

Bodyguard 1841

Chapter 1841: -every step taken (1)

An old woman who was a scrap picker naturally couldn't know about cultivators ...

"It's a very powerful person, similar to the martial arts experts in ancient times!" "He's a master of martial arts, he's like a ghost"Mengyao smiled bitterly.

"If that's the case, this old woman finally understands. It turns out that you've offended a martial arts expert!" The old lady nodded."Then let's settle down here first. I'm just a scavenger. No one will notice me. It's very safe here!"

"En!" "Granny, we'll go scrap picking with you tomorrow ..." Mengyao nodded.

Mengyao had made up her mind-she had to do something. The money she had with her, along with the hundred thousand from the old lady, was only enough to pay for her father's medical expenses for a short period of time. If Lin Yi still didn't wake up, she'd have to continue paying the medical fees to keep her father alive!

Although the hospital couldn't help her father wake up, Lin Yi must have a way. She had to hold on until Lin Yi woke up, and she couldn't give up on treatment.

And where did this money come from? Chu Mengyao had been thinking about this problem before. She had thought about finding a place to work, but after Yu Liu's tracking, she knew that it was impossible. At least, she couldn't show her face in public.

Scavenging with the old lady was Mengyao's only choice!

No one would have thought that the once high and mighty miss of pengzhan industries would become a little girl who picked up scraps ...

Even Chu Mengyao didn't think that she would do this one day, let alone Yu Liu and the others!

However, Chu Mengyao changed the moment Tang Yun made her decision and went back to the villa to see the huge change in her family. What miss? without her father's glory, she was nothing, not even as good as Tang Yun!

So she didn't have any more psychological barriers when she followed the old lady to pick up scraps. She could rely on her own two hands. For Lin Yi, for her father, there was nothing to be embarrassed about!

"Hehe, no need. Just stay at home. This old woman can handle it by herself. I will pay for the young miracle doctor's medical expenses every day!" "I've been picking up trash for decades," the old lady said with a smile."I'm experienced now."

"Granny, with more people, we'll always earn more!" Mengyao said firmly.

"That's good, but you two girls with soft skin and tender flesh should wear masks. Otherwise, people will be suspicious if they see you!" The old grandma said after hesitating for a while.

"En!" To Mengyao's surprise, the old lady was actually quite a meticulous person. She could think of details that they didn't even think of!

“What medicinal herbs do you need? this old woman will go and get them for you tonight!” The old lady asked.

“Here’s the recipe ...” Mengyao wanted to say that she wanted to go with the old lady, but she was afraid of bumping into Yu Liu. He’d probably be around here looking for them, after all.” Granny, let general Weiwu go with you, it can protect you! It’s so late, I’m worried about you being alone ...”

“Haha, this old woman is also very famous in this area. Who would Rob a trash collector like me?” The old lady smiled, but she nodded after Mengyao’s insistence.” Okay, then I’ll accompany you. The general Weiwu you mentioned, is it this dog?”

“Yes, general Weiwu, you go buy medicine with granny! Protect Granny’s safety, do you understand?” Mengyao ordered.

Woof! Woof! Woof! General Weiwu nodded.

However, the old lady was surprised to see general Weiwu. She was surprised to see such a smart dog. Although she saw the dog carrying a bunch of bags, she didn’t pay much attention to it. Many animals were stronger than humans, but when she looked at general Weiwu, she couldn’t help but let out a surprised “Yi”.

“What’s wrong?” Mengyao asked, confused.

“It’s nothing, this dog is so human!” The old lady shook her head and said to general Weiwu kindly, “Let’s go and buy medicine with this old woman!”

Woof! Woof! Woof! General Weiwu immediately followed the old lady out of the room ...

After the old lady left the room, Chu Mengyao sighed deeply, “Shu, we’re really lucky to have met the old lady here—we wouldn’t even have a place to stay if we didn’t!”

“That’s right, Prophet Shu, you’re amazing! You got shield bro to do a good thing for you, and now you’re getting paid!” Chen Yushu nodded.

“Pfft ...” Chu Mengyao was speechless. If her prediction came true, it would be reasonable, but today’s incident was obviously a coincidence. This girl really knew how to take credit.

