

Bodyguard 1791

Chapter 1791: Set off immediately

"Then now ..." Old Lin was shocked. Was there no cure for Yi's condition?

"I do have a way, but I don't know if it's possible ..." Kongwen said.

"What is it? As long as there's hope, we have to give it a try!" Old Lin had always been calm and collected, even when Lin Yi lost all his strength and had to go back to Starwest village to take refuge. But this time, he really was panicking!

Kongwen said, "there is a way, but I'm afraid it's not possible ... "That's why I'm thinking if there's a substitute, but after thinking about it, it might be the only way!"

"What is it? I'm so anxious!" Old Lin said anxiously.

"Go to the ancient sect's Valley and ask for an Ice Spirit fruit. It can suppress the true Qi in the body of someone who's cultivating an extreme yang mental cultivation method after they've gone mad, and force out the fire poison that's formed during the process!" Kongwen said slowly.

"Snow Valley? The ice Spirit fruit?" Old Lin mumbled the two names, a weird look on his face. Tang Yun, Mengyao, and Yushu, on the other hand, had interesting expressions on their faces!

"What's wrong? Have you already asked for the fruit from the valley, but there's no result?" Kongwen was stunned.

"I've never heard of the ice Spirit's fruit, but I've heard of the fire Spirit's fruit!" Old Lin smiled bitterly, "Yi, we went to look for the fruit before!"

"A treasure from the Ice Palace?" "Yi?" kongwen was surprised, "you've already made contact with the ancient level?"

"We did ..." Old Lin kept it short and told kongwen about Xiaoxiao's situation, including Lin Yi's experience in the Ice Palace.

"So that's how it is-but the fire Spirit's fruit is a treasure used by practitioners of the extreme Yin Arts to suppress the cold and force out the cold poison in their bodies when they go berserk. Compared to the ice Spirit's fruit, it's much more important to a sect like the Ice Palace!" Kongwen said, "but the fruit is not very useful to the snow Valley. The snow Valley practices Yin-type cultivation methods. Their fruit can only be used to exchange for treasures from other sects. If you want it, you can use money or other treasures to exchange for it."

"So that's how it is. Then, do you know the people from the snow Valley?" Old Lin asked.

"I can't do anything about it. You know, I'm staying here because there's something more important than Yi. Before I reach that level, I can't make contact with the ancient level ..." Kongwen's words were vague, and Mengyao and the others were confused, but old Lin seemed to understand. He nodded, "Then ..."

Kongwen, on the other hand, looked at Lin Yi, Yushu, and Mengyao before stopping at Tang Yin. "You guys must be Lin Yi's close female friends, right? I'll leave the task of getting the ice Spirit fruit to you guys. Do you have the confidence to get it for him?"

"We?" Mengyao and the others were stunned. They didn't expect Kongwen to give this task to them!

"Mr. Lin can't leave the West Star Mountain village due to special reasons. Only the few of you can do this." Kongwen said.

"We will do our best!" She didn't know where she got the courage from, but she said firmly after Kongwen's words.

But at this time, old Lin frowned. If it wasn't for the fact that he couldn't leave the village, he would've gone to the valley himself. But his situation was different from Er Goudan's. Er Goudan could leave as long as he didn't use his full strength, but he couldn't.

But letting Tang Yun, Chu Mengyao, and Shu go to the valley alone, old Lin really didn't feel at ease. They weren't practitioners, would they be able to get the ice Spirit fruit from an ancient sect?

"Old friend, the three girls ... They're going to the ancient sect ..." Old Lin turned to Kongwen.

"It's difficult, but it's not impossible ..." Kongwen said as he glanced at the girls.

"Oh?" Old Lin was taken aback. He knew that Kongwen was a fortune-teller and had a deep understanding of the art of divination. If he said that it might work, then maybe he really had a way? But old Lin didn't know what the three would do.

"The ice Spirit fruit isn't a treasure to the snow Valley. They'll sell it for a bit more money." Kongwen said.

"Then what are we waiting for? Shall we set off now?" Mengyao let out a breath of relief when she heard that she could buy it with money, but she looked at Tang Yin after saying that. Lin Yi was her boyfriend, after all, and she wouldn't overthink it if she acted too rashly, would she?

"En, then let's go now!" "But, where's the valley?" Tang Yin didn't think much of it.

Tang Yun suddenly thought of this important question. They didn't know where the snow Valley was, how were they going to get there?

"I'll draw a map for you. You just have to follow the map." Kongwen said.

"Okay, then Yaoyao will drive and I'll look at the map in the passenger seat. Shu and Lin Yi will be in the back to help him cool down." Tang Yin didn't want to wait any longer after hearing that there was a solution.

Kongwen took out a map and a piece of paper and drew a route for them. "When you get there, just say that you want to buy some heavenly treasures. The snow Valley should be able to sell them."

"Alright, we'll set off now!" Tang Yin took the map and put it away solemnly before packing her luggage.

It was supposed to be a happy mountain village trip, but trouble came unexpectedly. Old Lin and Kongwen helped carry Lin Yi into the car and left the village in a hurry.

Kongwen's map only showed the highway route. There weren't any rural areas. It was for the girls "safety. After all, they weren't practitioners, and Lin Yi was in Qi deviation. It would be hard to deal with any trouble along the way.

However, this would undoubtedly cause the route to be a little far and roundabout, which was something that could not be helped.

Old Lin watched the car disappear into the distance, a trace of worry in his eyes. (To be continued.)

Chapter 1792: Worried

"Old friend, don't worry. Yi's gone mad, but he's safe for now. I care about him more than you do ..."
Kongwen said, seeing through old Lin's worry.

"I'm afraid the snow Valley won't sell the fruit to them so easily ..." Old Lin voiced his worry. After all, Lin Yi had gone through a lot of trouble to find the fire Spirit's fruit ...

"There were some twists and turns, but the final result ... Should be good ..." Kongwen was calculating something with his fingers, but he suddenly gasped.

"What's wrong?" Old Lin's heart tightened.

Kongwen frowned."There is a result, but it is not perfect ..." "Could there be an accident ..."

Kongwen's eyes flashed with worry.

"An accident?" Old Lin blinked.

"It's nothing, maybe I was wrong ... I can't predict Yi's fate ..." Kongwen shook his head, but only he knew what his prediction meant!

If the result wasn't satisfactory, it meant that there was no return, but since there was a result, it meant that Lin Yi was fine ... The only possibility was that someone would be sacrificed in this trip.

Kongwen didn't have their birth dates, so he couldn't predict who would sacrifice themselves, but he could predict the cause and effect of the whole thing.

But even so, he was powerless to change anything. Sometimes, even if he predicted the results in advance, he could not change anything.

Some things were destined. Kongwen hesitated for a while, but he did not say anything ...

His goal was simple-as long as Lin Yi was fine, he didn't care about the others. If master was here, then everything would be fine, but now ...

If Lin Yi resented him when he woke up, he couldn't do anything about it. There was a cause for a cause, and he had to pay a price for Lin Yi's safety.

Old Lin could tell that kongwen was trying to hide something, but he knew that if he didn't tell him, he wouldn't be able to do anything.

