

## **I signed In For A Billion Dollar Mansion From The Very Beginning Chapter 420-424**

### **Chapter 420: Is This Gao Yong's Trump Card?**

Xia Wanqiu's beautiful eyes also looked at Lin Fan. She stood on the stage as well. "The Xia family will fully support Lin Fan."

Su Muqing was Lin Fan's assistant. At the same time, Su Muqing was also the second daughter of the Su family. Su Muqing represented one of the four major families in Shanghai, the Su family.

At this moment, Su Qiuyi arrived.

She was wearing a sexy black suit and stood on the stage. She had the aura of a true leader. "The Su family of Shanghai is also fully supporting Lin Fan. Let's enter the real estate industry together!"

Then, even Yun Qian came.

"Brother Lin, how can you not call me when you're busy with this? Yunhang Technologies and the Yun family will fully support Boss Lin!" Yun Qian laughed dryly.

Yan Xue looked at Lin Fan and smiled. "Boss Lin, you're also a major shareholder of our company. How can you not have me for such matters? Our New Era Lisheng Hotel will also support Boss Lin."

Then, an even more beautiful woman appeared on the stage.

When everyone saw this woman, they could not help but exclaim.

The eldest daughter of the Huo family, Huo Xinyu, was known as a business genius.

Her footsteps were so fast that the surrounding assistants could not keep up.

She stood on the stage with only a few short words.

"The Huo family supports Boss Lin."

....

When Huo Xinyu, Su Qiuyi, Yun Qian, and Yan Xue appeared, many business tycoons fainted.

These four people were all business giants in various fields.

The genius daughter of the Huo family, Huo Xinyu, publicly supported Lin Fan.

The eldest daughter of the Su family, Su Qiuyi, and the second daughter of the Su family, Su Muqing, were also by Lin Fan's side.

Needless to say, Yun Qian was from the Yun family. The Yun family had a total of eight sons, and the Yun family's power was quite terrifying. Since Yun Qian was here, this presumably represented the Yun family's attitude.

Furthermore, the company under Yun Qian could not be underestimated.

Yan Xue was also a big boss in Shanghai. The hotels under her had already opened branches all over Shanghai. The next step was to open them to the entire country.

So many outstanding people were here to support Lin Fan.

One had to know that the Xia family in Jiang City was not weak.

The appearance of so many big shots caused an uproar.

"D\*mn... is this Boss Lin's network? We haven't even publicly chosen sides, but so many big shots have already chosen sides."

"The Xia family in Jiang City, the Huo family in Shanghai, and the Su family in Shanghai. Almost the two big families of the four big families in Shanghai have publicly supported Boss Lin. The Yan family and the Yun family are also two super families..."

“Lin Fan has Alibaba behind him. At the same time, Lin Fan is the chairman of Estee Lauder and a major shareholder in many companies. Boss Lin is simply a true success in the business world. I also want to support Boss Lin!”

“Boss Lin, our company also supports you. Let’s work together and develop it together!”

“That’s right. If we follow Boss Lin, we’ll always have meat to eat. We all believe in Boss Lin’s ability!”

“Boss Lin is so young and already so charming. Who can stand this? I’ll do it!”

“Boss Lin is awesome! I’ll follow you too, but what do you plan to do exactly?”

Soon, more than 30 companies publicly supported Lin Fan.

This business event was equivalent to roping in people.

Lin Fan smiled and said, “Everyone, please believe in my ability. Real estate will definitely be a hot topic in the future. If you enter the real estate industry, you will definitely be able to earn a lot of money. Anyone who works for me will be treated well.”

“But the real estate industry takes a long time to take effect. We have to wait slowly. In the future, not only will we be in the real estate industry, but we will also be in the hotel industry, office buildings, finance, shops, and so on. We will talk about the details later.”

Seeing so many people supporting him, Lin Fan felt a little warm in his heart.

With so many people around and his ability, it was not difficult to defeat Gao Yong.

In reality, Lin Fan could defeat Gao Yong just by relying on Alibaba.

Coming to this business event meant that Lin Fan was really going to enter the real estate industry to earn a lot of money in the future.

