

Bodyguard 1771

Chapter 1771: The cave Adventure 2 (1)

"I can hold an engagement ceremony with you here alone." Lin Yi said after some thought. In his heart, Tang Yun had a special place. Even if he liked Feng Xiaoxiao a lot, Tang Yun was his first girlfriend in the truest sense of the word, so her place in Lin Yi's heart would always be different.

Tang Yin was touched by Lin Yi's words, but she shook her head. "Forget it. Xiaoxiao won't be happy when she finds out."

"You ..." Lin Yi didn't know what to say. Tang Yin was always like this, always thinking about other people's benefits, just like when she accepted Xiaoxiao ...

"What about me? I'm just having a little conflict!" Tang Yin glared at Lin Yi before going back to her plate.

With the end of er goudan and Yu Yuanyuan's engagement party, Lin Yi welcomed his second five-year promise!

Today was the night of the full moon, and old Lin had called Lin Yi to his room early in the morning.

"Old man, you won't kick me down this time, will you?" Lin Yi joked as he entered. In fact, he was both excited and nervous. The day had finally come, and he'd been waiting for it for a long time. But when the day really came, he was worried that something might happen.

"You look very nervous." Old Lin looked at Lin Yi and teased, "Back then, I had no choice but to kick you down. I was just following an agreement with your master and ... That's all."

"I'm a little nervous, after all, it's been so many years ..." Lin Yi didn't hide it, "I hope I can succeed this time."

"Hehe." Old Lin smiled, "Oh right, I've asked about Tang Yin and the others "practitioner's Arts."

"What's the result?" Lin Yi quickly asked.

"There's no result." Old Lin shook his head. "That old friend doesn't have it either. You'll have to find it yourself. He asked me to pass you a message."

"One sentence? What did he say?" Lin Yi asked with a frown.

"When the car comes to the mountain, there will be a way. When the Boat Comes to the bridge, it will cross." Old Lin said.

"What's the meaning of this? Why does it feel like there's a hidden meaning to his words?" Lin Yi didn't quite understand what old Lin meant.

"Hehe, don't you understand? Let me tell you, you don't have to worry about this matter. Perhaps, under some kind of coincidence, you will find the mantra that belongs to them." Old Lin explained.

"Really? This person was a fortune-teller? Why do I feel like he's not reliable?" Lin Yi frowned.

“He’s really a fortune-teller, and he’s ... Pretty accurate too ...” Old Lin smiled bitterly. “At least, in some matters, it really came true ...”

“What do you mean?” Lin Yi was getting more and more confused.

“He read Feng Tianlong’s fortune back then.” “He once said that the chance to change her fate was in Xiaoxiao’s hands,” old Lin said, “and she really did manage to escape ... Before you went to the Ice Palace, even I didn’t have much hope ...”

“It can’t be?” Lin Yi was even more surprised.

“Hehe, maybe.” Old man Lin nodded.

“Alright,” he said. Lin Yi didn’t ask anything else. There were some things that old Lin didn’t say, which meant that the time wasn’t right yet. There was no point in asking. The old man was tight-lipped, and Lin Yi had learned it from a young age.

“Go, I know you can’t wait. I’ll help you explain to Tang Yun!” Old Lin said.

“Alright!” Lin Yi really wanted to go to the cave as soon as possible, even if he had to wait at the entrance.

Everything was so familiar, and Lin Yi arrived in front of the cave again.

Although it wasn’t night time yet, Lin Yi couldn’t help but go up and try it. The stone door didn’t open, which was within Lin Yi’s expectations, but he still couldn’t accept it without trying.

Since it was still early, Lin Yi decided to calm himself down and sat cross-legged at the entrance of the cave. He started cultivating, waiting for the night to fall ...

Slowly, night fell, and Lin Yi came out of the Jade space, returning to reality. He raised his head and looked up at the starry night sky with the full moon hanging in the sky ...

Lin Yi took a deep breath, stood up, and walked towards the cave.

He looked at the stone door in front of the cave and slowly put his hand on the stone door. After a while, he let go.

But this time, it wasn’t like the first time Lin Yi came to the stone door. At that time, Lin Yi only needed to put his hand on the stone door and it would open on its own. But this time, the stone door didn’t open!

Lin Yi blinked-did he count the days wrong?

“Elder Jiao, what’s going on? Why didn’t the stone door open?” Lin Yi had a teacher already, so he wasn’t in a rush.

“The first time the stone door opens, you can enter if you are fated to. The second time, it has already recognized you as its master. Try to use the art of Dragon mastery.” Elder Jiao said.

Lin Yi nodded and activated the art of Dragon mastery. He placed his hand on the stone door again, and this time, it didn’t take long for the door to rise up ...

“Phew ...” Lin Yi let out a breath of relief. Elder Jiao was right-the stone door was open.

It was the scene inside the door, just like ten years ago when he first saw it at the age of eight. This time, Lin Yi wasn't as surprised as before, and he didn't pay much attention to the hall. He went around the high platform and stood in front of the second level stone door!

The stone tablet in front of the stone door still had the same words Lin Yi had seen before. Five years later, when the divine skill was completed, one could only enter by striking the door. If things didn't go as planned and the divine Art wasn't completed, he would wait another five years before coming back to test it.

Last time, Lin Yi didn't know what these words meant, but this time, he understood that the divine skill on the stone tablet was referring to the art of Dragon mastery. Now that he'd completed the first stage, he only needed to get the second stage to start!

Lin Yi remembered the words “remember to leave before dawn, and the stone door will open in five years”-he didn't want to waste any more time. He'd be trapped in the stone door forever if he did.

Lin Yi started circulating the art of Dragon mastery in his body and slowly slammed his palm on the stone door! Lin Yi remembered clearly that the stone door didn't move at all the last time he pushed it! (To be continued.)

Chapter 1772: The cave Adventure 2 (2)

At first, Lin Yi only used a small amount of the art of Dragon mastery to open the stone door. Naturally, he couldn't use the art of Dragon mastery to its maximum, but the moment his palm touched the stone door, all the pure Qi in Lin Yi's body seemed to be activated, and his art of Dragon mastery was automatically raised to the completion of the first stage!

It was as if Lin Yi didn't even need to use his practitioner's Arts-the energy in his body was flowing into the stone door through his palm!

Lin Yi had never seen anything like this before. The art of Dragon mastery had only activated automatically when he was healing Xiaoxiao, but it was different this time. After all, one was transferring energy to a living person, while the other was to the stone door!

However, when Lin Yi opened the first stone door, he only needed to circulate the art of Dragon mastery for the stone door to open. This time, after circulating it for so long, the stone door still didn't move. Instead, all of Lin Yi's energy was poured into the stone door!

