

Billionaire CEO Won't Leave

Chapter 484

The presence and absence of silence makes both Musi Li and Kangmobei a little worried about the safety of the people around them. Musi Li carefully arranges the security of his home and sanatorium. Qin ruoqing sees it in her eyes. Because she doesn't know what's going on, she can only stay honest so as not to worry him.

Shen Shimo is quick. The lawsuit between capital Lota entertainment and new Kang, as well as the news that Qianqiu group was led by Liang Chengren to protest, were keenly captured by Shen Shimo.

Liang Chengren has been kicked out of Qianqiu group. Therefore, it has little value to use. However, in terms of small moves, he is a suitable candidate.

But the big blow, may use the happy field entertainment to carry out.

He was silent. Although he did not have his mother, the legacy left by his mother in Swiss bank could be used against komorbei as long as he could take it out.

Because of the dispute with Lin Ze's three artists, Lota's stock price continues to plummet. This is a good opportunity. Looking at these news reports repeatedly, Shen Shimei's plan has come to an end.

He invested in Letian and became the consortium behind Letian. He was silent and would surely be able to revive Letian in China!

"This injury broke the previous sequelae. The blood vessels in your cerebellar region are at risk of rupture. The blood clots left in the cerebellar region before, because this blow oppressed the cerebellum, so it will continue to be dizzy. You must have surgery."

"There are certain risks in brain surgery. The success rate of your surgery is very high, about 70%, but the chance of leaving postoperative complications is also very high."

"The sequelae of brain surgery mainly focus on language, body movements, face and so on. As long as there is a little sequelae of surgery, it will involve a lot. You have to think clearly, although surgery must be done."

.....

Conmber held the medical bag tightly in his hand, which contained the negative film left by his examination.

If oneself hemiplegia how to do?

What if you can't speak fluently in the future?

.....

All kinds of conjectures hover in his mind. He is very afraid. He doesn't want to leave any sequelae, because he doesn't want to let Bai Nian take care of himself.

In that case, she will be very hard, it is clear that she should take good care of her.

Moussili drove slowly, knowing that he would be dizzy, so he drove smoothly.

"Talk to Bai nianxi and make it clear." Musi looked at the front with calm eyes.

Conmobei did not say a word and looked forward in silence.

Soon, the car stopped at the gate of Kang's house. Musi Li wanted to help him and help him into the door. Conmobei raised his hand and refused, indicating that he could walk without exaggeration.

Bai nianxi has a bad feeling in his heart. Since he came back from kangmobei, he has been very busy almost every day. However, he is not busy with the company's affairs. Instead, he stays with Musi every day.

"Nianxi," said conmo, pushing the door to the north and calling her name directly. He decided not to think more, but to say, "I have something to talk to you."

"Oh, good." See Kang Mo North straight up the stairs, white read Xi blankly looking at his back.

Musi Li pursed her lips and gave Bai nianxi a smile, which contained a bitter smile. Then she helped her close the door of Kang's house and left by herself.

Bedroom, quiet some depression, this is between them, long lost atmosphere.

"Nianxi, there is a blood clot near my cerebellum, which needs to be removed by surgery. In recent days, I have been doing examinations and seeing a doctor. I didn't tell you because I was afraid you were worried." Kangmobei tried not to make it too

heavy and kept a faint smile.

Bai nianxi's blank expression became more blank, but his heart was twisted fiercely.

"Blood, clots?" Bai nianxi stutters.

Kangmobei instead of nodding his head to avoid dizziness: "the doctor said that the success rate is very high, so there is no problem, just..."

"OK, I'll take care of you after the operation. It's OK. The doctor says it's OK. It must be OK." Bai nianxi is suddenly optimistic. He seems to be in a good mood than ever before, which makes him astonished.

For so many days, he kept a secret from himself, which means that he didn't want to worry about himself. Since he thinks so, he can't show the appearance of sadness and worry, that's right. Bai nianxi's heart hints to himself.

"Well Then... "

"I'll pack my clothes and help you make an appointment for the hospital. Dad, when he's old, don't tell him. Let's just say we're going out for a trip, OK?" Bai nianxi's eyes closely follow Kang Mobei's face. His eyes are full of urgency and hidden tension. He smiles and tries to make the atmosphere not oppressive.

"Well, that's a good idea," she said with a smile. "It's going to work hard for you. Later, when I get better, I will take care of you more carefully."

"What you said, don't break your promise." Bai nianxi is smiling. Unconsciously, her hand has already firmly grasped Kang Mobei's hand. Her palm is full of sweat. "Dad, the Spring Festival holiday is coming to an end. We haven't been traveling for a long time. We want to go out with Mobei. After the tour, the crew is about to turn on and shoot on a Korean island. It may take us three months to come back. Please take care of lele and Lolo."

Dinner, Bai nianxi bright smile, appetite is very good, like eating dinner, chat like to say to you.

Luo Luo hears the sound, Du Qi mouth: "Mommy, I also want to..."

"You're going to start school soon, no way." Bai nianxi interrupts and refuses.

"Hum." Lolo snorted unconvinced.

Kangmobei was amused by Lolo: "well behaved, filming is not playing. When you

have a holiday..."

"It's not that I haven't been to the production team, that time Juji island..." Lolo said half of it and quickly stopped the topic, because he remembered that the trip to Juji island was a nightmare for Mommy

Kang Mobei also naturally remembered what Mu Sili had done, but now, they are friends, and the past has been put down, so they have no waves in their hearts.

"Well, when you have a holiday, daddy will take you wherever you want to go, and study hard when school starts," said conmobei, smiling and touching Lolo's head. "My sister is learning to speak at a critical stage. Whether my sister can become a little genius depends on you, Lolo."

As if to feel the important burden fell on him, Lolo really serious expression: "well, summer vacation I also want to go to Korea to play!"

"Well, daddy promised."

Kang Liqing was eating, and there was no special emotion on his face: "where are you going to travel?"

"East Asia."

"Europe."

Two people with one voice, said different answers, the next second, Kang Li Qing raised eyes, cold not Ding staring at two people.

Bai nianxi and Kang Mobei looked at each other and said in a hurry, "go to Europe first and then East Asia. Isn't it agreed?"

"Ah, yes, yes..."
