Chapter 1131: New Product Launch

Goudan's overwhelming generosity, on the other hand, made her have some positive feelings toward him!

Every girl would fantasize about her other half when they were young- they wanted a tall and handsome white prince, with a good personality and a sense of justice! She didn't know how other girls actually thought, but this was the case for her!

Just a few days ago, her days were filled with darkness, her dreams were shattered- she was about to spend the rest of her life with some old man, Fighter Li! She didn't think that she was some goddess, but she was a reserved girl, pure and clean- she didn't want it to end just like that!

And so she felt that her entire life had already fallen into Fighter Li's hands!

But things had changed so fast- Goudan came down from the sky like a god, coming by her side and instantly solving all of her problems! Even that scary Fighter Li got killed by him in oneshot!

If Yuanyuan were to choose, she'd naturally lean towards a nice man like Goudan, who was passionate as well as just, who wasn't greedy and was honest! He made her feel safe, and gradually, she felt herself starting to like him!

The story of the prince saving the princess was an old one, but it held true for a long time.

This was the situation they were in right now.

House Xiao was enjoying their life of glory these days- there were plenty of people fighting to be their business partners! Their position had already been settled, and it would only be a matter of time before they were on the same level as House Yu!

The two Xiao brothers kept laughing and smiling- this was the first time they were so happy after Elder Xiao's passing! They didn't have to worry about their future anymore!

The House Xiao now may be workers for the hidden house Pi, but that didn't matter- didn't House Yu do the same thing for the hidden House Yu? They were both named Yu, but they were so far from each other in terms of strength- everyone knew what was going on!

"Second brother, we haven't even put out any money yet, and now we have three businesses! Just by using our name and connections! What a bargain!" Xiao Ji really liked this feeling.

"Haha, yes, we really did receive a miracle amidst our misfortune! From the start, this whole thing was caused by sis-in-law, so you shouldn't always be scolding her! If it weren't for her, we wouldn't be in this spot right now!" Xiao Ben remembered that his brother still treated his wife really horribly, even taking away her car keys. The two brothers were so busy these days that they even forgot about Gou Huli. Now that things have quieted down did he remember that she had merits here as well.

"Oh? You're right! I'll go see her!" Xiao Ji nodded, feeling that his brother was right. He went upstairs.

Xiao Ben was thinking of taking the head seat of House Xiao when his old man died, but now it seemed that, despite the fact that his brother was the head, he couldn't do anything at all! Even something like talking to his wife needed to be advised by him- this made Xiao Ben feel like he was practically the head right now!

He was making all the decisions- his elder brother was only the head in name, and so Xiao Ben didn't care about titles anymore. This was pretty nice.

Xiao Ji went up and pushed open Gou Huli's door. He hadn't been sleeping on the same bed with her these two days, pushing her to the guest room instead, not treating her well.

Huli knew that there were two important guests here in House Xiao these two days, but Xiao Ji never explained in detail, and so she didn't ask, always hiding in her room watching TV. She didn't dare leave the room, either, and so she stood up happily when she saw Xiao Ji enter her room, "Ji Bro, you're here..."

"Huli, I've left you for so long! You're not angry, are you?" Xiao Ji said, smiling as he looked at her. Huli was old now, and she wasn't as young and supple as she used to be... But Xiao Ji found that he only liked her more and more!

"Of course not!" Huli jumped, horrified, "I wouldn't dare- I was the one who messed up, I'd be glad if you didn't blame me, Ji Bro!"

"Haha, you didn't mess up at all, you did great!" Xiao Ji waved his hand with a smile, "The things you did caused a lot of the good stuff that happened- if it weren't for the accident, if you hadn't crippled Uncle Pi, the hidden House Pi wouldn't have sent their men here, and they wouldn't have started a partnership with us! Nowadays our House Xiao's position is skyrocketing up to the sky!"

"Huh?" Huli didn't understand- she was thinking that Xiao Ji was being sarcastic, but his face didn't seem to comply to that guess! She asked carefully, "Is that so... So God has blessed us and turned our misfortune into good fortune?"

"Yes, indeed! We have been blessed by God!" Xiao Ji smiled and laughed. "But, now that we're powerful, you don't have to stay low anymore- you should be as loud as possible! Only then can people see how strong we are now, we need to show our arrogance!"

"I got it!" Huli was instantly happy- all that was what she loved doing the most, and now that she had approval to go act cocky, she was simply overjoyed!

It wasn't long before May 1st reached, and Guan Xuemin's medicine company's new product launch arrived!

The name of the Guan Xuemin's medicine company had been soaring through the skies this past while, especially after that incident with Songshan High where there was food poisoning. Everyone was waiting for the company to launch their new products, and they were expecting big things!

Lin Yi wasn't here as a staff member, nor was he here as a guest- he was simply there by the sidelines, with the audience.

This product launch was organized in a plaza, after all, and so Fatty Lai didn't stop the people around there joining in and watching. Although, there were security stationed.

Lin Yi, Tang Yun, and Feng Xiaoxiao joined as well. Shu wanted to check this whole thing out, too, but the Miss pulled her away to go shopping.

Yushu wasn't too happy about that, but she decided to let it go once she remembered Xiaoxiao's condition.

"Lin Yi honey, I didn't think that you'd be so amazing- you were the one who actually opened the company!" Xiaoxiao had already learned the details from Tang Yun, excited, "I'll go back and tell my dad that they can come to your company if they need any medicine for their military- we don't need to buy the expensive Golden Creation medicine that Miracle Doctor Guan's company sells anymore!"

Chapter 1132: Causing Trouble Again

"Hah... Sure!" Xiaoxiao's idea was a nice one- he didn't think of Feng Tianlong. With a big customer like him, the sales of the company would go to the next level! After all, special ops were the exact people who needed medicine like that, and they needed it in scarily huge quantities!

Miracle Doctor Guan's injury medicine was different from Miracle Doctor Kang's Golden Creation medicine. Miracle Doctor Guan's materials were normal, and they weren't restricted by the ingredients- they could mass produce it, and they could make as much as they wanted. There was no problem of a lack of supply to meet the demand at all!

This medicine was different from the Pill of Life Extension and Toxin Cleansing- they didn't need to implement any special business strategies and limit the production or anything- they just needed to mass produce it.

Kang Zhaoming stood among the crowd, coldly looking at the scene that was bursting with energy. He was filled with jealous rage!

There were so many reporters, all of them coming without being invited! A new company receiving this much attention like this made him really pissed off!

Hmph! He'd show them soon! He spat out a thick spot of phlegm. His purpose here today was to ruin this event. House Kang had controlled the sources for the ingredients and ignored all the prices as they purchased everything, but Miracle Doctor Guan seemed to still have stores standing. Otherwise they wouldn't call for a product launch, of course they had products to show!

"Is everything ready?" Zhaoming turned to Wang Shubing.