Roping in more people would only be beneficial to Lin Fan.

Hearing Lin Fan say that, everyone felt more confident.

After Lin Fan expressed his stance, Gao Yong stood on stage.

Gao Yong smiled and said, "Everyone, I'm Gao Yong. I've been in the real estate industry for four years and will be the heir of the Gao family in the future. In the real estate industry, I can say that no one knows it better than me, and no one can do it better than me!"

"I've already created more than 400 billion in wealth. Following me is much better than following a newbie without ability. There's no need to mention the treatment I receive. In terms of business, not many people can surpass me, Gao Yong. Even the genius daughter, Huo Xinyu, is the same. Her competition with me in Jiang City ended in my victory."

"I don't dare to exaggerate in other industries. In the real estate industry, the person who can defeat me hasn't been born yet."

"Boss Lin, I like your innovative spirit very much. You dare to rush into a new industry, but don't blame me for not reminding you. Without experience, you will lose very badly. It's not too late to turn back now. When Boss Lin loses to our Gao Corporation, there will be no turning back."

"By the way, your fiancée, Xia Wanqiu, and the Xia family. I remember that the Xia family doesn't have more than 10% of the real estate industry in Jiang City, right? 90% belongs to our Gao family."

"Welcome, ambitious people. Join the Gao Corporation together and work with the Gao Corporation. That is the true future of the real estate industry! Boss Lin, I suggest that you go back and work hard as an entertainment company. There are some industries that you can't touch unless you're a professional." Gao Yong looked at Lin Fan with disdain.

So what if Alibaba's CEO Ma supported Lin Fan? When had the Gao family ever been afraid of anyone?

The Gao Corporation's market value was more than 400 billion.

One had to know that houses would increase in value!

The property prices would increase every year!

If the property price doubled, even if the Gao Corporation did not do anything, its market value would increase from more than 400 billion to more than 800 billion. This was the charm of the real estate industry.

After Gao Yong finished speaking, many companies publicly supported him.

However, most of the companies had not moved.

After all, Lin Fan had Boss Ma behind him!

Seeing that many companies had no intention of moving, Gao Yong smiled.

Wasn't it just a competition of background?

Lin Fan had Boss Ma backing him.

There was someone behind him too!

At this moment, CEO Wang of Wanda walked out.

When he walked out, CEO Ma's eyelids twitched.

The top super big shots in China, CEO Ma, CEO Wang, CEO Liu, and so on, all the leaders of various industries knew each other.

Who would have thought that the big boss behind Gao Yong was actually CEO Wang!

CEO Wang was once the richest man in Asia. He even said that 100 million was just a small goal.

His appearance meant that the strength behind Gao Yong and Lin Fan had reached an equilibrium!

Was this... Gao Yong's trump card?

## **Chapter 421: Su Xiaoyu Appears, The Gao Family Is Doomed!**

After CEO Wang came out, he only said a few simple words. "Everyone, don't worry and follow Gao Yongqian. Wanda is also planning to enter the real estate industry to try."

Just these few simple words were enough to cause an uproar.

CEO Wang of Wanda was supporting Gao Yong!

CEO Wang and CEO Ma could be said to be of the same level.

If CEO Wang and CEO Ma fought, it would definitely be an unprecedented battle in China!

Both parties might even suffer huge economic losses.

After seeing CEO Wang come out, more than 20 companies publicly supported Gao Yong.

"CEO Gao is a veteran in the real estate industry. It's not wrong to follow CEO Gao."

"That's right, CEO Gao. If you have anything to say in the future, feel free to tell me. I support you."

"It's a win-win situation. I feel that it's better to follow CEO Gao than CEO Lin. CEO Lin doesn't have any experience and Alibaba doesn't do real estate. On the other hand, Wanda has a lot of experience. Even if they really want to fight, they can't compare."

Gao Yong opened his hands and smiled. "Hahaha, with CEO Wang supporting me, who can fight with my Gao family in real estate? Lin Fan, do you think you can do that?"

Gao Yong looked at Lin Fan and said.