He was losing more and more energy, and he still couldn't stop it. Lin Yi finally panicked and wanted to ask elder Jiao what was going on!

“Elder Jiao, what's happening? Why did all the genuine Qi in my body automatically flow into the stone door?” Lin Yi asked, worried.

However, elder Jiao's voice didn't ring out. It was replaced by silence.

“Elder Jiao?” Lin Yi tried to call elder Jiao's name again, but it was still silent.

Lin Yi jumped and tried to enter the Jade space. After all, he had used up too much energy. He wanted to enter the Jade space to replenish his energy, but to his shock, he found that he had lost contact with the Jade space!

Lin Yi had never seen anything like this before, and it was as if the Jade space had been shut down. He couldn't enter it like he usually did.

However, the energy in Lin Yi's body was still flowing away at an unbelievable speed. In the blink of an eye, there was only fifty percent left, then forty percent, thirty percent ... Lin Yi's energy was only ten percent left, but the stone door in front of him didn't move at all!

Could it be that he had not achieved initial success in his divine arts? Could it be that the initial completion of the first stage of the art of Dragon mastery didn't mean that there was another meaning to it?

As he was thinking, the last bit of energy in Lin Yi's body poured into the stone door, but the stone door still didn't show any signs of opening!

This made Lin Yi very depressed—he'd waited for ten years, ten years for this weird result. Not only did the stone door not open, but he'd lost all his Qi too, and the Jade space had lost its effect.

Could it be that the cave itself was a scam? Let me cultivate first, and then take back the true Qi in my body? Or did he have other motives?

Normally, Lin Yi wouldn't mind losing his Qi at all. With the Jade space, he could recover it in one night. But now, the Jade didn't work. He wanted to cry but no tears came out.

Just as he was about to let go and check if the space was still working, he realized that his hand was stuck to the door like super glue! Lin Yi subconsciously put his left palm on the stone door, trying to move his right palm away, but the tragedy was that his left palm was also sucked onto the stone door, and he couldn't open it anymore!

But just as Lin Yi was feeling sad and angry, he suddenly felt a strong pure Qi from the stone door, flowing back into his body through Lin Yi's palm!

And this energy seemed to be even purer than Lin Yi's all-purpose energy from before, as if it had been filtered!

Of course, all of this wasn't under Lin Yi's control. The energy was flowing back, just like when he lost it. It was completely involuntary, and Lin Yi could only passively endure it. The art of Dragon mastery in his body was circulating at full speed at the first stage.

Finally, all the lost energy returned to Lin Yi's body, and his strength returned to its previous state. The only difference was that the energy in Lin Yi's body was purer than before, and Lin Yi could clearly feel it!

Just as Lin Yi was feeling excited about his strength returning, the energy in his body started circulating again, continuing to flow into the stone door from Lin Yi's palm! This time, Lin Yi was surprised, but he wasn't as scared as before. Since he couldn't stop it, he'd just wait and see!

As expected, after all the energy flowed into the stone door, the phenomenon of energy flowing backward appeared again. This time, the energy flowing into Lin Yi's body seemed to be purer than last time!

However, it was too early for Lin Yi to be happy. The situation this time was different from last time. The energy entered Lin Yi's body through his left palm and flowed back to the stone door through his right palm ...

At that moment, Lin Yi entered a mysterious state. It was as if he had become one with the stone door, and the stone door was a part of his body. His Qi was flowing back and forth in the door!

He decided to just close his eyes and let go of the resistance. He followed the stone door and activated the art of Dragon mastery, trying to see what the stone door was up to!

The energy had been circulating through the stone door and Lin Yi's body for who knew how many rounds, and it was only when Lin Yi got tired of it that he suddenly realized that the speed of the energy loss from his right palm had slowed down. It was obviously slower than the speed of the absorption of the energy from his left palm!

Gradually, the rate of absorption slowed down as well. Lin Yi wasn't surprised-the slower the rate of loss, the slower the rate of absorption, but he didn't know if this represented good or bad.

Immediately after, Lin Yi could clearly feel that the speed of energy loss and absorption became slower and slower, until finally, it stopped! The moment it stopped, a loud "boom" came from the stone door, pushing Lin Yi to the side instinctively!

As the stone door rumbled, the second stone door slowly rose up, just like the first stone door ...

Lin Yi didn't know whether to laugh or cry.

His strength had returned, and his energy seemed to have become purer. The second stone door had also opened as promised! (To be continued.)

Chapter 1773: The cave Adventure 2 (2)

"Lin kid, did you just call me?" The moment the stone door opened, Lin Yi heard elder Jiao's voice.

"Elder Jiao, where did you go just now? I've called you so many times, but you didn't answer. Now that the matter is over, you finally speak?" Lin Yi didn't know what to say.

"Just now, the connection between you and the Jade space was cut off. Didn't you feel it? I can hear you, but I can't communicate with you." Elder Jiao said.

"I see ..." Lin Yi sweated-he didn't want to blame elder Jiao for this, but now that he was back in contact with the Jade space, he let out a breath of relief,""The strange phenomenon at the stone door gave me a fright. I've never had such an experience before. I thought not only was my strength sucked away, but the stone door couldn't be opened either!"

"Uh ... Just now ..." Elder Jiao muttered,""As the stone door opened, I've also recovered some of my memory ... Earlier, did the stone door absorb your energy and then return it to you?"

“That’s right, it’s exactly like that!” Lin Yi said with a nod.

“This is a very normal situation. The stone gate is only testing you!” “The first stone door can be opened by using the art of Dragon mastery, but the second stone door will only open if you’ve completed the first stage and entered the second stage!” Elder Jiao said.

“So that’s how it is!” Lin Yi understood, but the question that followed still confused him. “Elder Jiao, if that’s the case, then the stone door can just return my energy to me after absorbing it. Why do I feel that after the energy returns, it enters the stone door again, then passes through my left and right hands, as if it’s going through some kind of cycle, circulating many times before it stops?”

“Haha, you’re asking about this?” Elder Jiao had recovered a part of his memory, and he could answer most of Lin Yi’s questions. “The stone door is meant to filter and purify the energy in your body. Because the energy in your body doesn’t completely come from the pure energy in the Jade space, a part of it comes from the spiritual energy of heaven and earth that you’ve cultivated, and the other part comes from the Qi gathering pill that you’ve taken, which also causes the energy in your body to not be particularly pure. So, in order to let you better cultivate the second stage of the art of Dragon mastery, before the stone door opens, it will automatically filter and purify the energy in your body! Don’t you feel that the energy returning to your body has become purer?”