"Don't worry, Master Ming- everything's ready. The patients are ready as well, along with the reporters," Wang Shubing nodded.

"Alright, good! Not bad!" Zhaoming nodded. He was thinking of a way to get the Pill of Life Extension and Toxin Cleansing's recipe- only by getting them would his house rise up!

It was nine in the morning, and the product launch began!

Guan Xuemin, Fatty Lai, and Kang Xiaobo walked up the stage, sat down, and received loud applause!

“Fuck! Kang Xiaobo this piece of shit actually became Vice-Chairman, this is bullshit!” Zhaoming cursed. In his perspective, this cousin of his was a piece of trash! He shouldn’t be up there looking so glorious!

“Heh heh, it’ll be time for him to panic soon!” Shubing said naturally.

“Hello everybody, good morning- welcome to our product launch of Miracle Doctor Guan’s medicine company. I am the Vice-Chairman Kang Xiaobo!” Kang Xiaobo was doing the talking because it was Fatty Lai’s will- he wanted him to train himself!

He’d seen plenty of scenes like this, and Guan Xuemin was used to events that were public like this as well, taking into mind the position he was in when it came to the world of medicine. The only one without experience was Xiaobo.

He may be nervous, but he understood that this was a test- and so he’d already, many days ago, prepared a script for the product launch.

He started introducing the new product: Miracle Doctor Guan’s injury medicine! People have already heard that this was at the same level as Golden creation, but only after seeing the real thing today did everyone realize just how valuable and worth it this item was!

Miracle Doctor Kang was selling one bottle for two hundred ninety nine, while Miracle Doctor Guan’s sold for one hundred ninety nine- that was one hundred’s worth of difference, and this was a big number for the common folk! After all, how many one hundreds did the common man earn in one month?

And so, as long as Miracle Doctor Guan’s medicine was as effective, everyone would go for his medicine. People really didn’t have much sense of loyalty towards products like this, and they always flocked to the cheaper one.

“Hundred ninety-nine? Are they trying not to profit?” Zhaoming blinked, not expecting such a low price. Taking into account base cost and the source fees, there wasn’t much left to profit off it- was Miracle Doctor Kang trying to manipulate the market price?

He needed to quickly tell this to grandpa and prepare some countermeasures!

He quickly sent the text to his grandfather, telling him about the price.

Lin yi nodded slightly as he watched Xiaobo calmly and organizedly explained the product’s uses. Xiaobo had matured quite a bit after some training, at least he was a lot stronger on the business side.

When it came to questions, most of the reporters came to know about this company through the school food poisoning incident- and so their questions were all very proper ones. No one was trying to cause trouble since they already had a good impression.

But, there were always exceptions. One of the reporters was here to cause just that- trouble! His name was Can Lang! He had taken money from Zhao Qibing before, and was told to put the blame on Chu Pengzhan’s company when the food poisoning happened. This Miracle Doctor Guan’s company ruined him, and so he had to get revenge here!

He had already thought of ways to cause trouble, and he just so happened to meet some guy called Wang Shubing, who gave him fifty grand to get him to cooperate with their plan. Of course he welcomed it.

This time's product launch didn't require any ID checks- you could just enter. This was quite convenient for Can Lang.

Only after the questions were about done did he raise his hand, "I heard that the price of the same type of medicine is two hundred ninety nine- yours is one hundred ninety nine. Could it be that there's some problem with the product? I hear that even the cost of making it is more than that?"

Xiaobo had just answered a lot of positive questions, and he was just about to relax when this Can Lang threw this at him! He tensed up, but he had previously went through a simulation of a similar situation before. He didn't back down, smiling instead, "Excuse me, but how do you know what the cost is? As far as I know, these are all business secrets- only the core workers of medicine companies would know what that number was, right?"

Xiaobo's words weren't blunt, but the hint was there- Can Lang was sent by a competing business rival to cause trouble! Everyone present could understand that hint.

Can Lang was initially thinking that Xiaobo was inexperienced and young, and much easier to bully- that was why he brogght out the question.

He wasn't expecting such a sharp reply! How was he supposed to deal with this!

The other reporters looked at Can Lang with disdain- how would he get out of this now?

"I don't know- I'm just suspecting that there's something wrong with your medicine, being so much cheaper than other ones! It can't be anything good at that price!"

Chapter 1133: Staff Getting Hurt

"I came here today to find justice for the victims! Somebody used your medicine, and, unlike what you said, the blood didn't stop flowing, and the wounds got all messed up! I brought him here today, with the goal of exposing your black businessman's heart!"

Can Lang had taken Shubing's money- he was going according to his plan!

"Everyone, look at my hand- just after using Miracle Doctor Guan's medicine, my entire hand is rotten now! I almost lost the damn thing!" A dark skinned man beside Can Lang said loudly as he tore off the bandages, waving it around.

"What? That serious?" Some of the hired actors hidden in the common crowd made some noises, "This company doesn't seem trustworthy, we shouldn't buy their stuff! You just can't trust new products after all, it'd be safer to buy the more expensive Golden Creation Medicine by Miracle Doctor Kang!"

"Yes, yes- this company is black hearted!" Another actor said.

"Medicine is different from other stuff- we need to be careful with it!" Another actor said.

As the words passed, the mumbling got louder, along with with the people who weren't actors- some of them who didn't understand the truth had become misguided as well.

"Everybody please, calm down!" Xiaobo didn't panic, smiling instead as he looked at the 'victim' with his hands raised. He called out gently, "Is your hand okay, sir? If something happened then you should hurry and get to the hospital, don't stay here! What if you get an infection?"

"What are you trying to say? You're trying to kick me out, aren't you? Everyone look, he's feeling guilty!" The man started screaming.

"I'm just worried about you," Xiaobo shook his hand, "Our Miracle Doctor Guan medicine company is doing the product launch today- only tomorrow will you be able to purchase it in the shops. We haven't sold anything yet, so please tell me, sir- where did you buy this medicine? Could it be that you got the name of the brand wrong?"

"Wha?!" The victim didn't know what to say- he was just paid to come cause trouble, and the scripted words he just said were written by Can Lang as well- how was he supposed to know if this medicine was out on the market yet? Where would he say that he got it then? He couldn't say that he stole it!

He was no idiot- he would actually get himself caught by the police! Plus, they could just say that he stole the experimental version, and not the one they were selling as a product!

"I... I probably remembered wrong, then..." The victim's face reddened as he quickly ran away!

Can Lang didn't do the research at all, he just got some random guy to cause a scene- how was he supposed to know that this medicine wasn't on the market?

"Haha, it seems that the man had remembered wrong- come, let's continue with the questions," Xiaobo said with a smile.

Only then did the people realize that the victim was a liar- either he was sent by a competitor, or he was here to scam the company!

