

《Billionaire CEO Won't Leave》

Chapter 21

Kangmobei's steps are heavy and the momentum is like wind. Lu Yichen looks at kangmobei with curious eyes and finds that kangmobei also looks at him with inexplicable hostility.

This whole body of jealousy, should be Bai nianxi's fiance, that call it Ang?

Without saying more, Lu said goodbye to Bai nianxi and turned to leave.

"Why are you here?" Bai nianxi was surprised.

"I can't come here?" Kang Mo north is almost gnashing teeth of ask a way, the vision dead stares at white Nian Xi's face, seem to want to stare her a hole to come out.

Can be can be, just, Kang Mo north this body to seek revenge posture, is a few meanings?

Conmber raised his right hand, slender middle finger and index finger between a black gold card, "Bai nianxi, what do you mean?"

Looking at the hate expression on Kang Mobei's face, combined with his usual style, Bai nianxi guessed that he was angry because he didn't take his card with him?

"I just forgot."

Forget it? Hearing Bai nianxi's explanation, the fire in kangmobei's eyes seemed to disappear a little. His eyes swept the things Bai nianxi had just bought on the counter, "check out?"

Bai nianxi nodded.

"Who made it?" These things don't look cheap. I don't need his card. How did she buy them?

Bai nianxi pointed to the direction of Lu Yichen's departure.

The fire in his eyes jumped up again quickly. With a cold face, North yelled to the waiter in front of the counter: "throw all these things away for me!"

The waiter looked at the handsome but jealous Kangmobei in front of him. He was stunned. He said he would throw 300000 things?

"Just bought things, give me ten times each, brush this black card, after buying, to this address."

Looking at the black card and business card lost by Kang Mobei, the waiter was stunned on the spot like being struck by thunder. Kang, Kang Mobei? Kang group president, a City boss, Kang Mobei?!

This woman, it seems, is very cared about by Komorbei. The waiter's heart was cold. She even spoke rudely to the woman in Comobei and showed her disdain?!

Terrified to see to white read Xi, fortunately found that white read Xi did not continue to pay attention to her.

Just in the heart of the silent expression of the north of Como.

All of a sudden, the broadcast in the shopping mall rang, "please come to the information desk immediately after hearing the broadcast, please come to the parents of Kang Jinchuan children..."

Before he got close to the service desk, Bai nianxi heard a woman's scolding voice from a long distance, "how do people teach children now? They don't learn well from childhood, and they also learn how to beat people and steal things..."

"I didn't steal it!" A child stubbornly retorts, it's Lolo's voice.

Bai nianxi speeds up her pace and runs past. She pushes aside the crowd and finds a woman carrying Lolo's back collar and half lifting him.

Seeing that Luo Luo's face was red and his toes were on the ground, Bai nianxi felt distressed and cried to the woman, "put the child down!"

"Let it go?" The woman frowned the eyebrows that had just been tattooed, such as crayon Xiaoxin, "let him go, are you responsible for running away?"

"I'm in charge!" Bai nianxi took Luo Luo out of the woman's hands and said, "my child, of course I'm in charge!"

Kangmo North brow slightly pick, my family's children? He wanted to see how Bai nianxi was going to protect her children. He walked slowly and didn't speak.

Lolo's frown was wide. Mommy just said he was her child!

The woman kept swearing, very noisy, Bai nianxi finally understood the cause and effect from the staff.

It turned out that the woman's son and Lolo had a dispute. Lolo beat her son and stole her son's valuable watch. The woman was so angry that she held Lolo and insisted on calling parents to apologize.

Bai nianxi shook his head. "Luo Luo won't make a fuss about beating people. If there is a dispute, it's not Luo Luo's problem. As for stealing, it's even more impossible!"

Kang Mo North squints eyes, this woman, still quite protect short? Good. He likes it.

The little stars in Lolo's eyes twinkle. Mommy believes him without reservation!

Chubby little meat back unconsciously quite straight, hum, with the support of Mommy, I'm not afraid of kangluoluo!

"My son was beaten. Is it my son's fault?" The expression on the woman's face was contemptuous and angry. "Besides, I personally dug out my things from his pocket. Did you say I didn't steal them?"

Conmber's face turned black, and he searched his son's body?

"Well." Bai nianxi holds Luo Luo and doesn't give in. "No one knows the cause and effect of the matter. Is there monitoring here? Just call up the monitor and have a look?"

After listening to Bai nianxi's words, the staff stood by and looked at each other, glancing at the woman intentionally or unintentionally, as if they were waiting to look.

In fact, when Lolo was just caught, he directly asked to watch the surveillance to prove his innocence. At that time, everyone was shocked by the cool head and clear thinking of the child who was only a few years old. Someone went to check the surveillance and found that it wasn't Lolo who stole it, but

However, this woman is the wife of the head of Jing'an District in the center of a city. No one can cause trouble. If she doesn't need to be monitored, then she doesn't.

"No monitoring?" Bai nianxi seems very confused, such a large shopping mall will not

be monitored?

The woman held her hands in front of her chest, holding the identity of the district head's wife, and her speaking attitude was very rude. "If you have a good attitude, I can consider letting you go. If you have a bad attitude, I'm sorry. I'll wait to go to prison!"

Suddenly a sentence came out of the crowd, "what's a good attitude?"

Woman cold hum a, "apology, apology, sincere apology, as for is kneeling or lying down, oneself see."

Conmobei walked out of the crowd without any delay. What he said just now was his smile.

Bai nianxi knew that the expression of Kang Mobei meant danger.

"Kneeling or lying on your stomach..." Conmobei seems to think seriously for a while, "it should be a good choice."

When a woman looks at kangmobei, she feels a sense of inexplicable fear. The strong momentum of this man is always daunting.

After dialing a phone, the manager of the shopping mall appeared in the crowd within three minutes. Someone had just told him about the situation of the shopping mall. He also knew what was going on when he saw the sudden appearance of komobei.

What can I do now? I've angered such a big ancestor.

"It's said that there's no monitoring in Baili shopping mall?" The voice of conmber was cool and cold.

The general manager of the shopping mall was cool in his heart, so he quickly asked the people below to turn over the monitoring.

The woman looks puzzled. Doesn't the boss know her? How can you completely ignore her today when you are always respectful to her? Dare you disobey her?