Naturally, Yu Liu wouldn’t be interested in an old lady who brought her dog out to buy medicine. He walked around and didn’t find Chu Mengyao and Chen Yushu anywhere. Disappointed, he called Yu Xiaochen to ask for forgiveness. This small mistake made him miss out on a great opportunity, and he was filled with regret!

However, Xiaochen didn’t blame Yu Liu for his explanation—it was his own fault for not explaining things clearly before.

Xiaochen wasn’t someone who didn’t know what was right or wrong, so he only told Yu Liu to search the villa again to see if he could find anything. If there wasn’t anything, he’d give up for now.

If Mengyao wanted to hide, Yu Liu wouldn’t be able to find any clues on his own. He didn’t want to waste time.

At the Chu family villa.

Song Lingshan and Chen Yutian had left a long time ago. The two of them were only slightly injured, and they didn't know why Yu Liu would show mercy. No matter what, they were still alive.

Chu Mengyao and Chen Yushu ran away, so they wouldn't stay in the villa for long. If Yu Liu came back, they wouldn't be able to fight him!

Without Mengyao and Yushu, they'd be idiots to fight Yu Liu.

So, when Yu Liu returned to the villa, there was no one there.

Yu Liu started his search from the first floor, but didn't find anything of value.

After finding nothing, Yu Liu left Songshan quietly and returned to the Hidden House Yu ...

Under the dim light, Chu Mengyao sat carefully in front of the stove, looking at the Chinese medicine in the claypot. She followed elder Zhang's instructions strictly, but what made her heart ache was that Lin Yi's medicine cost over a thousand Yuan!

Chapter 1842: difficult steps (2)

This was the price of the first prescription. Although the ingredients for the second prescription hadn't been bought yet, the granny showed it to the pharmacy owner and found that the price was even higher!

Of course, this amount of money was nothing to Chu Mengyao and Chen Yushu before, but now it was a huge amount!

The money Chu Mengyao had was meant to pay for her father's medical expenses tomorrow, and it might not even be enough. Lin Yi's medical fees, on the other hand, could only be sustained by scavenging every day. Not only that, but he also had to save up more money for uncle Fu ...

Mengyao's head started to throb just thinking about the days when she was struggling to make ends meet. She'd never had to worry about money before, but this was the first time she'd experienced the pain of not having money!

"Yaoyao sis, even if shield bro can wake up in a month, we'll have to pick up at least five thousand Kuai of junk every day to maintain him ..." Chen Yushu quickly calculated the daily expenses. Lin Yi's medical expenses and Chu pengzhan's medical expenses were a huge amount of expenses.

"Five thousand ..." Chu Mengyao smiled bitterly. How was that possible? Picking up trash wasn't like picking up gold. How could he pick up 5000 Yuan every day?

Yushu shut her mouth after that-it was a good thing that they'd brought some jewelry with them when they left home. They didn't like to wear jewelry, but they did wear them on formal occasions.

Therefore, although it wasn't much, they could still sell it for a portion of the money. However, it wouldn't be a lot of money because neither of them had expensive jewelry. They only had ordinary things.

.....

The next morning, Mengyao and Yushu changed into tattered clothes. They didn't think too much when they left and only brought their best clothes, but they'd definitely attract attention if they went scavenging in clothes like that. They'd post a photo online and it'd be too late for them to cry—they'd be providing Yu Liu with clues!

Chen Yushu's figure was similar to the old lady's. She could fit into the old lady's clothes, but Chu Mengyao couldn't. She had no choice but to find her most ordinary-looking clothes and made it dirty and crumpled. This way, the original value of the clothes couldn't be seen. It looked like it was bought on the street for a few dozen Yuan and hadn't been taken care of for a long time.

The two of them looked at each other's disheveled appearance and could not help but smile bitterly. They had never thought that there would be such a day when they would be in such dire straits.

However, when the day came, both Mengyao and Yushu accepted it.