For such confidential discussions, the media could not enter so Gao Yong could say this boldly.

From the moment Lin Fan publicly announced that he wanted to fight him, Gao Yong could no longer suppress the fighting spirit in his heart.

Did Gao Yong think he could fight him?

Who would have thought that Gao Yong would openly fall out with Lin Fan?

Actually, this kind of thing was very normal in business.

Only those with benefits could get together. When there were no benefits, others would not even look at you.

Lin Fan raised his eyes and looked at Gao Yong. He smiled and said, "How would I know if I don't try?"

At this moment, a girl walked out.

Bang, bang, bang.

The surroundings fell silent.

Everyone looked at the girl.

The girl was wearing a short skirt, revealing her long legs. She walked in the crowd, and the breeze gently brushed her long black hair.

There was no fluctuation in her beautiful eyes. Just walking there made her seem unfathomable.

Her looks were really too good. She was not as cute or lively as before.

With a ponytail and a simple document in her hand, she stood in the middle of the stage.

No one dared to underestimate her.

Even CEO Ma and CEO Wang hurriedly stood up.

CEO Ma and CEO Wang did not dare to sit in front of this girl.

To them, girls were juniors.

But in business, the girl was their senior.

The daughter of the richest man in the world, Su Xiaoyu.

Her attainments in business made countless people afraid.

Even Huo Xinyu, who was publicly acknowledged as a genius, could only admit defeat in front of Su Xiaoyu.

Su Xiaoyu had already retired from the business world for a long time, but she still easily caused the Huo family to collapse and Huo Xinyu to suffer a crushing defeat.

No one spoke again.

Even Su Xiaoyu was here. Her stance was crucial.

Everyone was looking forward to what Su Xiaoyu would say. She would say something long-winded like CEO Ma, simple like CEO Wang, or arrogant like Gao Yong.

Even CEO Ma and CEO Wang were looking forward to it.

Su Xiaoyu's words were like the gospel to business big shots like them.

Who would dare to disobey?

Her attitude could determine many things here.

When Su Xiaoyu appeared, she was the center of attention.

It was not only because of her ability but also because of her looks.

To a certain extent, her ability was even more terrifying than her father's.

Initially, everyone thought that Su Xiaoyu would say something.

But no one expected that she would not say anything.

She walked to the stage and looked around, just looking for someone.

She was looking for Lin Fan.

When she saw Lin Fan, Su Xiaoyu walked to his side happily and leaned forward slightly.

"Master, I want to eat candy ~" Su Xiaoyu blinked and looked at Lin Fan.

"This is the last lollipop." Lin Fan smiled.

"Hehe, thank you, Master. Mua ~" Su Xiaoyu smiled sweetly and made a cute expression. She picked up the lollipop and sat beside Lin Fan.

She even took an Apple notebook and sat down.

As she ate the candy, Su Xiaoyu opened her Apple laptop.

Then, she said something shocking.

"Master, do you want to crush the Gao family? Hmm... according to my estimation, it won't be completed in three days. With CEO Wang's help, it will probably take half a month. But don't worry, Master. In half a month, I can let the Gao family go bankrupt ~" Su Xiaoyu looked at Lin Fan with her innocent eyes, as if this was a very simple matter in her eyes.

Hearing Su Xiaoyu's words, everyone present could not help but shiver.

Especially Huo Xinyu, who swallowed her saliva.

She had experienced Su Xiaoyu's strength before.

Everything she said would be realized.

Su Xiaoyu was not joking. She might send an order and the attack on the Gao family would begin.

CEO Ma: "..."

Su Xiaoyu was... a pervert.

Even he did not dare to say that he would bankrupt the Gao family in 15 days.

It would take half a year or even a year to compete through formal commercial means.

Su Xiaoyu only needed half a month?

Everyone's expressions changed drastically.

Even CEO Wang's expression changed.

However, Gao Yong did not panic at all.

He had long known about Su Xiaoyu. If he was not prepared, he would not be here.

Gao Yong said, "Su Xiaoyu, I'm really impressed with your ability. If you're willing to help our Gao family, it'll naturally be better. If you're unwilling, so what?"

