

## Baby alliance: helping daddy get a rich mommy chapter 729

The existence of this mysterious person made Pierre uneasy. If he kept letting this person work behind the scenes, there would come a time when Selena would fall into a trap, so Pierre must take care of this matter while he was still at home. Otherwise, it was too dangerous.

As soon as Linda and Jocelyn got off the plane, they went straight to the hospital. Jason's condition was fine, and he was out of danger, but his leg was badly injured with a comminuted fracture, requiring surgery on a later date.

After finishing off Meredith, Linda went back to the hospital. Jocelyn pulled Linda to the side and said, "Linda, your cousin's leg still needs to be operated on. I've asked around the hospital, and I heard that there is a Dr. Spencer who is highly skilled and is the best at surgery, so see if you know anyone here who can help contact him."

Linda scratched her head. "I really don't know any Dr. Spencer, but I do have some people I know here. So, don't worry, Aunt Jocelyn, I will definitely help contact this Dr. Spencer."

"Good, then thank you very much." With that, Jocelyn put a bank card into Linda's hand. "Since we're out and about, we'll need to use money in a lot of places. Now that we're inviting a doctor to come over to do surgery, you'll certainly need to tip him. Hence, you should take this money first."

"Aunt Jocelyn, this is—" Just a moment ago, Linda had been worrying about not having money to spend.

"We are a family, so there's no need to say anything. Take it." Jocelyn closed Linda's hand.

"Okay, Aunt Jocelyn, then I'll use it first and return it to you later." Linda smiled at Jocelyn.

In just a short time, Linda contacted Wyatt. Actually, this matter was straightforward to tackle. She just needed to find a few people in the hospital and spend some money. When she was working as an assistant for Selena, she frequently did this kind of thing too, so she was an expert at it.

After Wyatt received Jason's case, he went to the ward to check Jason's condition. "I've seen both the film and the case report. However, now there is still a need for anti-inflammatory preparation. When the fever is completely gone and the situation improves, I will arrange for the surgery."

Jason had been running a fever ever since he was hospitalized because of the inflammatory reaction.

"Right. Dr. Spencer, thanks and sorry to trouble you." Jocelyn shook hands with Wyatt.

"You're welcome."

When Linda walked in from outside, she bumped into Wyatt. She never expected that famed doctor to be him. When she was still with Selena, she knew the existence of such a person, but she had long forgotten his name. However, now that she had seen him, she remembered some of it.

"Linda, you came just in time. Dr. Spencer is here," Jocelyn hurriedly said.

When Linda found someone to contact Wyatt, she hadn't met him personally. At this moment, on seeing Linda, Wyatt also felt some familiarity. But he really couldn't recall where he had seen her before.

"Hello, I'm Wyatt Spencer." Wyatt extended his hand, and Linda looked awkward as she put out her hand and shook Wyatt's.

"Hello, I'm Linda. The patient is my cousin, and I sent someone to contact you." Linda did not dare to raise her head, and her gaze was slightly evasive.

"Have we met somewhere before?" Wyatt felt that her name also sounded familiar.

"Have we? I don't really remember."

"Ah, maybe I got it wrong." Wyatt smiled and nodded. "Feel free to contact me if you have any issues."

After saying that, he went out. Linda's heart was pounding hard as if Wyatt recognized her. It would be impossible for her to hide if she got busted. Fortunately, she and Wyatt had not really interacted with each other before and had only met once. Nevertheless, she had to resolve this as soon as possible so that she could avoid further troubles.

In the middle of the night, Linda, who was in charge of keeping watch over Jason, received a phone call. Hence, she immediately went out.