“Indeed!” Lin Yi nodded. He didn’t think that the stone door would have such a benefit. He thought that he only needed to keep the five-year promise and activate the art of Dragon mastery to open the stone door!

“Lin kid, it’s almost dawn, and you’re still talking nonsense with me?” “If you have any questions, you can ask me when we get back,” elder Jiao suddenly reminded. “Take your stuff now and leave, or it’ll be too late for you to regret it!”

Lin Yi’s heart skipped a beat—it was bright as day inside the cave, and he couldn’t sense what was going on outside, but after hearing elder Jiao’s words and looking back, he realized that there was a faint white light outside the cave. It was almost dawn!

With that thought, Lin Yi quickly got up and walked towards the second stone door that was already open!

However, when Lin Yi entered the second stone door, the scene behind the stone door made Lin Yi very disappointed!

Behind the second stone door, there wasn’t any of the Grand Hall that the first stone door had—it was replaced by a simple room. The room was made of stone, and it didn’t look luxurious at all. But what made Lin Yi curious was that there wasn’t anything that looked like a light source in the room, but it was still bright as day. He didn’t know what was giving off this light.

But Lin Yi wasn’t surprised. He’d experienced the strange things in the cave ten years ago, so he wasn’t surprised by anything.

In front of the stone room, there was a small high platform. On the high platform, there was an ancient-looking small box. Other than that, there was nothing else!

Perhaps this was the chant for the second stage of the art of Dragon mastery? But Lin Yi was a little confused. Elder Jiao said that the second stage of the art of Dragon mastery had some benefits, and one of the biggest benefits was that the Jade space could become a storage space to store things. But now it seemed that there was only the second stage of the arts here, and nothing else. Could it be that the second stage of the arts would automatically open the storage space?

Although the scene behind the second stone door made Lin Yi a little disappointed, it was still within his expectations. A small box was all he got from this cave trip! Lin Yi went around the platform and saw the third stone door!

Next to the third stone door, there was a similar stone tablet with a line of words written in seal script:

Once the second level of the divine Art was completed, the stone door could be opened.

This line of text formed a sharp contrast with the text on the stone tablet, and Lin Yi almost cried! That's great! Since it's written like this on the stone tablet, it probably means that there's no need to keep the five-year promise on the night of the full moon. As long as I complete the second stage of the art of Dragon mastery, I can open the third stone door!

With that, Lin Yi wasn't in a rush to investigate. He went up to the platform and took the box, turning around and walking out of the cave!

He didn't know how long it took him to open the second stone door, but the sky was definitely dark. If it weren't for elder Jiao's reminder, he might've missed the time and would be in big trouble. So Lin Yi didn't rush to check the box. It was the same as going back to check-he wouldn't be able to get out of the cave!

Although Lin Yi's energy was self-sufficient and he wouldn't die even if he was trapped in the cave for five years, there were so many things waiting for him outside. How could he just stay here forever?

Plus, there was nothing left in the cave that Lin Yi was reluctant to part with anymore. All the benefits were in this box. Lin Yi didn't even look back and rushed back to his home in the village.

"You're back?" Lin Yi didn't think that old Lin wouldn't rest the whole night, sitting on the recliner in the courtyard, quietly waiting for Lin Yi's return. Old Lin's eyes opened when he saw Lin Yi. (To be continued.)

Chapter 1774: The small wooden box

"En!" Lin Yi was touched. Old Lin might be a bit unreliable sometimes, but he really did care about him. Otherwise, he wouldn't stay up late at night and wait for Lin Yi to come back!

"You got something?" Old Lin smiled, his heart relaxing.

"It's all here!" Lin Yi shook the wooden box in his hand, his heart filled with emotions!

Lin Yi was both surprised and disappointed at the same time! Ten years of anticipation had only been exchanged for a small box. This was the only thing in the stone room, but it was extremely precious. The second stage of the art of Dragon mastery must be in it.

“Hehe, I should also go rest.” Old Lin yawned as he stood up, staggering back to his room.

Looking at old Lin’s back, Lin Yi sighed. Old Lin would make things difficult for him sometimes, but he really cared about him, just not showing it. This was similar to the Miss, but old Lin’s personality was different from the Miss’.

Lin Yi’s heart was filled with a strong sense of affection. Lin Yi had always called old man Lin “old man” with his mouth, and it didn’t seem very respectful, but in Lin Yi’s heart, he had always treated old man Lin as his master and grandfather!

He might look like he didn’t care about Lin Yi, but he was actually very thoughtful.

Lin Yi only returned to his room after old Lin went back to his room.

He put the box on the table and took a deep breath. He was already excited, but now that he was home, he was much calmer.

“Little Lin, are you very happy and excited?” Elder Jiao’s voice sounded in Lin Yi’s ears.

“Elder Jiao, don’t make fun of me, of course I’m happy and excited!” “It’s been a dream of mine for ten years, and it’s finally come true!” Lin Yi smiled bitterly.

“Haha, what are your thoughts?” Elder Jiao asked jokingly.

“Speaking of feelings, it’s actually a little different from what I expected!” “I thought there’d be more behind the second stone door,” Lin Yi said honestly, “but I didn’t expect to get a small box again! If it wasn’t for the time constraint, I would have turned that stone room upside down!”

“Hmph! Fortunately, I warned you. Otherwise, when the stone gate closes, you might not be able to see the light of day again!” Elder Jiao didn’t really care about Lin Yi’s greed, “Besides, it’s obvious what’s in that stone room. According to my memory, there’s only this small box behind the second stone door!”

“That’s good!” Lin Yi let out a breath of relief, “I hope I can complete the second stage as soon as possible and open the third stone door!” Now, I’m full of anticipation for the third stone door ... Eh? That’s not right. Since the third stone door can be opened at any time, doesn’t that mean the five-year agreement is invalid? Even if the stone door is closed, I can still go out at any time, right?”

“Your thinking is simple. What are the conditions to open the stone door of the third floor?” Elder Jiao asked.

“Stage two top class ...” Lin Yi blinked and suddenly reacted, “In other words, I can only open the stone door again when I’m at the completion of the second level?”

“Naturally, it’s written clearly on the stone tablet!” Elder Jiao said.

“Does that mean that the first stone door also has the effect of testing one’s strength?” Lin Yi asked, surprised.

“What do you think?” Elder Jiao blinked and asked. In fact, he didn’t know who designed these delicate mechanisms or how they were designed. He hadn’t recovered his memory, so it was just an illusion. He couldn’t answer things beyond the scope of his second layer of memory.