Kongwen let out a long sigh and said to old Lin,""We haven't seen each other for many years, let's have a drink or two ..."

“Alright!” Old Lin was worried, but he knew that kongwen meant that Lin Yi was fine.

The two of them went back into the room, and old Lin took out the wine he’d kept for years ...

At the same time, the Hidden House Yu and hidden house Zhao suddenly broke off, and the conflict between the two houses was still intensifying. The second generation of both houses had already had multiple conflicts, and both houses had varying degrees of injuries. No one had lost their lives yet, but it looked like it would happen soon!

But house Yu’s elder was the second elder of the Hidden House Committee, and the other hidden houses didn’t have the power to mediate, so the situation was in a deadlock ...

After much “discussion” with the other elders of the Council, they decided to use the communicator that they hadn’t used for a long time to contact the first elder, and ask him to come out and resolve the conflict between the Hidden House Yu and Zhao!

The communication device was left behind by the great elder before he left. He said that only if the Hidden House Council ran into trouble that they couldn’t handle could they use it. Although it was a bit of a big deal to use it now because of the conflict between the two houses, everyone’s main purpose was to check if the great elder still existed!

One must know that the great elder was not young at that time, and he had left with that person. Now that there was no news of them, it was uncertain if they were still in the world. However, the residual power of that time made these people not dare to stand out, so they could only use this method to test the waters ...

Old master you and the other elders of the hidden houses sat around the conference table. Everyone unanimously decided to let old master you press the button on the communicator. After all, other than the Hidden House Yu, the Hidden House you’s prestige was the highest in recent years.

The old man of the you family didn’t refuse and directly pressed the button on the communicator. The indicator light on the communicator flickered a few times and then became a state of waiting for a response ...

Just as the old man of the you family pressed the communicator, in a small room tens of thousands of miles away, the indicator light of a communication device also flashed and issued a sharp warning sound ...

However, at this moment, there was no one in the room. If one looked carefully, they would find that the room was very clean and tidy. It should be that someone had lived in it recently, but there was no one in it at the moment.

The waiting indicator on the communicator on the you family’s old man’s desk flashed for three minutes before it finally went out. However, there was no response from the communicator.

“Phew ...” The moment the lights went off, all the Hidden House elders at the conference table let out a breath of relief, a relaxed smile on their faces ...

"It seems that no one has answered?" The old man of the you family was also very happy, but he was a cautious person. In order to confirm, he pressed the call button on the communicator again ... The indicator light lit up again and flashed ...

Everyone's breathing became tense again as they stared at the communication devices in front of them. However, the waiting light on the communication devices went out again after three minutes. It was certain that the other party did not answer.

"Still no reaction?" Old man Pi asked, hesitating and surprised.

"I'm afraid not ..." The old man of the you family nodded. "But to be careful, let's try calling tomorrow and the day after tomorrow. If there's still no response, then we can be sure that the great elder also left with that person ... He left with those heaven rank powerhouses, and we're no longer bound ..."

"That's right, but will the ancient sect try to suppress us?" Old man Pi's question was what everyone was most concerned about!

Everyone knew that the Hidden House you had the support of the sky elixir sect, or else they wouldn't have been able to become a Sky Class master in just ten years. Not only that, but they also made great achievements in the alchemy field, almost catching up to the Hidden House Yu!

So only the Hidden House of you could know what the ancient sect was thinking. If the ancient sect wanted to suppress the hidden houses, then even if there was no news of the big elder, the hidden houses wouldn't dare to make a move against the ancient sect ..

Chapter 1793: Encountering danger on the way (1)

"As far as I know, all the ancient sects are preparing for the Sky Class meeting-they don't have time for us." The old man of the you family said faintly. After that, he added, ""Of course, this is just my guess ..."

However, although the old master of the you family said so, all the old masters present still showed a smile of understanding ...

It was already the third day since Mengyao and the others left West Star Village. Because they were girls, they drove during the day and found a big express hotel in the city at night after getting off the highway.

When they checked into the hotel, Shu was the one carrying Lin Yi. It looked like she was struggling, but no one else could help because Lin Yi's body was too hot. No one could take it other than Shu!

But Shu was strong too, holding on for a few days. He didn't know where she got that explosive power from.

Of course, the hotels they checked in to were different every day, so no one suspected anything. The three girls had already told them that Lin Yi had a cold and was running a fever, and the red Flush on his body made it easy for people to tell that he was sick.

As for the blush on Shu's face, the others didn't think much of it-they all thought that she was tired from carrying Lin Yi.

“We’re almost there ...” Tang Yun looked at the map in her hand and let out a breath of relief. They were all on the highway, so there wouldn’t be any danger, but they were worried that something unexpected might happen ...

However, as the saying goes, the more you are afraid of something, the more likely it is to happen. The journey was safe and sound, but they encountered some trouble at the last stop!

Because of the Valley’s special location, Mengyao had to take the mountain roads after the last highway.

Along the way, they passed by some farmland and villages. When they passed through a small path with trees on both sides, they found a horizontal wood on the ground in front of the road, blocking their way!

“What’s going on?” Mengyao stopped the car and looked at the bridge.

“I’ll get out of the car to move the horizontal beam?” Tang Yin didn’t think too much about it-it wasn’t big, and moving it wasn’t a problem for her.

“Don’t!” Chu Mengyao called out to Tang Yun subconsciously. She used to travel with Shu and was more experienced than Tang Yun. Although Chu Mengyao had never encountered such things before, she had heard people talk about it. Usually, other than a few natural trees that were broken in the middle of the road, most of them were man-made!

And the purpose of this was to block the road and Rob!

“What’s wrong?” Tang Yin blinked.

“I’m afraid there’s danger. ” Mengyao locked the door and said nervously, “Don’t tell me they’ve encountered a robbery ...”

“A robbery?” Tang Yun jumped in shock. When she looked at the Crosswood again, she was shocked. The cross-section of the Crosswood was neat and sharp. It didn’t look like it was left there by natural means. It really looked like it was cut and placed there by someone ...

As soon as Tang Yun finished, two dark figures appeared not far from the bridge. Seeing that Chu Mengyao and the others didn’t open the car door, they walked over directly and stood beside the driver’s seat of the Grand Cherokee. They knocked on the window impatiently and said, “Get off, get off!”

Mengyao had closed the window, but she could still hear the loud voices outside.

Judging from their clothes, they didn’t look like kind people. Moreover, they just happened to appear in front of hengmu, so their purpose was obvious!

Although, it wasn’t the first time she’d been in danger-the bank and the amusement park had been even scarier, but she’d had Lin Yi by her side, and she’d gotten through it safely.

But right now, Lin Yi’s Qi went berserk, and he was still unconscious. How was he supposed to deal with these two?

“What are you guys doing?” Mengyao didn’t dare open the window, so she opened it a little and called out.

“Oh? And you’re a woman?” One of the men in Black laughed and said, “I opened this mountain and planted this tree. If you want to pass through here, leave some money to buy the way!”