"You should know the real big boss behind our Gao family, right?"

The big screen flickered.

A figure appeared on the big screen.

This time, even Su Xiaoyu's beautiful eyes could not help but become serious.

Of course she knew this person.

He was the chairman, CEO, and chief software designer of Microsoft, Bill Gates!

He was ranked second on the world's wealth rankings!

When Bill Gates saw Su Xiaoyu, he smiled and said in English, "Xiaoyu, listen to me and don't participate in the Gao family's battle. I owe the Gao family a favor. If you insist on participating, I might have to come in too. At that time, a large-scale business war and trade war will not be good for either of our companies."

After saying that, the scene ended.

Su Xiaoyu's beautiful eyes dimmed.

This was Gao Yong's true trump card.

They mentioned someone on the same level as Su Xiaoyu.

If Bill Gates entered, it would be a huge blow.

If they were going to war, they would fight Bill Gates.

CEO Ma would also fight CEO Wang.

This would be the largest battle.

Seeing Su Xiaoyu lower her head, Gao Yong laughed proudly.

“Come on, didn’t I say you were awesome? I’m right here. If you have the ability, come and kill me!”

“If you can’t kill me, I’ll kill you guys. In the real estate industry, no one is my match, not even you, Su Xiaoyu!”

In an instant, all of Lin Fan’s background lost its effect.

Lin Fan was also in a passive position.

He raised his head. In the past, every time he encountered danger, he could find someone to help him solve his problems.

But this time, it was up to him!

#### **Chapter 422: I Have to Take Revenge!**

Gao Yong smiled proudly. He stood on the stage and opened his arms.

He stood there and felt everyone’s gaze on him.

He, Gao Yong, was the winner here!

So what if Lin Fan’s background was amazing?

Lin Fan had Boss Ma and Su Xiaoyu behind him, but what could they prove?

This was a commercial war!

There was also someone behind him!

Gao Yong laughed. “Lin Fan, is this what you meant by killing me?”

“I overestimated you. Today, I’m right here. What can you do to me? What can you do to me? What can you do to me for everything I, Gao Yong, did?”

“Do you want to start a business war? I welcome anyone to challenge me!”

“In the real estate industry, no one is my match. You, Lin Fan, are equally useless!”

Gao Yong looked at Lin Fan. He had already won against Lin Fan.

He smiled so happily and brightly.

What kind of person was Gao Yong? Before the banquet started, he already knew how much Lin Fan’s background was.

But so what?

That could only mean that Lin Fan was a successful person.

Just like when Alibaba was developing payment technology, Tencent also made WeChat payments.

But even Alibaba had no choice.

It was the same in the real estate industry and field. The Gao family had deep capital and the support of two top big shots. They also had very high connections outside.

What could Lin Fan use to deal with him?

He wanted to see what Lin Fan could do to him.

He had finally made Lin Fan suffer.

All of Lin Fan’s plans collapsed.

No one could stop him!

After he reached the peak of the domestic real estate industry, what would Su Xiaoyu have to fear?

Not many people spoke.

Many business giants were looking at Gao Yong silently.

Was Gao Yong very pretentious? That's right, he had already pretended to the extreme.

But no one was stupid. No one dared to offend Gao Yong.

Gao Yong was backed by CEO Wang and a super big boss like Bill Gates.

In other words, if Gao Yong wanted to crush the business giants present, it would be easy.

Other than some top business big shots that Gao Yong did not dare to touch, most of the other companies did not dare to have any conflict with Gao Yong.

"From the looks of it, Gao Yong was really prepared. After all, who is Gao Yong? There aren't many people who can compete with him in the real estate industry."

"The Gao Corporation has been developing for so long and its market value has been rising. It's hard to imagine what the Gao family will be like in the future."

"In that case, he might not be able to deal with the Gao family in the future. The Gao family is really too terrifying. Lin Fan is unlucky this time. Lin Fan thought that he had already defeated the other party. He didn't expect that Gao Yong had already prepared a complete countermeasure. From the looks of it, the one who lost face is Lin Fan."