"I guess that's the case ... In other words, if I'm locked inside the stone door, I can only cultivate to stage two top class before I can leave?" Lin Yi asked.

"That's impossible. If you're trapped inside, you'll probably have to wait for five years." Elder Jiao denied.

"Oh? Then why?" Lin Yi asked after a pause.

"Hehe, you'll understand when you see the cultivation technique in the wooden box!" Elder Jiao laughed.

Since elder Jiao kept him guessing, Lin Yi didn't ask any further. It seemed like he could find the answer in the wooden box!

Lin Yi opened the box slowly, and this time, there wasn't any obstruction. The purpose of the cave's construction was achieved after passing the test of the stone door. They knew Lin Yi's strength, so they didn't put any obstacles on the box.

The wooden box opened, but there wasn't a God-defying item like Lin Yi had imagined. He'd hoped to get something similar to a jade pendant from the box, but there wasn't anything.

There were three neatly folded silk scrolls in the box, and Lin Yi's eyes lit up at the sight.

There was only one silk scroll in the first wooden box, but there were three silk scrolls in the second wooden box. Could these be the mental cultivation techniques for the second to fourth stages of the art of Dragon mastery?

Lin Yi would be overjoyed if he could learn the last three levels of the practitioner's Arts. He'd made a killing this time!

After calming himself down, Lin Yi picked up the first silk scroll and opened it carefully, afraid of breaking it.

"Art of Dragon mastery" the five words jumped into Lin Yi's eyes. He'd seen the same words in the first level of the art of Dragon mastery in the silk scroll. Seeing it again ten years later made Lin Yi's blood boil with excitement!

The silk scroll from before was already stored away by Lin Yi, and he'd read the practitioner's Arts thousands of times already. He'd memorized it by heart, so it was only natural that he'd feel this way when he saw this again.

Under the title of this mental cultivation method was a line of small words. It said, "second stage of the misty white Crane." However, unlike the first stage of the mental cultivation method, there was a line of annotations behind the title!

The note was very eye-catching, and the font was even bigger than the title. Lin Yi didn't dare to neglect it and quickly read it carefully.

"The first stage of the mental cultivation method is like a heavenly silkworm spitting out silk. The second stage is like a White Crane spreading its wings and flying high, which is a change in the body. To cultivate the second stage, you must first temper your body. The first step can be completed through the second

stone door, and the second step requires you to gather all the herbs and consume them to complete the body tempering!" (To be continued.)

Chapter 1775: Very disappointed

"Remember, before the body tempering is completed, do not cultivate!"

These two lines of notes made Lin Yi frown. He wanted to start training after getting the second stage of the art of Dragon mastery, but after seeing the notes, he could only give up on that idea.

As the saying goes, haste makes waste, but where was the so-called body tempering prescription? Could it be one of the two remaining silk scrolls?

With that thought, Lin Yi put down the second level and took out the second silk scroll from the box. He opened it carefully and started reading!

The words "body strengthening prescription" entered Lin Yi's eyes. As expected, it was a prescription. With his deep understanding of medicine, Lin Yi could tell that it was a prescription with one look. Fortunately, it was a prescription and not a pill recipe. If it was a pill recipe, Lin Yi would be crying his eyes out!

The recipe didn't need to be refined by the fire-it was Lin Yi's specialty! Lin Yi finally understood what elder Jiao meant! If he didn't use the body tempering recipe, he definitely couldn't reach the second stage of the art of Dragon mastery!

Where was he supposed to get the medicine in the cave? Not to mention the second level, he might even have to wait five years in the cave before he could see the light of day again. Lin Yi's back was covered in cold sweat, thinking that he was lucky!

Below the "body tempering medicinal formula," there were four large words, "jade pendant condensation"!

Lin Yi didn't even think about studying the recipe after seeing the words-he focused all his attention on the "Jade refinement" instead! Lin Yi remembered that elder Jiao said that opening the second stone door would give him the same benefits, but he didn't remember it clearly at the time, so he didn't say much.

Now, it seemed that this was the method to transform the Jade space?

Lin Yi continued to read-there was a line of smaller text below the words "condensed jade pendant." "The second level is to condense the Suan Ni's storage space."

Lin Yi couldn't help but wonder-could it be that the Jade had a first level? Otherwise, how could it directly become the second level of condensation? Lin Yi asked, confused, "Elder Jiao, did I miss something behind the first stone door? How come this is the refining method of the second level and not the first level?"

"I didn't. The first layer was completed by someone else for you. Your jade pendant didn't have a cultivation space before, and with your strength when you just opened the stone door, it was impossible to refine it. So, the person who made the jade pendant did it for you. As for the second layer, you'll have

to think of a way yourself.” Elder Jiao’s memory seemed to have recovered quite a bit, and he could answer Lin Yi’s questions now.

“I see!” Lin Yi nodded and continued reading. Compared to the previous recipe, he was more interested in the refining of the Jade!

Chapter 1776: A strange martial skill

“Isn’t that the same as not saying anything?” Lin Yi really wanted to beat the crap out of him after hearing the explanation—he’d come to the cave full of hope, and this was what he got in return!

He was actually asking him to condense the jade pendant instead of directly adding storage space into the jade pendant!

“Just collect them slowly. You’ve already waited for ten years. What’s so short of this little bit of time?” Elder Jiao couldn’t help but shake his head when he saw how worried Lin Yi was, “Do you know why I told you to wait five years before opening the stone door?”

“Oh?” Lin Yi asked, confused. “Why?”

“You’ve seen the speed of your cultivation in the Jade space. If you keep on cultivating, you’ll be able to complete the first stage of the art of Dragon mastery in less than three years. Am I right?” Elder Jiao asked.

“Indeed!” Lin Yi thought about how he broke through the bottleneck on the first night he entered the Jade space, successfully entering the second stage of the art of Dragon mastery from the first stage. This was enough to prove the magical effects of the Jade space!

The three years that elder Jiao had given him was a conservative estimate. If he was a little faster, he might be able to enter the second level in less than three years.

“So, why did you make the five-year agreement?” Elder Jiao paused for a moment before continuing, “I’m afraid that you’ll be too impatient and directly open the stone door to the second level. You’re still young and your heart is unstable. I’m afraid that if you’re too impatient, you won’t be able to reach your goal! It’s not a good thing to rush to cultivate the second level when your first level has not yet stabilized!”

“So it’s like this!” Lin Yi nodded. “Then there’s no rush in making this Jade. We’ll gather the materials first and complete the second stage of the art of Dragon mastery!”

“It should be like this!” Elder Jiao said.