“You guys want money?” Mengyao wasn’t stupid-she understood the meaning behind the man’s words.

“Smart!” The burly man chuckled and said, “I don’t need to say anything more. Hand over all your valuables. We’re after money, not cars. If you give us money, hengmu will help you move it!”

“How much do you want?” Mengyao asked.

“What, did you not hear clearly? Take out as much as you have! ICIPQ card, tell me the password!” The burly man said, thinking that he was humorous.

Chu Mengyao frowned slightly. She did bring her bank card, and before coming to the West Star Village, she asked her dad for a lot of money and saved it in. But this money was used to buy the ice Spirit fruit, so it seemed like she couldn’t keep it ... Of course, this was because Chu Mengyao didn’t know the value of the ice Spirit fruit. If she did, she wouldn’t care about this little money.

But if she didn’t pay, they wouldn’t be able to leave. Mengyao gritted her teeth. “We can give you the money, and I’ll throw the money and bank card out of the skylight. I’ll also tell you the password, but you have to let us go!”

What Mengyao was thinking was that even if they ran out of money, they could get her dad to transfer the money to them when they reached the valley. There was no need for them to worry about the money they had now. The key was to pass through here!

“No, get out of the car. We have to check it personally!” The Man in Black didn’t believe her.

Mengyao didn’t want to get out of the car-she didn’t want to cause more trouble, but this guy was stubborn. “We’re girls. It’s not convenient for us to get out of the car. Here’s the money and the card. I won’t give you a cent less. There’s one million in my bank card. I’ll tell you the password now. You can call and check!”

“A million?” The burly Man in Black and the bald man exchanged a glance, and a strange light flashed in their eyes! They had robbed the nearby roads more than once, but they specifically robbed self-driving tourists and changed locations after each shot, so they had never committed any crimes.

However, up until now, they had only robbed for food and drinks. They still didn’t dare to Rob cars. Firstly, it was difficult to dispose of stolen goods on cars. There were license plates and corresponding car frames on them, so it was easy to commit crimes when they were disposing of stolen goods. Therefore, they only wanted valuable property and let go of the cars.

Chapter 1794: Encountering danger on the way (2)

Every time they robbed, they would only get eight to ten thousand Yuan. Sometimes, they would be considered rich if they could get thirty to fifty thousand Yuan! After all, it was impossible for many self-driving tourists to put too much money in their pockets, and the bank cards they brought out did not have much savings.

But this was the first time Chu Mengyao said that there was a million in the card!

“Hand over the card, I’ll take a look first!” The black-clothed man said.

“Alright!” Mengyao handed over her card without hesitation. “The password is 5201 ...” He said.

Mengyao felt a little awkward after she said the password herself. It was Shu’s password, and she didn’t think anything was wrong when she told her, but now that she said it out loud, she felt like ... The numbers sounded like a sentence?

Chu Mengyao looked at Tang Yun guiltily.

“I love Lin Yi?” “What a coincidence ... Haha ...” Tang Yin smiled.

However, anyone could see the bitterness in Tang Yun’s smile. It was just that she couldn’t be bothered by it in this situation.

“It’s SHU ...” Chu Mengyao didn’t know why she had to explain herself, but she did. After explaining, she regretted it a little. It seemed like she was making things worse?

“I’m just joking to ease the tension, it’s nothing ...” Tang Yun smiled and her expression returned to normal.

Of course, the man called the number right after he took Mengyao’s card. When he heard that there was more than a million in the balance, his smile twisted into a ball, like a blooming chrysanthemum, “It’s really a million. Haha, baldie, we’re rich!”

“Get off, get off. Let us see if you have any other cards or money.” After the baldie heard the man’s words, although he was very excited, he was still not satisfied. He knocked on the car window even harder. Greed was endless, especially for two robbers.

From their point of view, no matter how much they robbed, it would not be enough. Since they had done it this time and robbed so much money, they must have committed a big crime. In the future, they might have to find a place to live in seclusion. Therefore, they had to get enough money before they left!

Mengyao thought that they’d leave after getting the card, but one million wasn’t enough for them! Not only was there the one million Chu pengzhan gave her before he left, but there was also tens of thousands of pocket money in the card. Was that not enough?

“We don’t have much money on us, only a few thousand. We’ve already given you our cards, so you should at least leave me some living expenses, right?” Mengyao’s voice was pleading ... She was usually very proud, but in order to not cause any trouble and reach the valley earlier, the Miss had no choice but to lower her proud head and bow down to the two robbers ...

“A few thousand? How can we not believe it? Get out of the car, if it’s only a few thousand, we don’t want it!” The bald man said. With more than a million Yuan, a few thousand Yuan was indeed nothing to them.

As he spoke, the man was busy transferring the money over the phone. He was afraid that Mengyao and the others would freeze the account once they left, and they would have nothing left!

Chu Mengyao looked at Tang Yun helplessly and said, "Yunyun, what do we do now? I keep feeling that getting off the car is a little inappropriate ..."

"I ... I don't know ..." Tang Yun didn't know what to do. She realized that she was this weak when Lin Yi wasn't by her side! With Lin Yi by her side, no matter if it was the assassins from the blood-clad yellow spring sect or the Tang family's provocation, Lin Yi could always resolve them easily. But now, without Lin Yi, she felt so useless ...

At this moment, Tang Yun suddenly had a deep desire for strength. If she was a practitioner, even if she was just like Xiaoxiao, an early phase golden class master, she would be able to deal with these two robbers easily, right?

These two were as weak as ants in Lin Yi's eyes ... And even in Chentian and uncle Fu's eyes, and yet they were showing off their strength and making things difficult for them ...

"Hurry up, what are you waiting for? Hurry up and get out of the car, or don't blame us for smashing the car!" The Man in Black threw the card on the ground after transferring the money and yelled at Mengyao.

"There's no other way, get out of the car!" Mengyao knew that she had no choice when she saw the two were about to smash the car. They had broken the glass, and they had to get out of the car as well. They couldn't drive forward, but they had to reverse. Mengyao didn't have Lin Yi's superb driving skills, and she couldn't control it well on a small road in the forest. She could hit a tree if she wasn't careful.

Since they'd made their decision, they didn't hesitate anymore and got out of the car, but Yushu didn't. She kept pressing Lin Yi's arms, trying to keep him cool the whole way, so he wouldn't get burned and the seat wouldn't be burnt to ashes!

Kongwen and old Lin had put a fire insulation blanket on the car, but it wouldn't work if it was too long.

The bald man and the black-shirted man saw Chu Mengyao and Tang Yun's faces clearly, and their eyes couldn't help but flash with lust!

It had been too long since these two had touched a woman, but even if they had, they were the wild chickens in the small hair salon. How could they be compared to the two in front of them? Chu Mengyao and Tang Yun were both top class in terms of appearance and temperament. It would be strange if the two robbers weren't tempted.

The black-clothed man and the bald man looked at each other and understood the meaning in each other's eyes. They laughed and said, "Little girl, you said you don't have money, so I'll believe you for now. But, hehe, it should be very exciting to play with me in the mountains, right?"