"Lin Fan has lost a lot of face. I'll already be very angry to be humiliated by Gao Yong like this. At this point, even Lin Fan can't do anything. After all, Alibaba doesn't dare to start a war with Wanda easily. If there are any losses, even if Lin Fan is Alibaba's vice president, he won't be able to bear the responsibility."

“Su Xiaoyu, who is behind Lin Fan, is the daughter of the world’s richest man. I’m very envious, but she has already retired from the martial arts world for too long. Furthermore, if she really wants to make a move, it will definitely cause a huge business wave. This is something that no one can compare to. At that time, it will definitely cause a huge economic loss. Even Su Xiaoyu wouldn’t dare to make such a rash decision.”

...

For a moment, many business giants shook their heads.

Lin Fan probably couldn’t stop Gao Yong’s momentum.

Although Lin Fan had a deep background, he was really helpless in China’s real estate industry.

Lin Fan’s companies had nothing to do with the real estate industry.

If Lin Fan wanted to enter the real estate industry, he would probably be very miserable.

Today’s matter could only be left unsettled. No one could restrict Gao Yong anymore.

This was Gao Yong, the heir of the Gao Corporation.

After today’s business event, everyone knew of Gao Yong’s terrifying ability.

Lin Fan had wanted to give Gao Yong a good beating at this business event, but he didn’t. Instead, everyone saw Gao Yong’s ability.

Unknowingly, CEO Ma had already stood beside Lin Fan. He patted Lin Fan’s shoulder, sighed, and shook his head.

The meaning of this action was obvious. It was to tell Lin Fan not to get into a conflict with Gao Yong again.

Even CEO Ma had no choice.

Although CEO Ma had a transcendent status in Alibaba, it was impossible for him to directly bypass the shareholders' meeting and start a full-scale war with Wanda. In that case, it was impossible for Alibaba's shareholders' meeting to agree.

If things developed to this extent, who knew what would happen in the future?

Even CEO Ma had given up.

When Lin Fan saw CEO Ma's expression, he just smiled. He didn't blame CEO Ma. After all, the person behind Gao Yong was too strong.

Even CEO Ma could only give up.

Everything was over.

Today's business event could be considered Lin Fan's complete defeat.

Of course, Lin Fan had also displayed his ability. However, his attack on Gao Yong had failed completely.

Su Muqing obediently walked to Lin Fan's side and looked at him helplessly.

Who would have thought that Gao Yong had Bill Gates' support?

Bill Gates was almost one of the top people in the world.

When he appeared on the screen, it was destined that today's battle was no longer ordinary.

The only person who could fight against Bill Gates was Su Xiaoyu.

However, if Su Xiaoyu wanted to fight, she would lose hundreds of millions.

Even the richest man in the world might not be able to afford this loss.

At that time, the chain reaction that would be caused would not be something that everyone could withstand.

At this moment, Xia Wanqiu had already walked to Lin Fan's side and placed her hand in Lin Fan's.

"Meow, meow?" Xia Wanqiu raised her beautiful eyes and looked at Lin Fan. "It's fine. At most, we'll move out of Jiang City. It's fine. The Gao family does real estate. The filming of our television dramas has nothing to do with them ~"

Lin Fan looked at Xia Wanqiu comforting him and his heart warmed.

Having such a girlfriend was probably the happiest thing in his life.

Lin Fan held Xia Wanqiu's slender hand and gently kissed her forehead.

With such a beauty, what else could he ask for?

In the past, Lin Fan would have stopped.

But today, he couldn't take a step back!

If he retreated, it meant that he had admitted defeat!

Gao Yong had previously targeted Xia Wanqiu and even humiliated her.

Xia Wanqiu was his woman.

His woman had been bullied...

He had to take revenge!

### **Chapter 423: Su Xiaoyu Might Really Like Him**

"Hello, Senior Bill Gates. I respect you very much."

“However, I’ll put my words here today.”

“Lin Fan is the most important person in my life. No matter who stands in front of me, no matter who, they have to be prepared to accept the Su family’s anger!”