Now that he’d made his decision, Lin Yi didn’t need to rush to see how to make the Jade. He didn’t have all the materials, so it was useless!

Lin Yi put down the second silk scroll and picked up the last one. He didn’t know why, but he suddenly felt nervous! The last file was his only hope—it was the last benefit in the box, and it was hard for Lin Yi not to be nervous!

This time, Lin Yi came to the cave to get the second stage of the art of Dragon mastery, but he also had another hope—he wanted to find a suitable martial skill for himself!

The earth Class Masters he'd met, other than boss Yu, all had their own skills, but Lin Yi had uncle Fu 's. Maybe it was because it didn't match the art of Dragon mastery, but Lin Yi hadn't made much progress after all this time-he wasn't their opponent at all!

If he didn't have a strong martial skill, then the advantage he had when he was in Mystic class would be gone.

So Lin Yi really hoped to find a martial skill that suited him in the cave. He was even certain that there was a martial skill that suited him in the cave. Where else would he find one?

The last silk scroll was Lin Yi's hope.

He took a deep breath and opened the third scroll, but when he saw the word "martial arts," he instantly became excited, his face turning red. It really was a martial arts! Sure enough, behind the second stone door of the cave, there was a book of martial arts!

However, when Lin Yi calmed down and started reading the details, he was confused again! What kind of martial technique was this? It was just the word "martial arts," and the main body was right below it. There were no subtitles to explain the name of the technique, and that wasn't all. What confused Lin Yi even more was that the main body of the technique was a practitioner's Arts!

The content and method of channeling were similar to the art of Dragon mastery! But, these were just Qi Practitioner's Arts-there weren't any specific moves. What kind of martial arts was this without moves?

Could it be that after cultivating the mental cultivation chant of this martial technique, one would be able to use moves? No matter how Lin Yi thought about it, it didn't seem possible. It wasn't realistic at all-this was just luck. There wasn't a single word about fighting an enemy, and Lin Yi wondered if he'd been tricked.

However, according to the previous situation, the art of Dragon mastery was such a powerful cultivation technique. How could it be possible for such a situation to occur? Lin Yi had no choice but to continue asking elder Jiao,"Elder Jiao, what's with this martial skill? Why is there only one part of the cultivation chant and no specific cultivation technique?"

"I've said it before, haste makes waste. I haven't fully recovered my memory of martial arts, so how would I know what's going on?" Elder Jiao said helplessly,"our original plan was for you to be Mystic at most when you open the second stone door, so the martial arts were only for you to use before you open the third door, in case you break through to Earth Class. That's why it was placed at the back of the box. My memory has only just recovered a little, not completely. I can't explain it to you even if you ask me now!"

"..." Lin Yi was speechless. He blamed himself for not entering the Jade space to train. Otherwise, he would've gotten the second stage of the art of Dragon mastery five years ago. Elder Jiao's memory would've been fully recovered by now, right?

But since elder Jiao didn't know, he'd have to figure it out himself-he'd have to wait until he got his memory back! What made Lin Yi worried was that last sentence-what if it was for breaking into Earth Class?

Could it be that he had delayed it for five years, and this martial technique was just a mental cultivation method to lay the foundation before learning a real martial technique? And the real martial arts technique would only be obtained after the third stone door was opened?

Lin Yi's heart went cold at the thought. His deduction was possible!

If he'd entered the Jade space earlier, he would've been a Mystic at most five years ago. Having a Foundation for Earth Class skills was a good thing-he'd be able to start training after opening the third stone door.

But he'd been delayed for five years, and everything had gone awry. His strength was higher than expected, and he'd already reached the early phase of the earth Class. His practitioner's Arts couldn't keep up with his training speed! (To be continued.)

Chapter 1777: Suspicion (part one)

Perhaps this was also why the art of Dragon mastery was invincible before Earth Class, and he was known as the number one under Earth Class!

However, after he entered the earth Class, it was completely different. It felt very difficult to fight against an enemy!

Even if he was facing an expert of the same level, if he did not use such an overbearing trump card as the true energy bomb, he would not have any confidence in winning!

Lin Yi felt depressed at the thought! If he had to wait until he had completed the second stage of the art of Dragon mastery before opening the third stone door to obtain the martial arts technique, it would be too late! However, the situation was already like this, and it was impossible for Lin Yi to change it.

The only thing he could do now was to cultivate the second stage of the art of Dragon mastery to the great circle while practicing this 'martial technique'. Then, he could open the third stone door!

Lin Yi sighed and copied down the second silk scroll before folding the three scrolls carefully and putting them away. He took the recipe to old Lin for research.

This was because, while most of the ingredients were common, there were a few that Lin Yi had never even heard of. Old Lin was well-read, and should know what these were.

Even if it didn't work, he could still find some substitute herbs to help Lin Yi reach the second stage of the art of Dragon mastery! After seeing the "martial skill," Lin Yi couldn't wait to get the art of Dragon mastery to stage two top class!

.....

Lin Yi didn't stay with Tang Yun and the others at night, so they naturally didn't know what Lin Yi was doing. It wasn't that Lin Yi wanted to hide it-although Tang Yun, Yaoyao, and Shu were the closest people to Lin Yi, there were too many people to talk about. Even er goudan didn't know the Secret of the Cave, so Lin Yi naturally wouldn't tell anyone.

If the cave was discovered by someone else, it'd be too late for Lin Yi to cry.

Lin Yi walked out of his room and into the yard. The sun was shining brightly outside, and he remembered that old Lin hadn't slept at all last night. He was probably resting right now, but Tang Yin and the others were already awake. They were surprised to see Lin Yi.

"Lin Yi, Grandpa Lin said that you went hunting in the mountains yesterday and didn't come back at night. You only came back in the middle of the night?" Tang Yin wasn't worried about anything happening to Lin Yi-with his strength, what beasts could do anything to him?

"Yeah, I came back in the middle of the night." Lin Yi nodded, "I was planning to get some wild chickens for you guys to eat, but I haven't found any yet. Forget it, I'll go buy a few later."

Tang Yin and the others didn't think too much of it-hunting wasn't like anything else. Sometimes, you'd go out of your way to look for a specific animal, but you might really miss it. It was only natural that Lin Yi didn't manage to find a wild chicken even after midnight.

"Eh? Where's Grandpa Lin? Why don't I see him?" Chu Mengyao looked at the yard curiously.

Old Lin was the first to wake up every morning, and he would be out in the yard, sunbathing and chatting with Tang Yun and the others. But today, there was no one on the recliner, and Lin Dongfang's bedroom door was closed, which made Chu Mengyao and the others feel strange.

