

Billionaire CEO Won't Leave

Chapter 440

"Pa!"

After reading the letter sent by Shen Hedan's trustee, Shen Shimo learned that they had already returned to their respective homes, and his heart rate soared.

"No one! They're all bullshit Silence roars.

"Bang" loud, silent surprised for a while, raised his eyes, his door was kicked open.

Standing outside the door, it's actually komorbei?

The comer north? Or is it for provocation and banter?

As soon as Shen Shimo was about to rush past, Kang Mobei raised his hand with a smile and made a "stop" gesture: "use your fists whenever you want. You are Shen Shimo, ha ha."

"Have you ever thought about the consequences of my accident in your house?" Conmber continues to provoke.

He pulled off his tie in silence and glared at conmber angrily: "I don't care where you die, you should not stay!"

"Well, I'm not here to quarrel with you. I've come here to let you know," said commo beidun, piercing Shen Shimo with fierce eyes. "You Wei family are finished."

"You

"No! Just watch the show! It's your own good play. "

Leaving behind the irony, conmobair comes and goes like the wind.

"Don't think you're lucky! Life is great! It's going to last forever! " He roared at the

back of commobei.

"This, you should say to your Wei family, have been doing bad things, you should also worry about ghosts coming." Commo north cold road.

"You! You'll die in my hands sooner or later! "

"I will die, but I will not die in your hands. Besides, you are not dead. How can I walk ahead of you?"

The voice came from outside the door. Kangmo North walked out of Shen Hedan's villa and his back disappeared at the door frame.

"Ah!" Silent when the roots of the teeth are about to bite off.

"Well, the other documents I told you to sort out." Shen Hedan wiped his face with a towel and listened to the Secretary's report.

"Well, the Wei family met an American recently. After investigation, they found out that his code name was " Mr. U "and his real name could not be found out. But this man not only got close to the Wei family, but also had close contacts with the political circles, and This man is the Minister of a military industrial group. " Said the secretary.

"Minister? Little people... " Shen Hedan thought to himself that ministers can do such a big thing. Isn't it hard for him to follow suit?

"Mr. Shen, with all due respect, we can't afford to provoke the US military industrial group..."

"I'm not going to provoke. I just want to find out the situation. My goal, from the beginning to the end, is to get rid of Wei," Shen Hedan interrupted. "Has the information of this military industrial group been found out?"

"Yes, it's all here. You can have a look." The Secretary's face is a little ugly. It can be seen that the power of the military industrial group is a little intimidating.

Shen Hedan picked up the document and turned it slowly.

Before introducing the materials of the military industry group, the previous pages of the documents all introduced the situation of the Wei family. Turning to the third page, Shen Hedan saw that the most mysterious business of the Wei family, besides the superficial business, was the blue biotechnology.

On the surface, ceruleae focuses on drug research and development. In fact, it studies

more about viruses.

Further down, the business of the military industry group is somewhat shocking. On the surface, it is selling helicopters, yachts, etc. to the rich. In fact, it will also sell bombers and other high-tech Wu devices to war-torn areas?

"Ah..." Shen Hedan took a breath from his association when he connected the blue biotechnology and the military industry group. The military industry group earned money from the war. They needed a certain area to keep in chaos. Only in this way can they obtain huge wealth.

If we import biological viruses into peaceful areas, once the society is in turmoil, it will inevitably fall into chaos.

"No wonder the Wei family is so powerful. It turned out that they were backed by the military industry group." Shen He Dun's secret way.

"Well, before that, the Department of health of blue had been involved in vaccine scandals for many times, but they were able to get rid of such a serious matter. You can guess why."

"We really can't manage the affairs of the United States, and we are not qualified to intervene."

Kangmobei almost died because of this. How can Shen worry about how dangerous it is to offend them? But there are two sides to the matter. Since such a group is so dangerous, then The Wei family, who failed to carry out the business, is also in a dangerous state.

"The Wei family has offended the military industry group now. Let's find a way to shovel off the Wei family with the help of the group." Shen Hedan chuckled. He thought this idea was very feasible.

Lumi Island, kangmobei, who has not returned for many days, came to Lumi island to work as usual.

The only difference is that before he came alone, but at the moment, Bai nianxi has been holding him tightly, for fear that he would disappear again, just like before.

"You have to change your dressing and have lunch on time. Don't ask me to go home. I'll stay with you today."

Bai nianxi sees that Kang Mobei turns her head and seems to want to talk to herself. She takes the lead in opening her mouth and blocks back what she doesn't want to

hear."I'm not going to let you go home. I want to It's rare to be so kind. Why don't we go out and relax today? "

His eyes, about to overflow that full of love, Bai nianxi pursed his lips, despised smile: "you have to support your family, can't play."

"Just a drink." Said conmber with a smile.

"Yes, in the evening," Bai nianxi had no sense of security in his heart, so he became more wordy. "I tell you, if you dare to leave without saying goodbye, I'll..."

"Well, I promise you." Conmber has heard similar words too many times. She has no sense of security. He understands that there is only one last thing to do.

After a pause, conmobei said, "there is one more thing we have to do. After this, we will live a good life and grow old together."

Bai nianxi looks at Kang Mobei with complicated eyes: "promise me not to do dangerous things."

"Well, it's not dangerous, it's just a little difficult, but it has to be done." Kangmo North raised his hand to touch Bai nianxi's hairline. In front of him was the office area of Lumi island.

Shen He delayed booking a plane ticket to the United States. On the way, he thought about how to lobby and what risks there would be. Only by making early preparations can he have countermeasures.

Mu Rushuang has been unable to contact Mu Sili for a long time. She is very worried, but she is afraid that if she is in danger again, she will make her brother worry again. In desperation, she chooses to be honest and stay with her father.

Mu Liancheng has been very busy recently. The fund raised by Mu Sili makes Mu Liancheng energetic. Although he is very old, his family is magnificent, which is his obsession.

Musili's wound was seriously infected. For three days, he was infused with anti-inflammatory drugs in the hospital, and the wound behind his ear finally showed signs of recovery.
