

《Billionaire CEO Won't Leave》

Chapter 34

Kangmobei went straight in from the group of blonde and blue eyed handsome men. When they walked in, all the people bowed 45 degrees at the same time to welcome the legendary ancestor.

This is always in a foreign country thousands of miles away to give orders to them, a word can affect their performance appraisal for a year.

Kang Mobei's eyes fell on one of the most handsome foreign men. It seems that in the future, the company will have to add a condition to recruit people, and those who are too good-looking can't be wanted.

A man in a silver gray suit is walking in the front right side of commo north. All the people in the company are wearing a uniform black suit. Only his color is different. Bai nianxi guesses that his position should be different.

After conmobei came in, the powerful people behind him also followed in.

"To the freezer." Commodore gave a simple order.

The first man nodded. Before entering the icehouse, someone took a thick black coat for Kang Mobei. He was about to give it to Bai nianxi, but he was stunned when he saw the black coat on Bai nianxi.

There is an s logo under the Kang's logo on this dress. The company has strict internal hierarchy. The s logo is owned by the top management, that is, only one person in komobi has it.

Why did the clothes of conmber appear on this woman?

At first, the woman didn't know much about her. She thought she was just a secretary beside the president. Then she thought of the embrace of Kang Mobei to Bai nianxi at the door of the company. It seems that this woman's identity is not simple, and her attitude towards Bai nianxi is also respectful.

After entering the icehouse, Bai nianxi finds out the magic of the black dress given by kangmobei. The temperature of the icehouse is as low as minus 20 degrees, but she

still doesn't feel cold in this dress.

Connobei took the lead in walking into the icehouse and checking inside. Other people were waiting outside. Only the man in a silver gray suit came in.

Kangmo North look very carefully, didn't notice behind Xiao Liu's face.

Bai nianxi's feet were frozen. He stamped his feet. Mr. Liu saw it and said, "I'll go out and bring you a pair of warm shoes."

Just after Mr. Liu went out, kangmobei suddenly noticed something wrong in the freezer, and turned around to find that Mr. Liu was no longer there.

"Where's Liu Han?"

Bai nianxi felt that the sound of kangmobei was colder than the temperature in the icehouse. "He went out and said," bring me my shoes. "

A touch of cold light flashed from his eyes, and he quickly walked to the door of the freezer. He took the certificate in his hand to unlock the door, but the door didn't respond. His face was overcast, and he scolded, "Damn it!"

"What's the matter?" Bai nianxi thinks something is wrong.

"We're locked up here."

"Shut it up here?"

Bai nianxi was puzzled, "can't they open the door for us?" After that, his face turned pale, "do you mean they closed it?"

Kangmobei looks at Bai nianxi, his expression is a little obscure, he actually made her into a dangerous situation!

"Why are they keeping us here?" Bai nianxi's voice trembled.

In fact, the main purpose of the visit was to visit the Swiss branch. It was only after Wang Yijing had been arguing for a long time that he said he would go skiing together that he finally decided the location in Switzerland.

Since last year, he has found that there is something wrong with the data report submitted by Switzerland. This branch is a biotechnology company, and its normal work is to do biotechnology research, develop products and provide support for the skin care industry of Kangshi.

What's stored in the freezer are the most advanced biological research materials and achievements. When he looked at them before, he found that something was wrong. Most of the materials were from last year. How can Kang's company not update the material library after spending so much money on research every year?

There's something fishy about it.

Now they are locked inside, and Liu Han is gone. It is clear who did it.

"You mean they'd rather kill people in order to cover up their business dealings?"

Kang Mobei sneered, "it's just two lives. If it's gone, it can be inferred that there's something wrong with the control system of the cold storage. But if I want to find out, it will involve billions of company accounts, and there will be more problems."

Bai nianxi shivered and began to feel cold.

Kangmobei's eyes narrowed slightly. How dare they lower the temperature again and again!

Step forward, a white read Xi embrace into the arms, "cold?"

Bai nianxi nodded.

Looking around, he found a corner and pulled Bai nianxi over. "There's a generator outside here. It should be relatively warm."

Bai nianxi stood in the corner, shrunk his neck into his collar, looked at the frosty face of Kangmo north, and said: "Kangmo north, can I tell you something?"

"Well."

"Can you stop chilling? It's cold enough here. You don't need more air conditioning. "

The first time I heard such a statement, conmobei had some helplessness. Didn't this woman know how serious the situation is now? He is not cold face, do you want to laugh out?No way, reaching out to untie his black cold suit, Bai nianxi stopped him with one hand, "what are you going to do?"

"Aren't you cold?" Kangmobei continued to take off his clothes and wrapped himself in Bai nianxi.

I didn't expect that kangmobei would make such a move. At this moment, the warm

current in his heart seems to be more than the warmth brought by his thick cold proof clothes.

But the temperature here is so low, if kangmobei doesn't wear clothes, it will really freeze to death!

Bai nianxi takes off the clothes that Kang Mobei has wrapped around him, and signals Kang Mobei to put them on. Kang Mobei frowns, "what do you do?"

Bai nianxi helps Kang Mobei to put on his clothes, and then holds him in his arms and says, "don't you just hold me?"

There are Colorful streamers at the bottom of conumber's eyes. Is she worried about her?

Ha ha a smile, will be cold suit on both sides of the clothes put apart, the white read night firmly wrapped in his arms, "how, reluctant to die?"

Bai nianxi's face begins to have a fever. What does kangmobei want? Say a word can not use so ambiguous voice? Listen to her, listen to her

All of a sudden, a sentence came from the top of my head, "hot."

..... What international joke is conmobei playing?

Seeing that Bai nianxi didn't answer, Kang Mobei lowered his head, leaned over Bai nianxi's ear and said in a low voice, "I said I was hot, can't you hear me? Hot and dry."

..... Bai nianxi is also burning. She must be cold and confused. She must be

"Why don't we exercise? Anyway, there is no one here to disturb

Bai nianxi really wants to slap in the past!

I can't see the expression of conmobei on my head. I say warm words in my mouth, but my eyes are very condensed.

As time goes by, the temperature here is too low. They can't hold on for long. They have to go out quickly. But because the signal here is too weak, the mobile phone can't make a call or send a message. What should we do?

Suddenly he looked down and saw the watch on Bai nianxi's hand. With a bright look in his eyes, Kang Mobei said, "take off the watch."