Can Lang gritted his teeth- pissed off. Luckily for him, he had another move.

Zhaoming, on the other hand, was even more pissed off as he stared at Shubing, "Is this your guy? What the hell is he doing, why is everything backfiring? What if people think that the victim used our Miracle Doctor Kang medicine?"

"I'm sorry, Master Ming, that guy is someone Can Lang found, I'm not sure..." Shubing apologized.

"This Can Lang is a damned idiot, why'd you get a retard like him?" Zhaoming was pissed.

"I had no choice- we don't have many connections in Songshan, I don't know any reporters! I just managed to contact this Can Lang on the internet!" Shubing explained with a bitter smile.

"Alright, are our own men ready?" Zhaoming waved his hand. Since this wasn't Shubing's fault, he let it be.

"Don't worry, Master Ming! There'll be no problem this time!" Shubing nodded.

“I’m really sorry, I was also lied to by that guy! After all, us reporters just want to be on the side of justice, so we jump at chances to expose the unfair parts of life.. I hope you all forgive me!” Can Lang said with a laugh.

“It’s alright- that’s the spirit of a reporter, after all!” Xiaobo didn’t like this guy at all, but he kept on a generous face.

“Ah, my hand- I cut it!” A long haired artist cried out, “Let me through, I need to bandage this up!”

With that, the man pushed Can Lang aside, trying to walk through him.

“Ah! Oh no, that’s so much blood, you need to get that bandaged!” Can Lang jumped in ‘shock’. “Right, isn’t this a product launch- the vice chairman said that their medicine could be used to stop bleeding, maybe you should go try that?”

“Alright!” The man nodded gratefully and ran at the stage, “Vice Chairman Kang, can I have some injury medicine for this wound?”

“Ah...” Xiaobo frowned. Things were clearly out of his control right now, this wasn’t something he expected! The guys’ request was simple, but this timing was suspicious! Especially after it looked like this guy was on the same team as Can Lang! Xiaobo had to be careful!

“What, Vice Chairman doesn’t want to let me use it? Could it be that you’re not confident? This is a great chance to advertise, if your medicine really works then I’m a living ad!” The man said after seeing Xiaobo’s hesitation.

“Haha, alright then- you can have some!” Fatty Lai spoke up as he took a bottle of the medicine, opening it.

Fatty Lai was very suspicious of this man’s sudden appearance. Was there some scheme here? But out of confidence for Lin Yi, he still applied the medicine for him.

Usually, a scene like this would be orchestrated by the medicine company doing the product launch- but this guy wasn’t someone Fatty Lai hired! Of course he’d be doubtful.

But everybody here was thinking that it was Miracle Doctor Guan’s medicine company that planned this skit! They had their suspicions, but they were interested as well- they wanted to see if the bleeding would quickly stop! After all, everyone could see that this guy was bleeding!

Chapter 1134: Leaving So Quickly?

But just as everybody was anticipating a miracle, nothing happened! The bleeding continued!

“Injury medicine? You people are a bunch of liars! This doesn’t work at all! Everybody look, my hand is still bleeding, nothing’s changing!” The man swung his arm around for the audience to see, “Look, they’re lying about their product- if even these ones aren’t suitable, then why would the mass produced ones in the stores be any different?”

The reporters were all feeling positive about the medicine company, but the fact in front of their eyes was that the blood wasn't stopping! They took the pictures of the scene anyway.

Fatty Lai didn't understand- why wasn't it working? He was completely confident in Lin Yi's abilities!

Xiaobo didn't know what to do, either- his experience was lacking in the first place, and he didn't know how to deal with this emergency!

The long haired artist was still crying out, "Miracle Doctor Guan? More like Liar Guan! This isn't working at all, everybody look at my hand, it's still bleeding!"

Just when Xiaobo didn't know how to respond, Lin Yi's voice sounded in her earpiece, "This person has hemophilia- that's why the blood doesn't stop. It has nothing to do with the medicine!"

All three of them had earpieces connected to Lin Yi in case something went wrong- Lin Yi would be there to advise them.

Xiaobo heard it, and so did Fatty Lai and Guan Xuemin.

Xiaobo and Fatty Lai didn't know much about hemophilia, but Xuemin was a doctor- he knew about the sickness clearly. He stood up and looked at the young man, "You're a patient with hemophilia- it's natural for your bleeding to continue. The medicine will work on a regular person!"

Xuemin wasn't able to confirm whether or not this person actually had hemophilia, but he believed in Lin Yi, and believed in his abilities! This was what made him speak with such confidence.

The crowd made noises as they realized that this man was a hemophilia patient- after all, it was Guan Xuemin who said it! Who was the man, after all- he was the king of the medicine world, and whatever he said was truth!

Some reporters didn't know what that sickness was, but the people around them did- after some communicating, they understood why the bleeding didn't stop.

"You- you're bullshitting! How come I'm a hemophilia patient all of a sudden, you're slandering me! What proof do you have?" The man didn't expect that Xuemin would be able to see that he had this condition with just one look! He started panicking, but realized that perhaps Guan Xuemin needed evidence to make this claim.

"Tell me, who sent you? What's your purpose here?" Fatty Lai also took Lin Yi's words as the truth- his words were the Bible! If he said this guy had hemophilia, then he did!

"Hmph, all you have to say when your medicine doesn't work is that I have hemophilia? I say you're the one with problems, you probably have aids!" The young man said angrily.

Zhaoming and Shubing weren't expecting that Xuemin would be able to tell with one look! This was beyond their expectations! This man was sent by them after all, his services were paid for with fifty thousand!

Hemophilia patients needed money to treat themselves in the first place, and so this guy only hesitated a bit before saying yes.

“That old Guan’s really a miracle doctor? How’s he able to tell when someone has freaking hemophilia? This is a problem!” Zhaoming frowned.

“Don’t worry- this guy is mentally strong! So what if he knows, he wouldn’t be able to test his blood or anything! He has no proof, so as long as the guy doesn’t admit it it’s fine! Who’d be able to find him after today’s product launch, anyway?” Shubing explained.

“Yes, you’re right!” Zhaoming nodded, calming down.

It was then that Can Lang spoke up, “Everyone, look! My fellow reporters, this is the sort of black hearted businessmen that we should be banding up together against, exposing them! I told you earlier, one hundred ninety nine isn’t even enough for the cost! As far as I know, the ingredients used in Golden creation medicine are rare, and the price they are selling this for must be too low for profit! You all saw, right? They just want to scam all of us!”

Can Lang’s words were effective. Some people started speaking up as well, accusing the panelists for their irresponsible business!

“Yeah, I’m the victim- I’ll fight you to the death! You need to give me some compensation or I’m not leaving!” The man said, brave now that people were supporting him, “You accused me by calling me sick, you need to pay!”

