es seemed to look at the world itself with coldness and without any interest for anything in this life.

Victor and the other two also became aware of Bai Zemin's existence thanks to Alisha.

Victor's face turned pale as he whispered in a low but apprehensive voice: "That man.... How long has he been standing there and for how long has he been watching us without our knowledge?!"

"Bullet, it looks like you've been found out." Kali said calmly.

Bai Zemin jumped forward and his body plummeted towards the ground, but before hitting solid ground, his falling speed slowed down to the point that his feet made no sound at all.

Alisha and the three behind her immediately became alert.

Bai Zemin made use of his somewhat broken English to communicate and calmly asked, "Can any of you tell me what country and region of the world this is?"
