

Bodyguard 1801

## Chapter 1801: Snow Valley (1)

“This is the boundary of the snowy valley. If you’re traveling companions or adventurers, please stop!” Although that person looked extremely weak, his words had an indescribable dignity! The strangest thing was that this person was only wearing a white shirt in this world of Ice and snow, but he didn’t seem cold at all.

“This person ... Is a disciple of the snow Valley?” Chu Mengyao heard the man’s words and confirmed his identity. Naturally, she let out a breath of relief and rolled down the window ...

However, as soon as the window was rolled down, a gust of cold wind blew in, making Chu Mengyao and Tang Yun shiver uncontrollably. Shu, on the other hand, seemed to be very comfortable, probably because she was holding Lin Yi, the big stove.

“No, close the window. I’ll go down and talk to him!” Tang Yun said after seeing Chu Mengyao shivering in the cold.

Everyone had brought long johns in the car, but they didn’t expect the valley to be this cold. Kongwen and old Lin didn’t notice this either, and Mengyao couldn’t stop complaining when she arrived!

“Can you ... Go?” Mengyao said, worried.

“It’s fine. Although I’m also cold, I’m more resistant to the cold than all of you.” With that, Tang Yin got out of the car and said to the patrolling disciple, “Hello, we’re heading to the snow Valley. Can you please lead the way?”

“Is it to go to the snow Valley?” The patrolling disciple was taken aback. He looked at Tang Yun, but didn’t see anything special about her. As an ancient sect, the snow Valley naturally had some interactions with other sects, but Tang Yun didn’t look like a practitioner, let alone a disciple of another sect.

“We would like to buy some heaven and earth treasures!” Tang Yin saw the confused look on the patrolling disciple’s face, so she went straight to the point.

“So you’re here to buy treasures ...” The patrolling disciple understood-every ancient sect had their own way of making money-the Ice Palace made money through the tests, the sky elixir made money by selling elixirs, and the valley made money by selling treasures!

Because of the Valley’s geographical environment, in the same month of the year, different places could have different temperatures. Under such temperatures, many spiritual herbs could be grown. Even the sky elixir sect was one of the customers of the valley.

So when Tang Yun said what she wanted, the patrolling disciple didn’t doubt her anymore. Those who could come here to buy treasures were usually recommended by other sects or families of similar status.

“You guys stay here and don’t move. I’m going back to the sect to report to the elder on duty.” The patrolling disciple said.

“Alright, thank you!” Tang Yin said gratefully. She didn’t think that things would go so smoothly-after all, when Lin Yi told her about the path to the Ice Palace, it was full of difficulties, and she even had to take part in the test. But in the valley, it seemed like buying treasures was a natural thing!

The patrolling disciple threw a tag onto the car beside Tang Yin’s car after he finished speaking, and disappeared into the snow ... In the blink of an eye, he was gone!

Tang Yin looked at the tag-it said “patrolling disciple 15, waiting to report”-and there was something she didn’t quite understand, something like a Snow Mountain ...

But after seeing the words, Tang Yin could guess the meaning behind it. There must be other disciples on patrol other than that person, and the other disciples wouldn’t ask anything after seeing the tag.

With that thought, Tang Yin got back into the car and waited patiently for news ...

After a short while, they saw a disciple of the snow Valley, who was dressed exactly the same as the previous disciple, appear next to the car. However, after seeing the label on the car, he left quietly without saying a word. It seemed that this was a long-standing rule.

The patrolling disciple had returned to the valley on 15 days and was about to meet the elder on duty when he was informed by the other disciples that the valley master had called for a meeting with all the elders in the meeting hall. The elder on duty had also gone, so if he wanted to meet the elder on duty, he could only wait at the entrance of the meeting hall.

Disciple 15, who was on patrol, knew the rules and did not dare to disturb them. He came to the door of the meeting hall and stood respectfully at the side, waiting for the elder on duty. There were also some disciples of the snow Valley who had matters to discuss with the other elders. They were also waiting quietly like him.

At this moment, there were five people of different ages sitting in the conference room. Some looked very young, while some looked very old. The one sitting in the main seat was a young woman in her twenties. Beside her was an old lady who looked to be in her seventies or eighties.

The younger one was the current Valley master of the snow Valley, Xue Li, while the old lady beside her was the Grand Elder of the snow Valley. As for the other two men and one woman, they were the three heaven rank elders of the snow Valley!

Xue Li was twenty-eight this year, and she’d just broken through into Sky Class not long ago. As for the other elders, the strongest was only sky Class mid phase. In the entire Valley, other than the great elder, who was Sky Class late phase peak, no one else had reached this level-this was what the valley was most worried about.

As one of the four ancient sects, the snow Valley had once been glorious and prosperous, but with the departure of the previous Valley master, it began to decline. The two water element sects that could have been on the same level as the Ice Palace were now in a state of disharmony.

What worried the valley the most was that the Ice Palace had found an heir, and it was said that he had a rare ice-cold body-this gave the valley an unprecedented pressure! It was true that the snow Valley was once one of the four big sects, but the meeting of the Sky Class was all about the current strength, not how glorious you used to be.

Therefore, finding an inheritor with a suitable physique had become the most important thing in the snow Valley.

Of course, it wasn't just the snowy valley. All the ancient sects that cultivated the five elements heart technique were looking for their own inheritors! Because only an inheritor could open sky Class Island, and let Sky Class late phase peak Masters cross that barrier ...

The Ice Palace and Snow Valley were all Water-type sects. Of course, even though the snow Valley was called the snow Valley, they cultivated the mental cultivation method of the mist-type, and the inheritors of the Water-type had to have three inheritors at the same time to meet the conditions to activate the Water-type.

Xue Li's physique could only be said to be an ordinary Yin physique. Although this kind of physique wasn't considered good, it was already the best physique in the snow Valley. Otherwise, she wouldn't have been able to break through to the sky rank at the age of 28. For a sky rank at this age, it was already very heaven-defying! (To be continued.)

## **Chapter 1802: Snow Valley (2)**

Apart from Rock Candy's fake ice heart Jade bone body, who could break through to Sky Class in his teens, for others, breaking through to Sky Class in their twenties was already a genius among geniuses! Qing looked young as well, but she'd only taken some sort of pill.

But Xue Li looked even younger, at least on the outside. She didn't look much older than Rock Candy, and besides, ten years wasn't much of a difference for a Sky Class master who had a long life expectancy. But Xue Li was still a little conflicted.

When they thought of rock sugar, Xue Li and the Grand Elder were filled with deep jealousy! Rock Candy's Constitution was already good enough. If he could consume an icy heart Jadestone pill, he would be able to perfectly accept the inheritance.

However, before the pill was even completed, the news that the Ice Palace had found an inheritor with a cold Yin body came out-this made Xue Gu's eyes red with jealousy! Why was the Ice Palace always getting all the good things?

Therefore, these days, the Grand Elder seemed to be experiencing menopause again. As long as he thought of this matter, he would gather the elders to discuss countermeasures, but the final result was the same ...

Xue Li had the best physique in the snow Valley, but it was impossible to comprehend the inheritance with this physique! Even if she took the ice heart Jadestone pill, she wasn't confident that it could change her physique!

"Grand Elder, Valley master, this humble one has an idea, I wonder if it will work?" The one who spoke was a sky-rank elder of the snow Valley, surnamed Zhang.

"Oh? What do you think?" The Grand elder's eyes lit up as he asked.

