

Billionaire CEO Won't Leave

Chapter 413

Mu family has become the cannon fodder of the Wei family and the Kang family, which makes Mu Liancheng gradually have a sense of crisis, but Shen Shimo has been in charge of Mu family, how can he save it?

Lumi Island office buildings and apartments opened a few days, encountered such an accident, many prospective owners are temporarily this accident to persuade the intention to buy.

Shen Hedan didn't care about this, and he won half of the office buildings and apartments in Lumi island.

Conmobei also won 4 billion in real estate sales.

Shen Hedan authorized his secretary to manage the properties under his name. All the properties are available for rent and sale. The public opinion discussion and Shen Hedan's strong entry made the land price of Lumi Island soar rapidly and the popularity of Lumi island become more and more popular.

Kangmobei has never worried about the unsalable property in Lumi island. For Shen Hedan, it doesn't matter what business he does in China. After all, his main profit comes from investment.

Shen Shimo watched that no matter what method he used against kangmobei, it could be easily resolved by kangmobei. He couldn't calm down and couldn't think of any way to target kangmobei.

When Wei Xia thought of speaking to her son last time, her voice seemed a little heavy. Seeing that her son was in a bad mood, Wei Xia could only patiently say:

"a lot of things can be done well. We can't do it in one go, but need the accumulation of various factors. Just like the avalanche, it only happens under the accumulation of every piece of snow flower. Son, don't be so anxious, take your time."

After a look at his mother, Shen Shimo's depression dissipated a little, but it didn't ease much. He felt that his mother was still accusing him of doing something wrong. Shen

Shimo didn't say a word and continued to think about what else he could do to target kangmobei.

He's forgetting why he's targeting combo north.

"Son, don't be angry all the time. Be patient. What do you want? Shen Hedan didn't have any helpers in China, but now Well, if you want Kangmo BEIMENG to suffer huge losses, you have to do it bit by bit. " Wei Xia patiently opened the solution.

"For example?" Silent and cold, looking back at his mother.

Wei Xia thought for a moment: "for example For example, now, the land price of Lumi island has been rising. What do you think can be done to make the market value of Lumi Island collapse

"I don't know. Can you just say it?" Shen Shimo said impatiently.

"It makes people lose confidence in Lumi island. Ah, think for yourself. Just ask your staff what kind of house they won't buy." Wei Xia also can't say what, so, should and two, then no interest to continue to say, hurried upstairs back to the room.

He called ten men to stand in front of him and asked in silence:

"what kind of house will you not buy?"

The subordinates were stunned at the sound, and one of them said casually:

"if you can't afford it, you won't buy it."

"Ha ha."

“.....”

"Well, I won't buy a house with poor geomantic omen. We Chinese like a house facing south. If geomantic omen is bad, I won't buy it."

"Yes, I like the house facing south, too."

"It depends on the location. If the place where the house is built used to be a graveyard or something, I won't buy it. I think it's all human Tut... "

"I won't buy it if the public security is bad and the environment is bad."

.....

Among his subordinates, Shen Shimo suddenly understood what his mother meant by "snowflake" of avalanche. Suddenly, he had an idea in his heart.

Lumi island is becoming more and more popular.

As the first business launched by Lumi island is games, Lumi island has the nickname of game island for young people.

Many young people in the entrepreneurial period have a vision of Lumi Island, a young place. Although they can't afford to buy it, it's also very cost-effective to rent it. Each of the entrepreneurial partners can rent an office building for a little money, and then work together. With the example of Xinkang, the Office environment will be vigorous.

Many young people have this idea. Even if there was an accident here before, their enthusiasm to start a business here has not been extinguished.

Slowly, a month has passed, on the surface, everything is calm, and silent "snowflakes" have been added.

[it's said that Lumi island was a mass grave 50 years ago. Tut, it's very unlucky.]

[strange, do you live in Lumi Island apartment now? I've heard strange noises every night recently, which makes me move home.]

[is it true or false? What you said is terrible]

.....

In the forum specially set up for the major owners of Lumi Island, various discussions intensified.

More than that, every other night on Lumi Island, there are ghost fire motorcades roaring on the island, which is really annoying. Many owners have complained about it in the complaints section.

After the Minister of public relations informed commobei of all kinds of negative news on the forum, commobei chuckled and ordered the property management team to recruit a large number of security guards and open the access IC card system. After that, the noise at night was solved. Kangmobei ignored the growing rumors. Even if some owners had come to protest, even if a large number of them had withdrawn their rent and left Lumi Island temporarily, kangmobei didn't respond.

A few days later, the game team again launched the latest paid copy of the game, which is just a copy of the suspense puzzle solving experience that meets the appetite of horror fans.

Commobei led the public relations team and the promotion team to turn around the rumored public opinion, and made a wave of new copies of publicity. Once again, he stepped on the silence and reaped a sum of revenue. At the same time, he implanted relevant scientific publicity in the copies to completely break all kinds of absurd rumors.

Shen Shimo was furious when he learned that kangmobei was making money again by stepping on his own layout. He was so determined and ruthless that he couldn't make money. Even the patient layout couldn't make kangmobei suffer. Shen Shimo was so angry that he called musili. As a result, musili's mobile phone was turned off?

On the other hand, moussili went to America alone again.

I haven't seen my sister in the past two months, so it's natural for Mousi to be worried. It's also natural for me to go to the United States to meet mu Rushun.

Mu Rushuang personally went to the airport to meet Mu Sili. As soon as they met, they hugged each other excitedly.

"Brother, I'll take you to a delicious French restaurant. It's my treat." Mu Rushuang was very happy to see her brother and immediately said that she would be the host and invite him to dinner.

"Well, good." This meeting may be a rare and happy time for mousse in the past two months.

Mu family and Mu Liancheng have not seen Mu Sili for several days, and they don't know where he is. They don't answer the phone. Thinking that their son is unhappy now, Mu Liancheng doesn't want to disturb him.

Shen Shimo comes to the door again, but still can't find Mu Sili. Instead, he sees Mu Liancheng sitting alone in the living room.

It's good to stare at Mulian city silently and coldly.