"What are you guys doing!" Chu Mengyao and Tang Yun's faces showed a trace of panic. Although they asked this, they were 80% sure of the purpose of these two people, which was why they didn't want to get out of the car!

It was a good thing to be beautiful, but it might not be a good thing at this moment!

"What do you think? A little girl?" The Man in Black grinned, revealing a few yellow teeth. He then said to the bald man, "One each, I want the one on the right!" (To be continued.)

Chapter 1795: danger averted

“Alright!” The bald man grinned as he reached out to grab Tang Yin ...

The two girls looked at the demonic smiles on their faces, and a trace of pain appeared on their faces ... Deep in the mountains and forests, no one could help them even if they called for help. In the past, it was always Lin Yi by their side to protect everyone. Even when they were in danger, they never lost hope!

Even if Lin Yi wasn't here, Wu Chengtian, uncle Fu, and even general Weiwu could hold them off for a while. However, this time, they didn't bring anyone, even general Weiwu and Skybolt pig were left in the village.

Skybolt pig and general Weiwu were ancient spiritual beasts. If he brought them to the snow Valley, they would be blackmailed and kept there. Naturally, he couldn't take them away. Er goudan, on the other hand, was too weak to withstand the cold, so he couldn't go with them. It was also because of this that Mr. Mo's route was on the highway, so there should not be any danger. However, he had overlooked the last part of the journey.

If she'd known that she'd run into trouble, she wouldn't have taken this route!

“Yao Yao, what are you guys doing? Why isn't he back yet? Didn't we just give them money?” Just as Chu Mengyao and Tang Yun were in despair, Chen Yushu's voice came from the car!

Yushu's voice startled the two men-there was someone in the car?

The car was tinted black, so the bald man and the man didn't know how many people were in the car. When they saw Chu Mengyao and Tang Yun get out of the car, they naturally thought that there were only the two of them in the car. They didn't expect to see a third girl in the back!

However, the two robbers hesitated because of Yushu's scream. They weren't afraid of her, but they were afraid that she would suddenly attack them while they were “doing” something. They might even lose their lives!

Of course, they also had a way, which was to first tie a person up with a rope, and then they could do whatever they wanted without any restraint.

The bald man and the man had been working together for years, and they knew each other's thoughts with just one look. They left Mengyao and Tang Yun behind and walked to the back of the car.

As far as they were concerned, there was no way Chu Mengyao and Tang Yun could run away. There was no village or shop in front of them, and it was a joke to run away without a car.

The two of them went to the rear door and opened it from both sides! However, the scene in the back seat of the car stunned the two big men at the same time! What they didn't expect was that there was not only a girl in the back seat, but also a man lying on his side in the back seat!

The two of them were shocked and immediately turned their bodies to the side with some vigilance. They shouted, “Get out of the car!”

“Oh, did they give you the money?” Yushu looked at the man innocently, “My boyfriend actually has a bank card with him. Although it’s not much, there’s still more than 300000 Yuan in it. Do you want it?”

“I want it! Of course I want it!” The two men’s faces lit up with excitement when they heard the three hundred thousand. They didn’t care about the girls anymore-the three hundred thousand was their priority!

With this 300000 Yuan, would he still have to worry about not having a woman? Although the two ladies in front of them were as beautiful as fairies, they were not as important as money in their eyes!

“My boyfriend’s sick, he can’t get up. His bank card is in the back pocket of his pants, I can’t take it out ...” Chen Yushu pretended to lift Lin Yi’s body with great difficulty, but he couldn’t move at all!

“Alright, little girl, get out of the car. We brothers will look for it ourselves! Just tell us the password!” The Man in Black urged Chen Yushu impatiently.

“Oh, okay!” Chen Yushu jumped out of the car and stood behind the Man in Black. She secretly made a gesture to Chu Mengyao and Tang Yun!

Of course, the bald man and the black-shirted man didn’t see any of this, because they were already bent down and ready to search Lin Yi’s bank card! Although the Man in Black felt that the inside of the car seemed to be a little too hot, he didn’t doubt it. After all, the car had been stopped for a long time, and the windows were closed. How could it not be hot inside?

After Yushu left, Lin Yi’s face flushed unnaturally. Of course, the bald man and the black man didn’t notice it at all because their eyes were already blinded by money!

Tang Yun and Chu Mengyao were stunned by Chen Yushu’s actions and hand gestures, but when they saw Chen Yushu standing behind the Man in Black and raising her right foot high, they immediately understood what Chen Yushu meant!

Mengyao and Tang Yun were still wondering why Lin Yi had a bank card with 300000 Yuan, but now they understood that Shu was scamming people again!

And so, Tang Yun and Chu Mengyao quickly walked to the back of the bald man. At the same time, Chen Yushu used all her strength to kick the back of the man in Black! Yushu had been piggybacking Lin Yi to hotels every day these past few days, and her strength had increased greatly. The kick sent the man into the car without him even noticing, landing on Lin Yi’s body!

On the other side, Tang Yun and Chu Mengyao moved as well. The two of them kicked the bald man into the car at the same time and closed the doors on the left and right together with Chen Yushu!

”

However, the burning smell grew stronger and stronger, and the screams in the car became weaker and weaker. After a while, they were completely gone!

When Chen Yushu, Chu Mengyao and Tang Yun opened the car door again, they were already covered in burns. It was hard to tell who was who from the front! It was obvious that they had all passed out. It was impossible for them to not pass out from such a severe burn.

Chen Yushu threw the two scalded kidnapers to the side of the road and dusted off her hands, "Done! Let's move the horizontal log!"

Tang Yun and Chu Mengyao both gave Chen Yushu a big thumbs up. She could even think of something like this, using Lin Yi to burn the two robbers to death-these two were really unlucky to have met Chen Yushu!

They could've robbed anyone, but they had to run into Shu, the troublemaker! If Xiaoxiao was there, they might not even have been able to survive. (To be continued.)

Chapter 1796: imminent danger (1)

The three got back into the car and drove away quickly. Tang Yun and Mengyao were still in awe of Chen Yushu.

"Shu, thanks to you, Yaoyao and I wouldn't know what to do!" Tang Yin shuddered at the thought of the lecherous look in their eyes-the consequences would be unimaginable if they got what they wanted!

"Who asked them to be so greedy? You're still not satisfied after taking a million." Chen Yushu suddenly called out, "Aiya, this is bad. We've given them all the money, how are we going to get the fruit for shield bro?"

"It's okay. I'll just call daddy and ask him to transfer the money to me." Mengyao let out a breath of relief. "It's good that you're fine. Money is small ..."

"You're right, uncle Chu's rich!" Chen Yushu nodded.

Mengyao didn't dare to stop the car until they reached a small town and checked into a hotel. Only then did the three of them relax! This time, it could be considered as a close shave but not a close shave ...

However, Chu Mengyao and the others in the town didn't know that there was a huge piece of news recently! Miracle doctor Kang's medicine company changed completely-not only did they lower the prices of all their old products, they even put new miracle medicines on the market!