It was said that it was easy to go from frugal to luxurious, but hard to go from luxurious to frugal. However, in the Miss and Chen Yushu's hearts, for Lin Yi, this kind of suffering was nothing compared to Tang Yun's sacrifice! Thinking about how Tang Yun would rather suffer the torment of love for Lin Yi, Chu Mengyao and Chen Yushu felt that at least they could be by Lin Yi's side now. Wasn't this a kind of happiness?

Uncle Fu only heard about the change in the villa from song Lingshan and Chen Yutian the next day. When he heard that Chu Mengyao and Chen Yushu had disappeared without a trace, he didn't know if Yu Liu had caught up with them. He was worried.

In the hospital's intensive care unit, uncle Fu subconsciously wanted to call Chu Mengyao after hearing song Lingshan's words.

"No need to call. We already called yesterday, but both of their phones were turned off." Lingshan said with a bitter smile.

"Turned off your phone? Could it be that Yu Liu has already caught it?" Uncle Fu asked in shock.

"There are two possibilities. One is that they turned off their phones to avoid Yu Liu's pursuit. After all, mobile phone positioning technology isn't that complicated. If house Yu has the intention, they can find them through their numbers." Lingshan continued, "the other possibility is that Yu Liu caught them and turned off their phones. But that's a small possibility because he's looking for Lin Yi, not Chu Mengyao and Chen Yushu. There's no point in catching them ... So my analysis is that they successfully escaped from Yu Liu's pursuit. Otherwise, if he really caught them and did something to Lin Yi, they would definitely contact us after."

"Yes, it's obvious that Yu Liu's target is Lin Yi. He doesn't even seem to have the intention to hurt the people around Lin Yi. Yesterday, he gave Lingshan and me a slap each, but we only got light injuries. We've almost recovered after one night." Yutian said.

"That's good ..." Uncle Fu immediately heaved a sigh of relief.

However, uncle Fu's phone rang just as the three finished their sentence.

Uncle Fu took out his phone and saw that it was an unfamiliar number. His heart sank and he picked up the phone. "Hello? How are you doing?"

"Uncle Fu, it's Yaoyao. Give me your bank account number. I have 200000 with me. I'll transfer it to you to pay for daddy's medical fees. Don't stop the treatment!" Mengyao said hurriedly. She didn't use her or Shu's phone because they thought of the same problem as Lingshan. If Yu Liu had the intention, he would definitely trace their phone.

This 200,000 included 100000 from Jianwen and the old lady. As for the money for the lion, it wasn't in her account yet, and Mengyao didn't dare to contact Jianwen again.

"Two hundred thousand?" Uncle Fu was surprised at where Mengyao got so much money, but he was more worried about Lin Yi and the girls. "Yaoyao, how're you guys and Yi? I heard Yu Liu from house Yu was chasing you guys?"

"En, we've already successfully escaped without being discovered by him!" "We're safe now," Mengyao said. "Give me your bank account number first, and Shu and I will try our best to earn money ..."

"It's good that you're fine!" Uncle Fu let out a breath of relief. Mengyao wouldn't tell him where they were, so he couldn't ask. He didn't want people to find out if he Knew Too Much, after all. "My bank account number is ..."

With that, uncle Fu gave him his bank account number.

"Okay, I'll remember that. I'll leave daddy to you!" Mengyao said after jotting down her account number.

"Then you guys be careful too!" Uncle Fu instructed.

"I know, uncle Fu. I won't be contacting you for a while, I'll send you the money when I have it!" "As long as we can hold on until Lin Yi wakes up, everything will be fine!" Mengyao said.

"I understand ..." Uncle Fu nodded, relieved. "Yaoyao, don't worry, leave Mr. Chu to me!"

Chapter 1843: -difficult days

Lin Yi's enemies were looking for him, and even if uncle Fu was out in the open, no one would go after him. After all, Chu pengzhan was a cripple, and could die at any moment. No practitioner would want to kill someone who was about to die.

Besides, Chu pengzhan had nothing left, and no hidden house would do something like this without any benefits! It was already a taboo for an Earth Class to enter the common world, and it was even more taboo for them to attack normal people. No one wanted to cross that line.

After hanging up, Mengyao, Yushu, and the old lady went to the bank nearby and transferred the old lady's hundred thousand Yuan and Jianwen's hundred thousand Yuan to uncle Fu.