“If we, the snow Valley, were to refine the icy heart Jadestone pill and give it to Palace Master Bing Tang, would she give the inheritor of the cold Yin body to us?” Elder Zhang said.

“This ...” The Grand Elder frowned as if he was considering the feasibility of elder Zhang’s words. However, after a moment of silence, he shook his head and said, “I’m afraid not. If it was us, the snow Valley, would we have exchanged?”

“That’s ...” Elder Zhang was a bit speechless-indeed, he’d thought too simply. An heir wasn’t just a Sky Class late phase peak-he was the one with the highest chance of reaching the path of the sky! Every sect treated him like a treasure, how could they trade him so easily?

Grand Elder, I feel that although elder Zhang’s words don’t sound too realistic, thinking about it carefully, it might not be impossible!” “After all, Sky Class Island is the target of all the ancient sects and houses,” Xue Li said. “Even if they don’t have all the water element inheritors, it’s still possible to open sky Class Island, but the success rate would be greatly reduced ... So for the sake of the bigger picture, I don’t think the Ice Palace would reject this ...”

“Xiaoli’s right-once the Ice Palace loses an heir, it’ll be much harder to open the sky Class Island. If we can really make the ice heart Jade bone pill, then we can give it a try ...” The Grand Elder said after a moment of silence.

“I’ll contact the Ice Palace right away-if they agree, we’ll do our best to find someone who can make the pill!” Xue Li said. She didn’t have to worry about the heavenly treasures that were needed to make the icy heart Jadestone pill. The snow Valley was famous for producing heavenly treasures. Although it was difficult to collect the necessary materials, it was not a difficult task for the snow Valley.

The meeting came to an end, and Xue Li went to contact the Ice Palace. The Grand Elder went back to her cultivation, while the other three elders went back to their duties.

“Elder Zhang, there are a few people outside the snow Valley. They claim to be here to buy some treasures. What do you think ...” Seeing elder Zhang come out, patrolling disciple 15 immediately went up to him. Elder Zhang was on duty today, so he had to consult elder Zhang on all matters of the snow Valley.

“Oh? Then bring them to the living room to see me!” The snow Valley would not reject anyone who wanted to buy heavenly treasures. This was also the source of income for the snow Valley.

Because of its geographical location, the snowy valley was different from the Ice Palace. Apart from a naturally formed depression in the ground, there was nothing else. There were no dangerous spirit beasts or steep cliffs, so it was impossible for it to be used as a training ground. As a result, the snowy valley could not hold any training, and could only rely on its unique climate and environment to plant natural treasures in exchange for money.

Tang Yun, Mengyao, and Yushu didn’t think that the elder would be so easy to talk to. He actually agreed to receive them in the living room. This was out of Mengyao and the others’ expectations. After all, an ancient sect was a high and mighty existence. Sending an elder to receive them was a bit too high of a standard.

However, what they didn't know was that this had always been the case in the snow Valley. This was the way of survival in the snow Valley. As for why the elders had to receive them, it was because only the elders could decide the value of the heavenly treasures. The other disciples of the snow Valley could not make their own decisions.

Therefore, it was better for the elders to come personally than for them to be in charge of the reception.

"This is our Snow Valley's elder on duty, elder Zhang. If you need any heavenly resources, you can discuss them with him in detail!" After bowing towards elder Zhang politely, the patrolling disciple left the parlor and continued his patrolling task.

"Greetings, elder Zhang!" Tang Yun, Mengyao, and Yushu all learned from the people of the martial world and saluted elder Zhang with their fists cupped. It was just that it was a little difficult for Yushu to carry Lin Yi.

Elder Zhang's eyes swept across Tang Yun, Chu Mengyao, and Chen Yushu, a trace of suspicion in his eyes. Although, even Sky Class Masters couldn't directly tell a practitioner's strength, but if the person in front of him was a practitioner or not, Sky Class Masters could basically tell.

However, elder Zhang didn't feel the existence of true Qi on the three of them, so he was a little suspicious.

The people who came here to buy treasures were all cultivators from various sects or families. Ordinary people couldn't possibly know the existence of the snow Valley. However, the three people in front of him made him a little uncertain of their identities. "I heard that you need heavenly treasures? But you guys don't seem to be cultivators?"

"Yes, we are not cultivators." Mengyao admitted readily. She probably knew that there was no point in pretending in front of a real practitioner, so she might as well admit it directly, in case people misunderstood her. "However, the person she is carrying on her back is a cultivator ..."

Elder Zhang hadn't noticed Lin Yi before-Yushu was carrying someone, but he assumed it was a patient. (To be continued.)

## **Chapter 1803: Snow Valley (2)**

These years, the snow Valley had seen many such things. Many sick cultivators would come to ask for medicine. Naturally, they were carried here by people. This was not surprising.

But when Chu Mengyao said that he was a practitioner, elder Zhang looked at Lin Yi and walked over. He wanted to test Lin Yi's strength but Chen Yushu quickly called out, "Be careful!"

"Oh?" Elder Zhang froze, but he also felt the heat from Shu and Lin Yi's bodies. His expression froze as he saw something, "A fire element cultivator? Qi deviation?"

"We don't know if he's a fire-type cultivator, but he has indeed gone mad from his cultivation." "We're here to buy treasures for him ..." Mengyao said.

“If I’m not wrong, you’re here for the ice Spirit fruit, right?” Elder Zhang saw Lin Yi’s condition and guessed what they were thinking. All these years, there were a few fire element practitioners who went into Qi deviation and came here to ask for the ice Spirit fruit. Elder Zhang had experience in this area.

Of course, while the ice Spirit’s fruit was precious and was on par with the Ice Palace’s fire Spirit’s fruit, it was truly of no use to the valley! The cultivation techniques in the snow Valley were all Yin-type and Water-type, so even if he were to go berserk, he would still have to consume the fire Spirit’s fruit. If he were to eat the ice Spirit’s fruit, he would probably die immediately.

Therefore, the ice Spirit’s fruit was only treated as a way to make money or an item to be exchanged. However, it was naturally valuable. The ice Spirit’s fruit that had been exchanged previously had brought more precious natural treasures to the snow Valley.

“Elder Zhang, you’re right. We want the ice Spirit fruit.” The Miss never thought that she’d have to suck up to someone one day, but it was so natural, as if it was for Lin Yi’s sake. Even she herself was surprised.

“I wonder what heavenly materials and earthly treasures you guys want to use to exchange for it?” “The ice Spirit fruit is a specialty of the snow Valley,” elder Zhang said. “It’s unique and has an extremely low production rate. It’s one of the most precious treasures of the snow Valley, so if you can’t bring out a treasure of equal or higher value to exchange for it, we won’t make a move ...”

“We don’t have any heavenly resources, but I’ve heard that they can be bought with money. May I know how much the fruit is worth?” Mengyao was planning to buy it anyway, so she didn’t have any treasures.

“Use money to buy it?” Elder Zhang was taken aback. Only those hidden houses and small sects who didn’t have anything good would come to the valley to buy some heavenly treasures, but they were just ordinary goods. The ice Spirit fruit had never been sold for money. The previous few had been exchanged.

“Yes, I am.” Mengyao said with a nod.

“I may be an elder of the snow Valley, but I really can’t decide the price of the fruit. Of course, even if you want to trade, I can’t. You’ll have to report it to the valley master.” Elder Zhang said, “please take a rest in the nearby rooms. I’ll ask the valley master for the price. Then, I’ll give you an answer. What do you think?”

