

## *All-Mighty Girl Gets Spoiled by A Bigshot*

### **Chapter 31: Project Proposal**

Hong Yuan was so angry that his whole body was trembling. He stared at Du Kaifeng's departing figure with his scarlet eyes.

He felt even more helpless in his heart.

How could Du Kaifeng let him turn the tables? Now that he was in debt and owed millions, turning the tables was easier said than done?

Hong Yuan squatted on the ground and buried his face deep into his palms. His hands were wet with tears.

"Hello, Mr. Hong."

A piece of tissue was reflected in his eyes. Hong Yuan was stunned. He raised his head and saw an astonishingly beautiful girl standing in front of him.

Hong Yuan took it and casually wiped away his tears.

He stood up. "Is there something you need me for?"

"I can help you with your company. Let's talk."

It was a very cold statement, but the girl had an inexplicable ability to convince others.

Hong Yuan nodded. "Okay."

Hong Yuan knew that he couldn't pin his hopes on a young girl, but he had no other choice. He could only desperately grab hold of that life-saving straw.

In the coffee shop's cubicle.

Qin Sheng pushed the document in her hand in front of Hong Yuan.

"My name is Qin Sheng. This is the project proposal I prepared. Take a look."

"This is written by you?" Hong Yuan asked.

Qin Sheng picked up the coffee, took a sip, and nodded.

Hong Yuan's eyes dimmed.

He didn't take this proposal seriously at first. A seventeen or eighteen-year-old girl studying in the third year of high school, it was really unbelievable that she could write it

When he saw the words 'all-intelligent games,' Hong Yuan couldn't help but laugh in his heart. It seemed that she was delusional.

1

There were many intelligent games on the market now, but there weren't any that could truly achieve intelligence, let alone all-intelligent games.

Out of politeness, Hong Yuan continued to read seriously.

After flipping through one page, his gaze paused. He retracted his disdainful attitude and flipped through it seriously.

Towards the end, his hands couldn't stop trembling. He was excited.

After flipping through the last page, Hong Yuan was so shocked that he couldn't speak.

He looked at Qin Sheng with eyes full of shock.

Qin Sheng smiled. "I have the core technology to develop all-intelligent games. I wonder if Mr. Hong is willing to join my company?"

Hong Yuan opened his mouth. "This proposal was made by you alone. Did you develop the technology yourself?"

Qin Sheng nodded.

Hong Yuan: "..."

"May I ask, Miss Qin, how old are you?"

"I'm almost eighteen."

Hong Yuan: "..."

Are all the young people nowadays so amazing? One had to know that this detailed proposal and the core technology indicated in it were completely unachievable with current technology.

There were quite a number of all-intelligent games on the market now, but unfortunately, they were only covered in a layer of skin. The core was after all computer-operated.

Hong Yuan closed the proposal and asked, "Miss Qin, aren't you afraid that I'll leak this technology?"

Qin Sheng smiled faintly. "If Mr. Hong was such a person, I wouldn't have come to you."

Qin Sheng would definitely not find someone with a low character to become an important member of her company. That way, the more talented they were, the greater the damage to the company.

Hong Yuan admired Qin Sheng even more.

Qin Sheng's IQ and EQ were far above ordinary people. Since she found him, she must have investigated him. He was thinking too much.

2

"I wonder what Miss Qin wants me to do?"

"I'm preparing to open a gaming company. I need you to help me manage the company and be the manager of the company." Qin Sheng told him her plan.

In her previous life, the Qin family had developed into various fields, but there was no such thing as a gaming company.

Gaming was a field that earned a lot of money.

She wanted to develop quickly and possess the smart technology that she had researched in her previous life. Making a best-selling game was a very good choice.

Hong Yuan was about to agree when he thought of something.. His eyes quickly dimmed again.

## **Chapter 32: Cooperation**

"Miss Qin, Du Kaifeng won't let me off. If he finds out that I work in your company, he'll make things difficult for you." Hong Yuan clenched his fists and said with difficulty, "You'd better find someone else."

This was a chance to turn the tables. Hong Yuan was worried that Qin Sheng would be affected, so he pushed it away.

He couldn't implicate others.

Qin Sheng didn't mind. "Don't tell me Du Kaifeng has the ability to cover the sky with one hand? Don't worry, I have a way to deal with it."

Hong Yuan's eyes were red. This was the first time since he was in a bad situation that they didn't look down on him.

He excitedly promised, "Miss Qin, I will definitely manage the company well and make it bigger and stronger."

"Okay." Qin Sheng's eyes were filled with a smile. "I'm not 18 yet. I'll register the company under your name temporarily. You have quite a lot of connections. I'll leave the registration of the company and the recruitment of ordinary employees to you. I'll recruit a few technicians later. I'll transfer the funds to your card in a week's time."

She pushed a contract in front of Hong Yuan.

Hong Yuan glanced at it briefly and signed his name.

Qin Sheng stood up and extended her hand to Hong Yuan. "CEO Hong, it's a pleasure to work with you."

"Boss, it's a pleasure to work with you."

Qin Sheng left, and Hong Yuan sat on the chair. He still couldn't believe what had just happened.

Once in hell, once in heaven.

Fortunately, he had met someone important.

Otherwise, he really didn't know what he should do.

Hong Yuan's hand was tightly clutching the document in his hand. He suppressed the surging tears and smiled.

Even if she was a young girl who was not even 18, and the chances of failure were very high, no matter what the outcome was, he had to take the gamble this time.

—

For the next period of time, Qin Sheng was helping people to strengthen and set up protective systems. Because the customers had a good opinion of her, they recommended her to other people.

In just three days, there were more than ten people asking for advice. A total of seven orders were accepted.

Qin Sheng was very busy every day. Other than attending classes, she was playing on the computer.

Qin Hai already had a sense of depression toward Qin Sheng. Seeing how Qin Sheng was not doing her job every day, he was even more furious.

However, every time he lectured Qin Sheng, Qin Sheng always looked indifferent.

After a long time, Qin Hai became bored and simply ignored her.

For her own good, Qin Sheng did not appreciate his kindness. Any human would be impatient.

Qin Hai, Lin Shuya, and Qin Churou were laughing and laughing at home every day. However, Qin Sheng was like an invisible person, even to the servants. On the surface, they were respectful to Qin Sheng, but secretly, they were mocking her.

As expected, she came from the countryside and could not be the Young Miss of the Qin family.

Miss Churou was more like a person from a high-class family.

Qin Sheng naturally didn't care about the eyes of these unimportant people. She was very busy, busy making money.

Under such a busy situation every day, in just a few days, the money she earned from strengthening and maintaining the defense system, together with the money she earned from Black Emperor, had already reached more than 10 million.

On the day that the demon stock went public, Qin Sheng went to the stock exchange and quietly waited for the opportunity to buy that stock.

The shareholders were extremely regretful. They had spent a lot of effort to get the stock and wanted to make a big profit, but the listed company had a fatal accident.

In order to reduce the losses, they had been waiting at the stock exchange early.

However, they did not expect the stock to start falling like a precipice.. No one wanted to buy it, so they could only sit and watch the stock fall step by step.
