

Billionaire CEO Won't Leave

Chapter 366

"What? Is Rushun in custody? "

Back at Mu's home, Mu Sili, facing his father's questioning, knows that he can't hide it, so he tells the general situation, and Mu Liancheng is shocked.

"Well, the public security organs will not release people for the time being." Musi left and bowed his head slightly.

"Why didn't you tell me earlier! What did Rushuang do? " Mu Liancheng asked anxiously.

Mu Sili was too ashamed to lift his head:

"Rushuang heard that Bai nianxi was in the hospital, so she passed by. She sprayed Bai nianxi with insecticide. Although Bai nianxi was ok, the insecticide was sprayed in front of Kang Taiye. Kang Taiye was not in good health. After inhaling insecticide It's getting worse. "

"This..." Mu Liancheng sat down on the sofa in shock.

Mu Sili knew that even if he told his father about it, his father would not be able to get forgiveness from the Kang family. Even if he did, he would reduce the penalty at most. Mu Rushuang could not escape from the criminal responsibility by bypassing the law.

"You go to a psychiatrist with a strong tongue." Mu Liancheng's face was dark, and he was merciless to Mu Sili.

"What?" Mousse didn't respond for a while.

"Go on, you!" Mu Liancheng said angrily, "as long as you can give Rushuang a mental test report, the lawyer will have a way."

"Oh..." Mousse gave a slow response, but still stood in the same place. He had heard this practice many times, and now he was told to do it, which made him feel a little guilty.

"Go! Don't be stunned

"Well."

Musi left and went out quickly.

The hospital, the doctor in the ward, is busy with actions that the layman can't understand.

"You think about it? Severe coma, in fact, is the opening of the human body's self-protection mechanism, the purpose is to protect the brain and nervous system, no longer subject to further infringement, rashly let the patient wake up, will greatly damage the patient's brain and nervous system. " Asked the doctor cautiously.

This question really shakes the delicate woman. Kang Xinyue is distressed. She doesn't want to make her father suffer. She immediately hesitates: "doctor, if you don't use artificial means to wake my father up, can you wait until the day he wakes up?"

The doctor's face was expressionless: "it's hard to say, it's possible to wake up, or it's just like this..."

"Aunt, don't hesitate. Let grandfather have a last look at the two great grandchildren, and then leave peacefully." Kangmo North raised his eyes to look at Luo Luo, and Bai nianxi's joy in his arms, with a gentle tone.

"Wu Wu Wu..." Kang Xinyue knows that this is the last moment of Kang Taiye. Even if he drags on, this moment will come sooner or later.

"Doctor, please." Kang Mo north with a polite, to the doctor euphemistic command way.

The doctor nodded, and several nurses took the needles and injected several injections into Mr. Kang. Everyone in the ward was waiting for the moment when Mr. Kang opened his eyes.

A few minutes later, Mr. Kang opened his eyes like a nightmare, and the fog of the respirator became thick.

"Mobei?" Kang Taiye bypasses the nurse in front of him and looks at Kang Mobei. His expression is full of surprise.

"Grandfather, I'm here." Kangmobei squeezed out a brilliant smile and raised his hand to hold his old hand.

Bai nianxi whispered two words to Luo Luo, and Luo Luo nodded obediently, then came to the hospital bed.

"Great grandfather, Lolo has come to see you."

"Ah, Lolo, ouch, it's nice to be so tall." Kangtaiye struggled to sit up. Several medical staff quickly put up the pillow and asked kangtaiye to sit on the head of the bed.

The spirit of Mr. Kang was still smiling, just like he was not long ago.

"Grandfather, you have a great granddaughter. Do you want to hold her?" Bai nianxi smiles and walks to Master Kang's sight with Lele in his arms.

"Great granddaughter? Really? " Kang Taiye excited smile, "give me a hug."

Bai nianxi smiles and puts Lele in the arms of Master Kang's left hand. Master Kang's eyes stare at the lovely little Lele, and his heart seems to float with bursts of joy.

"Nianxi, what's the child's name?" Master Kang looks at Bai nianxi with a kind face.

Bai nianxi pauses for a moment. Seeing the eyes of Kangmo Beitou, Bai nianxi replies: "the small name is Lele, the big name is kangjingyou, the person is upright, which means peace and stability."

"Good, good name, ha ha," Master Kang fondled Lele's little face, "it's so cute. Nianxi, Lele looks like you, ha ha."

Bai nianxi nodded faintly: "well, it's also like Mobei."

"Good, good, I have nothing to worry about in my life, ha ha." As he spoke, he seemed to be sleepy and yawned twice.

Kang Liqing was beside him. Seeing that Master Kang was mentally like a normal person, he couldn't believe what he was seeing. He asked the doctor in a low voice:

"is my father OK?"

"You can think of it as a reflection. When it comes back, people look just like they usually do." The doctor's voice was steady, but he poured cold water on Kang Li Qing."Li Qing, come here." Mr. Kang knew his own business. He knew that he was running out of time. He felt so comfortable that he had been away for a long time, which also meant that it was the last time.

"Well, Dad, I'm here." Kang Li Qing pressed back his sour nose and sat down beside

the bed with a smile.

Kang Taiye still kind smile: "from now on, the company will be handed over to you, you must take good care of it, you know? And Xinyue, if you find a home, don't hesitate, as long as the person is good to you. "

"Dad, I know. Kang's business will go on well." Kang Liqing nodded solemnly.

"Dad..." Kang Xinyue couldn't bear the pain in her heart, and she burst into tears.

"Don't cry. I'm so sleepy. Dad wants to go to bed," Mr. Kang yawned again. "Mo Bei, since he is the father of two children, he must take responsibility. Don't let Nian Xi suffer. Protect their mother, daughter and son, you know?"

"Well, grandfather, I know. I'll remember what you said." Kangmobei's heart is sour, and his smile can't hold up.

Seeing that Master Kang yawned, he finally touched Lele's little face. Bai nianxi stood up and was ready to take him back.

"Lolo, protect your sister. Good night." With a smile, he raised his hand and touched Lolo's head. Seeing Lolo nodding, he was ready to lie down with satisfaction.

The medical staff helped him back to bed. With a smile on his face, he slowly closed his eyes. With his eyes closed, he squeezed out a drop of turbid tears.

As soon as the ECG alarm sounded, the medical staff stopped the alarm. A tranquilizer was pushed into Master Kang's muscle, and everyone looked at the ECG. The peak wave of the ECG gradually returned to a straight line under the public's attention