Xuemin, on the other hand, kept his composure. He was an old expert, and he naturally didn’t start explaining, “Whether or not you’re sick will be known soon enough! I’ve already sent your picture to the director of Songshan’s First People’s Hospital- Director Tai. If you’ve went to the hospital in Songshan before, they would have your records there. I believe it won’t be a while until we have your identity found!”

“Ah?!” The man paused- his face paled instantly. He was a patient with hemophilia, he knew this well, obviously- in fact, he went to the hospital here at Songshan to receive treatment! In other words, everyone in that department knew him! Just his picture alone was enough for the experts there to recognize him!

With that thought, he started backing down. He couldn’t wait here and let his identity be exposed!

“I... I need to go to the hospital to stop the bleeding, I have no time for you! You’re a bunch of black hearted businessmen, people, don’t believe them!” The man started running away.

“Leaving so quickly?” Fatty Lai naturally didn’t want to let this guy just run away!

“These people are trying to kill me! My hand is bleeding non-stop, not only is your medicine whack, you’re not even letting me go to the hospital! Everybody take a good look at what sort of a company this is!” The man cried out.

“Why’s your hand still bleeding? Any normal person with that wound would’ve stopped bleeding a long time ago, even without the medicine- why’s your blood still coming out?” Fatty Lai smiled coldly, “Everyone think about it- if you get cut at home, would you go to the hospital? And didn’t you say you want compensation, or you’re not leaving? Why the rush now?”

Chapter 1135: Can Lang’s Failure

There were many people present who shook their heads at Fatty Lai's words as well- who would go to the hospital after just a small cut? This was something you used a plaster for!

They didn't believe the man's words anymore- this guy seemed suspicious! He was saying that he wanted to fight to the death for justice, and now he was running away after getting exposed!

"You... What's it to you? I changed my mind, I'm letting you go!" The long haired man said and backed off, leaving.

"Zhang Gongzi, your identity came out- you're a hemophilia patient, right now receiving treatment at Songshan First Hospital with Doctor Su. What else do you wanna say?" Guan Xuemin said after receiving the details from Director Tai.

"You... You're lying! I don't know about Songshan First Hospital, I don't know about no Su Xiuhong Docto- Huh??" Gongzi accidentally spoke out the full name of the doctor! Xuemin said that he was Doctor Su, he didn't say anything about his name!

"How do you know the doctor's called Su Xiuhong? Didn't you say you don't know what Songshan's First People Hospital is?" Fatty Lai asked.

"I... I... I'm leaving!" Gongzi knew that he was exposed- he started running away.

Laughter erupted from the audience- they evidently understood what was going on! This was a liar, trying to cause trouble and running away once he got exposed! Many even felt embarrassed that they almost misjudged the company because of this incident! After all, this was a company with heart, helping so many poisoned students without charging them. How could they have doubted their honor and skill?

"Liar! A big liar! Everybody take pictures, expose him!" A reporter called out.

"Right, what was his name again? Can Lang, right?" The other reporter knew Can Lang, pointing at him, "That's him, this Can Lang is a black hearted man! I don't know about others, but he's a failure, complete trash, as one of us, reporters!"

"Can Lang? I've heard of him before, he's someone who specializes in black papers after taking bribes!" Another guy who knew Can Lang jumped out.

Can Lang was now recognized by everyone- he ducked down, not wanting to stay here longer as he sneaked away!

"Our product being priced at a hundred ninety nine might've received some jealousy from our competitors, but it's alright- time will prove that our products are the best!" Xiaobo breathed out in relief- this was his first time, after all, he naturally didn't want anything to go wrong, and it seemed that it was fine now!

Can Lang, on the other hand, was very pissed, but there was nothing he could do! He got on his motorbike and started it, yet a booming sound erupted as his tire burst, sending him flying out and landing on the road, breaking his teeth.

“Fuck, what happened to the tire?” Can Lang looked at his bike, messed up now as it lay on the road.

“Hahaha!” Everyone started laughing- this was what he deserved!

“Wow, Lin Yi honey, you were right- his tire exploded right after he got on!” Xiaoxiao raised her fist excitedly.

“Ha...” Lin Yi only smiled. He’s noticed that this guy was suspicious from the start- he was a bad guy, after all! He remembered this person from back in Songshan, when the students were poisoned.

The first time Can Lang started causing trouble today, Xiaoxiao was pissed off- she wanted to cause some trouble in return, and Lin Yi was happy to oblige by helping her identify the motorbike and helping her make it so that the tire would explode right away.

And so Xiaoxiao did as instructed!

Although this level of crime wasn’t much, Lin Yi couldn’t do anything much to him in public. Just a bit of this was enough.

Tang Yun looked at Xiaoxiao and Lin Yi, thinking that they suited each other. They were messing someone up together, after all.

But Tang Yun wasn’t jealous or anything- she truly felt happy for Xiaoxiao. She was able to live all her final days in happiness, and Tang Yun was happy as well, because of that! If things didn’t go well between Xiaoxiao and Lin Yi, that was what actually would make her sad!

This product launch went quite smoothly other than the humps that originated from Can Lang. A couple of questions later, the product launch was finished!

“What the hell are these pieces of shits you found? They can’t accomplish anything!” Zhaoming was very pissed as he scolded Shubing now that things didn’t go smoothly. This task he was assigned was paramount to his position in the Kang family! He’d just received approval from his grandpa, and now things were going wrong!

“I’m sorry, Master Ming! I didn’t know things would turn out like this! That Guan Xuemin really is quite good, he was able to recognize that he had hemophilia right away, I didn’t expect this!” Shubing said bitterly, “There was nothing wrong with the plan, this was just an accident!”

“You’re right- this was an accident, what has it to do with us?” Zhaoming said. He decided to tell his grandpa the truth- after all, this was an accident, it was unavoidable.

Shubing breathed in relief now that Zhaoming was letting him off the hook.

Zhaoming dialed his grandpa, “Hello? Grandpa? It’s Zhaoming!”

“Zhaoming, how are things going? Your plan is pretty good, I told your uncle and dad and they all agreed- using a hemophilia patient to cause trouble, that’s great!” Miracle Doctor Kang’s laughter sounded, “Any medicine wouldn’t work on those guys, let alone their injury medicine- even our Godlen Creation wouldn’t work!”

“Grandpa, there was an accident!” Zhaoming said, face bitter, “We didn’t think that Guan Xuemin would be able to see that he had hemophilia from just a look!”

Chapter 1136: Embarrassing

“What did you say? He was able to tell? How??” Miracle Doctor Kang said in disbelief. Didn’t you need to do a blood test to be able to know that, how did Xuemin know on the spot?

“This is what happened...” Zhaoming didn’t dare hide anything, and he told Grandpa everything in detail. The news would be made public soon, after all.

