

# 《Billionaire CEO Won't Leave》

## Chapter 208

"Let me have a look."

"What are you looking at?"

"Look at your wound..." Bai nianxi didn't go on. Mingming had already dealt with it in the hospital just now. The doctor took the medicine and pasted the gauze, but she couldn't help worrying and wanted to have a look.

"You know how to worry about me?" Conrad's eyebrows.

Bai nianxi is a little angry. Why doesn't she worry about him?

Although his face made an expression of indifference, his heart was full of ups and downs.

When he was in the company before, he suddenly received a strange phone call, saying that Bai nianxi was in trouble in Panasonic and asked him to go there quickly. He had no time to think about it, so he left the people in the meeting room and rushed there.

At that time, he didn't know what Gu xuanlin was throwing at Bai nianxi. He just subconsciously wanted to block for her. He just hoped that she would be OK..

Bai nianxi was very nervous about Kang Mobei's injury. He was always worried about it. He glanced at it from time to time and said, "I don't know how long it will take to get better. If the injury is like that, it may leave a scar. If it does..."

"What if there's a scar?"

"If you leave a scar, you'll lose your face!"

When Bai nianxi finished, Kang Mobei's expression became strange. Bai nianxi was also a little annoyed. The wound was obviously behind the neck. If it was really scar, it would be harmless.

It's just that whenever she sees it, it hurts.

The eye light of Kang Mo North moved to move, "if I break appearance, how do you want to do?"

Looking at Bai nianxi, he added, "if I break my face, I won't get a wife."

It's like a reminder.

.....

"Don't worry, you won't lose your wife." Bai nianxi felt angry and speechless.

"Do you mean to make a promise to me?"

Well.

She didn't say that, did she?

Bai nianxi has not yet answered, he heard Kang Mobei say: "well, for your sincerity, I will reluctantly promise you."

? ? ?

What's the logic? Self positioning is quite clear, but still reluctantly agreed to her?

"No! Don't embarrass Mr. Kang, and don't force yourself to agree! " Bai nianxi got up in anger and went to the side.

Kangmobei reaches out his hand and pulls Bai nianxi back. Bai nianxi falls into kangmobei's arms without any force at his feet.

She smells good.

This is the smell of Bai nianxi after a week.

Bai nianxi is still angry. Subconsciously, she wants to push kangmobei away. But her head is just on kangmobei's shoulder. She can see the gauze behind kangmobei's neck with her eyes slanting.

It oozes blood again.

A pain in the heart, reached to the North shoulder of the hand stopped there.

Conmobei didn't intend to let go. He just wanted to hold Bai nianxi for a long time.

"Does it hurt?" Bai nianxi asked softly.

"It hurts." The voice of conMBER was dull.

I don't know how, Bai nianxi's eyes suddenly turn red. It's sulfuric acid. How can it not hurt?

Kangmobei hugged Bai nianxi tightly, "but my heart is more painful."

Bai nianxi's throat choked, and the tears in his eyes could no longer help falling down his cheek. He complained: "Why are you blocking for me..."

In fact, after staying alone in the hotel for a few days, Bai nianxi also calmed down a lot. What she said that day was too heavy.

Maybe it's because when she saw kangmobei and mu Rushuang together, she felt that she was eating. When her mood got out of control, she was easy to say anything.

She didn't think that, but she said that.

In fact, she wanted to tell conMBE how important he was to her, but she couldn't say it.

But today, I saw Kang Mobei again, saw him stand in front of her, and saw that he told her that his heart was very painful. The grievance and sadness in his heart could no longer be closed.

Kangmobei felt a hot and humid sensation coming from her neck. She gently pushed aside Bai nianxi's body and saw that she was already in tears.

A sense of bewilderment suddenly swept the north of the Como, only to feel that someone head-on splashed a basin of water in general, ice from head to foot.

This is the first time that Bai nianxi cried like this in front of him.

For the first time, I saw the tears on Bai nianxi's face so clearly, and for the first time, I saw her eyes flushed with tears.

I felt numb.

"What's the matter with you?" The voice was clearly tense and trembling.

Bai nianxi wanted to hold back, but when Kang Mobei asked, the gate to control the tears was completely out of order, and the tears all gushed out.

Kangmobei is in a hurry to wipe the tears on Bai nianxi's face, and then he hugs her in his arms. "It wasn't good just now. Why did you cry?"

Kangmobei doesn't know how to coax women, especially when Bai nianxi is crying, he feels at a loss and can only hold Bai nianxi in his arms in silence.

I don't know how long has passed. Bai nianxi's sobbing voice is gradually getting smaller. Only his shoulder is still twitching from time to time.

Conmber sighed, "it's over?"

Bai nianxi nodded.

"Now can you tell me why I cry?"

Bai nianxi shakes his head.

Kangmobei feels helpless, but it's hard to say anything. He stares at Bai nianxi's wet face with deep eyes. He begins to regret that day, no matter what she says, he shouldn't leave her.

Bai nianxi suddenly raised his head, blinking a pair of red tears, looking at kangmobei.

Kang Mo North tiny Leng Leng, "how?"

As soon as the words came to an end, a touch of warm red lips was pasted on the thin lips of Kangmo north.

Kangmobei's eyes opened slightly. It seemed that he didn't expect Bai nianxi's action. Then, his lips were pried open by Bai nianxi, and a kiss of fragrant tongue slipped in.

Bai nianxi's kiss doesn't have any rules and regulations. Disturbing kangmobei's mouth is just a kind of mischief, but the extreme people's mind is rippling.

This is the first time that Bai nianxi kisses him, deeply and obsessively.

Conmobei's pupil suddenly shrank, one turned over and pressed down, occupied the initiative, and said in a low voice: "I've taught you so long, how can I still not do it at all? Well

Then, Kang Mo north then entangled up, resist the entanglement of death let Bai Nian Xi have no power to fight back, instantly fell in the downwind.

When his eyes are confused, Bai nianxi's hands caress Kang Mobei's neck, gently across, bringing a flash of electric current, but suddenly accidentally touched Kang Mobei's wound.

Kangmo North a dull voice, let Bai nianxi's eyes recover sober.

She wanted to push him away, indicating that his wound was bleeding again, but conmober untied his shirt and said, "it's OK."

"It's more important to sleep with you."
