or take it away, it doesn't make sense to have so many..."

"Furthermore, our Wade Family might still be able to make a comeback in the hands of me or jon. At that time, if we lost it today, we can still earn it back!"

Lord Wade stared at him and asked coldly: "Rising from the East? It's up to you? Or it's up to you two?"

Corran wade said embarrassingly: "Yes...I am really not good at it. I stepped back and said, what if I can't make a comeback? Even if we sit and eat the mountains, so much money is enough for us to eat for a few lifetimes!"

Corran wade said more and more vigorously, and even said with signs and persuaded: "If you are worried that future children and grandchildren will not be able to live up to it, we can completely take out half of the remaining assets and set up a closed family trust fund! "

"Trust funds with a scale of hundreds of billions have a revenue of at least one or two tens of billions of yuan a year.

As long as you stipulate it so that future children and grandchildren can only take the net profit from the trust fund, the principal is not allowed to move, then we Future children and grandchildren, even if they can't make the Wade Family rise again, at least they will be able to spend their entire lives with great wealth!"

"In this way, we can ensure that our Wade Family's blood will survive, and we never have to worry about future generations ruining the Wade Family..."

"If you look at it this way, isn't it good? Everyone says that, isn't it?"

Except for Charlie and Helena, everyone else nodded.

For this group of people, no one wants to let their lives take the slightest risk.

To be alive is the most important thing for them.

Before being alive, what is it to make less money? Even if they surrendered 90% of the Wade Family's assets, they still have 200 billion, which is enough to be tight.

When Corran Wade saw that the other Wade Family members also showed their approval, he knew that his plan had a basic mass foundation.

So he said to Lord Wade: "Dad! I think you can agree to the request of Wanlong Palace!"

"Yeah!" Myles Wade also said hurriedly: "Dad, my eldest brother is right. It's better to die than to live. We have to think about the Wade Family's blood and incense!"

Cynthia Wade also quickly nodded and said, "Dad! You promised their terms. If Yeling Mountain is gone, you can build it again, and you can make more money when you don't have money. Nothing is more important than the safety of the family, you say it?"

Except for Charlie's sister-in-law, Aaliyah, who has not said anything, almost everyone has clearly stated their position and agreed to accept Wanlongdian's request.

Charlie didn't speak, but looked at Corran Wade and the other Wade Family members with a grim expression.

At this moment, he was very disappointed with the integrity and integrity of the Wade Family.

I don't know how disappointed, even a bit angry.

Because these people who want to accept the other party's conditions don't take the other party's parents' coffins seriously.

They just want to survive.

Moreover, in their view, only money is the pain, nothing else is important.

At this time, Lord Wade saw that so many children had turned to each other, and his heart was even more painful.

He didn't expect that among his children, no one can put family dignity first.

All people think about is just to survive.

This made him feel extremely sad.