"Haha, I slept in today!" Lin Dongfang pushed the door open and walked out as soon as Mengyao finished speaking, looking energetic and energetic, not like someone who hadn't slept at all. But Lin Yi knew that while old Lin was a physical practitioner with no class, he had some spiritual practitioner's Arts. He wasn't Sky Class yet, but he was at a very high level. He'd be back to normal after a night without sleep, with just a little rest.

Lin Yi nodded and smiled, not saying anything. He had some questions to ask old Lin, but they hadn't eaten yet, so he decided to prepare breakfast first.

The breakfast at the farmhouse was simple, with only porridge and pickled vegetables, but even so, Tang Yun and the others ate it with relish! The pickled vegetables were made by Lin Yi himself, and they'd all seen his skills before. Just a few simple side dishes were enough to make them drool.

"Old man, are you free?" Lin Yi asked after breakfast. I have some medical problems that I want to discuss with you?"

"Medical skills?" Old Lin blinked, not sure what Lin Yi wanted to discuss with him at a time like this. He nodded, "Alright, what about Yunyun and the others?"

"We'll go look around the village first and play with er goudan and Yu Yuanyuan. Lin Yi, you can do what you need to do first," Tang Yun, Chu Mengyao, and Chen Yushu had gotten familiar with the village these few days. They basically knew each family and were going around every day, taking photos and having fun.

"That's fine." Lin Yi wasn't worried about the girls "safety-he knew everyone in the village, and there couldn't be any bad people.

After the meal, Lin Yi followed old Lin to his room. Old Lin was a little troubled that Lin Yi wanted to discuss medicine with him. "Didn't you get the second stage of the art of Dragon mastery? Why aren't you in a hurry to cultivate? why are you here discussing medical skills with me?"

Lin Yi couldn't help but smile bitterly at old Lin's words,"Old man, I've obtained the second stage of the mental cultivation method. However, there are prerequisites to cultivating the second stage!"

"Prerequisite? What is the prerequisite?" Old Lin asked curiously.

"Body tempering! You must use medicine to temper your body. You can only cultivate after you have tempered your body!" "And what I want to discuss with you is the body strengthening recipe!" Lin Yi said.

"So it's body tempering!" Old Lin heard Lin Yi's words and nodded, his face full of realization.

"So it's body tempering? I say, old man, do you know something? From your tone, it seems like you understand?" Lin Yi was good at reading people's expressions, and he looked at the old man suspiciously. It was as if he knew something.

"Since you've seen through it, I won't hide it anymore. When you were cultivating the first stage of the art of Dragon mastery, you also went through body tempering, but I was the one who made the prescription for you. Do you remember that I used medicinal liquid to soak your entire body every day?" Lin Dongfang did not hide anything.

"Oh? So you're saying that you already knew that I would cultivate the art of Dragon mastery before I went to the cave?" Lin Yi had his suspicions before ...

He had a feeling that it was strange that old Lin had called him to the peak of West Star to test his martial arts on that full moon night ten years ago! (To be continued.)

Chapter 1778: Suspicion (part two)

Lin Yi thought that it was too much of a coincidence that old Lin had sent him to the bottom of the valley and right in front of the cave.

And especially that time when he had just returned and showed the Jade in the box to old Lin, the old man had been very surprised! Old Lin wasn't even that surprised when he showed him the box, as if he'd known all along.

But when he saw the Jade, he was shocked beyond words. He couldn't figure out what was hidden in that expression back then, but now that he thought about it, he could pretty much guess it! The only possibility was that old Lin knew about the cave and knew that there was a small box in the cave with the art of Dragon mastery inside!

Otherwise, old Lin wouldn't have been able to concoct the medicine for him to temper his body before this! But the existence of the Jade seemed to have exceeded old Lin's expectations! Old Lin must have known about the Jade, but he was surprised that it was in the box too!

This meant that the Jade was a very important treasure, but old Lin wouldn't say anything. Lin Yi knew that it was useless to ask. Old Lin wanted to say it, but he did.

"I know." "That old friend of mine told me about it!" Old Lin said.

"That fortune-teller?" Lin Yi asked.

"That's right, it's him!" Old man Lin nodded.

"Can you be more specific?" "I feel like there's a lot of things I don't know, including my master's sudden departure. You must know." Lin Yi frowned.

"No, I'll tell you when it's time." Old Lin's expression was the same as usual, but his words were firm.

"Alright, let's continue with the research on the prescription." Lin Yi knew the old man's personality, so he didn't say anything more. He gave the recipe he copied to the old man, "Most of the commonly used medicinal herbs can be obtained here. There are many of them in your herb garden!"

In the West Valley, old Lin had his own herb garden, and there were many precious herbs planted there. Most of the herbs on the recipe were there, but there were a few that Lin Yi had never even heard of.

"Grain grass? Resting fruit? Ponytail bamboo ... Old Lin mumbled to himself, then shook his head. "I've never heard of it either. Let's look it up in the pharmacological books together. Perhaps there's an ancient book that has it ..."

"Still investigating?" Lin Yi couldn't help but feel bitter. It took a lot of effort to get Xiaoxiao's fire spirit fruit, and now they were missing three ingredients. How long would it take?

"It shouldn't be too hard to find. I don't think it's something as heaven-defying as the fire Spirit's fruit. It's probably just rare, or there might be other names. Let's look for it!" Old man Lin said as he got up and walked towards the study.

Lin Yi, on the other hand, had no choice but to follow old Lin into the study.

Old Lin had a lot of books in the library, but Lin Yi's computer had scanned versions. Lin Yi flipped through the books on the computer, while old Lin flipped through the books on the shelves. Old Lin wasn't used to using the computer, but the two of them didn't have any conflicts.

Three days passed by in the blink of an eye.

Old Lin was right about these three herbs. They were extremely rare herbs. Grain grass and ponytail bamboo had other common names, and they were grown in old Lin's herb garden. As for resting fruit, they didn't!

Old Lin could only ask a few suppliers, but it was to no avail. Lin Yi also told fatty Lai to look for it, but there was still no news of resting fruit even with miracle doctor Guan's medical company's channels. It seemed that this herb was really rare.

"Can I not add this herb?" Lin Yi frowned, but shook his head after that. "It shouldn't be possible. The resting fruit is essential for suppressing fire and concentrating the mind in the entire prescription ..."

With Lin Yi's medical skills, it was natural that he could understand the effects of the various herbs in the recipe. Even if he couldn't write the recipe down, he could understand it by looking at it.

“You already know and you still ask?” Old Lin shrugged. “There’s nothing I can do. I didn’t find the common name for the resting fruit in the information. I only found some introduction to the medicinal properties and Pharmacology of the resting fruit. This means that this thing definitely exists, but I don’t know where it grows.”