"Li Fu?" When she was transferring the money, the old lady took a look at the name on the receipt and muttered it subconsciously.

"Yeah, that's uncle Fu's name. Granny, you've heard of him before?" Mengyao nodded.

“No...” The old lady shook her head and said, “There’s a familiar feeling, but I don’t know him ...”

“Granny, so your surname is sun. I’ll call you granny sun from now on.” Chu Mengyao only knew that granny sun’s surname was sun after seeing the name on the passbook.

“I think it’s sun ... It’s been too long, I don’t really remember it. I got this name when I settled here.” Granny sun said.

Chu Mengyao was stunned. She realized that granny sun always said that she couldn’t remember this sentence because it had been too long. Maybe something happened to granny sun before and she had forgotten it? Or did he not want to mention it?

But Mengyao wasn’t a nosy person-she didn’t ask any questions, naturally. The three left the bank and began their scrap picking journey after transferring the money to uncle Fu ...

The sun in autumn was venomous. This was the so-called “Tiger in autumn.”

Under the hot sun, an old woman took the two girls, shuttling back and forth in the big streets and small alleys, rummaging through every garbage can and searching every corner near the commercial district. This was a route that the old woman had been walking for many years. The daily Harvest was about the same. Although it was not bad, it was not much either!

It was already good enough to have two to three hundred Yuan in one day-it was a world of difference from the five thousand that Shu had estimated!

“General Weiwu, other dogs have very sensitive noses, you should help look for them too!” Chu Mengyao knew that they couldn’t go on like this so she started to encourage general Weiwu to look for junk.

“Woof, Woof ...” General Weiwu was a little depressed. It could teach other dogs or even people a lesson, but picking up trash? it had never done anything like that before. However, it understood that Mengyao was doing this for Lin Yi, so it started to follow her example and went to all corners.

With general Weiwu’s help, they managed to find a lot of scrap paper and bottles in some of the harder-to-find places. However, they could only increase their income by tens of dollars. It was impossible to get more than a thousand dollars.

The day passed quickly, and when they were counting their spoils at night, Mengyao and Yushu realized that they had only made five hundred Kuai today. They were only one-tenth away from five thousand Kuai.

However, it was only 500 yuan, and granny sun was already very happy. According to her, it was usually only a few dozen Yuan, and during holidays, it was only 300 yuan. This time, 500 yuan was already considered a lot!

Chu Mengyao and Chen Yushu were silent. They also knew that picking up trash wasn’t a lucrative business. Otherwise, everyone would be picking up trash.

After Lin Yi’s medicine was done, Mengyao fed it to him and sat down with Shu, troubled.

With both internal and external problems, their future was bleak. This was the true portrayal of their current mood.

Five hundred Yuan wasn't even enough to buy Lin Yi's medicine, let alone save up for Chu pengzhan's medical expenses!

"Shu ... How about we go to Yunyun's house tomorrow and borrow some money?" Mengyao didn't know what to do, but she knew that Mrs. Tang had a lot of money on her hands. She knew that Mrs. Tang would definitely lend her money to buy Lin Yi's medicine.

"Yeah, I guess that's the only way ..." Chen Yushu nodded.

But what they didn't know was that Mrs. Tang had already been taken away by the people from the snow Valley. First, she was worried about her parents in Songshan, and second, she was afraid that her parents would say something to Lin Yi and make her waste her time feeding Lin Yi the liquid.

And so, the next day, when Chu Mengyao and Chen Yushu came to Tang Yun's house, they helplessly found that Tang Yun's family had long since left. According to the neighbors, there was no one in the house a few days ago.

Chu Mengyao and Chen Yushu could roughly guess what Tang Yun wanted. The only problem was that they didn't have the contact information of the snowy valley. According to the snowy valley, if Tang Yun stayed there, it would be equivalent to not seeing them anymore. Naturally, they wouldn't give them any contact information.

Mrs. Tang couldn't make it, and Yunyun and Xiaoxiao couldn't be contacted either. The only person Mengyao and Yushu could count on was old Lin.

