

# The Amazing Son In Law ( The Charismatic Charlie Wade Chapter 3938 )

Charlie said without hesitation: "Of course! Not only must the decapitation operation be carried out as soon as possible, but also must be clean and beautiful!"

Abbas received Charlie's approval and immediately said: "Then I will let Chen lead a few five-star generals to sneak in tonight, and directly kill that Bader!"

Chen's strength in the Wanlong Palace is second only to Abbas. He led the team and assassinating a pirate leader is naturally extremely easy.

So Charlie opened his mouth and said: "After killing him, Wanlongdian immediately announced that this beheading operation was to maintain the safety of the Gulf of Aden route. If the pirates in the Gulf of Aden continue to fight against the Wanlongdian, Wanlongdian reserves the right to resolve all threats by force."

After speaking, Charlie said again: "Now shipowners and shipping companies all over the world are paying attention to this conflict between Wanlongdian and Badr. You must pass this matter to let all shipowners and shipping companies The Panlong Temple is extremely trustworthy, and at the same time, the pirate organizations must understand a truth. If they dare to do the right thing with the Panlong Temple, then they have only a dead end! Our ultimate goal is, as long as the freighter is armed and escorted by the Panlong Temple, No pirate would dare to get involved. In this way, the Wanlong Palace can achieve absolute supremacy in the field of armed escort."

Abbas hurriedly asked: "MR. Wade, if this is the case, these pirates will have no way of making money. I am afraid they will die with us. Wanlongdian is not afraid of these shrimp soldiers, but if they really take extreme measures to retaliate against merchant ships, I am afraid. It will cause other losses."

Charlie smiled and said: "So what we will do in the future is the overlord of armed escort, not the monopolist of this industry."

"The annual volume of cargo ships in the Suez Canal is around 20,000. Based on an escort of hundreds of thousands of dollars, the armed escort market in the Gulf of Aden alone is worth tens of billions of dollars a year. We cannot afford such a large market. Eat it all."

"So, you have to make it clear to these shipowners and shipping companies that Wanlongdian can only cover 50% of the overall escort demand in the Gulf of Aden. Half of it, the other one will not be picked up."

Speaking of this, Charlie smiled slightly and continued: "As for who will get the quota of 10,000 ships this year, let them bid on their own when the time comes. If the previous price was half a million US dollars, then Wanlong The escort of the temple contains such a large amount of gold, it will take at least seven or eight hundred thousand dollars to make sense."

"If the bid is successful, it will naturally be escorted by Wanlongdian. If the bid is unsuccessful, then you can only go to other escort companies. In this way, Wanlongdian can be regarded as

leaving a bite of food for the pirates, as long as they don't come. The trouble with Wanlong Palace, the remaining 10,000 freighters, how they snatch them is their business."

Charlie asked Wanlongdian to act as an armed escort, one for whitewashing, and the other is to make Wanlongdian continue to make money through serious channels.

Therefore, the Wanlong Temple has no obligation to wipe out all the pirates in the entire Gulf of Aden.

Moreover, due to the special geographical location and political environment of the Gulf of Aden, it is impossible for the Wanlong Temple to attack any pirate organization. The pirate organization was completely defeated.

In Charlie's view, the most favorable situation for the Wanlong Palace is to make all the pirates awe at the Wanlong Palace through strong strength and tough hands, and then turn their eyes to the other half of the freighter.

As a result, the cost of escort at Wanlong Temple will not only be greatly reduced, but the escort charges will also continue to rise in the competition of major shipping companies.

At the same time, even though the pirates did not dare to provoke the Wanlong Temple, they still had food after avoiding the Wanlong Temple. This would not force them to fight the Wanlong Temple desperately.

Abbas immediately understood what Charlie meant, and said respectfully: "I understand MR. Wade, after I have dealt with Badr tonight, I will send someone to talk to these pirate organizations, as long as they don't talk to Wan. If the Dragon Palace gets it right, it will leave them a way out, otherwise, kill them!"
