

# The Amazing Son In Law ( The Charismatic Charlie Wade Chapter 3972 )

Therefore, although Aurous Hill is Charlie's home court, there are really not many people who know him and "Master Wade" in Aurous Hill.

This makes Fei Kexin even more puzzled.

Originally, he thought that Charlie should be a well-known local Fengshui master, so some local figures with a good face must give him a bit of face.

But now it seems that he has little popularity in the local area, which is really weird.

Fei Kexin frowned and said, "I always feel that this is something wrong, and Master Wade, who is surnamed wade, is also not right, but I won't be able to think of the problem for a while."

skuna hurriedly comforted: "Miss, don't worry too much. Maybe the surname wade doesn't have any real skills, and there may be no direct contact with Huichundan."

Fei Kexin said very firmly: , remember, the old ancestors said something abnormal must have a demon. These seven words are one of the golden standards for judging problems. If anything goes against common sense, we will not see if you understand, then there must be something you haven't understood. Once you understand it, you can naturally see it through."

This is the experience Fei Kexin summed up when he was very young.

When she was a child, she watched magicians perform magic tricks. Every magic trick seemed so wonderful and mysterious, and she couldn't figure out the reason at all.

When you change to other children, you will directly transform this mystery into worship of magicians, thinking that magicians can really do magic.

However, Fei Kexin always believed in one point. The reason why all magic is incomprehensible is not that the magician really knows how to do it, but that he has not yet seen the mystery.

Therefore, she asked her family to invite a number of magicians to decrypt the mystery of every magic for her on the spot.

With many magic tricks that seemed unthinkable, or even impossible to accomplish, when the mechanisms and mysteries behind them were unfolded before her eyes one by one, she immediately discovered that all the doubts and shocks disappeared at that moment.

These childhood experiences have strengthened her basic direction and logic of judging things.

The current Charlie is a magic in front of her, a magic that she has not understood the logic behind, so she can't wait to uncover the mystery behind this "magic".

skuna thought for a moment, and said, "Miss, it's really impossible. I arranged for the accompanying bodyguard to quietly follow Master Wade to see if I can find anything."

"No." Fei Kexin immediately refused: "You can't take risks without knowing how many catties the other party is."

After finishing speaking, Fei Kexin said again: "We have just arrived in Aurous Hill, and we still have nearly 20 days to go before the Rejuvenation Pill auction begins. We are still fighting steadily. Don't rush, let me find a way to determine what the name of Master Wade is. "

skuna said sadly, "Miss, you and Master Wade are only one-on-one. Without letting people follow him, it might not be easy to find out who is his last name and name."

Fei Kexin nodded and said, "I have thought of this."

As she said, she smiled slightly and said, "Fortunately, there are two clues, Isaac Cameron and Don Albert."

Speaking of this, Fei Kexin said: "You go to the Heaven Springs in Don Albert, and ask him what the highest consumption is there, and then give me a month according to the highest standard, and every day at noon and night thereafter, We all go to Heaven Springs for dinner, I believe there will be gains."

"Okay!" skuna said immediately: "Don't worry, Miss, I will do it now."

Fei Kexin again said: "By the way, investigate whether there are any well-known top doctors in Aurous Hill, especially Chinese medicine! I always think that Aurous Hill is an inconspicuous place. It's really weird to be able to come out with Rejuvenation Pill!"

skuna nodded immediately and said, "Okay lady, let me find out as soon as possible!"