“You’re saying that, with one look, Guan Xuemin was able to know that this Zhang Gongzi had hemophilia?” The doctor didn’t understand- wasn’t this a bit ridiculous? Was Xuemin that good at medicine, using one look to identify the problem? Wouldn’t he be some legendary miracle doctor then?”

“Yes, just one look,” Zhaoming said, “Everyone here saw it!”

“Fine, the fault doesn’t lie with us- this was unexpected. Come back first, we’ll discuss how we can strike down Miracle Doctor Guan’s injury medicine!” The doctor didn’t panic. So be it if their medicine got on the market! After all, House Kang’s medicine was all needed by military demand, and the commoner’s market only took up a small portion. Most of the time it was always out of stock, so even if Xuemin took his medicine to the market, it wasn’t too big a deal.

“Yes, grandpa!” Zhaoming breathed in relief- luckily he wasn’t blamed.

Lin Yi saw Kang Zhaoming in the crowd, and guessed that it was probably him that caused all this. However, it was normal for him to try and bring down his competitors, and it didn’t cross Lin Yi’s bottom line. He couldn’t do anything to him, but he did help out Fatty Lai and Xiaobo a bit- the other times they had to deal with it themselves.

“Let’s go,” Lin Yi used his left and right hand separately to hold Xiaoxiao and Tang Yin’s hands, leaving with the other people that were departing.

“It’s afternoon already, I wonder if Mengyao and Yushu finished shopping?” Tang Yin looked at her watch.

They’d planned to go on a tour drive at night.

“It should be about time. You told your family?” Lin Yi asked.

“Yeah...” Tang Yin felt embarrassed once she remembered what her mother said- after all, any normal mother would tell their daughter to be careful if they spent the night with a boy, but her own mom... Told her to remember to bring some birth prevention pills!

Tang Yin was going crazy- she was a high schooler! Yes, things like this happened at her age, but she was still a high schooler! She was a reserved girl in the first place, there was no way something like this would happen so early!

But Tang Yin only nodded, she couldn't say anything to her mom regarding this.

Lin Yi noticed that there was something wrong with Tang Yin's expression, "What's wrong? Auntie doesn't want to let you go?"

"It's not that... It's nothing, she was just researching about the new house these days, she didn't have time to talk to me," Tang Yin said.

"Oh..." Lin Yi didn't press her since she didn't want to answer.

Lin Yi was driving Xiaoxiao's land rover today. It was repaired, and it suited the occasion.

As for the 2b945 licence plate- they realized that it was fake upon a check. They couldn't find the receipt for the car anymore, but with Tianlong's help they got a new one, and eventually they got Xiaoxiao's TT000 plate onto the rover.

"Xiaoxiao, your body doesn't really suit this car!" Tang Yin felt that the car was too big for Xiaoxiao's petite body.

"Ha, that's right! Lin Yi honey, maybe I'll give you this car? I'll get another," Xiaoxiao felt that Tang Yin was right, "Yesterday when I was driving to school and some guys called me land rover girl, so I charged at them, scaring the bastards! That's what they got for messing with me!"

Lin Yi blinked, but Xiaoxiao was right- she was always a gangster type, it was just that she got a lot proper when with him.

"Ah-!" Xiaoxiao's words shocked Tang Yin- she didn't realize that Xiaoxiao was so aggressive! She would not be able to do the same thing if she were in her position.

Lin Yi drove on, bringing Tang Yin and Xiaoxiao to the villa. Yushu's Beetle was parked there too- they were back.

Lin Yi stopped the car, and the two girls came out, hearing the sound of the land rover.

The two were dressed very sunshine-ly and youthfully, with a beach feel without the exposing skin part. Lin Yi felt that these two were natural born beauties as he looked at them- they didn't lose to Xiaoxiao and Tang Yin at all.

"You guys ready?" Lin Yi smiled.

"Yup, Yao Yao and I bought two car's worth of stuff, so we had to take two trips to get everything home," Xiaoxiao said excitedly.

"Why'd you buy so much? We're only going for one day and one night, we don't need all that," Lin Yi jumped in shock.

"Heh, it's rare that we got to go out and play like this, of course we need to bring everything!" Yushu smiled, "Shield Bro, help me put my stuff in your car, yours should be able to put everything in."

Lin Yi went to help out, and when Xiaoxiao and Tang Yin offered, the Miss stopped them, "You guys want to take a shower here first and put on some fresh clothes?"

Tang Yin didn't have any good clothes. Her family was in a better situation now, but she didn't feel as luxurious as to go and shop for clothes. She wore a school uniform at school everyday anyway, there was no point. She just wore a simple shirt and jeans when she went to the product launch today, too.

"I... I didn't bring a change of clothes..." Tang Yin was a bit tempted- she didn't get to shower at the hospital, and even though they had hot water, she didn't really feel comfortable doing it there.

"Use mine- we're about the same size, and I have new bras too, but i don't have any new clothes. I hope you don't mind that they were mine," Mengyao had thought it through- she didn't want to fight with Tang Yin anymore. Xiaoxiao's presence made her a lot more empathetic to Tang Yin as well.

Chapter 1137: Tang Yin's Low Self-Esteem

Tang Yin felt that she couldn't really adapt to Mengyao's sudden change of heart. She always treated her as a love rival, and she was still on guard against her! Even though they were on good terms nowadays, she still didn't let go of her alertness!

Tang Yun was a nice person, and she was afraid that Mengyao's niceness had some ulterior motive. Perhaps she would be too embarrassed to fight her once it came time to fight for Lin Yi, because she treated her so well...

But Tang Yin was afraid that she was thinking too much, too- what if she just wanted to be friends?

"Of... Of course I don't mind..." Tang Yin shook her head- how could she reject after Mengyao put it like that?

Lin Yi came to the side of the Beetle- it was already filled with a bunch of bags and boxes, there was a lot of them!

"What's all this?" Lin Yi pointed at them curiously.

"Face masks." Yushu said.

"Huh? Face masks?" Lin Yi's eyes went wide.

"I read online that the sea breeze is strong, so if we wanna protect our skin, we need face masks." Yushu said.

"..." Lin Yi was speechless, but he didn't say anything. If Yushu said it would help then she could bring what she wanted- there was plenty of space in the rover anyway.

Lin Yi started moving things out and putting them in the rover.

Tang Yin looked at the bathroom- it was luxurious with stone floor, and a pure white bathtub along with many branded bathroom products. She felt that her new house was already very nice, but only did she enter this villa did she realize how normal everything back home was!

But, these high level shampoo and face products... All of these were things that only a rich girl like Mengyao could use, right?

At the thought, she started worrying. She had youth now to compete, but what about ten years or twenty years later? Her skin probably wouldn't be as good as Mengyao and Yushu's, since they kept maintaining it with a lot of products! She would lose in the long run!

With Tang Yun's current situation, she couldn't afford these items. She sighed. It was the first time that she felt that money was a lot more important- she didn't feel like this even back when she was much poorer.

