

The Hidden Billionaire Heiress (Lyra Melvin) Chapter 80

She looked at the shattered screen with regret and shook her head.

"Long time no see. Your temper still hasn't changed a bit. Unfortunately, bad temper, with the less ability."

After saying that, she gently let go and the cracked screen that was caused by Fiona was added a few more cracks.

"Why are you here again?!"

Fiona emerged from the lobby with the memory of Lyra who asked for payment of debt which was still fresh in her mind, but her noble rich wife life will never allow her to be timid.

"You're a loser. You're divorced and you're causing trouble for my son. My son is really unlucky."

"Yes, your son is unlucky, and he will be more unlucky in the future." Lyra curbed her smile and asked with a cold face, "So tell me, where did Melvin go?"

"How would I know? You don't have to pester my son! While saying you want to leave him, you are still chasing after him. That is a good trick to capture him. Are you mean?"

Fiona rolled her eyes unabashedly.

Lyra simply laughed at that.

Sheila came down from the stairs and glared at her.

"And you deserve to know where my brother is? My brother already has Charlotte. Why are you still shameless? Bitch?"

The humiliation of being screwed by Lyra twice before was still fresh in Sheila's mind.

She didn't dare to walk over, but only dared to stand on the stairs, gritting her teeth and glaring at her. She showed her hatred to Lyra with her eyes and continued to snipe with words.

"If you are not a mistress of Keith, you won't ride the high horse. You look like a vixen. You're a bitch! You're no match for Charlotte!"

"Charlotte will soon marry into the Freeman family, so don't insult yourself here and get out!"

Lyra leaned against the wall and quietly listened to her words.

"Have time to turn on your phone that you use as a slate. Take a good look at today's news. Your precious Charlotte does not seem to be in a good situation."

Neither Fiona nor Sheila had watched the news and were confused about the meaning of her words.