However, even though old Lin had his own medicine garden and had most of the ingredients in the prescription, old Lin's ingredients alone were only enough to sustain Lin Yi's medicine. Pengzhan's medical expenses were still not settled.

Moreover! The West Star Mountain village didn't accept express delivery and old Lin couldn't leave the village. It would be troublesome to send the herbs to a courier company in a town far away. By the time the herbs were sent out, it would be too late.

With no other choice, Mengyao and Yushu could only continue to scrap pick with granny sun. However, after two days of scrap picking, Mengyao and Yushu realized that there were many competitors in this line of work. Other than them, there were also some scrap pickers. In this line of work, one had to have sharp eyes and quick hands. It didn't matter who saw it first, what was important was who got it first.

According to granny sun, every city's scrap picking industry had its own set of rules, and Songshan city was one of them. This rule had been followed for many years, and so even though her legs weren't as agile before, she'd managed to pick up some quick-witted skills.

It was also because of this that after she returned to normal, her scrap picking speed became even faster, obviously higher than other scrap pickers, so her harvest every day was not small!

"Actually, it's not the most profitable to rely on these waste paper and drink bottles every day."

"Sometimes we can pick up some old furniture and appliances from the garbage dump in the residential

area,” said granny sun. “That’s the most profitable thing!” Sometimes, I could find some change in the old clothes of some rich people. Although it was not much, sometimes it was at most a few hundred Yuan. One time, I picked up 3000 Yuan at most from a leather jacket at the gate of a villa. I went to pay off the money; however, the Butler of the villa only said thanks and here’s the money before letting me go ...”

Chapter 1844: Skybolt pig’s treasure hunt (1)

Mengyao and Yushu’s faces reddened at the mention of this. They used to throw away their old clothes and forget to take out the change, but it didn’t hurt to throw it away.

Grandma sun’s words seemed to be mocking their previous lives. Although Chu Mengyao and Chen Yushu knew that grandma sun didn’t mean it that way, they couldn’t help but think of their previous lives!

In the past, they thought that they were already very frugal compared to some rich second-generation heirs who lived luxurious lives, but now they realized that they were still very spendthrift.

Of course, if the people in the villa mentioned by granny sun were them, they might have made the same choice!

3,000 Yuan was really a small number to them in the past. If a kind person picked it up and gave it back, they would naturally think that the person was good and give the money to him.

It was just that things were different now.

“Of course, these are things that can only be encountered and not sought. Every day, our main income still depends on these waste paper and beverage bottles.” Grandma sun didn’t notice the unnatural expressions on Mengyao and Yushu’s faces.

“Oh ... Let’s go back to scrap picking ...” Yushu said, blushing ...

Guan Xuemin’s house.

There were a few people sitting there. They weren’t familiar with each other at first, but they were all connected to Xuemin and Lin Yi. That was why they were gathered together.

These people were Guan Xuemin, fatty Lai, Chentian, Jingyi, Lingshan, and Yutian!

Lingshan and Yutian told Xuemin, fatty Lai, and the others about Lin Yi’s situation without reservation, hoping that they could think of a way to resolve it.

However, Yu Liu was from a hidden house, and none of the people here could fight against a hidden house.

“Ah, I was going to talk to Dean Qin and ask him to waive pengzhan’s medical fees, but Xiang rejected it ...” Xuemin smiled bitterly.

Guan Xiaoxiang had already gotten into an argument with Guan Xuemin because of the closing of miracle doctor Guan’s medical company. Guan Xiaoxiang had warned Guan Xuemin not to be cheated,

but in the end, Guan Xuemin had used all of his savings on the company, but it still couldn't save the company from the fate of bankruptcy!

For a rapidly developing pharmaceutical company, once the capital chain broke, it was like a building that collapsed in an instant, and there was no room for return!

And so, Guan Xiaoxiang couldn't get over it—he'd wanted to use Xuemin's name to start a medicine company when he was young, but he'd never been allowed to do so. Naturally, he wasn't going to be nice to people related to Lin Yi this time.

Chu pengzhan's medical fees, of course, wouldn't be waived at all!

