

Billionaire CEO Won't Leave

Chapter 151

Kangmobei's action is as fast as the wind, which makes people unable to dodge at all. Musi Li seems to have no intention to hide at all, so he took the punch without any defense.

Musi Li was hit by a staggered, white skin appeared a piece of black, mouth exudation of large blood, Musi Li hook lips, stretched out a hand to touch.

He laughed at the blood on his fingertips.

"I'm sorry for Mr. Kang's blow."

Conmobeir clenched his fists and waved them out again. However, this fist was picked up by Mousi. Conmobeir used a lot of strength. Mousi's figure shook in his hand.

"But I can't accept Mr. Kang's next blow."

Conmobei's eyes were sharp as a knife, and his lips were slightly crooked. He gave a sneer, cold.

The other hand grabs musili's collar, forcing him to lean forward as he approaches him.

Two men's breathing blend in one place, each strong to no one to give way to each other, Mu Sili's face slightly raised, eyes and a bit of cold smile.

"Mr. Mu had better control his heart. For some women, Mr. Mu is better not to provoke."

"For example?" Moussili is deliberately provocative.

Conmber was close to another point. "For example, my woman."

Musi left his hand covered with commobei and grabbed his hand at the neckline. He secretly pulled commobei's hand away, and their arms were blue.

Moussili's neckline has been wrinkled by commo north, and the top button has been torn open and dropped to where.

Step back slightly, moussili shakes his head slightly, and eye center Lisi won't let him.

Two people are confrontation, the door of the office was suddenly pushed open, know summer stood at the door.

The movement of the office was overheard by her, who was lying behind the door and secretly watching. When conumber punched, she even heard the wind of conumber's sleeve and the murmur of mousse.

She's very worried.

Push open the door, as expected to see two people confrontation, the atmosphere of the whole office are extremely oppressive, Musi from the corner of the mouth green a lot, but also covered with thick blood.

Two people at the same time looking at the door to the people, sharp eyes seem to be in an instant will be the door of the people of the ash.

"It's a misunderstanding about Mu and Miss Bai!"

As soon as the words came out, their eyes were fixed on zhixia.

"Yesterday, I was there too, really! Not only mu and Miss Bai, but also I was there! I can prove that they have nothing! Nothing happened

Zhixia explained a few words in a hurry. It seemed that he was afraid that kangmobei would not believe it. He took out his mobile phone and found out yesterday's walking record. "It's recorded on my mobile phone. Look, I did go there yesterday!"

Kangmobei's eyes gradually sink down, not as cold as before, eyes in a dark, it is unpredictable.

Mousi's eyes also become secretive.

Conmobei stepped back a few steps, and opened the distance between him and Mousi. He can believe that nothing happened between Mousi and Bai nianxi.

However, the way Mousi looked at Bai nianxi was what bothered him most.

That look, is a man only when he sees the woman he loves.

Conumber turned and walked out the door. "You remember what I just said."

When kangmobei came to the door, moussili suddenly turned to kangmobei's back and said, "Mr. Kang, what are you afraid of?"

The fists in his trousers pocket were tight and loose. He didn't speak. After a slight pause, he continued to walk out.

Musi left and wiped the blood from the corner of his mouth. The scarlet blood stained on his silver gray suit, which seemed a little charming.

Conmber, I'm really scared.

"Mr. mu, are you ok?" After Kangmo North left, zhixia came over from one side and looked at Musi Li's face with some heartache. "Mr. mu, your face..."

Musi looked at the direction of combo North's departure, stretched out his hand and wiped the corner of his mouth, "it's OK."

"But..." Know summer want to reach out to touch, but still hold back that kind of impulse, "you are bleeding."

Mu Sili just let out a sound and didn't speak any more. His skirt was slightly disordered and his breath was a little unsteady. He turned around and said, "go out first."

Zhixia didn't say any more. She turned around and went out. Half an hour later, she put a bag of cotton swabs and anti-inflammatory drugs on Musi's desk.

When commobei left the company from mousse, he had a lot of momentum, which was not as sharp as he had at the beginning.

Get on the bus directly and give Bai nianxi a call, "where is it?"

Bai nianxi is still drawing in the company. He hears the words and says, "company, what's the matter?"

"Come out."

White read Xi don't understand of gather eyebrow, "go where?" "For a ride."

Kang Mobei said and hung up. Bai nianxi didn't know what Kang Mobei meant. He just felt that he was not in a good mood from the tone of his voice.

After cleaning up the work at hand, Bai nianxi went downstairs.

When we get to the company gate, a black Maybach comes from a distance and stops steadily in front of bainianxi. The wind blows bainianxi's hair.

The car window was rolled down, and the man inside was connmobei.

Cold way: "get in the car."

Bai nianxi opened the door and went in. It was cold in the car.

After Bai nianxi fastened his seat belt, kangmobei stepped on the accelerator and left quickly.

"Why did you suddenly say you were going for a ride?" They didn't speak for a long time. Bai nianxi didn't know where kangmobei was going to take her. In silence, Bai nianxi turned to kangmobei and asked.

Kangmobei's car had already left the city. When it got to the outskirts, it heard Bai nianxi's words, stepped on the brake, and the car suddenly stopped.

Bai nianxi looks at Kangmo north. There is no light in the car. Only the moonlight outside the window shines in. The forehead of Kangmo north is faintly shining.

"Why are you sweating?" The temperature in the car was low, and sweat was oozing from the forehead of kangmobei. Bai nianxi said, and he reached out to wipe away kangmobei's forehead.

When Bai nianxi's hand is half a finger away from kangmobei, kangmobei grabs Bai nianxi's hand and grabs it at his wrist.

Bai nianxi realized that something was wrong.

"Where did you go yesterday afternoon?"

"Museum, what's the matter?"

Kangmo turned his head to the north and glanced at Bai nianxi. Bai nianxi's heart was cool. "I asked, after coming out of the museum."

Bai nianxi knew the reason why kangmobei was so abnormal.

He must have been angry when he found out that she had met moussili and had a cup of coffee.