“I’ll follow elder Zhang’s orders!” What else could Mengyao say?

Besides, this result made Chu Mengyao very happy. Since elder Zhang didn’t reject it on the spot, it meant that there was a chance. So, Chu Mengyao and the others were led to a guest room to rest.

Elder Zhang had left for a whole night, and it was already evening when Mengyao and the others arrived at the valley. It was normal for him to reply the next day, so no one was in a hurry.

In fact, elder Zhang had gone to see Xue Li as soon as he left the living room, but Xue Li was currently discussing with Bing Tang whether or not they could give Xiaoxiao to the valley. Elder Zhang didn’t want to disturb her, and decided to wait until the next morning to ask.

However, the next morning, when elder Zhang met Valley master Xue Li, Xue Li's face was very gloomy. Her originally delicate and fair face was as dark as it could be. After seeing elder Zhang, she only nodded slightly.

Although Xue Li was the disciple of the Grand Elder and the previous master, she was only sky Class early phase. Elder Zhang was Sky Class mid phase, and Xue Li was very respectful to him before. Something must have happened this time.

"Valley master, what happened?" Elder Zhang was taken aback. He didn't bother to mention that someone had bought the ice Spirit fruit and asked directly.

"Bing Tang politely declined the conditions proposed by our Snow Valley ..." Xue Li sighed.

"Don't you think about the Ice Palace-metal, wood, water, fire, and earth-they need at least two inheritors for each element to have a high chance of opening Sky Class Island. If there's only one inheritor, it'll be very, very difficult ..." Elder Zhang said, confused.

"Of course, Bing Tang knows, but she vaguely mentioned to me that those people have already found a candidate for the water inheritor ..." Xue Li said helplessly, "With the Ice Palace's ice element, we'll have two water element inheritors-three might be safer, but which sect would be willing to give away a Sky Class late phase peak, a future Sky Class master?"

"That's true ..." Elder Zhang nodded with a regretful look on his face ...

"By the way, elder Zhang, why did you come to find me?" Xue Li was a little unhappy that she was rejected by Bing Tang, but some things couldn't be forced. Although she was young, she was still the master of a Valley, so her expression quickly returned to normal and she asked elder Zhang politely.

"Valley master, someone has come to the snow Valley to buy the ice Spirit fruit. He wants to buy it with money. I don't know how to set the price." Elder Zhang asked.

"Looking to buy the ice Spirit fruit? Which sect are you from? the fiery mountain or the sky elixir sect?" Xue Li asked, slightly surprised. After all, the ice Spirit fruit was a treasure, but it was also of little value. Only those who cultivated the Yang Fire attribute mental cultivation method could use it. For others, it was neither a medicinal herb nor could it increase their strength. That was why Xue Li asked.

However, whether it was the fiery flame mountain or the sky elixir sect, they would usually use treasures or elixirs of equivalent value to exchange for it. They wouldn't buy it directly with money, only the hidden houses and small sects would.

"None of them. The three girls aren't cultivators. The only cultivator is a young man who seems to be cultivating the Yang heart technique. He's been possessed by the devil. I don't know who gave him advice and came here to seek medicine. (To be continued.)

## **Chapter 1804: one billion**

Xue Li nodded. She didn't care where these people came from. The snow Valley had its own rules. As long as one could afford the price, they would naturally sell the item to you.

“One billion.” “The price is not too high,” Xue Li said.

Elder Zhang clicked his tongue. The hidden houses and small sects that used money to buy treasures only cost tens of millions at most. Hundreds of millions were already at the very most. And an Ice Spirit fruit was asking for a billion!

However, it wasn't a lot. The sky elixir sect had promised to refine the icy heart Jadestone pill in exchange for two Holy ice fruits. However, Xue Li's physique couldn't be changed by just one pill. If there was a marrow cleansing pill and an icy heart Jadestone pill, there was a chance to change her physique into an icy heart Jadestone. However, the marrow cleansing pill was a legendary existence, and even the sky elixir sect didn't have the pill recipe.

The sky elixir sect mostly cultivated fire-related arts, and it was easy to go berserk when using elixir fire to make elixirs, so the ice Spirit fruit was a must.

Of course, maybe it was because the sky elixir sect needed something in the snow Valley, or maybe it was because of the cultivation method in the snow Valley, but the young master of the sky elixir sect didn't ask for Xue Li's hand in marriage, which saved Xue Li a lot of trouble.

“I'll reply to them now!” Elder Zhang nodded, cupped his fists, and left.

The next morning, the disciples of the valley brought food for Chu Mengyao, Tang Yun, and Chen Yushu. It was light and simple, but it was obvious that the valley was very polite to the guests who came here to buy and Exchange treasures.

Of course, this was also because these people could bring benefits to the snow Valley. If people without any natural treasures or money came here to eat and live for free, they would probably have been driven out long ago!

Elder Zhang was a man with good eyes-he could tell that Lin Yi was a practitioner who'd gone berserk, while Mengyao had the air of a young lady from a noble family-people like that were probably rich ...

After breakfast, Chu Mengyao didn't expect elder Zhang to come so quickly. She quickly stood up respectfully. After all, he came here to ask for help.

“Everyone, Valley master Xue has already replied. The ice Spirit fruit is worth one billion. If you want to buy it, you can pay now.” Elder Zhang said.

“One billion!” Mengyao's eyes were wide open-even a rich girl like her couldn't keep her mouth shut! Although she didn't know how much money her family had, one or two hundred million was definitely within their means. But one billion ...

Elder Zhang was shocked by the price as well, but he wasn't surprised by Mengyao and the others “reactions.” Everyone, this is the price offered by the valley master. If you can't accept it, then I'm sorry. Please go back ...”

“Wait, let's raise some money ...” Chu Mengyao naturally wouldn't leave. Although one billion was an astronomical figure to her, she had to try no matter what ...

“Of course you can.” Elder Zhang nodded.”Then I won't bother you anymore. Once the funds are in place, you can ask the disciple on duty to contact me.”

With that, elder Zhang left, leaving Tang Yin still in a daze ... One billion, her mom was already overjoyed when she got one hundred million back in house Tang, and the snowy valley was asking for one billion? wasn't that a little too much?

But Mengyao seemed to want to buy it for one billion, and Tang Yun was touched. She didn't know what Mengyao was thinking, but she knew that Mengyao was really good to Lin Yi.

"Yaoyao ... This one billion ..." Tang Yun's face was helpless, "My family can only afford 100 million at most ..."

"I'll talk to my dad and see how much money he has." Mengyao nodded. "One billion may be a big number, but from elder Zhang's tone, it seems like there's no room for negotiation. We can only do our best ..."

These past few days, pengzhan had been immersed in his own fantasy, fantasizing that his company's assets would double and become one of the biggest companies in the country. This was his life's dream, but it seemed that with the current speed of money making, this dream wasn't far away.

His phone rang, and Chu pengzhan picked it up. He couldn't help but smile when he saw his daughter's number, "Yaoyao, did you have fun in West Star Mountain village?"

"..." Chu Mengyao was silent for a while. When Lin Yi got into trouble, it was too sudden and Chu Mengyao didn't tell Chu pengzhan about it, but she had to tell the truth now, "Dad, something's happened to Lin Yi!"

"What? Did something happen to Yi?" "What happened to him?" pengzhan asked, surprised.