The bathtub was very clean, evidently used only by Mengyao and Yushu. Tang Yun didn't mind- the two were clean people, so long as they didn't mind her using their bathtub.

Putting in hot water, she lay in the tub and thought about her life. She was about to go to college soon, and she couldn't just spend all her time studying as she did back in high school. She needed to be useful to Lin Yi, at least get a part time job in his company. Not only would she be able to earn some money for herself, she could help out with Lin Yi too.

Xiaoxiao had a shower this morning already. She lived alone, so it wasn't any trouble. She went to the yard to help Lin Yi with his car.

There were a lot of things in there, but with the four of them, they got everything in the rover very quickly.

Some distance away from the villa was a Ferrarri that had been there for a long time, and inside sat An Jianwen and Su Taizao.

"This bastard Lin Yi, he's enjoying life all right! Four pretty girls surrounding him!" Jianwen said sourly as he looked at the villa.

"Yushu is a troublemaker- I'd advise against bringing her home, Master Wen, otherwise you'll have a hard life getting pranked all the time!" Taizao consoled.

"You're right, that one is too much- I can't handle her. My life might even be at risk if she came home with me!" Jianwen nodded, "Right, you finished buying all that stuff? We need to be able to attract Mengyao later, after all."

"I sent Yang Ganglou, don't worry- the guy's quite smart!" Taizao said.

Lin Yi, naturally, saw the Ferrarri. He felt amused- these guys were going to the beach on a Ferrarri? How were they going to drive on the beach with a bottom plate like that? But Lin Yi wasn't nice enough to remind them.

Mengyao and Yushu finished packing and went into the living room to wait for Tang Yin. Lin Yi started watching TV with them as well.

A while later, a phone call came in from Fatty Lai.

"Hello? Fatty Lai? Did everything go smoothly?" Lin Yi asked.

"Boss, everything is finished smoothly, don't worry!" Fatty Lai said, "Luckily we had you there today, boss, you saw through everything! Otherwise the product launch would have been in trouble!"

“Did you check who sent him?” Lin Yi knew who sent him already, but he didn’t want to spend too much effort on this company. After this time, he decided to let Fatty Lai and Xiaobo work things out by themselves.

“We have some thoughts. It’s probably our competitors from the Kang family. According to our staff, they saw Miracle Doctor Kang’s grandson Kang Zhaoming, and even saw him interact with Can Lang...”

“What do you plan to do?” Lin Yi responded with a question.

“Boss, we’re not strong enough to take revenge on their company yet- we don’t have the time, too. My idea is that we write this down first, and take care of it in the future!” Fatty Lai said carefully.

“Alright, we’ll do that then,” Lin Yi felt that it was true- they had just established the company, who had the time to waste on the enemy like this?

“Alright,” Fatty Lai smiled bitterly after breathing in relief, “Boss, another thing. After the product launch, we received many more orders than we anticipated! I was only expecting orders within the state, but along with some shops from our neighboring states, orders are coming in from everywhere around the country. There’s people from big scale shops and hospitals contacting us, making orders... I think that this might be because of the response from the auction...”

“Oh? Isn’t this a good thing?” Lin Yi didn’t think that the injury medicine would be this hot! He thought that after the poisoning of the students it would affect the state they were in at first, and that the orders wouldn’t be as much initially.

“It is indeed, there is a limit to our production capacity. We can only handle two or three state’s worth of orders right now, and this is still the beginning phase- if the market reacts positively, they’ll put in a lot more orders- we might not be able to supply for that demand!” Fatty Lai explained.

Chapter 1138: Won’t Let You Have Any Losses

“Other than that, our network isn’t strong enough yet. My trading companies only have connections with the trading companies in this state and some neighboring states, and I was planning on expanding slowly and steadily increase our range, but currently, things are not as we anticipated!”

“Then what do we do?” Lin Yi asked. He didn’t understand the business very well, and while he could go and mess with competitors, he couldn’t handle problems with the sale range.

“The first thing to do is to increase our production as fast as possible, building factories.” Fatty Lai said. “The second is to expand the range and network by establishing chain companies in the main cities. Not only would it require a big amount of money, but there’ll also be problems with the management, too! We wouldn’t be able to manage all of them ourselves, after all, and it might result in a chaotic situation!”

“Oh? Even if we don’t make a chain, can’t we just ship the products from the main company?” Lin Yi asked.

“Yes, but then the consequences would be even direr. Without chain companies to manage and supervise, there might be a situation of suddenly raised prices or dropped prices on the other state’s

part, as well as an assortment of many other selfish market strategies against us. It would ruin our company name!" Fatty Lai was quite worried about all these potential consequences.

"I say, Fatty Lai, you know I don't know anything about business, right? Why're you asking me? Just tell me your suggestions!" Lin Yi didn't know if he should cry or laugh—wasn't Fatty Lai just scaring him with all this?

"My suggestion is that we find a company with a perfect range and network, but this company has to be one that is reliable, one with honor. Otherwise, with all our shipments being controlled in their hands, they might take charge and basically take over our stuff—this isn't what we want?" Fatty Lai said.

"Alright, we'll do as you say." Lin Yi nodded.

"But, boss— I haven't finished considering if I should go with this partnership solution yet- the business world is a Warfield. There are no permanent allies, after all." Fatty Lai smiled bitterly. "I still don't know which company is suitable for this partnership, so that's why I called you first..."

"Hm, I'll take a look then." Lin Yi smiled bitterly. The businessmen Lin Yi knew were limited- other than Chu Pengzhan. There weren't any friendly companies in Songshan anymore.

"Alright, I'll think about the funding first..." Fatty Lai was just asking. If Lin Yi didn't have any solutions, he could only use a contract to try and manage the partner company! This sort of contract-based partnership, however, wasn't built on trust. There wouldn't be a win-win situation in the long term.

Lin Yi only just hung up when his phone rang again.

He thought it was Fatty Lai or Xiaobo, and so he picked up, "Hello?"

"Miracle Doctor Lin? I'm Liu Tianyi!" The deep voice of Liu Tianyi sounded.

"Oh? Mister Liu? Hello..." Lin Yi didn't know why this guy was calling right now. He had an okay impression when it came to Tianyi, especially after he just lent him all that money without hesitation. He felt that he was a good man. He considered him a friend at this point.

"Miracle Doctor Kang, I hear there's a new product launch at your company. Congratulations!" Tianyi smiled. "I've already sent you a humble gift, a red packet with a cheque! It's being sent to your company right now!"

"Oh? Thank you very much!" Lin Yi wasn't expecting a gift. It took him by surprise, but he had no reason to respond to this nice with anything other than thanks. "Thank you for the thought!"

"I wanted to come by personally to congratulate you, but it didn't seem right after I considered that this is a product launch, not an opening ceremony," Tianyi said carefully.