This included miracle doctor Kang's painkiller, which was similar to miracle doctor Guan's painkiller, but its market price was only half of the painkiller! Plus, Guifeng also said during the product launch that the price was only for when it wasn't mass produced yet-it'd be even cheaper after Mass production!

In fact, this was also a hint that our products were the cheapest. If miracle doctor Guan's painkiller was cheaper than theirs, then miracle doctor Kang's would be even cheaper!

Not only that, but miracle doctor Kang's company's golden creation was also dropping in price-it was half the price of miracle doctor Guan's injury medicine! Not only that, but miracle doctor Kang's golden creation special edition was also on the market!

Not only did it have all the effects of golden creation, but it also had the effect of removing old scars! The price of this product was only the same as old golden creation's, and the name of miracle doctor Kang's medicine company shot up!

Although miracle doctor Guan's medicine company's products were selling like hotcakes these days, miracle doctor Kang's medicine company was a long-established brand after all, and they were deeply

rooted in people's hearts. Now that the prices had dropped, the patients who had been buying miracle doctor Guan's injury medicine and painkiller naturally turned to miracle doctor Kang's golden creation when they saw the cheaper price!

Even though miracle doctor Kang's golden creation had a new recipe and no longer contained the rare ingredients, the consumers wouldn't know. Plus, the recipe that house you gave house Kang was the result of a medical family's hard work. The effect might be slower than miracle doctor Guan's injury medicine, but because of the low price, it would take over the market in an instant!

Not to mention, there was the limited edition golden creation for comparison. It could completely remove old scars, and the price was only the same as the previous golden creation. This kind of big discount event immediately caused the entire consumer market to boil!

Plus, with the strong support of the Hidden House you, miracle doctor Kang's medicine company launched new products one after another, with miracle doctor Kang's weight loss medicine being the most successful one. It received a good response as soon as it hit the market, and the sales kept rising!

Miracle doctor Kang looked at the money that was flowing into his account every day, and his smile was so wide that it reached his ears."Hahaha, Zhaoming, you've done well this time. This is great-it's all thanks to you that the Hidden House you's giving us so much support!"

"Thank you for your praise, Grandpa!" Kang Zhaoming was surprised by the Hidden House you's generosity. In reality, it wasn't the Hidden House you that was generous. It was just that the sky elixir sect was very happy to see the recipe and told house you not to mistreat house Kang, which was why house you gave house Kang So many benefits!

Moreover, these prescriptions were insignificant compared to the pill recipe. Otherwise, the hidden you family wouldn't be so generous.

"Don't worry, Zhaoming-the position of house Kang's future head will still be in your hands. You're the one with the best relationship with the Hidden House you right now, so you have to make good use of this friendship and carry it on. This way, even if house Kang isn't a Noble House anymore, we'll still be able to last long with the Hidden House you's support!" "We're not a practitioner Noble House," miracle doctor Kang said." Our main goal is money, so we don't need to join that practitioner Association!"

"I understand!" Zhaoming was overjoyed."Oh right, Grandpa, young master you said that he'll give us a few more special prescriptions for chronic diseases like arthritis and stomach ulcer. I think it'll cause a sensation and a wave of buyers when it hits the market!"

"Haha, that's right! This time, house Kang has completely taken down Guan Xuemin's medicine company!" "Oh right, how's Xuemin's medicine company doing?" miracle doctor Kang asked, pleased with himself.

"Hehe, it's completely unsalable. Many pharmacies are asking for refunds, but our house Kang's golden creation and pain killer are in short supply!" Zhaoming said.

"Well ... Now, with the help of the you family's relationship, we temporarily rented some production lines from other pharmaceutical companies, but this is not a long-term plan. Our products are so popular now, so we should expand some production lines. Otherwise, there will definitely be a supply

break! Moreover, if we rent someone else's production line, it's not easy to guarantee the confidentiality of the formula. If the formula is leaked, we'll suffer a huge loss!" Miracle doctor Kang was far-sighted, and wasn't dazzled by the prosperity before him.

"Grandpa, I've thought of this long ago. I have a good plan!" Zhaoming said.

"Oh? What's the plan?" Miracle doctor Kang blinked.

"Didn't miracle doctor Guan's company expand their production lines recently? I think if they continue to lose money at this rate, they will go bankrupt in less than a year. By then, the production line will definitely be sold at a low price, and we can sit back and enjoy the fruits of their labor!" "Of course, we can't wait now. We can buy some small pharmaceutical factories first!" Zhaoming said.

"Well said!" Miracle doctor Kang nodded. "They've built so many production lines. They'll be dumbfounded if they expand blindly. Our cost is so low. We have the advantage!" "We'll do as you say!"

"Grandpa, isn't it a little difficult to manage a small pharmaceutical factory? If it was possible, fatty Lai wouldn't have invested in the production line himself, would he?" Zhaolong interrupted. (To be continued.)

Chapter 1797: danger (2)

Recently, Zhaolong's position in house Kang had been pushed to the edge. They didn't let him participate in big things anymore. He had completely become the manager of a medicine company's R & D department. Although this position sounded impressive to outsiders as the head of the R & D department in miracle doctor Kang's medical company, it was nothing in house Kang.

And so, Zhaolong wanted to show off as much as he could in front of miracle doctor Kang.

"Big brother, buying a small pharmaceutical factory is a bit of a hassle, since the factories aren't concentrated and it's hard to manage all of them, but it's fine. Our production line mainly produces those popular drugs, and those small pharmaceutical factories can produce some less popular products. Each factory can only concentrate on one product, so we just need one of our own people to take charge. Of course, big brother is right, we can expand the production line now and do it at the same time. This way, it won't delay the production!" Zhaoming said.

"Yeah, Zhaoming's right. Zhaolong, just keep the recipe a secret-you don't need to get involved in business stuff like this!" Miracle doctor Kang said to Zhaolong.

Zhaolong's eyes were filled with dissatisfaction. He was supposed to be the heir to house Kang, but now he was completely marginalized.

Fatty Lai and Xuemin didn't expect Lin Yi to go on a trip, and something like this happened to his family! At first, fatty Lai didn't think much of miracle doctor Kang's new product launch-he thought they were just making a last-ditch effort!

When fatty Lai saw miracle doctor Kang's golden creation and painkiller flowing into the market, it didn't seem like they were making a loss at all. It was too late! The pharmacies that were cooperating with them all canceled their orders as if they'd discussed it beforehand. House Liu's stock had been warned,

and the demand for refunds was like a mountain. Even a veteran of the business like fatty Lai was dumbfounded!

The current situation was completely out of his expectations. Miracle doctor Kang's golden creation cost a fortune, how could they sell it at such a low price? And where did their painkiller formula come from?

If they had stolen the recipe from fatty Lai's company, then the price reduction of golden creation and the release of painkiller was proof that the recipe wasn't from miracle doctor Guan's company!

Even Guan Xuemin and fatty Lai didn't have the special edition injury medicine formula, let alone weight loss medicine that had never been produced before! So, all signs pointed to the fact that miracle doctor Kang's medicine company had the support of a certain power-otherwise, they wouldn't be releasing new products in the market!