"When he was cultivating, he suffered from Qi deviation. Now, his entire body is heating up. He's no different from a huge furnace!" Mengyao explained Lin Yi's situation simply. "He needs an elixir to solve his problem, but ... He asked for a billion ..."

"One billion?" Chu pengzhan frowned and was shocked by the number. He had earned quite a lot of money recently but he was still surprised when he heard the astronomical number, "So much money?"

"Yeah ... Daddy, can you take it out? This is money to save Lin Yi's life, we can't afford to waste it." Mengyao knew that doing this would put her father in a difficult position, but she still said it with determination.

"Yaoyao, don't worry. One billion, right? I'll definitely think of a way for you!" Pengzhan valued Lin Yi as much as Mengyao did, and he'd gotten some clues from the phone call with his father. He didn't need to contact his father this time, and decided that he'd save Lin Yi no matter what.

"That's good ..." Chu Mengyao heard Chu pengzhan's words and let out a breath of relief.

"Yaoyao, wait for my call. I'll help you raise the money." Pengzhan said.

Although an Mingyue's big plan was very profitable, Chu pengzhan had to withdraw a portion of his funds for Lin Yi's sake. After hanging up, Chu pengzhan called an Mingyue immediately.

"Pengzhan bro? Why are you calling me again? Didn't I just tell you about the results of the battle? You're not in such a hurry, right?" An Mingyue asked with a smile. Although he was smiling on the

surface, he was laughing coldly in his heart. You're going to be a pauper soon, calling you brother pengzhan is already a compliment. (To be continued.)

### **Chapter 1805: withdrawing funds**

"Brother Mingyue, it's like this, something happened to my family. Can you see if you can withdraw the one billion Yuan first? I'm really in a hurry?" Chu pengzhan was still thinking about Lin Yi, so he didn't bother with small talk with an Mingyue and got straight to the point.

"Withdraw the funds?" An Mingyue froze. He didn't think that Chu pengzhan would withdraw his investment at a time like this. If he withdrew one billion Yuan, he could still get some money out of him, but with this one billion Yuan, he might be able to come back from the dead. Chu pengzhan was an experienced businessman, and it was all the hypnotist's credit that he lost his mind this time.

"That's right, please help me with this matter, brother Mingyue!" Pengzhan said.

"What's the matter, brother pengzhan, why are you in such a hurry?" An Mingyue asked.

"Something happened to my family, I can't tell you ..." Chu pengzhan naturally wouldn't reveal Lin Yi's situation.

"I see ... I don't know if I can withdraw my investment now. After all, I don't know how to do futures, so I'll ask first and give you a reply." An Mingyue didn't reject him directly, as that would be too fake.

"Alright, I'll wait for your call!" Pengzhan said.

An Mingyue hung up and looked at an Jianwen suspiciously, "Jianwen, what do you think Chu pengzhan's up to this time? You want to withdraw 1 billion Yuan?"

An Jianwen didn't have much to do recently, and he was focused on harming Chu pengzhan. Every time an Mingyue talked to Chu pengzhan, they would use speaker and recording, so an Jianwen could hear everything clearly, "I'm not sure, but I can't let him take back the money. I have to make him bankrupt so that I can take advantage of this and get Chu Mengyao!"

"Hmm ... But if we don't give it to him, will Chu pengzhan suspect us?" "Even if you give him one billion, can't you ask the hypnotist to hint to Chu pengzhan that Chu Mengyao will marry you?" an Mingyue asked, worried.

"What's the point of hinting at him? The key is that Chu Mengyao herself has to be willing. With Lin Yi and Chen Yushu messing things up, what's the point of Chu pengzhan agreeing to it?" Jianwen said, shaking his head.

"Then ... What about hypnotizing Chu Mengyao?" An Mingyue asked.

"The hypnosis is only temporary, but not forever. When Chu Mengyao wakes up, she'll be in trouble. Besides, I want her heart, or I'd kidnap her and cook what's done. But I don't like this feeling!" An Jianwen's heart was filled with an almost perverted obsession that drove him completely crazy.

“Then ... What should we do?” An Mingyue listened to an Jianwen completely regarding Chu pengzhan’s matter. After all, an Jianwen was the leader of the whole thing.

“Dad, the hypnotist reminded me of something. How about this, I’ll get him to hint to Chu pengzhan and ask him what he’s planning on doing with the one billion, and we’ll decide what to do!” Jianwen said after some thought.

“Alright, let’s get to the bottom of this first before we decide.” An Mingyue nodded.

An Jianwen’s words carried enormous weight in the Firewolf gang. Although he was using the Firewolf gang’s power to do his own private business, the hypnotist and the professor didn’t have any objections. After all, while he was working hard to earn money for the Firewolf gang, he had to get some benefits for his family, right?

And so, the hypnotist pretended to be an Mingyue’s Secretary and went to see Chu pengzhan with him.

Chu pengzhan didn’t expect an Mingyue to come to him personally. He received an Mingyue in the company’s guest room and said, “Brother Mingyue, if there’s anything, just say it over the phone. You don’t have to come to the office, right?”

“Hehe, I was just passing by ...” An Mingyue said as she gave the hypnotist beside her a look.

The hypnotist let out a strange sound wave, and pengzhan’s expression froze, his eyes dazed.

“Chu pengzhan, why do you want to withdraw one billion?” The hypnotist asked directly.

“Because ... Yaoyao called and said that Yi’s cultivation has gone berserk, and he needs one billion to buy elixirs. So, I have to withdraw one billion ...” Chu pengzhan said expressionlessly.

“Who’s Yi?” The hypnotist asked subconsciously.

“It’s Lin Yi,” Pengzhan said.

The hypnotist turned to look at an Mingyue. He’d asked all the questions an Jianwen wanted him to and was now waiting for an Mingyue to make a decision.

“Hint to him that he can’t withdraw his capital so easily in this kind of financial speculations. If he changes his way of doing things now, he might lose everything, but if he insists on withdrawing his capital ...” An Mingyue said with a bright idea. They didn’t have a good excuse to explain how they could lose all their capital, but now Chu pengzhan wanted to withdraw their capital. Wasn’t this a good excuse?

“Alright,” he said. The hypnotist nodded and let out a strange sound wave. He repeated what an Mingyue said to Chu pengzhan and let out another sound wave. Chu pengzhan returned to normal in an instant.

“Eh? What happened just now? He seems to have fallen asleep?” Pengzhan blinked.

“Brother pengzhan, you were distracted just now. I was just about to talk to you about the withdrawal of funds!” An Mingyue said, “brother pengzhan, I’ve asked Jianwen’s friend. He told me that financial

investments are different from normal businesses. If we withdraw our capital now, it might affect our entire plan. We might lose everything!”

“Why is that?” Pengzhan blinked.

“I’m not too sure either, but maybe it’s the same principle as being the banker on the stock market. I don’t know the specific operation either!” “This kind of financial genius must be different from others, otherwise he wouldn’t be able to earn so much money!” An Mingyue said.

“Is that so ...” Pengzhan may be an old hand in the business world, but he’d only done business before, and had never done anything like this before. He only had a rough and simple idea of how to operate stocks and futures, but he didn’t know the more complicated methods. He was a little hesitant after hearing what an Mingyue said, but deep down, a voice kept urging him, “Even if they had to pay, they had to withdraw their funds!

And so, under the urging and hinting of the voice, Chu pengzhan said, “Brother Mingyue, please help me to tell that person that we must withdraw our investments!”