“Yes, there are many herbs that can suppress fire and concentrate. This resting fruit is not a necessary herb. If it was a relatively rare herb, it would have been replaced by other herbs ... Yes, replacement!” Lin Yi’s eyes suddenly lit up as he slapped his thigh, “It can be replaced, why didn’t I think of it earlier?”

“Hmm ... If we’re talking about substitutes, there are some medicinal herbs with similar medicinal properties and Pharmacology!” Old Lin nodded. “I’ll look up the medicinal effects of resting fruit and find a similar medicinal herb ...”

“There’s no need to look for it, I just know how to blindly!” Lin Yi shook his head. It seemed that he and old Lin had both walked into a dead end. Changing recipes was his specialty. The Golden creation medicine and the longevity and toxin cleansing recipe were all modified by Lin Yi, and there were no problems with the effects. Lin Yi was very confident in this!

In the next few days, old Lin and Lin Yi started making the body strengthening medicine. Tang Yun, Chu Mengyao, and Chen Yushu knew that Lin Yi was preparing for his next level of cultivation, so they naturally didn’t disturb him. Besides, they still hadn’t had enough fun yet. Er goudan would bring them around the mountains and forests every day, making them have a lot of fun!

When everything was ready, Lin Yi finished making the body-strengthening medicine for both internal and external use and prepared to go into isolated practicing. With old Lin here to guard him, it was the safest for him! Old Lin’s attack power wasn’t any weaker than er goudan’s, and while er goudan was a bit stronger, it was more than enough for old Lin to deal with a normal enemy. Plus, old Lin had an obvious advantage over er goudan, and that was his golden clock protection skill. Normal people couldn’t do anything to him.

However, old Lin was the same as er goudan—he couldn’t leave the village because of the spring.

However, while Lin Yi was in his retreat, not long after the noble House meeting ended, the hidden houses all sent their important figures to hold a meeting for a big discussion! (To be continued.)

Chapter 1779: different thoughts

This time, regardless of whether there were estrangement between the hidden houses or not, all of them had sent their people, and all of them were the heads of their own houses, the old heads of their houses!

These old masters had come personally to discuss an important matter! These hidden houses were mostly competitors, but when it came to common interests, they would work together.

“Old man Zhao, I didn’t think you’d be Sky Class early phase already. I remember that you were still Earth Class late phase peak when I asked Chen to celebrate your birthday last year, right?” The elder looked at his in-law in surprise—he didn’t think that he’d be able to reach the peak in less than a year, becoming a Sky Class master!

“Hahahaha, am I really that useless in your eyes? What, are you feeling uncomfortable now that I’ve become a Sky Class?” Old Zhao laughed, “your in-law is already a Sky Class master. How can I not work hard?”

“That’s true! Our Yu and Zhao families have always been close, and I’m naturally happy that your Zhao family is thriving!” The elder then turned to Zhao Guangyin, who was standing behind old Zhao, “Guangyin, I heard from Xiaojin that you’re going to bring back an illegitimate child? What was going on? It’s okay for a man to be a bit dissolute, but don’t cause family conflicts because of this, okay?”

Guangyin’s face reddened-the elder may have just said it in a light tone, but for a Sky Class to ask about it meant that it wasn’t a small matter. It meant that the elder wasn’t happy with what he did!

With that in mind, Zhao Guangyin could only brace himself and say, “Father-in-law, this matter was decided by our Grand Elder, not Guangyin ...”

He could only push all the blame onto old master Zhao-in fact, it was the old man’s decision, and now that both old master Zhao and house Yu’s elder were Sky Class Masters, there was no way they’d fall out over something like this!

In the hidden houses, once an elder became a Sky Class master, they would all call him “old master” because the lifespan of a Sky Class master would be extended. After becoming a Sky Class master, they would be able to protect the house for at least another hundred years, so calling him “old master” wasn’t too much!

“This is my idea!” Zhao Yu’s father took over the matter. “No matter what, he’s still a child of house Zhao-it’s not a big deal to bring him back while I’m in the middle of breaking through to Sky Class.”

The elder of house Yu nodded and didn’t say anything else. Although his daughter was a little unhappy about this, this was house Zhao’s business after all. Since the old man had said so, he naturally couldn’t say anything more.

Of course, if the old man hadn’t broken through to Sky Class, then it would be a different story. A Sky Class master was like a Guardian to a hidden house-as long as they had a Sky Class master, and the house wasn’t stupid enough to mess with a stronger power, then the house wouldn’t fall for the next hundred years.

However, if some of the young people in the family were so confident that they had no brains and provoked an even more powerful force, then it would be a different story!

However, a hidden house with a Sky Class master was already on par with an ancient sect-even the ancient sects that only had one or two Sky Class Masters would have to think twice before making a move on a hidden house with a Sky Class master!

So for old Zhao to break through into Sky Class, it was both a good and bad thing for the elder of house Yu! The good thing was that house Yu and house Zhao were allies, but the bad thing was that house Yu wouldn’t be able to control house Zhao anymore!

House Yu’s old elder’s original plan was to wait for Yu Xiaojin and Zhao Guangyin’s child to grow up and take over house Zhao. At that time, with the old elder as a grandfather, he could more or less interfere

with the decisions of house Zhao. But now that the old elder was there, even if his grandson became the head of the house, he couldn't make big decisions on his own!

Just like house Yu's Yu Xiaochen, when it came to house Yu's own benefits, they had to ask the elder.

House Zhao's breaking into Sky Class was something the other hidden house heads were curious about as well-they didn't know what happened to their old man this year, but it wasn't something they should be asking about. They themselves didn't even tell others how they broke into Sky Class, and they couldn't expect anyone to tell them.

"Congratulations, old friend Zhao!" This time, it was the elder of house Pi who spoke. He was a Sky Class as well, but a physical Sky Class-breaking through to Sky Class as a physical practitioner was a rare thing!

"Congratulations!" The old man from the you family spoke. Although he mainly practiced alchemy as a supplement, no one could underestimate his Sky Class strength and his control of alchemy fire! When a refiner reached the Sky Class, even if they didn't have any special martial arts, just the killer moves produced by the alchemy fire was enough to give people a headache!

Unless it was a water, ice, or snow element cultivator who could suppress the fire element, the other cultivators might not even be able to get close before their clothes were burned.

Of course, other than house Yu's elder, the other hidden house elders were all Sky Class Masters. The reason why the Council was able to threaten them back then was because house Yu only had One Sky Class master, the elder. They were all alone, and the Council had the power to completely suppress them!

