

## **BLACK PLAIN 155**

### **Chapter 155: Intimate Friends (\*)**

The night quickly passed in the Dry City, and the day was already coming.

In those hours that had passed, Peter's family received a statement from the Black Plain Army of the young man's vital status. And when they found out, they were pleased to know that there was still hope.

The soldier who had informed them also informed that the army would investigate what had happened and do everything possible to bring him back, no matter what had happened.

After learning this, Peter's parents were a little more relaxed, knowing that their son had someone's help and was not entirely alone in this world...

Of course, like any parents, they were still very concerned, but there was nothing they could do. The two were just Spiritual Warriors, and they still had to take care of the little Lizzie, who hadn't even started cultivating yet.

This was the difficult life of the parents, suffering from the problems of one of the children, but having to protect the weaker side of the family, even if one side needs help...

Anyway, life was not easy for weaker people in the Spiritual World. Therefore, the two could only hope that the army of Minos did a good job and that Peter returned safe and healthy to them.

In the meantime, they could try to get stronger in the Dry City, where there were many opportunities for them.

...

While the population of the Dry City lived the benefits brought by Minos, things were starting to get complicated on Stone Island...

In the past few months, the young Elen has collected 3 million low-grade crystals, with just her share of the Minos business!

Such an amount was not normal, and many families could no longer ignore this fact. And even though Elen was distributing her trade in various parts of Stone Island, it only delayed the arrival of problems for a few months.

Many families had thought that the initial supply of foods with a high spiritual concentration was only seasonal. Still, the supply of these products to Stone Island was becoming more and more stable and constant!

As a result, the merchant families of the island and other noble families were agitated by this. Some wanted to know where Elen was getting it from so that they could take over her business themselves, while others wanted to get into this Elen deal.

And for all of that, the young Elen's peaceful life was increasingly hectic...

...

In one residence inside the Nash family palace, there was a specific room on the south side of that place, where moans of pleasure could be heard if someone was nearby.

In this room, two young blond women were lying on a bed while licking each other's private parts, wholly lost in pleasure.

This was a magnificent scene that would make any man observe for a moment, if one had the chance, of course... Anyway, the two girls had defined bodies, with light and soft skins, which at the moment were full of beads of sweat.

One was on top, while the other was on the bottom, simultaneously satisfying themselves, enjoying each other's bodies.

"Mmm ~"

Occasionally, in the midst of the celestial moans of one of the two, their bodies trembled gently, releasing juices of pleasure, while the breasts of the young woman who was on top sway from side to side, with her tiny nipples completely firm.

If Minos were here, he would certainly recognize these two. They were none other than their business partners and 'friend,' Elen Nash and Elena Neel.

These two were not just friends. No, their relationship was much deeper than that... The young Elena had libertine sexuality, while the young Elen had not yet been interested in any man.

And as good friends, they had started this intimate relationship a few years ago. After all, many women were 'curious' about it, and doing it with a friend wasn't uncommon in the Spiritual World...

"Aahhn ~ I'm coming ~"

Elen moaned in her lovely voice as she pulled Elena's hips from her face, breathing quickly and looking at her friend's little sister with cloudy eyes. Elena was wonderful, and even a woman like Elen couldn't help but admire her and enjoy her heavenly appearance...

Her body shook for a moment while another load of her juices was splashed on Elena's face, who had her tongue coming and going on Elen's lower lips. At the same time, one of her hands plucked her friend's second hole, making her tremble vigorously amid pleasure...

Squirt!

"Aahhn ~"

"Ha, ha, ha, that was amazing ~" Elena had also released her last load, just before turning around and lying down next to Elen.

The two stood beside each other while their almost perfect bodies were exposed, completely sweaty, and with reddish marks in several places. They both breathed quickly, with their hearts beating at a high rate.

"Ha, ha, ha."

While the two of them rested from their high-intensity activity, their breasts swayed from top to bottom, creating a genuinely hypnotic scene in that place...

Elen's breasts weren't as big as Elena's, but it was still a good size and would certainly please any man who slept with her. As for her little sister, it was gorgeous, looking like a pink flower, with a little pearl on top.

At this moment, Elena turned to Elen's face, giving her friend a passionate kiss, exchanging each other's flavors. They did this whenever they had free time and also when they were stressed with a problem...

In the time since Minos last saw them, both Elen and Elena had leveled up. With the large amount of crystals they were earning, Elen was now at level 47, while Elena had already reached level 46.

Anyway, after some time, the two finally broke the kiss, while Elena was on top of Elen, with her breasts glued to her friend's, at the same time when one could feel the other's breath due to the proximity of their faces. "Elen, one of these days, you should try a threesome with me. You don't know what you're missing..."

Upon hearing her friend's suggestion, she laughed and said. "Hehe, I have no interest in losing my virginity to these people you go out with..."

"Really? What do you think of that business partner of yours?" She asked with a luscious smile on her face and then said. "You should know that he is truly good at what he does... Even though he had his first time with me, he did very well!"

She praised Minos while making a gesture with both hands, indicating the size of his member.

Seeing this, Elen blushed in embarrassment and said. "You are very naughty. He is my ally. It would not be good for us..."

"I don't think that way. I think we can have a good time together..." She said as she got up from the bed and went straight to the bathroom. "Anyway, think about it, the next time you go to the Black Plain, I will go too. I am very bored to stay here in the Stone Island."

"Hmm, it won't be long before this happens..." Elen sighed helplessly.

With each passing day, more families came into contact with her.

Just yesterday, a member of the Olson family had come to see Elen in an attempt to discover the force behind her business.

The Olson Hotel already bought resources from the Cromwell Kingdom, and some items of high spiritual concentration imported from other regions. However, the latter was still in lesser quantity. After all, there was not much on offer in the square, and these foods were costly.

But with the arrival of Minos' products, the Olson family wanted to improve their services, making a deal with Elen for the items coming from the Black Plain. This was the chance for the Hotel Olson to reach a new level!

Anyway, Elen hadn't said anything about Minos or the Black Plain to the Olson family representative. She just said that she would quote that to her ally. If the young Stuart wanted to, they could start doing business in the future.

And it was not just the Olson family who tried to contact her, but several other noble families from Stone Island who wanted to buy these items. That's because the Nash family stores were not reselling Minos' items to large noble families, as they usually did in situations like these.

They did not understand what the problem was here. It was as if Elen and her ally were just trying to earn crumbs, selling their products to the standard population.

But those were the contacts that could still be considered positive. Not everyone was happy with the change brought by Elen, and they wanted a slice of the business.

This was the case with the Allen family, a rival power of the Nash family.

The Allen family was responsible for most of the food trade with a high spiritual concentration on Stone Island. And because of that, they were not happy with the appearance of these low-cost items, sold by the Nash family.

They couldn't understand where Elen was getting these items from and charging such a small price. Therefore, they had already started to investigate this matter. Their objective was to steal this ally from her, making a better and more attractive deal for this ally of Elen...

'We will have to be very careful when we go to Dry City. The Allen family spies will certainly try to follow me...' Elen thought to herself before heading to the bathroom with her friend.