“Sigh, alright, but it’s very easy for problems to arise. If there’s a problem ...” An Mingyue spread her hands and said innocently.

### **Chapter 1806: losing everything**

“I’ll take responsibility if there’s a problem!” “We’ll withdraw the funds now, right?” pengzhan asked.

“How should I put it ...” An Mingyue wanted to stop Chu pengzhan, but she didn’t know what to say. In the end, she hesitated and said, “Fine, if that’s the case, then brother pengzhan, we’re both business people, and we’re brothers. Write me an authorization document, and we won’t be responsible for any problems that arise from the withdrawal ...”

“Sure, no problem.” Chu pengzhan didn’t think too much about it. With the hypnotist’s hint, he gave an Mingyue an authorization document without hesitation.

After getting the document, an Mingyue didn’t stay any longer. She directly brought the hypnotist back to the company. But on the way back, an Mingyue almost wanted to laugh at the sky. This was great news!

An Mingyue and an Jianwen had been very careful when they were doing this. They saved the phone recording so that Chu Mengyao wouldn’t be suspicious and Lin Yi would come to cause trouble. But now, the only support of house Chu, Lin shanyi, had gone into Qi deviation. It was like the heavens were helping the an family!

An Mingyue couldn’t give him that one billion, and not only that, she wouldn’t give pengzhan a single cent of the money from before!

At first, Jianwen and Mingyue wanted to create a fake account that would make them lose money when they were short or long, but the only problem was, how did this financial genius lose everything all of a sudden when he was just making money?

Although the futures market was fickle, it was still unreasonable and would make people suspicious. But that problem didn't exist anymore. An Mingyue could just say that Chu pengzhan was the one who wanted to withdraw the funds, and that the trader had no choice but to change his original plan. A mistake happened, and not only did he fail to withdraw the funds, but he also ruined the original plan, causing all the money to go to waste!

Jianwen was very happy after hearing the news. Lin Yi was in Qi deviation? The heavens had really opened their eyes. The biggest obstacle in front of them had been resolved, and they could do whatever they wanted in the future.

With that in mind, Jianwen and Mingyue took the opportunity and put it into practice. When pengzhan received Mingyue's reply, he felt like he had been struck by lightning. He held his phone and sat in his office, speechless ...

Lost? All lost? How was that possible? Just because he wanted to withdraw his capital in advance, it disrupted the entire plan and resulted in him losing all his capital? Chu pengzhan was in a daze. Looking at the familiar office, he felt sad ...

So many years of hard work, and it was all gone in an instant? However, although Chu pengzhan was sad, he didn't forget the important matter. After an Mingyue told him the news, he suppressed the sadness in his heart and said to her, "Brother Mingyue, can you lend me 1 billion first? This sum of money is too important to me. I'll definitely return it to you in double in the future!"

"Brother pengzhan, it's not a problem of me lending you one billion Yuan anymore. Most of the money you lost came from our family, and now big brother and the old man are urging me to take over pengzhan industries ..." An Mingyue smiled bitterly, "Pengzhan bro, you know that we've already lent you most of our funds-we don't have any left!"

"Ah?" Chu pengzhan was dumbfounded after hearing an Mingyue's words. The company was going to be gone too? When Chu pengzhan used the company's shares and property as collateral, he never thought that he would lose money, but under the hypnotist's suggestion, he went all in.

Even now, he still couldn't believe that he had lost all his money. How was this possible? He could obviously earn money!

"Brother pengzhan, to be honest, our losses this time were huge. We didn't want to participate, but you wanted to do something big again, and we didn't have enough funds, so we added in some more. Now, we've lost all our money ..." "Alright, brother pengzhan, my big brother will be taking over the company and the other businesses tomorrow ... I hope you'll cooperate ..."

"..." Chu pengzhan's heart was filled with bitterness and confusion. He wanted to say something but an Mingyue had already hung up!

Pengzhan had never thought that an Mingyue was the one who set him up-it was clear how powerful the hypnotist was.

No matter what, pengzhan decided to call Mengyao first. He'd promised Mengyao that he'd call her if he had any news, but now ... He had to let her know no matter what, right?

Pengzhan wanted to help, but there was nothing he could do. He was sitting in his office, but he had nothing left.

“Daddy, how is it?” Chu Mengyao had been waiting for Chu pengzhan’s call, but there was no news for an entire day and night. It made her very nervous.

“Yaoyao ... I can’t get the money out of my father’s bank right now ...” Chu pengzhan hesitated and didn’t tell the truth. He knew that Yaoyao was already very worried about Lin Yi and if he told her that he had nothing now, she would be even more worried.

“Ah?” Chu Mengyao heard her father’s words and froze.

“Daddy’s money was all used on that big project, so ...” Chu pengzhan said against his will, “I’m sorry, Yaoyao, I’ll think of something ...”

“Dad ... But Lin Yi’s condition is critical!” “If we don’t buy the herbs, he ... His life might be in danger ....” Mengyao said, worried.

“I’ll think of something else, Yaoyao, don’t worry ...” Pengzhan said bitterly, “I ...”

“Daddy, I’ll think of something ...” Chu Mengyao knew that her father was really in a difficult position. Otherwise, he would be more worried about Lin Yi than she was. She could tell from her father’s attitude when Lin Yi was injured last time. Chu Mengyao could not force it.

After hanging up, Chu Mengyao’s face didn’t look good. Tang Yun and Shu heard her conversation with Chu pengzhan and understood her difficulties, but what was Lin Yi going to do?

“Maybe I should ask fatty Lai? Let’s see if he has any ideas?” The only person Tang Yin could think of at this point was fatty ...

“Alright, let’s see if he has any money.” Mengyao’s eyes lit up as well.

However, they didn’t know that fatty Lai’s life was quite hard. He had used all his cash to pay the workers, but even so, he couldn’t hold on for long. House Liu was out of money, so the distributors who didn’t get a refund joined forces to go to house Liu and fatty Lai to collect their debt. (To be continued.)

### **Chapter 1807: The company closes down**

Fatty Lai’s crisis hadn’t been resolved yet, but his creditors and bank loan requests came rushing him. After all, fatty Lai borrowed a lot of money from the outside to build the new factory, and he also applied for a lot of loans from the bank. When miracle doctor Guan medical company was at the top of the market, no one came to ask for debts, but now, everyone was afraid of losing money, so they naturally started to ask fatty Lai for debts!

Until now, there was still no news of Lin Yi. Fatty Lai had no choice but to sell the factory to pay off the debt. Of course, he lost quite a bit of money ... In the blink of an eye, miracle doctor Guan’s medical company was on the road to bankruptcy!

Fatty Lai had been holding on for a long time, but he couldn’t hold on any longer. The unsalvageable products had pushed miracle doctor Guan’s medical company to a dead end.

House Lai had also cut off all ties with fatty Lai, and as a member of the practitioner's Association, house Liu had no choice but to borrow money from the families close to Lin Yi. Among them, house Chen, house yang, and house song didn't do business and didn't have much money on hand. Only house sun and house Wu had businesses, but at this time, house sun and house Wu hesitated!

Gonggao and old man sun were the kind of people who wouldn't do anything without benefits. House Liu's borrowing money was like a bottomless pit, and no matter how much money they spent, it was all in vain. They heard that Lin Yi was involved in miracle doctor Guan's medical company, but it was only hearsay. Before Lin Yi said anything, the two chose to wait and see.

