

# Billionaire CEO Won't Leave

## Chapter 426

"Musi Li, not very credible." He said bluntly.

Shen Hedan frowned: "I know, but now, his words are at least credible."

"Well, I'll make an appointment with him, and I'll try it out." During the conversation, conmobei has dialed the number of musili.

"Moussili, I'll go to America in a few days. If you want to visit the interior of the company, I'll approve it."

Shen Shimo sits on the sofa in his living room, facing Mu Sili, just like a servant.

Mousse nodded, and there was a vibration in his pocket.

Seeing the call from conmobei, mousse raised his eyes, looked at Shen Shimei, and then answered the phone with no expression.

"Musili, is that true?" Don't be outspoken. Moussili knows what he's talking about.

I didn't expect Shen Hedan to trust Kang Mobei so much. As soon as he told Shen Hedan about it, he turned around and told Kang Mobei.

"Believe it or not." Mousse was expressionless.

"Let's meet. I have some questions for you." Conmber said coldly.

"Good."

Hung up the phone, Shen Shimo showed meaningful eyes.

"Hooked?" Shen Shimo said with a smile.

Mousse nodded, "I'll see him."

"Well, go ahead." Shen Shimo is very relieved, because now, after mousse leaves the ear, it has implanted a tracker and a monitor.

Everyone who has contact with Musi can't escape the monitoring of silence.

Lumi island western restaurant, kangmobei alone, waiting for the arrival of musili.

Moussili catches the figure of conmobei and sits down in front of him.

"What did Shen Shimo ask you to do?" Conmber asked.

"No Moussili shook his head slowly.

"How could he tell you that?" Kangmobei catches the loophole and stares at Musi Li with fierce eyes.

Muse from evil spirit smile: "you guess."

Kangmobei noticed that Musi Li's pondering thought was of great importance, so it's OK to let him for a moment: "Shen Shimo can tell you such a confidential thing, it must be something you need to do for him, and I can't think of what it is."

"Hum, it's not the same as saying," moussili said with a smile, "you've made a deal with Shen Hedan?"

Conmber looked at him and felt as if he was saying, "what are we going to do together?"

"To destroy the Wei family, isn't Shen Hedan thinking like this all the time?"

"In order to revive your Mu family, are you willing to be an undercover? I don't like to believe you Komorbei says it straight.

"Well, I'll see you next week, and then I'll show you something."

After that, mousse stood up and left the restaurant with a shallow smile.

He sat alone at the dinner table, his face slightly complicated, because the seriousness of the situation was more than he had ever thought.

"What are you going to show him?"

After Musi left the restaurant, Shen Shimo listened to their conversation clearly through monitoring.

"If you want me to visit your health company, I'll go in and take two pictures for him to see, then I can't let commoby believe me." Moussili's words are light.

"You Come on, I'll tell you, don't think too much of it. " After that, Shen Shimei hung up coldly.

Mu Sili wants to visit the biotechnology company. His main purpose is to steal a reagent and take some photos of Wei's new business to Shen Hedan.

When Shen Hedan gets the photos, he will invest to revive his Mu family.

In addition, the reagent is available. No matter whether he is silent or not, the future of his father and sister has been guaranteed. He may also be able to live in a world without conumber.

Ha ha ha Musi from a giggle, because the brain in the mind.

Inside the company, everyone was wearing white protective clothing, and moussili was also wearing protective clothing and goggles. He followed Shen Shimo in a bloated manner.

The interior space is very large and open, but everyone seems to be very busy.

"Shoot it." Standing in the inner corridor, he walked at will.

Moussili organized the language a little bit: "OK, can I visit freely later?"

"What do you want to do?" He was silent and his voice was slightly cold, with obvious distrust of him.

"Just look around, can't you? You can monitor where I go anyway. " Moussili was smiling, with a light face.

"..... Whatever you want. " Shen Shimo is impatient with the demanding Musi Li.

Pretending to take a picture, moussili walked back and forth in the Institute by himself.

After a while, I came to a place where there were more documents than reagents.

Looking around quietly, Shen Shimo had not followed him for a long time. Looking at the desk full of documents, Musi walked in quietly.

All the documents are business briefs, short sentences and reagent requirements, which reveal some cruelty behind them. Found Mousse turned twice, and from a folder, he saw the words "Middle East", "cruise" and so on.

Two pages were snapped with a mobile phone, and the sound of approaching footsteps came from outside the door.

Musi slipped out in a hurry and looked around like nothing happened.

"Finished? It's time to go." He said in silence.

Sit down in a small room like a conference room, and Shen Shimo takes off his goggles.

"This is the medicine that you want to spread on the cruise ship when you carry out this business," said moussili, pointing to the sealed test tube on the conference table. The medicine is clear blue.

Musi reaches out to touch it, but is slapped back by Shen Shimo.

"Don't touch it. It's just for you to see." Shen Shimo waved to his entourage. The entourage carefully put the blue medicine into the silver box, and then carried it out.

"I see. When will you go?" Mousse jumps very fast. Because he is nervous, he tries to calm himself.

"It's still early. It's next month at the earliest. Just listen to me." Silence is not tight, not slow.

"Well, in that case, I'll go home first." Moussili forces himself to be calm and leave the company by himself.

My heart didn't slow down because I left the company. Mousse was very careful in every step, because there was a reagent hidden in his arms.

Just now when he "visited" the blue reagent, musili's heart beat faster, because when he stole the reagent, all kinds of color reagents were placed on the research and development platform, so he could only choose one. Fortunately, he chose blue.

Because the itinerary must be kept secret, moussili took a helicopter to and fro. After returning to China, moussili found a hidden place to hide the reagent. After thinking about how to use it, he came back to take it.

Wei Xia just ended her talks with a political tycoon with a smiling face. The moment she got into the car and was ready to leave, the smile on her face suddenly disappeared, and her whole face returned to expressionless.

"Have you confirmed the time and place?" Wei Xia asked the secretary.

The Secretary nodded: "the rest of the implementation plan, we have to plan for ourselves."
