

《Billionaire CEO Won't Leave》

Chapter 90

Kangmobei let out a sigh, and his mouth was full of smoke.

his family education told him that if he was incompetent enough to attack others, how could he be named Kang?

Over the years, if he had been suppressed, he would never have come to the present situation.

Behind each superior, there are many bones.

"Although President Qi is ready, he will take back the gift he sent." Commo north desert expressionless, shake off the ash between the fingers, his st project not only will not be blocked, will continue in full swing.

Qi Zhiwei light smile, "that's good, worthy of my son Qi Zhiwei."

"Mr. Qi is very proud?" Conmobei's eyes were cold. "Unfortunately, I'm ashamed of it."

Qi Zhiwei did not answer, but suddenly said: "Mobei, where do you guess I am now?"

Bad hunch.

"I was at Kang's, and I saw my lovely little grandson."

Mercilessly put out the cigarette in his hand, conmobei picked up one side of the suit jacket and went out with it.

Bai nianxi just came in from the door with a cup of coffee, and almost ran into kangmobei. "Where are you going, Mr. Kang?"

Kangmobei's eyes flickered past Bai nianxi, with an indescribable meaning in his eyes. Remembering what Qi Zhiwei said just now, she took mu Rushuang to visit the Kang family. Luo Luo is also there. It is estimated that the situation of the Kang family will not be very good.

"Wait for me."

After that, he went out, walked to the door and came back, put Bai nianxi in his arms, and put his thin and cool lips on Bai nianxi's ear, "don't run around, eh?"

There was a faint smell of tobacco.

Bai nianxi thinks that she must be crazy. When did she start to think that secondhand smoke smells so good?

After commo North left, Bai nianxi began to concentrate on the design of new product cover in the office.

Kangmobei drove the car directly to the old kangzhai, parked the car at the door and rushed in directly.

Qi Zhiwei came to Kang's home and brought mu Rushun. Luo Luo was picked up by someone from the teacher. Now he was sitting on the sofa with a face of vigilance and resistance.

"Mobei, are you back?" Qi Zhiwei sees kangmobei coming in and takes the lead in smiling and greeting.

Kang Taiye's face is not so bad when he sits on the sofa. Over the years, Kang Youqin and Qi Zhiwei have maintained a good relationship.

Qi Zhiwei didn't want to hear about the Kang family. Kang Youqin didn't even talk about Luo Luo with Qi Zhiwei. Instead, in front of Lord Kang, Kang Youqin would say a few good words about Qi Zhiwei from time to time.

Kang Taiye has always been partial to Kang Youqin. Basically, he believes what Kang Youqin says. Therefore, his impression of Qi Zhiwei is not so bad.

It is Kang Li Qing to sit on one side, the facial expression is far inferior to usual temperature light, full face ice cold.

Liu Xia sat next to Kang Liqing and said nothing. It seemed that his sense of existence was not high.

Seeing that kangmobei came, Luo Luo broke away from the bondage of the old housekeeper and threw himself into the arms of kangmobei.

"Who asked you to get Lolo?" Conmber bent down to pick up Lolo by his leg and asked with a overcast face.

"Luo Luo goes home to see his grandfather and great grandfather. Mo Bei, why are you angry?" Qi Zhi said with a smile.

Kangmobei's voice is cold, and the meaning of refusal is very obvious. "I don't allow others to interfere in my son's affairs."

It seems that this kind of attitude towards kangmobei has become commonplace, and the Kang family did not speak.

Only Kang Youqin complained: "Mobei, how can you talk to your mother?"

Conmber holding Lolo, did not intend to approach the crowd, "I do not have a mother." With that, he turned to go.

"Mobei, if you go now, your father and I will have to make a decision for you about your marriage with Rushun."

Conmber looked back, his eyes burst out with a cold light.

Qi Zhiwei's face was leisurely, as if he didn't realize the weight of what he had just said. Qi Zhiwei finished, Mu Rushan's face turned red.

After going back last time, Qi Zhiwei and mu Rushuang discussed their marriage to Kang Mobei. Unexpectedly, even when they learned that Mo had children, mu Rushuang said that she didn't mind.

When Qi Zhiwei returned to the UK, she never remarried or had another child. Now she can take care of M group. But when she gets old, where will M group go?

Only when she was handed over to conmber, she was the most relieved.

As the future leader's wife of M group, the candidates should be selected by her. In her heart, no matter from the family appearance or character, mu Rushun is the best choice.

After she came to Kang's home, she also expressed her ideas directly.

Kang Taiye is very satisfied with mu Rushuang's performance, and Kang Youqin likes it even more.

Kang Liqing has not spoken yet.

"I don't agree!" Lolo called out first. In the past, kangmobei was not there, so he kept from expressing his opinions. Now that kangmobei is here, he naturally wants to

express his dissatisfaction vigorously.

"I don't agree! I don't want my aunt to be my mommy! I have Mommy! Daddy likes Mommy, too! No one can leave our family! "

Obviously, Luo Luo, who had not spoken before, was surprised by what he said.

"I just want to be with my parents! I don't want anyone else! "

Kang Taiye's face was a little ugly. Luo Luo's temper was well known by his family. He almost inherited Kang Mobei's 100% paranoia. If he hated something, no one could persuade him.

Qi Zhiwei picked an eyebrow, seemed to be a little surprised, "Luo Luo, do you still have a mother?"

She has just learned about Lolo from the Kang family. It's said that it was a child picked up by kangmobei from nowhere four years ago. She had a paternity test. It's really a child of kangmobei.

The mother of the child, no one knows who it is, which is what the Kang family has always wanted to know.

When Lolo says something like this, it shows that he knows who his mother is?

Although Qi Zhiwei's words are somewhat unreasonable and inappropriate, no one interrupts because they also want to know.

This sentence is like a thorn into Lolo's small heart. Lolo is holding her mouth, tenaciously holding back tears, but little fat hand has been squeezed into a meat ball.

"Of course." Conmber frowned, his face was extremely cold. "Otherwise, do you think he is the same as me?"

Kang Mo North Qi Zhiwei's words mercilessly top back, and satirized.

I don't know if I can't hear the meaning of kangmobei dialect, or I don't care about kangmobei's sarcasm. Qi Zhiwei's face hasn't changed at all, and his face is still a decent and elegant smile.

Kang Youqin couldn't look down and interrupted: "Mo Bei, don't you..."

"Stop it." Kang Liqing spoke deeply.

Kangmobei is his son. Over the years, how can he not know his resentment and hatred towards Qi Zhiwei?

"I'm Mo Bei's father. Do you count what I say?" Kang Liqing raised his eyes and glanced at Kang Mobei.

Conmobeir is holding Lolo without expression, and his face is a group of rebellious coldness, as if the words they want to say and the decisions they want to make will not have half of the weight for him.

With a sigh, Kang Liqing said, "I respect Mo Bei's own opinion. He should listen to his own ideas in his life."

He has already realized that the girl in conmber's heart that he likes now is likely to be the psychological counselor of Lolo.

Although he doesn't like that girl very much, he knows better than anyone that compulsion has no good result.