At this time, someone spread the news of Lin Yi's Qi deviation, and this made old man sun and gonggao even more hesitant. If Lin Yi went berserk, then wouldn't the practitioner's Association be dissolved? If he got involved with house Liu and miracle doctor Guan's medical company now, wouldn't he be waiting for Lin Yi's enemies to take revenge?

Therefore, the best way to protect himself was to wait and see.

The news spread far and wide, even fatty Lai got wind of it! Naturally, fatty Lai didn't believe the news when he first got it. He thought that someone was making it up, but he suddenly remembered how Tang Yun was hesitating when he called Lin Yi. Fatty Lai was shocked-this rumor might not be a baseless one!

Fatty Lai quickly picked up his phone. He was about to ask Tang Yun when she called first.

"Sister-in-law!" Fatty Lai picked up the phone and asked urgently, "How's boss? There are rumors that boss has gone mad during his cultivation, is that true?"

"Ah?" Tang Yun was stunned. She didn't expect fatty Lai to get the news before she could even say anything. Who was the one who spread the news? The only people who knew about this were themselves, old Lin, and Mister kongwen. As for the others ... It was only Yaoyao's father, Chu pengzhan. But who among these people would leak the information?

"What's wrong, sister-in-law? is this news fake?" Fatty Lai asked, surprised yet happy.

"It's not fake ... It's real!" Tang Yun didn't want to hide anything from fatty Lai this time. She needed to tell him how to use the money. Even if she was Lin Yi's girlfriend, she wouldn't be able to make fatty Lai take out one billion without asking. Fatty Lai wouldn't ask anything unless Lin Yi called him personally.

"Re ... Really?" Fatty Lai's expression froze for a second, his heart sinking to the bottom of the valley. If this news was real, then fatty Lai knew exactly what it meant. All the factions that were against Lin Yi would probably laugh at the sky after hearing this news, and would happily suppress all the people and families related to Lin Yi ...

Could it be that house Kang knew something in advance, which was why they were so unscrupulous? Fatty Lai hesitated. Of course, he didn't know that house Kang didn't know about this. Kang Zhaoming was still very afraid of Lin Yi. Although Lin Yi wasn't a match for the thirteenth on the right, his desperate stance made Kang Zhaoming a little scared!

If it wasn't for the Hidden House you's support, he would've gone into hiding a long time ago, not to mention suppressing miracle doctor Guan's medical company.

However, the competition between miracle doctor Kang and miracle doctor Guan was only a normal business tactic. Neither of them used despicable methods, so even if Lin Yi knew about this, he couldn't use other methods to cause trouble for house Kang. After all, the competition between miracle doctor Kang and miracle doctor Guan was a competition of their own. If miracle doctor Guan's medical company wanted to fight back, then they had to bring out something stronger to replace miracle doctor Kang's products!

If Lin Yi really did use force to cause trouble for miracle doctor Guan's medical company, then the company's reputation would take a huge hit if house Kang exposed it!

Of course, Lin Yi could use Guan Xin's kidnapping as an excuse to cause trouble for Kang Zhaoming, but Kang Zhaoming wasn't afraid. Even though right thirteen was injured, he was still staying in house Kang to protect their safety!

The thirteenth of the right had also been rewarded by the hidden right family and the sky elixir sect for his previous contributions. He had received a lot of golden elixir pills for cultivation, so he was very happy to be in charge of this task. If the Kang family could come up with another elixir recipe, his credit would be indispensable.

The thirteenth on the right was an Earth Class master, and the only reason he was able to stay in the common world's miracle doctor Kang's house was because of the tests from the Hidden House Council's elders. The first elder and that person had left him with a communication device, and there was no response for three days straight. From this, it could be concluded that the first elder had disappeared with that person and the other Masters. Now that they didn't even know if he was alive or dead, what kind of rules would the hidden houses still follow?

The Hidden House of you sent the thirteenth of the right to house Kang under the guise of protecting the hero who gave up the pill recipe, but it was also a test for the great elder! To the outside world, the Hidden House of the right naturally couldn't disclose that thirteenth of the right was a member of the Hidden House of the right. This ambiguous attitude could be completely pushed away when necessary.

Of course, when they did this, the Hidden House of the right also told the sky elixir sect, and they only dared to do this with the tacit approval of the sky elixir sect. Otherwise, even without the threat of the great elder of the Hidden House Arbitration Council, there were still the ancient sects and houses above the hidden houses.

However, while the sky elixir sect allowed the earth Class from the hidden houses to enter the common world, they also warned the old man of the you house that Sky Class Masters couldn't enter the common world as they pleased-this involved an ancient sect's agreement!

### **Chapter 1808: Worry (1)**

The ancient sects and houses had found some hidden houses and small sects to act as their eyes and ears, but that was all-Sky Class Masters of the ancient level weren't allowed to step into the common world and interfere with the things of the hidden houses and small sects.

Otherwise, if a Sky Class master came out, the hidden houses wouldn't even have a chance to survive! This was similar to the Hidden House Committee, each level had its own rules.

Although the elder of the Council was no longer here, it was still best for the Sky Class Masters of the hidden houses to not step into the common world. After all, this touched the ancient agreement-the sky elixir sect wasn't the only big sect right now, and if any ancient sect didn't like them, it was possible that they'd go all out to destroy the Hidden House.

But for the hidden houses, it was enough for an Earth Class to be able to enter the common world-to them, only a few houses had Sky Class Masters, and they only showed up when something big happened, and they were all in seclusion all year round, hoping to improve on their martial arts!

After all, the lifespan a Sky Class early phase and Sky Class late phase peak gave was different-with every increase in level, the lifespan would increase as well, and the longer a Sky Class lived, the longer a family would be able to prosper.

These hidden house elders might not dare to pursue the higher levels of sky path, but reaching Sky Class late phase peak was their ultimate goal.

"It's true ..." Tang Yun's voice had a trace of bitterness,""But, how did you know?"

"It's ... It's all over the place ..." Fatty Lai paused,""This news wasn't spread by you?"

"No..." Tang Yin shook her head,""We've been hiding it from you, not even you, for fear that the news would be leaked ..."

Fatty Lai thought about it and agreed. Tang Yun didn't even tell herself, how could she tell anyone else? Then where did this information come from?

"Ah ... So it's true ..." Fatty Lai sighed, his heart filled with sorrow. It was fate. It seemed like the bankruptcy of miracle doctor Guan's medical company was irreversible. Lin Yi had lost his mind, how could he help the company survive this?

Although fatty Lai was feeling pained and regretful, he knew that the most important thing was for Lin Yi to solve the problem of the Qi deviation. If Lin Yi couldn't solve the problem, the company would never be able to make a comeback.

"Mr. Lai, do you have a billion? "I'm going to buy Lin Yi an elixir that can cure his Qi deviation, but the other party offered one billion ..."Tang Yun didn't know how the news got out, but since it did, it was even more urgent to wake Lin Yi up.

"One billion ..." Fatty Lai smiled bitterly. If it was a month ... Or even half a month ago, he could've borrowed it from house Liu even if he couldn't afford it. But now, he and house Liu were both broke, and they had a huge debt outside ...

"Is there any difficulty?" Tangyin's heart tightened when she heard fatty Lai's tone.

"Sis-in-law ... I was in a hurry to call boss before because there was a problem at the company ..." Fatty Lai didn't hide anything anymore and told Tangyin everything that happened. At the end, he said guiltily,""I'm sorry, I failed to live up to boss's trust and caused the company to go bankrupt ..."

