

The Amazing Son In Law Chapter 4118 (The Charismatic Charlie Wade Chapter 4118)

Although Bernard Elnor's heart is full of anger at this moment, he has actually accepted it deep down.

He himself is the originator of the distribution industry, relying on the trick of distribution, he has made hundreds of billions.

Therefore, he understands that the reason why businesses have the confidence to ask consumers to distribute goods is because they have absolute confidence in their products.

Once they know that consumers are willing to get this product at any cost, they have enough confidence to ask consumers to distribute the product.

A bag of more than 100,000 yuan must be equipped with 200,000 goods, and a watch of 200,000 yuan shall be equipped with goods of 400,000 and 500 thousand. They all accurately grasp the psychology of consumers, so they are slaughtered. Get on them.

Now, he couldn't ask for the rejuvenation pill, let him distribute the goods for this, he can only grit his teeth and accept it.

After all, you always have to pay it back when you come out.

Thinking of this, he nodded and agreed, and said to charlie: "Okay! Two billion is two billion!"

charlie nodded in satisfaction, and said lightly: "Later, President isaac from Shangri-La will give you the public account here, and you can directly arrange the finance to send the money over."

"Okay." Bernard Elnor nodded sullenly, and said with an anger, "I will arrange payment as soon as possible..."

charlie smiled slightly and said, "Mr. Ernault, in the future, you will still be more kind in doing business. You can sell things at any price at any price. Don't always think about earning extra profits from hunger marketing and the distribution system. In the words of the Chinese people, doing too much of this kind of ethical deeds damages yin morality and is very detrimental to future generations."

Bernard Elnor asked angrily: "Aren't you the same?"

charlie said with a smile: "Our boss has already said that once the money for your distribution is paid to Shangri-La's account, he will donate all of it to China's Nutrition Improvement Program for rural compulsory education students. So,

don't tell you. The same is that what he does is good, what you do is wicked. In the words of our ancient Chinese, he is robbing the rich and helping the poor."

Bernard Elnor asked in surprise: "What does this nutrition plan do?"

charlie said indifferently: "It is a poverty alleviation program established by state funding. It only targets students who are receiving compulsory education. According to the standard of four yuan a day, it provides meal subsidies to more than 20 million rural school students across the country. Calculated on the basis of a four-yuan lunch per day for each child in a poor rural area, these two billion can provide a year-long lunch for 1.4 million children in poor rural areas, and it is also a great merit."

Speaking of this, charlie said again: "But this merit has nothing to do with you, unless you also actively donate another 2 billion."

"I... do I have to donate too?!"

Bernard Elnor had the desire to die at this time. What he feared most now was that after charlie forced him to distribute the goods, he also forced him to donate money.

Seeing his panic on his face, charlie sneered, and said, "Mr. Ernault, don't be so scared. If you don't want to donate yourself, we won't force you to donate, after all, strong melons are not sweet."

Bernard Elnor finally breathed a sigh of relief.

One of his least favorite things in his life is donations.

In his opinion, the money is earned by his hard work, and he can spend it no matter what, but he can't donate it.

He had already suffered a heavy loss by agreeing to distribute 2 billion, so he didn't want to pay any more.

But this is the case, these two billion are enough to make him painful for a long time!