“Even if you are Bill Gates, a top figure in the world, or even my senior, if you want to stop us and start a war, the Su family will accept this challenge!”

Su Xiaoyu looked at Bill Gates’ big screen and said.

She held the Apple notebook in her hand. At this moment, Su Xiaoyu’s appearance had completely changed.

She was no longer the pure and cute girl from before, nor was she the girl who liked cucumbers and candy.

The current her was a business genius, the daughter of the world’s richest man, Su Xiaoyu.

She was declaring war on Bill Gates!

Once war broke out, it would be uncontrollable.

If the Su family and Bill Gates were to start a war, it might cause a huge economic upheaval or even a financial crisis.

The Su family might also lose their status as the richest family in the world.

After all, Bill Gates was irreplaceable in the world. Microsoft was already everywhere.

Even the Apple computer Su Xiaoyu used... was produced in America.

In terms of these top technologies, she had to admit that there was still a huge difference between the Su family and Bill Gates.

There was also a huge gap in technology between China and the top developed countries. It could not be crossed for the time being.

But Su Xiaoyu was a business genius after all.

She had completely lost her mind when she made such a decision.

Hearing Su Xiaoyu say that, everyone gasped.

Even CEO Ma was stunned.

Was this Su Xiaoyu?

She had personally admitted that Lin Fan was the most important person in her life.

Was this the most important person he liked?

Or was it a relationship?

Gao Yong turned around and looked at Su Xiaoyu in silence.

Su Xiaoyu would definitely do what she said.

If she wanted to fight, she would really fight.

To be honest, Gao Yong did not dare to offend Su Xiaoyu.

However, if Su Xiaoyu wanted to cause trouble, Gao Yong could only accept it.

Lin Fan couldn't defeat Gao Yong here, and Gao Yong couldn't defeat Lin Fan either.

Thinking of this, Gao Yong was very angry.

Without Su Xiaoyu, the Gao family would have dared to start a war with Lin Fan.

Gao Yong said, "Lin Fan, are you still a man?"

"Do you have to rely on a woman for everything you do? I really look down on you. Do you really have the ability to be Alibaba's vice president?"

"A mere vice president of Alibaba actually has to rely on a woman. Every time something happens, he's behind the woman. Do you dare to have a duel with a man?"

"Let me see if my Gao family or your Lin family is better!"

Gao Yong didn't dare to provoke Su Xiaoyu, so he vented his anger on Lin Fan.

In the video, Bill Gates also said, "Miss Su, I also admire your genius ability, but I hope that you can still consider it carefully and make the final decision. Once we start a war, it will be out of our control. I'm sorry, Miss Su. I might give you face in anything, but today, I owe the Gao family a favor. I have to return this favor."

"As long as you don't attack the Gao family or start a war, we'll still be business partners in the future. After all, the Su family can't do without our company. Isn't it more beneficial for the two companies to work together?" Bill Gates suggested with a smile.

Su Xiaoyu was about to speak when there was no hesitation in her eyes.

At this moment, Lin Fan walked to Su Xiaoyu's side.

Looking at Su Xiaoyu, Lin Fan gently rubbed her head. "Xiaoyu, thank you for your help, but I can't let your Su family fight against the world. This won't be good for you."

"Just believe me once, okay?" Lin Fan smiled.

The coldness in Su Xiaoyu's beautiful eyes turned gentle when she saw Lin Fan.

Su Xiaoyu looked at Lin Fan blankly, her cheeks slightly red.

Master touched her head again.

Su Xiaoyu nodded obediently. "Mmm ~ Listen to Master ~ Of course, if the Gao family really dares to bully you, the Su family will still attack."

"Gao Yong, don't think that you're really close to Senior Bill Gates. No matter how close you are, if you dare to touch Master's safety, I guarantee that the Gao family will be destroyed in half a month."

"Our Su family can choose not to be the richest family in the world and not have our current status, but I can still guarantee that as long as I input a string of passwords, the Gao family will definitely close down in less than half a month. No matter how many hundreds of millions the Su family will lose, I will still make this decision," Su Xiaoyu said as she looked at Gao Yong.