“It’s not your fault ...” Tang Yun didn’t blame fatty Lai after hearing the truth, but she felt helpless. The company had to go bankrupt now of all times, and fatty Lai didn’t have a single cent left. How was he going to get the fruit?

“Sis-in-law, don’t worry, I’ll think of something. I’ll go to house Wu and house sun to borrow some money. I’ll have to get the money ...” Fatty Lai said, but he knew that he wouldn’t even be able to get a hundred million, let alone a billion!

Tang Yin wasn’t stupid-she could tell that fatty Lai wasn’t confident. She smiled bitterly. She didn’t expect things to happen at the same time! However, she didn’t want fatty Lai to worry so she said, “It’s okay ... I’ll think of another way ...”

After hanging up, Tang Yun looked at Chu Mengyao and Shu in a daze, unable to say anything.

Why was the heavens so unfair that all these disasters had to happen at the same time? One billion was a lot for Lin Yi before, but it wasn’t a problem for him to get it ... But now ...

Tang Yin thought of the Hidden House Tang, but she shook her head. How could the Hidden House Tang give her one billion? Her birth father probably wanted Lin Yi dead, didn’t he?

That’s right! Tang Yin suddenly remembered her sister Bing Tang-she was the sect master of the Ice Palace, so she should be able to come up with a billion, right? However, how was he going to contact Rock sugar? The only one who knew where the Ice Palace was was Lin Yi-it seemed like even old Lin didn’t know where it was, and it took him half a month to find it.

But now, the valley and the Ice Palace were in opposite directions-even if he went back and found out where the Ice Palace was, he’d have to borrow money from Bing Tang to come back. Lin Yi didn’t even know if he’d be able to make it!

Lin Yi’s body temperature was rising every day ever since he left the village. It wasn’t obvious at first, but as time went on, Shu couldn’t take it anymore. Luckily, Shu had a heat-resistant body that conducted heat, allowing Lin Yi to survive until now!

Tang Yin couldn’t imagine what would happen if this dragged on!

When Chu Mengyao and Chen Yushu found out that miracle doctor Guan’s medical company was forced to go bankrupt by miracle doctor Kang’s Medical Group, helplessness and distress appeared on their faces at the same time. Why did everything have to be connected?

He couldn’t get his father’s money back, and miracle doctor Guan’s medical company just had to go bankrupt at this time, and Lin Yi’s Qi went crazy at this time!

The three of them couldn’t think of anyone else they could borrow money from. The Missy had never been short of money since she was young, but this was the first time she felt the trouble of being short of money ...

“Grandpa Lin’s Lin Yi’s master-could he have a recipe that could compete with miracle doctor Kang’s Medical Group?” Shu suddenly realized that she couldn’t just let miracle doctor Kang’s Medical Group off so easily.

“Even if we do, it’s impossible to start production right away. Grandpa Lin seems to have something he can’t tell us, and he can’t leave the village. Without him to make the medicine and guide us, it’s not realistic to revive miracle doctor Guan’s medical company with just a few recipes ...” Mengyao shook her head. (To be continued.)

## **Chapter 1809: Troubles (2)**

She didn’t know much about business, but she’d heard and seen things around Chu pengzhan-she knew some basic things. This time, house Kang probably came prepared, and to be able to launch so many new types of medicine so quickly, they must have a master guiding them from behind. Unless Lin Yi or Lin Dongfang were in charge, it was impossible to take down miracle doctor Kang’s Medical Group with just a few recipes!

What you have, they have too-you don’t have an absolute advantage. Even if you sold it at the same price as them, you still wouldn’t be able to compare to miracle doctor Kang’s old brand!

“You’re right. Fatty Lai doesn’t have any money at all. Without the capital, the prescription alone won’t be of any use ...” Tang Yun sighed. She was actually leaning towards borrowing money from Rock Candy, but how could she contact Rock Candy?

In Songshan, Chu pengzhan transferred his shares and industries to the an family. He was unwilling, but the an family had let him look through all the futures investment books. He also found a few financial experts to look at them, and the conclusion was the same-the plan was great, but the sudden withdrawal affected the overall situation and caused them to lose everything!

Of course, this was also because of the help of the firewolves. They hired some analysts to make up fake accounts according to the market situation. Not many people could predict the future trend accurately, but making fake accounts based on the past market situation was something most traders and analysts could do perfectly.

Chu pengzhan thought of his retired father, his daughter Chu Mengyao, and Lin Yi ... His expression was a little dazed and depressed. All his assets were gone, including the cars and properties under his name, even Yaoyao’s Villa and car were all under the an family’s name. Chu pengzhan felt like he was at a dead end ...

He didn’t have the face to face his father, his daughter, or Lin Yi. The an family did give Mengyao face and didn’t accept the villa right away, but they did say that they’d take it after Mengyao came back and packed her things. Yushu’s Villa, on the other hand, was under Chu pengzhan’s name, but it was taken away right away.

Now, the only thing that belonged to the Chu family was his father’s house in the village. However, it wasn’t worth much.

“Mr. Chu, we can always earn more money, you can’t be dispirited!” Uncle Fu had witnessed Chu pengzhan’s ups and downs, but he didn’t know much about his investment and wouldn’t interfere. Although he felt that there was something fishy about this, he couldn’t find any flaws.

“Li Fu ... With your skills, you should find a new owner. I ... Don't have any money to pay your salary here ...” Chu pengzhan looked at uncle Fu and smiled bitterly.

“Mr. Chu, what are you saying? I, Li Fu, didn't stay here for the money. I've already treated you and Yaoyao as family!” “Plus, I can say that I've received a huge favor from Lin Yi. No matter who it is, I can't just leave ...” Uncle Fu said.

“Alright!” Pengzhan patted Li Fu's shoulder and nodded heavily. “Li Fu, you go to Shu's Villa and take the stuff back to Yaoyao's Villa .....”

“Mr. Chu, what about you?” Asked uncle Fu, surprised.

“I want to be alone, don't disturb me ...” Chu pengzhan waved his hand.

“This ... Alright!” Uncle Fu saw that pengzhan wasn't in a good mood, and there was no point in trying to talk him out of it. He'd rather let him calm down!

Pengzhan sat down on a bench by the side of the road, while uncle Fu walked quickly towards the villa area. The Bentley didn't belong to them anymore, so uncle Fu could only walk home. Fortunately, he was a practitioner, so this distance wasn't a problem for him.

An Jiande didn't think that an Jianwen would be this ruthless, taking all of Chu pengzhan's assets and funds to the an family in one go. He didn't admire him, but was even more envious and jealous! However, even if he was jealous, an Jiande still had to smile and praise him in front of his father, an Mingyue, and an Jianwen ...

“Jiande, didn't you say you have a grudge against Chu pengzhan? Chu pengzhan has no value at all now, you can start now.” An mingri said to an Jiande. No one knew his son better than his father. He could tell that although an Jiande was smiling, he must be suppressing his anger inside. Chu pengzhan was the perfect target for him to vent his anger on.

“Oh? Big brother, do you have a grudge against Chu pengzhan? Why do you want to deal with him?” Jianwen asked in surprise, but he was weighing the pros and cons in his heart. If he touched Chu pengzhan now, no one would suspect him, because Chu pengzhan had no value anymore!

If Chu pengzhan had given the money to the an family before this, people would've definitely suspected the an family if something had happened to him.

