In the small living room, Mu Liancheng's face was black and smelly. In front of him sat Wei Xia with sunglasses.

"Now that I know that I've fallen, I don't want to leave the United States and stay here. I'm looking for death." Even though Mu Liancheng was awed by Wei Xia's power, it was before. Now, everyone knows that Wei's family has fallen, and no one can rely on it any more.

Wei Xia sneered and took off her sunglasses: "ha ha, a thin camel is bigger than a horse. What if I fall down? I can rise again every minute!"

"Well, good luck." Mu Liancheng said coldly, and did not cause any follow-up topics.

"You, come back to China for development, I will join hands with you to let Mu's rise again, and I will become the power behind you." Wei Xia went straight to the theme, threatened and discussed with each other, intimidating Mu Liancheng.

Mu Liancheng sneered: "impossible."

As soon as the voice fell, Mu Liancheng's cold sweat was raging. Wei Xia raised her hand the second after he finished, aiming the black hole at his head.

"What are you to refuse me?" Wei Xia said angrily.

Mu Liancheng worried that she would really rob, racking her brains to think about countermeasures, while trying to deal with: "negotiations on negotiations, what is this?"

On the other side of the distance, mu Rushuang sits in a wheelchair and looks at this scene quietly and fearfully. She absolutely doesn't want her father to have any problems.

"Either promise or die. There are a lot of countries that have no extradition treaty with

the United States. If your daughter mu Rushun can take advantage of this loophole, I can." Wei Xia sneered and twitched.

Mu Liancheng's heart beat faster and looked up at the black hand grab: "I need to think about it. Can you put the grab down?"

Wei Xia heard the sound, sneer even more a layer, not only did not put down, but will grab instant loaded.

Mu Rushuang listened to the sound of loading. Her heart thumped. She didn't know where the courage came from. She quickly turned her wheelchair and went straight to Wei Xia!

If kangmobei knows about it, he will definitely try to find a way to go there. "You tell kangmobei about it, and then tell him that I have gone to the United States to deal with the follow-up."
