

Baby alliance: helping daddy get a rich mommy chapter 644

“I’ve tried acupuncture before, but I think I’ve only heard of moxibustion. Not many people seem to do it.” “Yeah, it’s very effective. It’s a traditional tried-and-true method. Why don’t you try it?”

Jordyn looked hesitant; after all, she had met with disappointment for too many times these years. Every time, she would have high hopes for some famous doctor, only to return in disappointment. However, Selena spoke with such conviction, and considering Selena’s identity, Jordyn figured she should know some capable doctors, so she reluctantly agreed.

At the end of the week, Selena invited Jordyn directly to her home, where Juniper was already waiting in the room. In order to facilitate Juniper’s consultation, Selena specially asked the maid to set up a room with a bed and a cabinet for Juniper’s use. There was also a mannequin in the room with various acupuncture points marked on it.

“Is this your daughter? She looks so cute, though it seems that she resembles her father more.” Jordyn touched Juniper’s face.

“Yes, she looks like her father.”

Jordyn looked around the room but didn’t see anyone except for this child. “Where is the doctor you mentioned?”

Selena pointed awkwardly at Juniper. “Here she is.”

Juniper squinted at Jordyn. “Hello, Ms. Cole. I am the doctor.”

Looking at Juniper, Jordyn did not say anything for a long time. Then, she looked at Selena with a dumbfounded expression. “Hey, Selena, are you kidding me? She’s just a child, so how can she be a doctor? Is this a prank? Even though I didn’t agree to work for JNS Corporation, you shouldn’t play this kind of joke on me, right?”

If it weren’t for them being gym friends, Jordyn really would have lost her temper.

“Don’t look down on me! I’m confident when it comes to dealing with insomnia.” Juniper puffed up her cheeks.

Selena smiled. “Jordyn, I don’t know if you have heard of a Dr. Andy Werner who lives on top of the mountains. My daughter’s talents were acknowledged by Dr. Werner, and she’s now learning medicine from him. She has been learning for a while, so why don’t you give her a chance? Anyway, she uses moxibustion therapy, so there’s no need for you to take any medicine. Even if she can’t cure you, it won’t cause any damage to your body. What do you say?”

“Are you talking about the retired Dr. Andy Werner? He should be eighty years old, right?”

“Dr. Werner is exactly eighty years old this year!” Juniper said proudly.

“I heard that Dr. Werner has long since retired, and I’ve tried to get him to take a look at my health, but I’ve been there twice and was driven away both times.”

Jordyn looked at the little kid in front of her and thought that since the latter was Andy's disciple, she could give it a try. It was mostly because this child was young, and it was because she used moxibustion and not medicine nor acupuncture that she was willing to give it a try.

"Okay, then I'll give it a try and consider myself resting at your place for a while."

Selena narrowed her eyes and smiled. "Okay, Jordyn. I'll leave you to it." Then she looked at Juniper. "Good luck, Juniper! I know you can do it."

Juniper gave a flying kiss to Selena. "Don't worry, Mommy! Ms. Cole, first of all, I need to take your pulse."

At that, Jordyn helplessly shook her head. How could a small child take my pulse? Nevertheless, she also had children of her own, so she decided to play along.

Next, Juniper took Jordyn's pulse patiently. "Ms. Cole, Mommy said you gave birth to two children. Did you not recover well during your confinement and postpartum period both times?"

"I chose the best confinement center, so how could I not have recovered well?"

Juniper shook her head. "Then you must have been working too much during that period."
