

Billionaire CEO Won't Leave

Chapter 408

Qianqiu group, overnight, Bai nianxi, whose mobile phone was blown up, had to return to Qianqiu group headquarters.

Her long idle desk is full of lawyer letters from all walks of life.

[notice of litigation on violation of land use regulations of Lumi Island project under construction.]

[notification of litigation involving unfair business competition.]

[inform of the violation of starting the crew without the approval of radio and television.]

.....

Litigation letters come from different angles and industries. On the whole, Qianqiu group is facing fierce commercial targeting. It's usually nothing, but it needs to pay a great price to deal with it.

"Mr. Bai, if these are published, the stock price will also be affected..." The Secretary has a worried face.

Bai nianxi said with a bitter smile: "what can we do? The lawyer's letters have all come, so we can only deal with them."

"Would you like to take the initiative to hold a press conference? In this way, the reporter will not write too ugly at that time, and the impact on the stock market will also be reduced. " The Secretary offered.

"Well, that's a good proposal, but bring some secretaries and sort out these lawyer's letters." Bai nianxi looked at the lawyer's letter, thinking and saying.

"Well?" The Secretary tilted his head slightly, puzzled.

"Some of these lawyer's letters were sent by Mu Shi," Bai nianxi picked out the two

lawyer's letters clearly written with the word "Mu Shi." it is estimated that they were all sent by Mu Shi, but most of them can hold a press conference under the guise of other names, and then release a message to open all lawyer's letters from Mu Shi. "

"Ah, I see." The Secretary suddenly understood and rushed out to carry out the order.

Bai nianxi knows that this is from the joint efforts of the Mu family and the Wei family. What he wants is that Qianqiu group is struggling to cope with a blow, and after that, if it fails to recover, then the Mu family will be the only one in a city.

It's also a good move to turn Mu family into Wei family's foothold in a city. According to their plan, after Mu family's smooth and more powerful rise, Shen Hedan's elder brother will also lose his last battlefield and foothold in a city. At that time, his elder brother will be unable to resist Wei family's aggressiveness.

Three days later, many invited reporters gathered at the press conference of Qianqiu group. The reporter's attention has been focused on Mu Shi, who is suddenly stronger. At the press conference of Qianqiu group, the reporter did not have any conjecture in advance.

"Hello, friends from the press. I'll take time out of my busy schedule to attend the press conference. First of all, it's hard." Bai nianxi kept smiling and said hello to a group of reporters.

Bai nianxi has not appeared for a long time, which is also worth hearing from reporters.

"Mr. Bai, what is the purpose of this press conference? Is it because of the sudden rise of Mu's reputation over Qianqiu group that a press conference was held suddenly? " The reporter who asked the question politely hit the nail on the head, instead of directly asking Qianqiu whether he was deliberately brushing his sense of existence.

Bai nianxi turns on the projector and shows a group of pictures on the white screen - the image data of various lawyer letters.

"The purpose of this press conference is to take the initiative to tell the major media organizations that Qianqiu group is facing a malicious commercial attack. Qianqiu group does not want to be photographed by reporters when dealing with lawsuits. Qianqiu group is frequently dealing with all kinds of lawsuits," Bai nianxi continued with a smile. "These lawyer letters come from Mu's heart Journalists should be able to see it. "

"Wow..." Reporters flashed their flashlights one after another to capture the influence on the white screen.

"Are all the lawyer's letters from moose?" The reporter asked in a hurry.

"Some of them come from Mu Shi, but I have reason to believe that Mu Shi, who needs to build up momentum, has all kinds of abilities to send lawyer letters in various names and in the name of other companies. Since Mu Shi obtained a huge amount of overseas funds, 50% of its equity has fallen into the hands of Mr. Shen Shimo. Therefore, Shen Shimo is now the largest shareholder of Mu Shi, and the chairman of Qianqiu group It's Mr. Shen Hedan, a journalist friend who knows them well. He should understand that this is a malicious commercial attack from Mr. Shen Shimo. " Bai nianxi said bluntly.

There is a murmur under the stage. When it comes to Shen Shimo, even the media group has to give some face.

"In a word, I hope that when Qianqiu group is dealing with all kinds of commercial attacks, the reporter friends will not speculate too much. Qianqiu group has been operating in accordance with the law, but it's hard to avoid malice and hide behind the scenes," Bai nianxi continued after saying her purpose of hosting the stage. "Next, my secretary will host the press conference, and the reporter friends can send any questions Ask

After that, Bai nianxi left the press conference.

Outside the meeting room, it seems that the head of the project department with an ugly face has been waiting for her for a long time.

"Mr. Bai, several projects of the project department have been rejected by the relevant departments, and even some projects have already been carried out in half. If they are directly interrupted, the losses will be heavy, and all the investment funds and energy will be wasted." The director of the project department is responsible for the project.

"Ask the legal department and the public relations department to help you solve the problem together. All projects must go on smoothly, and no one can be interrupted." Bai nianxi said decisively."By the way, there's something wrong with the procedures of the office building in Lumi Island, and the previous application for ICP certification hasn't come down. Do you want to send an elite of the legal department to follow me? If the procedures of Lumi island can't be approved completely... "

"I'll deal with this matter. You can follow up other things that can be dealt with. If you can deal with them immediately, I authorize you to directly execute them." Bai nianxi finished his reply and got into the car.

Kangmo North drove to Lumi Island, and the construction of Lumi island has reached a large scale.

"Tut Tut, really angry." Kangliqing saw the huge Lumi island for the first time, and he kept smacking his tongue.

"Dad, turn around for yourself. I'm going to deal with my business." Conmber said politely with a smile.

"Ah, you can go. I'll go back and have a look myself. I'll come back for dinner early in the evening, and nianxi also told her to go home early." After Kang Liqing's advice, he went into the island along the footbridge.

Shen Shimo uses Mu's as his focus in city A. without a pause, he immediately launches frequent attacks on Qianqiu group. If he doesn't show up again, all the pressure will fall on Bai nianxi. Naturally, kangmobei doesn't want Bai nianxi to suffer.

In the office building with the seal, all the staff of the game business were temporarily transferred to the movable board room. Although there was a problem with the procedures, the work continued.

"Mr. Kang, the duplicate bug has been optimized, and the test suit has been tested."

"The debugging of the game equipment has been completed, and the first batch of M + devices will leave the factory immediately. Where is the better warehouse setting? The office building is sealed up and can't go in. "

.....

As soon as he entered the door, he had already accumulated a lot of staff to solve the problem, so he asked questions to commobei like a machine gun.