This time, everyone came to Guan Xuemin's house to discuss Chu pengzhan's medical expenses. After all, when fatty Lai's company was in a crisis, these people had basically taken out their personal savings. Now, they didn't have any money to take out.

"Sigh, if I didn't sell my company a while ago, I wouldn't be so poor now ..." Jingyi sighed. House sun had already given her freedom to love, so she sold the company and went back to house sun, but now that Lin Yi was in trouble, house sun's old man froze her account, leaving her with no money to use!

Chentian's old man, gonggao, was even more snobbish, and Chentian was penniless.

House song and house Chen, on the other hand, didn't have much business to do, and there was no way they could afford pengzhan's medical expenses with their salaries ...

"It's all my fault ... If I hadn't been so anxious to expand the company's factory, I wouldn't have ended up like this!" Fatty Lai said, his heart aching.

"Forget it, it's not a matter of who to blame now ..." Xuemin sighed. "If it really doesn't work out, I'll put down my pride and talk to Dean Qin. The medical fees don't need to be waived, but can we delay it for a while? as long as Lin Yi recovers, everything will be fine!"

"That's right. When boss recovers, we'll definitely take back what we've lost!" Fatty Lai nodded ...

In the blink of an eye, a week had passed. Even with general Weiwu's help, the three of them only made five hundred to a thousand a day. There weren't many problems, and Lin Yi's medical expenses were completely supported by the money that granny sun didn't have time to deposit in the bank. However, as the money decreased day by day, Chu Mengyao and Chen Yushu were very worried.

If this went on, she'd be at the end of her rope one day and wouldn't be able to hold on until Lin Yi woke up.

"If we really can't do it, let's have Skybolt pig join the operation tomorrow ..." Chu Mengyao said.

Now, Skybolt pig stayed at home with Lin Yi every day. Because of Skybolt's unique body shape, Chu Mengyao was afraid of attracting people's curiosity and gazes. But now, they had no other choice.

"Skybolt pig ... Huh?" "Can't Skybolt pig look for treasures?" Yushu suddenly had an idea. Then, can it find junk?"

“Yup!” Chu Mengyao heard Chen Yushu’s words and was a little surprised, but then she said happily, “How could I forget about this? If Skybolt pig can find treasures, it should be able to find the treasures among the trash too, right?”

“Skybolt pig, come here!” Chen Yushu waved at Skybolt pig.

The pig seemed to have heard the conversation between Chu Mengyao and Chen Yushu, and walked over unwillingly.

“Can you find anything valuable in the trash? Don’t say you can’t!” Chen Yushu said.

“...” The pig was speechless. ‘Why are you asking if you can’t say no?’ She could only nod her head in grievance.

“Alright, you can pretend to be a dog tomorrow. I’ll put on a fluffy coat for you, and you can pretend to be a dog to help us look for treasure!” Chen Yushu replied.

Disguised as a dog? Skybolt pig shook his head. He was different from humans, he was used to not wearing any clothes. If he suddenly put on some furry clothes, wouldn’t he die from the heat?

“I’m telling you, shield bro won’t wake up if you don’t help us find the treasure. You’ll be on your own if no one helps you level up!” Chen Yushu threatened.

The pig was easily scared—after hearing what Yushu said, he nodded in agreement.

“We’ll see how you perform tomorrow!” Yushu nodded, satisfied.

In fact, Chu Mengyao and Chen Yushu didn’t have much hope before letting Skybolt pig participate in the scrap picking ..

Chapter 1845: Skybolt pig’s treasure hunt (part two)

This little thing had a keen sense of smell for heavenly treasures, but it was hard to say when it came to junk.

However, if the pig really found a treasure, it could be sold for a lot of money. It was better than nothing, and it was always good to try his luck.

The next day, Chu Mengyao, Chen Yushu, and granny sun took general Weiwu and Skybolt pig who was disguised as a dog and left.

Granny sun already knew the best route for every day, so she followed the same route almost every day. However, not long after today, Skybolt pig pointed in a direction with its paw and started to cry.

“Oh?” Chu Mengyao hesitated but decided to listen to Skybolt pig, “Granny sun, let’s go in that direction and take a look!”