Plus, with such a huge volume of sales, he'd have to at least rent a lot of production lines from small pharmaceutical factories to guarantee a steady supply-this type of network wasn't something miracle doctor Kang had!

Fatty Lai's guess was pretty close to the truth, but it didn't matter. Lin Yi wasn't home and they didn't have a product to compete with him! What made fatty Lai helpless was the fact that Lin Yi's phone was turned off!

Fatty Lai kept calling, but the phone was still off. Helpless, fatty Lai could only come to Xuemin's house to discuss a plan! He didn't know that Lin Yi had turned off his phone because he was afraid of being disturbed during his cultivation. After he fainted, Tang Yun and the others naturally didn't remember to turn on Lin Yi's phone!

"Elder Guan, how should we deal with miracle doctor Kang's medical company?" Fatty Lai said directly, "I can't get through to the boss" phone, but looking at the current situation, if we don't do something, house Liu and we won't be able to hold on!"

"I couldn't get through to Yi's phone ... Did you try to call Tang Yun and the others? They should be together, right?" Xuemin said after some thought.

"I ... I really forgot about that ..." Fatty Lai was a little embarrassed. He had been trying to contact Lin Yi and forgot that Tang Yun and the others were with Lin Yi. Now that Xuemin reminded him, he quickly dialed Tang Yun's phone.

This time, the call went through, and Tang Yin's voice came through."Mr. Lai?"

"It's me, sister-in-law. Is boss with you? "I have an emergency" Fatty Lai called Tang Yin and let out a breath of relief, as if he'd found his pillar of support. House Kang's incident was sudden, but with Lin Yi there, beating them shouldn't be a problem!

Fatty Lai remembered that Lin Yi said that these two medicines were just testing the waters. If the market's response was good, there would be other more effective medicines. It was fatty Lai who advised them not to release all the products at once. They should do it step by step and create a continuous sensation in the market.

Of course, if it wasn't for what happened with house Kang, fatty Lai's actions would be the right one. He could always make sure that miracle doctor Guan's medical company would always appear in people's sights and wouldn't be forgotten. But miracle doctor Kang's medical company made this move, completely messing up fatty Lai's plans.

Right now, the only way to go against miracle doctor Kang's medicine company was to lower their prices and introduce other products that could compete with them. They might even have to introduce more effective medicine to get back the market that they'd lost! After all, miracle doctor Kang's golden creation was expensive, but it was a time-honored brand. Miracle doctor Guan's injury medicine had similar effects, but they'd only been a brand for a short time—they won with their price advantage. Now that miracle doctor Kang was selling their golden creation at half the price of miracle doctor Guan's, it was only natural that consumers would turn to the time-honored brand!

"Lin Yi, he ..." Tang Yin looked at the unconscious Lin Yi on the sofa and sighed, "Mr. Lai, if there's anything you need, just tell me. Lin Yi's not free to pick up the phone right now ..."

"Then ... This matter must be handled by boss. How about, when it's convenient for boss, he can call me back?" Fatty Lai said.

"He ... He's cultivating ... If you have anything to say, just tell me. I'll help you pass the message." Tang Yun hesitated. Although fatty Lai was a person she could trust, Lin Yi had too many enemies outside. If they accidentally let the news of Lin Yi's Qi deviation spread, they might come and cause trouble. That was why Tang Yun didn't tell fatty Lai about Lin Yi's condition. (To be continued.)

Chapter 1798: The situation is terrible (part one)

Fatty Lai was taken aback. He didn't understand what was going on, but he could guess that it was probably inconvenient for Lin Yi to answer the phone. Otherwise, Tang Yun wouldn't have said that. So, he didn't look for Lin Yi on purpose and told Tang Yun what had happened in the company recently.

"Ah?" Tang Yin didn't expect miracle doctor Kang's medical company to strike back at a time like this, not to mention this thoroughly. She didn't know what to do, "Mr. Lai, why don't you wait? I'll discuss it with you and give you a reply."

"Alright, sister-in-law, I'll be waiting for your call!" Fatty Lai said.

Tang Yun hung up the phone. Chu Mengyao saw that Tang Yun's face didn't look good, so she asked, "What happened?"

"Miracle doctor Kang's company's golden creation went down in price, and they've released a lot of special medicine to compete with miracle doctor Guan's company ..." Tang Yun repeated fatty Lai's words to Chu Mengyao and Chen Yushu. "Yaoyao, Lin Yi's in a coma right now, what should we do with something this big happening at home? Fatty Lai can't make up his mind ..."

"Then ... Can we also lower our prices?" Although Chu Mengyao was the daughter of pengzhan industries, she didn't know much about business. "They're lowering their prices, but we're cheaper than them. We should be able to win some of the market, right?"

"I ... I don't know ..." Tang Yun looked at Lin Yi worriedly. She finally understood the saying "misfortunes never come alone"! It was fine before, but trouble came not long after Lin Yi's Qi deviation!

“Yunyun sis, why don’t you ask fatty Lai to call uncle Chu and discuss a plan? “After all, uncle Chu’s been in the business for years, he’s experienced ...” Yushu suggested.

“Yeah, we can ask Daddy for help!” Mengyao’s eyes brightened up. “Even Lin Yi doesn’t know much about business, that’s why he’s a hands-off manager. If it’s possible to lower the price, we’ll let him and dad discuss the other things?”

“Alright, I’ll call him back now!” Tangyin didn’t want to waste any more time and quickly called fatty Lai back.

“Sister-in-law, is there any news?” Fatty Lai asked.

“Lin Yi really can’t take calls right now, but I’ve talked it over with Yaoyao and Shu. You can call uncle Chu to discuss what to do, or should we lower the price too?” Tang Yin asked.

“Discuss ...” Fatty Lai smiled bitterly. He was a veteran in the business world, and house Liu didn’t lack business geniuses either. The second son of house Liu was also a veteran in business, but in the current situation, they didn’t have any new products to go against miracle doctor Kang’s company. They couldn’t get many customers just by lowering the price. Could it be cheaper than miracle doctor Kang’s company?

Miracle doctor Kang’s golden creation was priced at forty-nine, while miracle doctor Guan’s injury medicine was ninety-nine. The difference was double, and unless fatty Lai sold it at twenty-nine or thirty-nine, they wouldn’t be able to turn the tables.

However, 29 and 39 didn’t have much money left after deducting the cost of the channels. Fatty Lai was also in debt now. He had to mortgage each of his factories and take a loan to build more. If this didn’t happen, fatty Lai would make a lot of money in the next few years even if he didn’t see much profit in the beginning!

But who knew that miracle doctor Kang’s medical company would interfere and create this situation? if Lin Yi could release a few more special medicines, even if the injury medicine didn’t make money, he could still sell it. Miracle doctor Guan’s medical company’s only source of income was injury medicine and painkillers, and these two products could be found in miracle doctor Kang’s medical company, and the price was half of miracle doctor Guan’s medical company’s!

It was obvious that they were after fatty Lai-fatty Lai believed that if he lowered the price, miracle doctor Kang’s medicine group would be even cheaper! They had other top-tier products to back them up-golden creation’s special edition and weight loss medicine alone were enough to make the company a fortune. Golden creation and pain killer were just supplementary products.

