

The Amazing Son In Law (The Charismatic Charlie Wade)

Chapter 3709)

Seeing the yellow-skinned and dark-eyed Charlie walk in, even though Richard had never seen Charlie, he immediately guessed that he was from the Wade Family, so he smiled and said without a smile: "This gentleman, should Are they from the Wade Family?"

"Yes." Charlie nodded slightly, and asked with a smile: "I heard a general idea when I came in just now, do you have something to talk to me?"

Olivia on the side said immediately: "Charlie, this is my father, Prince Richard of the Nordic Royal Family!"

Charlie nodded and smiled: "Prince Richard doesn't know what advice he can give?"

Richard adjusted the tie of the tie, and said proudly: "When we made the marriage contract with the Wade Family, we didn't know that your Wade Family would have something to do with a mercenary organization like Wanlongdian! And we in Northern Europe.

The royal family has always been clean and self-conscious and has never been involved in any kind of gray organization! Therefore, in order to maintain the clean reputation of the royal family, we naturally cannot continue to fulfill the marriage contract with the Wade Family. I hope you will bring my words to the Wade Family Patriarch after you return."

As he said, he glanced at Helena and said, "As for Helena, since she has returned, she will stay in the royal family this time and will not return to China with you."

Charlie smiled and said: "Prince Richard, you are seeing my Wade Family lose power, so you want to regret the marriage unilaterally! If that's the case, just say it straight, why go around such a big circle and put people in Wanlong Palace? Pull in and step on your feet?"

As he said, Charlie said with an expression of abusive expression: "If Wanlongdian knows that you are using them as a shield to remarry, in case Abbas is annoyed, his brain is hot and he will kill you, so how can you fix it? !"

Richard's expression changed instantly, and he panicked.

He originally wanted to find a reason to marry Wade Family regrets, but he said that your Wade Family is losing power and our royal family is unwilling to play with you. If this spreads out, everyone can see that it is the royal family's unbelief. , Backtracking.

Therefore, he can only attribute the cause to principle.

The most reasonable argument is to take the royal family's cleanliness and self-care as the principle. Since the Wade Family compromised with the Wanlong Temple, it proved that the Wade Family had an affiliation with the Wanlong Temple. My royal family did not want to be dirty by the Wanlong Temple, so we retired from the Wade Family. , Which makes more sense.

However, how could Richard think that Charlie is such a master of things.

Hearing what he said, he immediately asserted that he was using the Wanlong Temple as a shield, and then directly moved the Wanlong Temple out as a threat, immediately causing Richard to mess up.

Don't look at him as a royal prince extremely proud, but if he really faces the Wanlong Temple, the shit can be scared out.

So he hurriedly waved his hand and said, "I didn't mean it! Don't talk nonsense!"

Charlie smiled and said, "What am I talking nonsense? What you said just now, so many people are listening, did I make a mistake?"

After speaking, Charlie said again: "Don't worry, I will definitely bring your words to Abbas as they are. As for whether you deliberately stepped on him, let him judge by himself."

Olivia saw that Charlie had moved out of Abbas to threaten his father, and said angrily: "Charlie! Don't talk about it here! Your Wade Family has vengeance against Abbas for killing your father. The army went to the door, lost the ancestral tomb and half of the family property. No one in the world knows that you still dare to move out of Abbas to threaten others. If Abbas knew that you were pretending to be a fox and fake Huwei outside, I believe he will never let you go!"

When other people heard this, they immediately agreed.

After all, Wade had just been taught to death by Abbas, and at this time he even moved Abbas out to frighten others, which is indeed very unreliable.

Aman Ramovich sitting next to Helena said with a smile: "Mr. Wade, the marriage contract itself is a contract. You can choose to perform the contract, or you can choose not to perform the contract. The party who fails to perform the contract will have to pay compensation in accordance with the terms. If there is no breach of contract clause, it will be free to decide! Everyone is a civilized person, so this kind of personal threat is unnecessary?"