But these years, with the disappearance of the founder of the Hidden House Arbitration Council, and the disappearance of the chief elder, these Sky Class elders were starting to get restless. They didn't want to be controlled by the Hidden House Arbitration Council anymore, and so they had this hidden house meeting!

However, the old men were all smart people-they weren't stupid. They had the same goal this time, but none of them wanted to be the one to stand out. After all, what if the great elder of the Hidden House Council was still here? What if he came back to punish the Hidden House for breaking the rules?

Therefore, the old men sat around the conference table and were a little silent.

"In-law, you were the second elder of the Hidden House Council, but now that the Grand Elder isn't here, can you say something?" Old Zhao saw that everyone was silent, so he pondered for a moment and said,"

At the moment, the strongest hidden houses were still the Hidden House Yu and hidden house you. The Hidden House Yu had two Sky Class Masters, and the Hidden House you might only have One Sky Class master on the surface, but who knew how many Sky Class diners they had in the dark? (To be continued.)

Chapter 1780: find a way

"That's right, old friend Yu-it seems like your house Yu's master's desire to get revenge in the mortal world is the strongest!" House Tang's old man's birthday was ruined, and they'd broken off ties with the

Ice Palace. Naturally, they hated Lin Yi and wanted to get rid of him as soon as possible, but he'd sealed his mouth on the day of the birthday banquet. Naturally, he couldn't go and cause trouble for Lin Yi on the surface, or else he'd lose face if people found out the truth. So, naturally, he incited the Hidden House Yu to help the common house Yu take revenge.

"Everyone, even though the common house Yu was destroyed, and we, the Hidden House Yu, want to avenge them, we're not in the right!" The old elder wasn't stupid,"the Hidden House Committee already said that hidden houses can't get involved in the common world's business. We're secretly helping the common house Yu earn money, which is a violation of the Hidden House rules. If we use this as an excuse to take revenge, then when the elder comes back, we'll be the ones in trouble!" Therefore, even if we want to test him, we have to give him a reasonable reason. Even if the great elder questions us after this, we can shirk the responsibility and not let someone else take the blame!"

"In-law, you're right!" Zhao Yu's father nodded and said,""But there's no reason for me to leave the mountain now, right? When Golden Bell sect's Jin Wudi went down the mountain, first elder wasn't here, and we gave him permission first. His reason for going down the mountain was sufficient to take revenge for his disciple, but the key was that he died after the incident. Even if first elder wanted to blame him, he couldn't find anyone!"

Everyone agreed with old master Zhao's words. If Jin Wudi didn't die, then they could test if the great elder still existed. But now that Jin Wudi was dead, there was no need for the great elder to appear again. So, if they wanted to leave the mountain, they had to find a good reason!

"Let's all draw on our heads! Think about it, is there a reason why we must leave the mountain, a reason that even if the first elder finds out, he won't blame us!" The old man of the you family said.

"This ... It's not like there's no other way." Old master Yu said after some thought,"The Hidden House Committee is set up to restrict the hidden houses, but also to resolve the conflicts between them so they don't fight each other."

"So you're saying that we should create a conflict and let the great elder judge ..." Master Zhao's eyes lit up.

"There's no mistake!" The old man nodded,"We just need to create a fake conflict and make the two hidden houses fight. That way, the Hidden House Committee will have to interfere, and the big elder will have to show up!"

"But ... Didn't we say before that we can hold a hidden house meeting to solve the problems? Moreover, there's still you, the second elder, here. There are some things that you, as the second elder, can decide. " The old man of the you family frowned and asked.

"That's true, but what if our house Yu has a conflict with other houses?" Master Yu smiled and asked.

"Oh?" The old man of the you family paused for a second and gave the old man of the Yu family a thumbs up."Haha, as expected of the first to reach the sky Class. The older the wiser, you really have a way! You're the second elder of the Hidden House Council-if you have a fight with someone else, we can't do anything about it, and only the great elder can come out and judge!"

“There’s no mistake!” The old man nodded, “The people here aren’t outsiders, so who’s willing to cooperate with house Yu? Of course, you might suffer some losses, but this is the only way. After all, no one wants to be the first one to break the rules. If you are not willing, then pretend I didn’t say anything!”

“Cooperate. Of course, we’re all willing to cooperate. The key is that there’s no suitable point of contradiction!” The you family’s old man said, “our families are evenly matched. If we have a conflict and fight with real weapons, we will definitely suffer heavy losses. At that time, the outcome may not be decided. If there is no suitable reason for the conflict, then others will see it as an act! At our age, we’re no fools. We can’t be as impulsive as the young!”

“That’s true ... But, perhaps some of you here have heard that we lost a Qi gathering pill!” With that, elder Yu looked at elder Zhao-as far as he was concerned, Xiaojin must’ve told him already if she knew about this.

However, old master Zhao misunderstood-did house Yu know something? Could it be that Yu Huoxing’s mouth wasn’t tight and he said it?

“This ... I’ve heard a little about it ...” Old master Zhao tried to remain calm. “But why did you suddenly bring this up?”

“If the Qi gathering pill is snatched away by another family, then there will be a contradiction!”

“Xiaochen could’ve entered Sky Class as well,” the old man said, “if we lost such a good opportunity, then the person who took the pill would be the biggest enemy of house Yu. It’s understandable that we’d fight them with everything we’ve got.”

“However, our you family can’t steal your Qi gathering pill. Although it’s hard to refine it, if we want it, hehe ... It’s not that we can’t refine it, but it’s not worth the investment.” The old man of the you family said with a smile.

No one present thought that the old man was exaggerating. After all, while the Qi gathering pill was a top-tier pill for hidden houses, it wasn’t much for ancient sects, especially the sky elixir sect. They could make it if they wanted to, but there would be some side effects after taking the pill. Only someone like Yu Xiaochen, who wasn’t very talented, would take it. After all, if Yu Xiaochen didn’t have a Qi gathering pill in his life ... If nothing went wrong, then he’d be stuck at Earth Class late phase peak-after taking the pill and breaking through into Sky Class, it’d be extremely hard to level up again, but Xiaochen never thought of doing that!

This was the difference between hidden houses and ancient sects-hidden houses were mostly satisfied with Sky Class, and with the protection of a Sky Class master, it would guarantee the prosperity of the house, but ancient sects were after something even higher than Sky Class, looking down on the path of heaven!

It was just that no one had broken through to the path of heaven yet, and those who had once pursued the path of heaven had all disappeared. So, no one knew what power was above the sky Class, and no one knew that there was a stronger existence above the path of heaven. (To be continued.)