“What’s wrong?” Tangyin sensed the hesitation in fatty Lai’s voice and asked.

“It’s nothing ...” Fatty Lai smiled bitterly, “I’ll think of something. If boss is free, please ask him to call me back as soon as possible ...”

“Alright, I got it!” Tang Yin was panicking as well, but nothing was more important than waking Lin Yi up. The company could earn more money if it lost money, but Lin Yi’s condition was urgent.

Fatty Lai sighed. He didn't know what was wrong with Lin Yi, but if he couldn't pick up the phone in this situation, then he really couldn't do it ...

"How is it?" Xuemin only had a title in the company, but it was Lin Yi's company after all. He still cared about it.

"Boss didn't answer the phone. He's probably doing something more important." "I've already told big sis-in-law," fatty Lai said with a bitter smile, "she told boss to call me back as soon as he's free!"

"Hmm.....Then we'll hold on for a while, hold on until Lin Yi comes back, he'll have a way." Xuemin had confidence in Lin Yi."There's more than that in Lil 'Yi's hands. There are many more. Every single one of them is a priceless treasure!"

"Right now, we can only persevere!" Fatty Lai nodded. As long as he gritted his teeth and got through this, Lin Yi would return and give miracle doctor Kang's Medical Group A huge counterattack!

But ... The situation was worse than fatty Lai had expected! At first, fatty Lai thought that even if Lin Yi didn't call today, he would at most call in two or three days, but he didn't. This worried fatty Lai, and at the same time, he had to announce that the factory would stop production!

However, even if they stopped production, the workers would still be paid, unless they were laid off! But many of the workers had just signed their contracts and they had not expired yet. If they were dismissed, they would have to pay a large sum of money for the breach of contract, which was undoubtedly a huge sum of money for miracle doctor Guan's medical company!

So at this moment, they could only stop work, not fire. Fatty Lai thought that as long as they could hold on until Lin Yi came back, then all the problems wouldn't be a problem. But if they fired the workers, even if fatty Lai could come up with the termination fee, what would happen in the future?

How was the factory going to resume work after Lin Yi came back?

Fatty Lai had no choice but to lower the price and go on a promotion. Miracle doctor Guan's injury medicine was originally 99 Yuan, but during the promotion, it was a buy one get three free package, which was 33 Yuan a bottle ..

Chapter 1799: The situation is terrible (part two)

However, there were no new sales reports from Liu Tianyi's side, but fatty Lai saw the promotion for miracle doctor Kang's medicine company first! To celebrate the release of miracle doctor Kang's Rheumatology and gastritis medicine-all customers who bought miracle doctor Kang's weight-loss medicine, golden creation limited edition, Rheumatology and gastritis medicine during the event will be able to enjoy the buy one free one!

In other words, the consumers who bought these four medicines could get a bottle of miracle doctor Kang's golden creation or a bottle of pain killer! Golden creation and pain killer were also buy two get one free! In other words, if he bought two bottles of jinchuang medicine or two bottles of pain killer, or one bottle of jinchuang medicine and one bottle of pain killer, he could get another bottle of jinchuang medicine or pain killer!

This way, fatty Lai's sales tactics were completely useless. Even if they lowered the price, it was just a buy one get two free deal. Not only was the total price one Yuan higher than miracle doctor Kang's medicine company, but they didn't have as many choices as miracle doctor Kang's medicine company. The brand wasn't even as established as miracle doctor Kang's medicine company!

Fatty Lai was at his wit's end in this situation. The current price was still a distance away from the cost price, but a product's cost couldn't be counted as just the cost. It had to be calculated according to the wholesale price minus the cost price and then minus the marketing and advertising costs to be the final profit.

But now, buy one get two free, there was basically no profit to be made. He couldn't just let the retailer's pharmacy sell for free, right? You should at least leave a certain amount of profit for others. Otherwise, who would sell your products?

Fatty Lai had already expected this from miracle doctor Kang, but he couldn't do anything about it. He had no choice but to sell his stock at a low price. The money he had was only enough to pay the workers this month, and the new production line had stopped working long ago.

Compared to fatty Lai's difficulties, miracle doctor Kang's family was celebrating. After such a long time, under miracle doctor Guan's pressure, they finally fought a beautiful comeback and got back miracle doctor Guan's market share!

Golden creation and pain killer were consumables, but they couldn't be bought every day. Each store would only buy them once or twice in a period of time. However, there would always be people who went to buy miracle doctor Kang's weight loss medicine or Fengshi cream, or even the limited edition golden creation medicine or special medicine for gastritis. The gifts from these medicines were enough for the family to use.

With miracle doctor Kang's strong promotions, not many people chose miracle doctor Guan's medicine company's products. House Liu looked at the mountain-like inventory and felt worried. Most of the refunds from distributors were paid by house Liu, since fatty Lai had no money left, and all his money was spent on building the production line.

However, no matter how rich house Liu was, their liquid funds were limited. Faced with the increasing number of refunds, house Liu had emptied out all their assets. This caused some internal strife within house Liu!

The first to be unhappy was the second son of the Liu family, Liu Tianli.

"Father, it's only a matter of time before miracle doctor Guan's medical company goes bankrupt, why should we invest more money in it? This money will never come back!" Tianli, who was in charge of the business, naturally objected to the idea of losing all of their assets.

"Tianli, What is this?" Zhenhu shook his head, "you didn't attend the noble House meeting. You don't know how important Lin Yi is to us. As long as he's back, everything will be fine. You'll earn back the money you lost!"

“What if Lin Yi doesn’t come back? Even fatty Lai said that he can’t contact Lin Yi, who knows where he’s gone?” “Father, that Lin Yi may be a practitioner, and he’s strong, but house Liu doesn’t have any practitioners. We’re just a business. If we go bankrupt because of this, then in the future ...”

“Alright, Tianli, that’s enough!” “No practitioners now, but that doesn’t mean there won’t be in the future!” Zhenhu said with a wave of his hand. I think Jingjing is a very good seedling. I heard that miracle doctor Lin is also an Alchemist. If he can make a foundation building pill and we get one for Jingjing, then when Jingjing becomes a master, our Liu family will really be able to rise up to the ranks of the cultivators Association. This will be the foundation for our future!”

“...” Tianli wanted to say something, but he gave up after hearing his father’s words.

“Tianli, you have to know that sending charcoal in the snow will be remembered for a lifetime, but adding flowers to a brocade will only bring temporary benefits ...” Liu Tianyi said. “Miracle doctor Lin isn’t back yet. If we help fatty Lai now, he’ll definitely remember our kindness. But if we don’t do anything now, then in the future ... Hehe, house Yu used to be so powerful, but now they’re either dead or disabled. Only the disabled Yu kun and Yu Haitian are left to take over the house. Although house Yu’s assets are enough to make them rich for the rest of their lives, it’s impossible for them to become a Noble House again. ”

Tianli’s expression was a little uncertain, but since his father had said so, he nodded. “Alright, but our family doesn’t have much money left. If this continues, I’m afraid we won’t be able to last long ...”

