

Billionaire CEO Won't Leave

Chapter 448

"Ze? Zee? Are you awake? "

Lin's mother, who had been worried all night, was looking at Lin Ze lying on the hospital bed. She had been looking at him like this for three days, because the doctor said that if he woke up, it would be painful. Lin's mother, who loved her son, decided to let him have a good sleep for the past three days.

Feel Lin Ze's hand, Lin Mu exclaimed, turbid eyes, showing a crystal clear light.

Lin Ze struggled to open his eyes, gauze wrapped the whole head, even the line of sight were blocked half.

"Ma Here you are... " Lin Ze is weak and hoarse.

"Ah, Ma is here..." Lin's mother choked and tried to swallow the sob back.

Bai nianxi is very busy. He orders his company to draw up a contract while handling the medical procedures.

She couldn't bear to ignore the three people who had been abandoned by Letian. Although she was in charge, it would make the public think that they were just taking responsibility. However, the situation was critical and the treatment was important. Bai nianxi couldn't manage so much as long as the truth was revealed. All the slander will disappear. Bai nianxi believes it.

"What about Wenguang? What about Zhuo Tian? Are they OK? " Lin Ze's hazy consciousness gradually became clear. After that, he suddenly remembered the scene of the fire explosion and asked the two companions about their situation.

Lin's mother looked at Lin Ze with soothing eyes and said, "they're all next door. They're just like you. They're fine for the time being. You're good. Lie down. Take good care of yourself. Don't move."

Bai nianxi followed the doctor to the office, and the doctor said:

"the situation of the three people is very bad. The burn has to go through the critical period to be sure that there is no life danger. Large area severe burn is not a few days

when you are conscious and feel OK. You need to observe the changes of the wound, so you must actively fight against infection, so as to avoid shock and polydipsia Organ failure is possible. It's very painful during this period. We need to use a lot of horse caffeine. Please ask your family to come and sign it. " The doctor said slowly.

"Well, good." Bai nianxi frowned, slowly got up and went to the ward.

Seeing Bai nianxi come in, Lin's mother stands up quickly, because now, Bai nianxi seems to be the only responsible person. She doesn't even know what identity Bai nianxi is, but thinks she is a staff member of Letian.

"Aunt Lin, the doctor asked you to sign it." Bai nianxi tried to keep a light smile and called softly.

"Ah, good." Lin's mother, with a shy and embarrassed face, obeyed and left the ward in a hurry.

Seeing Lin Ze wake up, Bai nianxi steps forward.

"How do you feel?" Bai nianxi was concerned.

"Pain, more and more pain..." Lin zeshen sang.

"....." Bai nianxi was very distressed. Three young boys, all of whom had deep third degree burns in more than 50% of the area, "they'll get better. Hold on."

"Who are you?" Lin Ze looks at Bai nianxi and asks in doubt.

"I am..." Bai nianxi thought, should tell him the truth, in case of gas to aggravate the disease how to do?

"You say, is there something bad happening? I can bear it, you say. I'm still curious. " Lin Ze urged patiently.

Bai nianxi hesitated again and finally decided to tell the whole story.

"I'm the representative of Qianqiu entertainment. Capital Letian has abandoned you. You can see the current public opinion. Of course, the public opinion is accusing my husband. I hope you can calm down and see what the truth is." Bai nianxi light said, see Lin mother has signed back, looking at Lin mother heavy expression, Bai nianxi consciously out of the ward.

Sitting on the seat in the corridor, Bai nianxi guesses what reaction Lin Ze will have.

"Miss Bai, I suggest that all three patients be transferred to one ward so that the nurses can work easily." The doctor came and asked in a low voice.

Bai nianxi nodded: "well, good."

"Go away!! Tell her to get out of here!! All assholes!! They're all bastards! "

Suddenly, a huge roar came from the ward. When Bai nianxi was startled, the door of the ward was suddenly opened and mother Lin ran out in a hurry.

"Doctor! My son fainted! Help him

After hearing the news, the doctor hurried into the ward, and then a group of doctors and nurses came to the ward in a hurry. After a long time, a team of doctors left.

"The patient can't be excited. Pay attention recently. Don't let him be excited, because he is in critical condition and is in danger of organ failure at any time. Remember!" The doctor warned earnestly.

"Well, thank you, doctor." Bai nianxi thanks politely.

Lin's mother came into the ward and calmed for a while. She left the ward with a crying face and sat beside Bai nianxi.

"My company doesn't care about them Also They also used their account number to release the termination message How can we live, Wuwu... "

Mother Lin, who had been crying for a day, finally broke down and cried.

Bai nianxi painfully raised his hand and stroked his mother's back to appease him: "don't worry. It's important for Lin Ze to heal his wounds. I'll bear his medical expenses. Don't worry." Lin's mother looked up at Bai nianxi. After hesitation, she finally said: "you Are you taking responsibility? "

Bai nianxi's Distressed expression solidified on his face. Immediately, the expression gradually dissipated: "no, I just volunteered to help Lin Ze because he shouldn't be treated like this. The public opinion on the Internet is that Lota is deliberately guiding, not the truth."

Lin's mother hung her head dubiously: "it's said that the cost of treatment is more than ten million You... " Are you really so kind? Mother Lin didn't say the last sentence.

Bai nianxi felt what was good, slandered and angry, which made her feel mixed. Shouldn't the weak be pitied?

This is a wrong idea. Bai nianxi tells himself in secret that he should not waver and be polluted by mud.

"It's like this," Bai nianxi said, trying to calm down and looking up with no expression. "Linze is an innocent victim, and now Lumi island is also a victim. I hope Linze can get better, even one year, two years, three years later. I hope he can get better. If he wants to retaliate against Letian and get justice back, he has to get better before he can carry it out. Linze is an excellent person, happy Tian Dan's contract has been terminated. Qianqiu entertainment is willing to sign a contract with Lin Ze as long as he is willing. "

Lin nodded blankly. As a single mother, she only understood the hardships of life, not the rules of the business world.

Doctors and nurses carefully arranged the three people to a large ward. After the movement, their analgesics seemed to be gradually losing efficacy.

"Ma It's so painful. Help me to press Ma Fei... " Lin Ze is suffering from severe pain all over his body. When the pain is unbearable, he begs his mother to help him relieve pain.

Lin's mother heard from the doctor that if she could bear it as much as possible, she would become addicted to it and would gradually become less useful.

"Son, be good, bear with it, just bear with it." Lin's mother couldn't bear to look at her son. Her heart was breaking.

"Auntie Lin, can you call my dad for me? He's old and can't be excited. I'm afraid he's worried..." Wen Guang asked Lin Mu Dao.