Gao Yong understood what Su Xiaoyu meant.

In other words, as long as Lin Fan's safety wasn't threatened, Su Xiaoyu wouldn't attack.

If Lin Fan's life was threatened, the Su family would make the Gao family pay the price even if they had to risk tens or hundreds of billions in economic losses.

Could the Gao family withstand the anger of the Su family? They clearly could not.

Gao Yong laughed as well. "Miss Su, don't worry. This is just a normal business trade war. It won't involve the lives of both parties. If Lin Fan loses, it's because he's not capable enough. I just hope that if our Gao family wins, Miss Su can not participate in the battle. Otherwise, even I don't know what our Gao family will do."

Su Xiaoyu did not say anything else. She closed her laptop and sat down.

Lin Fan smiled and looked at Su Xiaoyu. His heart was warm.

Tens of billions, hundreds of billions. Such a number was already a terrifying wealth.

And Su Xiaoyu did not care about anything because of him.

Lin Fan had once spent 200 million to buy out the contract for Lin Kexin and was willing to spend 2.5 billion to help Su Muqing solve her family's problems. At that time, Lin Fan's value because of Lin Kexin and Su Muqing exceeded this money.

But was Lin Fan really worth hundreds of billions or trillions?

Su Xiaoyu was still willing to do so.

She was really a silly girl.

Lin Fan understood.

Perhaps Su Xiaoyu really liked him a little.

However, that liking would never come to fruition.

At this moment, Lin Fan understood.

He was very grateful to Su Xiaoyu and happy to have a good friend like her.

If it was a few years earlier, he might have agreed to be with Su Xiaoyu.

But today, he already had Xia Wanqiu.

Perhaps such a relationship would never come to fruition.

Unless one day, China could really remove the monogamy law, but that was impossible.

Lin Fan would forever remember Su Xiaoyu's favor.

For some reason, Lin Fan's eyes welled up.

He probably would be unable to repay the favor he owed Su Xiaoyu in this lifetime.

#### **Chapter 424: Gao Corporation, Wait For Your Destruction!**

Lin Fan smiled and walked onto the stage.

He looked at everyone present and said, "Everyone, such a small conflict happened today. I've embarrassed myself."

"I said that Jiaxing Entertainment will also enter the real estate industry in the future, but this is only one of the industries that Jiaxing Entertainment has chosen. In reality, Jiaxing Entertainment will also enter the game industry."

"As everyone knows, Jiaxing Entertainment has many IPs, such as the first and third seasons of 'The Legend of Sword and Fairy', and the game 'The Legend of Sword and Fairy 1' has been very successful. Jiaxing Entertainment will also choose to buy this game company. If you want to work with us in the game, you can contact Jiaxing Entertainment. Jiaxing Entertainment wants to build a grand company that produces games."

"One more thing. Muqing, project the PowerPoint on the big screen," Lin Fan said. After Su Muqing projected it, Lin Fan said, "Jiaxing Entertainment, what we're going to do next is something that can change the entire world."

"Jiaxing Entertainment found many scientists to form a scientific research team half a year ago. Three months ago, the scientific research team had already developed a proper driverless technology. Today, the driverless technology has been completely perfected and mature. Furthermore, we have already tested it. Everyone can watch the next video."

"In fact, this technology has already received the country's patent approval. In other words, Jiaxing Entertainment already has a mature driverless technology. They have also conducted many experiments in the Bugatti Corporation and have been experimenting for three months. They have obtained rich results and there are no mistakes. There won't be any car accidents or traffic jams with driverless technology. Their judgment is more accurate than humans driving," said Lin Fan with a smile.

Of course, these were all things that Lin Fan had asked Su Muqing to do. As for the research team, they had found top foreign big shots to analyze this technology.

There were truths and lies in these words. After all, it was the driverless technology given to Lin Fan by the system. Now, it could finally be used.

The technology given by the system was naturally the most mature and would definitely not be wrong.

Lin Fan took out a video. This video was of a sports car with driverless technology driving in a crowded car.