Zhenhu didn’t care about his family’s wealth, but he knew how serious the situation was after hearing what Tianli said. He couldn’t help but sigh, “Jing Jing, what do you think?”

“I’m going to throw everything I have into this. ” Jinghan thought about it. “We have no way out. We can either back out now or hold on until the end. Once Lin Yi makes a comeback, he’ll treat us well.”

“But ... What if he can’t make a comeback?” Tianli asked.

“At most, we’ll just start from the beginning ...” Liu Jinghan shrugged and turned to Liu Tianli, “Dad, don’t worry. If we really lose everything, we can start over again as father and daughter!”

Tianli nodded. Since his daughter had said so, he had to continue supporting fatty Lai.

The wholesale price was very high at the beginning, but now that the price had dropped, even if the distributors didn’t return the goods, house Liu would have to compensate them for the price difference. Fatty Lai couldn’t afford to pay for this because all his money had been invested into the new production line and factory construction, so only house Liu, who was the main distribution channel, could afford to pay for it.

However, as more and more people returned the goods, not only house Liu, but even fatty Lai was getting anxious!

Miracle doctor Guan’s company was glorious, but they were still too inexperienced. How could they compare to the established miracle doctor Kang’s company? The results of this market competition were set in stone-miracle doctor Kang was the winner!

Every day felt like a year for fatty Lai, but he clenched his teeth and persevered because he believed that all his problems would be solved once Lin Yi returned. (To be continued.)

Chapter 1800: Arriving at the snow Valley

The road ahead was getting tougher and tougher, but Mengyao had learned her lesson. She opened the car window and let Tang Yun use the telescope to check the road ahead. If anything went wrong, they would turn around and go the other way!

It was only thanks to Shu's strategy that she was able to escape the last time. If she ran into another robbery, she didn't know if she'd be that lucky again! If the two criminals from before weren't so greedy, they wouldn't have ended up like this!

However, Shu was smart. She saw through their greed and tricked them. If they weren't so greedy, they wouldn't have ended up like this.

"The road ahead isn't easy to walk on. It's overgrown with weeds, but there shouldn't be any danger ..."
Tang Yun reported the situation along the way, which made Chu Mengyao feel more at ease.

But it wasn't surprising. This place was already considered a desolate area in the deep mountains. Under normal circumstances, no one would come here except for some exploration teams.

"How far are we from the snowy valley? How come I don't feel cold at all?" Chu Mengyao found it strange. The temperature here wasn't high but there were trees and weeds. It didn't look like an extremely cold place.

"It's about a dozen miles, but the road isn't easy to walk, we might need to take a longer detour ..."
Tang Yun compared the map to the coordinates on the GPS and said. There were no roads here, so they could only make sure that they were driving in the right direction, but they had to find the specific route themselves.

Although kongwen had already drawn the route for them, they had to adapt to the situation on their own when there were no roads.

"Hang in there, we should be able to get there today ..."
Chu Mengyao had been driving for the past few days and she was exhausted. Among the three girls, only she and Shu knew how to drive. Tang Yun didn't know how to drive and Shu couldn't leave Lin Yi's side, so Chu Mengyao had to drive alone.

Finally, after a morning and an afternoon, the car finally passed through the forest that was very difficult to move through in the evening. However, after passing through the forest, it was a khaki-colored wasteland. There was no vegetation, no birds, and no beasts. It could be said that this place was like the land of death in movies!

This strange scene, especially under the light of the setting sun, appeared even more eerie and barren, causing everyone's heart to tremble for no reason!

"What ... What is this place?" Tang Yun looked at the map in her hand. If it wasn't for the fact that there was no problem with the direction, she would have thought that they had taken the wrong way.

"I don't know, but the map that Mr. Mo gave us shouldn't be wrong. He wouldn't lie to us." Mengyao said as she increased the speed. It was a barren land, but the road conditions were much better than before, allowing the car to move faster.

Tang Yun sneezed unconsciously and frowned, "It's so cold ..."

Mengyao felt a chill down her spine after hearing Tang Yun's words. It was hot in the forest, especially with Lin Yi and Shu, the two natural stoves. It was even hotter, but now that they were in the forsaken land, everyone could feel the temperature drop.

Even after Chu Mengyao turned off the car's sunroof and air-conditioner, the cold air could still penetrate the car and enter everyone's body!

"It's so cool ..." Chen Yushu let out a breath of relief. She was dizzy from the heat on the way here, but she felt much more comfortable here.

"Could it be that we are already close to the snow Valley?" The huge difference in temperature made Tang Yun suspect that they weren't far from the valley.

"From the map, it should be not far ahead. It seems that we have found the right place!" Mengyao looked at the map and the GPS, taking a deep breath. "Finally ... We're almost there!"

"It should be!" Tang Yun nodded. Let's hurry up. We might be able to reach the valley before the sun sets!

This place was too desolate. Compared to the forest before, it made everyone feel a sense of fear. They really didn't want to stay in this lifeless place for a moment longer.

Mengyao picked up the speed and drove according to the GPS. There was no map here, and the GPS showed nothing but empty land, but she wouldn't go the wrong way as long as she knew the exact coordinates!

She didn't know where it started, but snowflakes started falling from the sky, and the ground went from a thin layer of snow to a pure white snow. Mengyao felt like it only took the blink of an eye!

Mengyao had no choice but to slow down on the White snow-safety was the most important thing, after all.

"It's so, so cold here ..." If she hadn't been here herself, Tang Yun wouldn't have known that such a magical place existed in the world. Not far away, there was a vibrant forest, and after a while, it was a barren land, followed by white snow. The Environment and Climate here couldn't be judged by ordinary logic.

"Yunyun, you seem to be afraid of the cold," Mengyao asked.

"I'm not really afraid of the cold ... I'm just sensitive to cold temperatures. But in winter, when the fire went out in the middle of the night, I was the most cold-resistant one ..." Tang Yin said.

Further ahead was a depression. The terrain was getting lower and lower, as if it had formed a natural valley, and the snow in the surroundings was getting heavier and heavier! It could be said that this was a world of snow. It was hard to imagine that the weather in August would be so cold here.

“This place ... Should be within the boundaries of the snow Valley, right?” Mengyao said, confused as she got closer to the coordinates on the GPS. It was all white in front of her, and she could only see a few dozen meters ahead. Anything further than that was blurry.

“That should be it. Let’s look around. I wonder where the snow Valley is?” Tang Yin frowned as well-the closer they got to their destination, the harder it was to find their target. They couldn’t just walk around in the snow, could they? There was a limited amount of gasoline in the car. If they used it all up, how were they going to go back?

However, just as they were feeling a little lost, a figure suddenly appeared in front of the car and shouted at them, “Who are you?”

Chu Mengyao jumped. She didn’t expect someone to appear here and quickly stopped the car!

In fact, even if Chu Mengyao ran over, she wouldn’t be able to hit the person. This person was a patrolling disciple of the snow Valley, and he was an Earth Class early phase. With this level of strength, it was impossible for Chu Mengyao to kill him even if she wanted to.