Tianyi had been discussing with Tianli and their old man for a long time regarding whether or not they should send someone to attend the product launch. They decided to go with Liu Jinghan's suggestion of merely giving a red packet. This was agreed upon by the old man, as well.

After all, they were planning on getting on Lin Yi's good side and building a long term relationship with him, letting him use their channels and networks. If they were to show up, it might seem a little too

eager, especially concerning the occasion... It might make them look like they had ulterior motives or something! After all, Lin Yi hadn't said yes to that yet!

But it seemed now that Lin Yi was still quite pleased with the red packet- this let him sigh in relief.

"It's the thought that matters," Lin Yi smiled. "Right, Mister Liu, there's an inquiry I'd like to make."

"Please do, Miracle Doctor Lin. Just ask the question, and I'll give you everything I know!" Tianyi said quickly.

"You see, my company is thinking of setting up some chain companies and networks in the other parts of the country, but right now our focus is on increasing production. We don't have time and energy for all that. I was thinking of looking for a reliable partner to manage the sales part in those states!" Lin Yi said, mentioning the thing Fatty Lai told him about. The guy should know a lot more than him, judging by the number of people he interacted with.

"Oh? You want to look for a business partner?" Tianyi paused, surprised and overjoyed! This was something they wanted in the first place, and he was just thinking of how he should approach the topic when Lin Yi brought up the request! How could he not be pleased? He quickly jumped onto the topic. "Miracle Doctor Lin, our House Liu is a business based noble house. If you don't mind, we can provide our channels for you to use! Regarding management, we can completely give you charge, and we'll keep from participating in the strategy meetings and stuff like that, keeping our hands only in operating the business. The profits, on the other hand, will all be yours, although I'd have to leave the salary funds for staff to you, haha..."

"Mister Li, are you serious?" Tianyi's words came as a big shock! He didn't think that Tianyi would recommend himself, and giving such an amazing offer, too! Not only did he wipe away all concerns Fatty Lai had, but he also wasn't even intending to keep any profits!

Of course, Lin Yi understood what they wanted- House Liu probably saw the potential he had, and wanted to be on good terms with him!

"Of course I am!" Tianyi smiled. "Miracle Doctor Lin, when have I ever joked about these things? I truly want to help you with this! I, Liu Tianyi, may not be much in your eyes, Miracle Doctor Lin, but I really do treat you as my savior and friend!"

"Ah... Alright! If so, then I'll accept this offer. However, I won't let you have any losses." Lin Yi said faintly. "If you're not taking any of the profits, we'll give you some pills and medicine each year, including the Pill of Life Extension and Toxin Cleansing as well as the limited edition injury medicine."

Chapter 1139: I'll Work Behind the Scenes

"That's..." Tianyi was deeply touched. This was the Pill of Life Extension and Toxin Cleansing! One pill was worth three to four hundred million!! There was limited edition injury medicine, too! And these weren't even the only products that were being given. Since Lin Yi sounded like he was still going to gift him a couple of other pills and medicine, this trade was just insanely worth it!!

These were all extreme treasures. Other noble houses couldn't even get their hands on it even if they wanted to, yet House Liu had them all just like that! It was an amazing trade-in their favor! His niece's advice really was too good. Being a follower/lackey of Lin Yi's made you just that powerful! So this was why Fatty Lai was so glorious these days. It was because he was being bombarded with these benefits!

"Miracle Doctor Lin, then I'll accept your offer as well! Please, use our resources to your heart's content!" Tianyi took in a deep breath, trying to compose himself and contain his overflowing joy.

"Alright, then. Contact Fatty Lai—you can discuss the details with him. I'm not really sure about this business side of things." Lin Yi smiled.

As for Tianyi, Lin Yi was still giving him a test trial—he couldn't trust him to the same degree he trusted Fatty Lai, after all, and so he was only giving him some benefits. If the guy really was giving his heart to help him, then Lin Yi wouldn't mind giving him even more benefits.

Tianyi hung up the phone and breathed out a long breath. As it seemed, Lin Yi had quite a nice impression on House Liu. He was starting to accept him!

When his niece suggested they follow Lin Yi as a subordinate, he did agree with it... But that was from the grand scale of things. From a personal level, some part of him just couldn't accept it!

But he truly believed that being a follower of Lin Yi really was just amazing! They just started, and he got a bunch of those amazing treasures already! Just what awaited in the future?

"Big Bro, why didn't you ask for a couple more of your terms while you're at it!" Tianyi's entire family was listening as he made the phone call, and Tianli heard the words as well. He didn't understand, if Lin Yi initiated the partnership discussion, why didn't Tianyi add your own terms instead of just offering their offer of not taking any of the profits? After all, if it were them chasing after Lin Yi to offer their services, then fine, but now it was Lin Yi who asked for the partnership! Why did their family have to suffer the losses?

"Terms? What terms?" Tianyi saw the short-sightedness of his brother and decided to hide Lin Yi's benefits that were just given to him first.

"Big Bro, if it were us going after Lin Yi to offer our services, then so be it—but right now it's Lin Yi asking for us House Liu! Why do we still have to suffer the losses?" Tianli frowned. "Big Bro, your brain really isn't suited for business!"

"Haha!" Liu Zhenhu started laughing loudly as he looked toward his granddaughter. "Jingjing, tell us what you think- is your uncle right, or is your father right?"

"Dad, uncle really isn't suited for business..." Jinghan's words made Tianli smiled widely. His daughter was on his side, after all! But she wasn't finished. "But dad, your brain is only suited for purely business!"

"What do you mean?" Tianli frowned, not quite understanding what she meant. However, it was clear that this was no praise!

“Jing Jing’s right! Tianli, you’re only suited for pure business!” Zhenhu smiled, “For you, and from a business viewpoint, we’ve suffered heavy losses—but in the long run, we’ve received the approval of Lin Yi!

“Yes, but...” Tianli couldn’t deny it- his father was right- his eyes were only suited and limited to a normal businessmen’s viewpoint! He was no entrepreneur!

“Plus, I bet Lin Yi gave us some benefits! Didn’t he, uncle?” Jinghan looked to Tianyi.

“Haha, you’re sharp, Jing Jin! It’s true—he gave us some benefits!” Tianyi smiled, not expecting his niece to guess it right away.

“Big Bro, Lin Yi gave us benefits? Why didn’t you say so?” Tianli paused. “Big Bro, what did he give us??”

“Lin Yi promised to give us some pills and medicine each year, including the Pill of Life Extension and Toxin Cleansing along with the limited edition injury medicine! Do you still think we’ve suffered losses?” Tianyi smiled.