“Hehe, big brother's business isn't as big as yours, it's just a small business. I had some grudges with him before ...” An Jiande said with a fake smile, “I wanted to do something to him before, but I heard that you were scamming money for the an family, so I let him off for the time being ...”

“I see ... Then, big brother, do you need my help?” An Jianwen suddenly thought of a plan. If Chu pengzhan did something now, then Chu Mengyao would be even more helpless. Lin Yi's Qi deviation wasn't guaranteed, either, and Jianwen would be the only one Mengyao could rely on!

Otherwise, how was Chu Mengyao going to survive on her own? So when he thought of this, he wanted to help an Jiande kill Chu pengzhan.

“If you can help, that'd be great ...” Jiande was about to reject the offer, but he suddenly remembered the powerful hypnotist by Jianwen's side. “I'm planning to cause Chu pengzhan a car accident, and I've

found a scapegoat, but if the hypnotist can hint Chu pengzhan to commit suicide by accident, then we won't have to take too much responsibility ...”

“No problem!” “Sure!” Jianwen said without hesitation. He'd arrange for him to work for you right now!

Chu pengzhan sat alone on a bench by the road. There were a few times when he wanted to contact his father and tell him about his current difficulties, but he was afraid that the old man wouldn't be able to take it! No one would feel comfortable that such a large corporation had become someone else's in the blink of an eye.

Her daughter, on the other hand, was in urgent need of money to get Lin Yi's medicine. How was she supposed to explain this to her daughter? Chu pengzhan was a little annoyed at himself. Why was he so obsessed? an Mingyue had already told him to stop when he was ahead, why was he still so greedy? (To be continued.)

### **Chapter 1810: Car accident**

Humans die in the pursuit of wealth, birds die in the pursuit of food, how many such examples were there in the world? If he had not been greedy for more money, how would he have ended up with nothing?

“Young man, you seem to have something on your mind?” An old man walked to the bench beside Chu pengzhan and sat down. Although it was a little weird for him to call Chu pengzhan “young man,” it wasn't too much to call him young at his age.

“Hehe ... It's nothing ...” Pengzhan naturally didn't want to talk about his pain to a stranger, so he only smiled faintly.

“If there's something on your mind and trouble you can't solve, then go to hell ...” The old man said to himself.

“Go to hell?” Chu pengzhan was taken aback and a look of confusion flashed across his eyes. He stood up abruptly and stumbled forward towards a van that was speeding by ...

With a loud bang, the van sent Chu pengzhan's body flying, and the screeching sound of the brakes followed ...

The old man stood up and left without even looking at pengzhan ... He was the hypnotist in disguise!

The police car and ambulance arrived at the scene very quickly. The van driver did not run away. Instead, he looked down in fear and panic, squatting on the ground, not knowing what to do ...

The ambulance took Chu pengzhan away and rushed to the hospital. The police stayed behind to investigate the scene, but from the van's dashcam, Chu pengzhan seemed to have committed suicide, crashing into the van of his own accord. At least that was what the video showed, but they couldn't confirm whether he had the motive to commit suicide before they could identify the victim or the victim. They needed to investigate further to determine if the driver was responsible for the accident ...

However, the investigation results came out very quickly. Chu pengzhan, the former chairman of pengzhan industries, had recently failed in his investment in a business operation and lost everything. From this, it was clear that his motive for suicide was very clear ...

And according to the owner of a newspaper stand who witnessed the entire accident, Chu pengzhan did crash into the car on his own accord. He was sitting on a bench by the road, dejected. Then, an old man passed by and said a few words to Chu pengzhan. Chu pengzhan got up and crashed into the oncoming car as if he had gone crazy ...

The old man was suspicious-perhaps he'd said something to provoke Chu pengzhan, or perhaps he'd failed to persuade Chu pengzhan and triggered Chu pengzhan's rebellious mind, causing him to commit suicide-but the newsstand owner didn't remember what the old man looked like. His attention was diverted by the car accident, and he didn't see when the old man left ...

With the newspaper stand owner and the dashcam as witnesses, the van driver naturally didn't have to take any responsibility. Pengzhan didn't die on the spot, but he was sent to the hospital's intensive care unit.

Chu Mengyao didn't know about these things. She was just waiting for her father's call to come back, but there was no answer. She called her father again, but no one picked up. She called again, but no one picked up ...

Mengyao didn't think much of it, assuming that pengzhan was in a meeting. She wanted to call him later, but elder Zhang appeared in the room again.

"What do you think?" Elder Zhang's face was still the same smile, neither humble nor overbearing, but his words were very formal. Even if he was a Sky Class master, he treated every customer who came to trade or buy treasures with the same tone.

This was also the way of survival in the snowy valley. Even cultivators couldn't go without food and water. They also needed money to buy other natural treasures for cultivation.

"Elder Zhang, can we discuss this? we don't have that much money on hand right now. Can you give us the ice Spirit Saint fruit for my friend to consume first, and then we'll gather the money?" Tang Yun hesitated before begging with a sincere expression. "We'll definitely gather the money, but we can't do it too quickly. My friend won't be able to hold on for that long ..."

"Dear guests, our Snow Valley has always done business on the spot. We don't accept credit, so I'm sorry, but please go back!" Elder Zhang said indifferently.

"This ... Elder Zhang, please make an exception. We will really give you the money, but we can't gather that much money in a short time. My friend, on the other hand, can't wait any longer ..." Tang Yun stood still and bowed deeply in front of elder Zhang. "Elder Zhang, please make an exception!"

"I understand your feelings, but in all these years, this kind of thing has happened many times. If we owe each time, wouldn't we be breaking the rules?" Elder Zhang's expression did not change at all. "There's no order without rules. There's no need to talk anymore. When you've gathered enough money, you can come and buy the ice Spirit fruit at any time. Otherwise, there's no need to talk."

"Elder Zhang, I beg of you, can you please help me talk to the valley master? I'll have to trouble you!" Chu Mengyao was also panicking. She begged with Tang Yun, "I beg you, elder Zhang. This is his only hope. If he misses it, I'm afraid ..."

“Forget it, then I’ll ask for you. But whether it’s successful or not, it’s still the valley master’s decision.” Elder Zhang was a kind-hearted person. Looking at these ordinary people with no strength in front of him, who came to the snow Valley for a cultivator, he naturally admired them.

If Tang Yun, Chu Mengyao, and the others were cultivators, elder Zhang wouldn’t let them go. But they weren’t. Seeing them come all the way here, elder Zhang felt a little sympathy for them.

“Many thanks, elder Zhang!” Tang Yun’s eyes were filled with gratitude.

Elder Zhang nodded and left the guest room without saying anything else.

However, elder Zhang’s reply disappointed Tang Yun, Chu Mengyao, and Shu. The valley master only replied with two words, no!

Elder Zhang said with some regret, “everyone, this is the valley master’s intention. I have no choice. Please go back!”

This was the snowy valley, after all—they made money from selling treasures. If it were the Ice Palace, Tang Yin and the others wouldn’t have been treated so well! To go to the Ice Palace to buy the fruit, let alone one billion, even if a normal person were to go, even if they were given two or ten billion, Rock Candy wouldn’t even be moved!

After all, the fire Spirit’s fruit was an essential herb for the Ice Palace sect’s practitioners to prevent Qi deviation. The ice Spirit’s fruit, on the other hand, was only a precious herb to the valley, and had no use for them. (To be continued.)