These sports cars could automatically accelerate and slow down. They could analyze, study, and make the most accurate judgment according to road conditions.

On the way, they could perfectly avoid roadblocks and traffic jams.

Such perfect technology had already been applied.

After Lin Fan said that, other than Su Muqing, everyone exclaimed.

Even Su Xiaoyu widened her eyes.

This was... driverless technology!

And he had already obtained a national patent without anyone knowing.

In other words, this technology had already been recognized by the country!

Currently, car accidents and traffic jams were common in the country.

If they introduced driverless technology and used it on the car, they could perfectly solve the traffic jam problem.

The probability of a car accident would also decrease to almost zero!

If they fully promoted driverless technology, they would even avoid car accidents!

This technology could be said to be one of the best in the world!

At present, no country had mature driverless technology.

Jiaxing Entertainment had actually produced such research results. It could be said to be too perfect!

Su Xiaoyu widened her beautiful eyes and smiled sweetly. "Wow, driverless technology is already at the mature stage. Master is too awesome. You actually hid this from me. Boohoo."

CEO Ma's breathing was a little hurried. "Mature driverless technology is enough to change China and even the world! This can be said to be a change from a carriage to a steam locomotive, and then to a change in cars and planes. Lin Fan has really... achieved an era-spanning change!"

CEO Wang of Wanda looked at Lin Fan in disbelief. "If this technology really matures, it can benefit everyone. Furthermore, there are huge commercial benefits to it!! Currently, the domestic and foreign markets are completely empty in this aspect. I wonder how much money we can earn..."

"I think this technology is worth tens or hundreds of billions. I think there's no way to measure it with money. It's enough to earn countless money. There are countless business opportunities!!!" CEO Wang said.

If this technology could really be implemented and used, the economic benefits could be immeasurable!

CEO Wang was already tempted.

If Wanda could also get a share of it, they could earn endless money in the future!!

Of course, this was very difficult. If this technology was really used, countless people would fight to work with Lin Fan.

Lin Fan smiled and said, "Everyone, this technology is already in its mature stage, but it will take a long time to use this technology. Currently, there's no such company in the country, so Jiaxing Entertainment is the first to establish such a company. However, if we want to implement this technology, we need a lot of money. This money might be tens of billions. We can slowly try and optimize it. However, as long as we can succeed, we can lead the entire world. Everyone knows the economic benefits."

“Therefore, after today’s business event ends, any company that is interested can come and raise money to invest in the shares. At the same time, as the largest shareholder, Jiaying Entertainment will raise the most money. We’ll talk about the details in the future. However, from today onwards, this plan can be officially activated,” said Lin Fan with a smile.

At this moment, Gao Yong had already left and didn’t hear Lin Fan’s words.

Gao Yong didn’t know how many people were envious and tempted when Lin Fan took out the driverless technology.

This was like discovering a gold mine. As long as anyone could enter, they could earn a huge sum of money.

Even CEO Wang of Wanda was tempted.

Needless to say, Alibaba’s CEO Ma had long smiled.

Almost all the business giants present had good taste. They also saw this business opportunity.

If it wasn’t inconvenient, these big shots would have already surrounded Lin Fan.

Even Bill Gates’ eyes lit up.

If this technology could be used, how much money could he earn?

For a moment, all the major business giants were tempted.

Bill Gates flushed red and said, “Boss Lin, do you think we have time to discuss cooperation?”

Lin Fan smiled and said, “That’s not what you said just now. You still want to support the Gao family and even attack us. Actually, this technology can be used to work with any company overseas. I think there are many capable companies overseas.”

Bill Gates was shocked. “No, no, no. Boss Lin, when did I say that? As for Gao Yong, let me teach him a lesson. He really dares to offend Boss Lin.”

Seeing that Bill Gates had already said that, Lin Fan smiled.

In business, the most important thing was economic benefits.

There were no eternal friends or eternal enemies.

Lin Fan had only released a driverless technology and he had already attracted all the business giants present.

Even Bill Gates was no exception.

Then... the Gao Corporation would be destroyed!