“The Pill of Life Extension and Toxin Cleansing? Just this alone makes up for everything! And, every year? This is way too worth it, it’s worth way more than collecting those profits!!” Tianli smiled widely once more upon hearing the words. This was a priceless item, after all, and if they were to receive one every year, wouldn’t that be way too strong? Even if he didn’t use it himself and sold it to the noble houses, that increased the value of House Liu!

At the thought, he nodded deeply. “Big Bro, you’re the smart one after all! If we had asked for terms, Lin Yi wouldn’t have given these benefits to us at all!”

“Tianli, if we were to let you maintain our family, then you’re a very good pick! But, if we were to push our family even higher to the peak- that would fall on Jing Jing’s shoulders! But... Jing Jing would have to marry eventually...” Tianyi sighed.

Even though men and women were the same for normal families, this wasn’t the case for noble houses. They put more value on the boys since they were the ones who kept the name and forwarded the bloodline! Girls, however, married into other houses, changing their name!

“I won’t marry. I’ll stay by grandpa’s side!” Jinghan was a bit embarrassed at the topic.

“Girls have to marry eventually. That can’t be changed.” Tianli glared at his daughter. Although Jinghan not marrying would bring the most benefits to their house, he didn’t want to see her alone for the rest of her life at all!

Jinghan put out her tongue at her dad, showing her playful side. She was just a kid, after all. She was smart and good at business, but she was a kid! She liked all the things that girls liked.

“I think that we should let Jing Jing handle this partnership with Lin Yi.” Tianyi was scared that Tianli’s business-oriented mind would mess up this whole thing with Lin Yi if he pissed him off somehow!

“I don’t think I should show up...” Jinghan shook her head. “I’ll work behind the scenes...”

Chapter 1140: Shy

Jingyi used to work behind the scenes as well when she managed the company for Liu Tianli. The outside world all thought that it was Tianli's efforts, and only a few knew who the mastermind was! Of course, all the noble houses knew about this.

"Alright, Tianli—you pay attention then. As long as we don't piss Lin Yi off!" Zhenhu said. "Jing Jing not appearing now might have a big use in the future!"

Jinghan's face blushed a bit. She knew that her grandpa saw right through her! Indeed, she wanted to use a different identity to interact with Lin Yi because she was curious about him. She wanted to see what he was like as she came to know him personally!

She was very curious indeed—how did this guy survive until now? House Yu, House Zhao, and House Pi—these three were all hidden houses, and he pissed them all off!! How the hell was he still jumping around so happily?

This was the first boy who made Jinghan curious! She was a smart girl, after all, and normal men wouldn't appeal to her, but Lin Yi did interest her. This interest wasn't a romantic one, but Jinghan was purely curious!

Tianli didn't understand his father's words, assuming that he was going to use his daughter as a trump card or something, appearing in the most vital time. Tianyi, on the other hand, had other thoughts as he looked at his niece. Yes, she was a pretty lady, considered a high-quality one among the noble houses...

Tianyi kept his thoughts to himself, however. The old man had his plans, naturally, and he didn't need to impede.

The old man and Jinghan sometimes understood things far better than he did!

Lin Yi hung up and called Fatty Lai, wanting to tell him about the situation, but he saw Tang Yun walking down the stairs wrapped in a towel!

"Yao Yao, where are my clothes?" Tan Yun had just finished showering when she realized that Yushu and Mengyao weren't there. She didn't even prepare any fresh clothes for her, and Tang Yun didn't want to rummage through their closets or anything. She came down the stairs, thinking that Lin Yi was outside moving stuff and that it would only be girls here. Of course, she'd be wearing a towel...

But Lin Yi was there! Tang Yun stood there at the stairs, naked except for a towel. From Lin Yi's angle, he could completely see the bottom part of Tang Yun. Lin Yi's breathing became very rapid!

The most intimate of actions he had with Tang Yun was holding hands and kisses on the cheek- but now, he saw Tang Yun's naked body! His heartbeat quickened.

"Ah!" Tang Yun saw Lin Yi as well and saw that look on his face. She realized by following his eyes where he was looking! Her face blushed, and she turned around to run upstairs, tripping on the towel. The entire thing came off, and she was in her birthday suit.

"Holy! Tang Yun's so aggressive, she's not thinking of doing 5p with us, is she?" Yushu's eyes were wide open as she looked at Tang Yun's naked chest before looking at her own, mumbling. "Hm, not as big as mine! But it's bigger than Yao Yao's."

Tang Yun was embarrassed enough as was, and she was even more so when Yushu said those things! She bent over to take the towel but froze. Wouldn't her butt be facing Lin Yi if she bent down like that? Wouldn't he see everything?

At that thought, she stopped her hand and simply ran up, ignoring everything else. Ahe wanted this to stop!

But, the more she wanted to run up in a panic, the more problems occurred! She stepped on the towel, and her body spun... She fell down the stairs!

"Ah!!" Tang Yun cried out, not expecting this turn of unfortunate vents! This was it. It was all over. Falling from here would break her bones, and she closed her eyes, not daring to open them...

Everything happened in one short instant, and Lin Yi's heartbeat, although quickened, pushed him to hold Tang Yun when he saw her fall, rescuing her.

"Oh, nice, Shield Bro! I don't have to worry about falling off the stairs anymore!" Yushu clapped her hands.

Mengyao was speechless. Yushu's words were true. Before Lin Yi came, there was one time she just finished showering and rushed down because the cartoon was playing. She didn't even wipe herself and charged down the stairs, resulting in her landing on her butt! She couldn't leave the bed for a couple of days.

Tang Yun thought that it was death for her once she fell off the stairs, but Lin Yi saved her! She was both happy and embarrassed because she was still naked!

Mengyao and Yushu sighed in relief. They didn't want any accidents moments before their departure!

Mengyao admired Tang Yun's dedication to Lin Yi, as well as her generosity in accepting Xiaoxiao- she felt that she had been too narrow-minded to think of her as her enemy, and so she started caring about Tang Yun now.

Yushu, on the other hand, was very grateful to Tang Yun ever since she accepted her- she didn't want anything to happen to her, naturally.

Yushu, on the other hand, had a grin on her face as she looked at Tang Yun. "Tang Yun sis, how does it feel to let Lin Yi hold your boobs?"

"Ah!" Only then did Tang Yun realize that Lin Yi's hands were pressing on her boobs! She subconsciously struggled, trying to get off!

Only then did Lin Yi realize that there was a soft lump in his hand. He didn't realize that during the emergency! He couldn't help but feel a bit regretful. If he'd known this was going to happen, he might as well have copped a proper feel! He didn't even feel anything yet, and now he had to let go!

He chuckled a little and let go, putting Tang Yun on the sofa, awkward. "Sorry, I didn't notice when saving you... Yao Yao, can you get Yun Yun some clothes, I'll turn away..."

Lin Yi wanted to continue looking, but he knew that it wouldn't be appropriate. She may be his girlfriend, but they weren't there yet, so he turned around nevertheless.
