

The Amazing Son In Law (The Charismatic Charlie Wade Chapter 4000)

"Oh? Really?" Chairman Pei said in surprise: "That's really great! After all, an art exhibition with a budget of 50 million yuan can be regarded as the first-class in scale in China. Such a large art exhibition, if you want to hold it successfully, it must take more time and energy to prepare."

"Yes!" Fei Kexin nodded and smiled: "You tell me, President Pei, my grandfather really wants to be able to return to the roots in the future, so I came to Aurous Hill this time to make a front stop for him. He is familiar with the situation in Aurous Hill, and then he settles in his residence. This way, he can move back to Aurous Hill with confidence."

Chairman Pei asked curiously: "What Ms. Zhan meant, is that she is going to make her home in Aurous Hill?"

Fei Kexin followed the words and nodded and said: "Yes, I just bought a villa in the past two days, but I haven't had time to organize it. Maybe I have to find a more reliable Feng Shui master to help me see it. There is no Feng Shui. What is the problem, will there be any conflict with the elderly?"

As soon as Jacob heard this, his eyes lit up, and he barely hesitated to blurt out excitedly: "Oh, Miss Zhan, you are looking for a Feng Shui master, then you are really looking for the right person today!"

Fei Kexin had such a great conversation with Chairman Pei, just to get Jacob in and wait for him to say this!

So, she suppressed the excitement in her heart, pretending to be surprised and asked: "Vice President, do you still know Feng Shui?"

Jacob smiled and waved his hand: "I don't understand, but my son-in-law understands very well! He is a master who specializes in feng shui. He has a lot of customers in Aurous Hill and even all over the country, and they are all rich and wealthy like you, Miss Zhan. Big customer!"

"Really?" Fei Kexin said with a surprised look: "If that's the case, it would be a coincidence!"

Chairman Pei on the side couldn't help but echo: "Miss Zhan, Jacob is right. His son-in-law is indeed a Feng Shui master. Just the fifth master Hong of Heaven Springs I mentioned earlier, he respects and respects his son-in-law. One by one, Master Wade is very diligent. You must know that Don Albert is a big and decent person in our Aurous Hill local area. If his son-in-law has no real talents, it is definitely impossible to convince people like Don Albert."

Fei Kexin was so excited. At this moment, she could definitely conclude that Charlie, Jacob's son-in-law, was the master wade, and he was the man behind the scenes who cured Jacob's high-level paraplegia!

In this way, it is reasonable for Charlie to have a rejuvenation pill!

Thinking of this, she hurriedly said: "Vice President, please help me to make love to your son-in-law, and let him take the time out of his busy schedule to help me see the feng shui of that villa!"

Jacob has always had a good face. At this time, he was naturally very happy to say: "Don't worry, Miss Zhan, my son-in-law respects me very much. I will tell him when I go back, he will definitely agree!"

As he said, Jacob's thoughts moved, and he quickly asked: "By the way, Miss Zhan, is the villa you bought a new house or second-hand? Is it hardcover or rough?"

Fei Kexin originally handed this matter to skuna with full authority. He didn't know what kind of villa he was buying, so he said to skuna without showing his composure: "Shanshan, you can introduce it to Vice President."

skuna hurriedly said: "Vice President, the villa our lady bought is a second-hand single-family villa. It is in the suburbs. The interior has been renovated, but the decoration has been around for some years. Would you like to ask if this is in Feng Shui? Are there any particulars?"

Jacob chuckled and said, "It's not that Feng Shui is exquisite. The main reason is that my daughter has set up a design studio by herself, mainly doing interior design. I want to say that if Ms. Zhan's villa needs decoration, I can find my daughter. She is very professional!"

Fei Kexin's eyes lit up and said happily, "That's great! I just want to tear down all the interior decorations and redo them, so I don't have to go out to look for them any more!"