“Okay ...” Grandma sun was confused as well. Why would Chu Mengyao believe this little pig? but this little pig was obviously different from normal pigs, so grandma sun decided to believe it for once ...

Following Skybolt pig, the three of them and general Weiwu chased him all the way to a trash can in a small district. Skybolt pig pointed at the trash can with his paw and started to squeak again ...

“What is it called? If there’s anything good, go and pick it up!” Chen Yushu scolded.

“Oink Oink ...” The pig looked at the dirty trash can and felt wronged. It was an ancient spirit beast, how could it be treated like this? But thinking about saving Lin Yi, he walked over to the bin unwillingly.

“Let this old woman do it for you!” However, granny sun didn’t mind. Rummaging through garbage was a common thing for her, so she didn’t have any psychological barriers at all.

As she spoke, granny sun began to rummage through the trash can. Soon, she found a few drink bottles and a few waste paper boxes from the trash can. However, these gains could only be considered ordinary. Any trash can in any community would have such a harvest. It was obviously not worth it to travel so far for this.

However, the trash can was almost empty. The obvious things had been found by granny sun, so there was probably nothing more valuable.

“Hehe, let’s just do it step by step in the future ...” Granny sun placed the cardboard and drink bottles on the cart. Just as she was about to leave, the Skybolt pig pointed at the trash can and continued to Jabber.

Originally, Chen Yushu saw that there was only so little stuff in the trash can and was a little angry at Skybolt pig. She was about to scold him when she heard him still barking. She paused and asked, “Skybolt pig, are you saying that there’s more good stuff in here?”

“Ji Ji!” The pig nodded.

Granny sun was surprised to see such a human-like piglet that could understand human language. However, since it said there were more, granny sun believed it once. She searched carefully in the trash can again. This time, she looked more carefully than before. Her eyes were not just staring at things like drink bottles washi ...

Finally, at the bottom of the trash can, granny sun found an iPhone!

Although there was an obvious damage on the screen of the Apple phone, granny sun tested it out and the phone could still be turned on. In other words, the owner of the phone might have thrown it away after the screen was broken and did not repair it!

Granny sun picked up junk every day, so she was naturally very experienced. She often picked up this kind of broken phone, and this Apple phone only had a broken screen. If the other functions were normal, she could sell it to a store that bought second-hand phones for at least 1000 Yuan!

This harvest made granny sun overjoyed. She didn’t expect this little pig to have such a skill. The harvest of this broken phone was equivalent to two days ‘income!

“Can this broken phone be sold for money?” Chu Mengyao looked at the excited granny sun and asked.

“Of course you can. This is the latest iPhone model. Only the screen is broken, but the other functions should be fine. You can sell it at a second-hand store for at least 1000 Yuan!” Granny sun said.

Mengyao's face reddened-this was the first time she'd found out that a phone like this could be sold for money. In the past, she'd just throw it away when there was something wrong with it, never thinking of selling it.

"Not bad, Skybolt pig!" Chen Yushu looked at Skybolt pig with praise,"Continue! If you can earn more money every day, shield bro will wake up soon. I'll ask him to level you up!"

"Ji Ji!" The pig nodded happily.

After they left, the three of them didn't return to where they were before. Instead, they started scavenging along the streets of the neighborhood. This time, not long after, the Skybolt pig pointed in a direction and started barking again.

This time, grandma sun was experienced. She didn't need Chu Mengyao and Chen Yushu to say anything. She pushed the cart and ran after Skybolt pig. She was afraid that if she was one step late, the good stuff would be taken by someone else!

Skybolt pig led the way, and after a few turns, they arrived at another residential area. There was a family moving, and beside the moving company's car, there was an old refrigerator and some old furniture.

Skybolt pig pointed at the old fridge and the old furniture and yelped.

"May I ask, do you not want this thing?" Grandma sun hesitated for a moment, then walked to the moving company's car and asked a person who was obviously the employer.

"I don't want it anymore. I bought a new house. This thing has been around for a long time and isn't very useful anymore. If you want it, I'll give it to you." The employer casually waved his hand and said to granny sun.

The refrigerator wasn't very old and looked like it could still be used. The furniture that had been thrown away was a copper bed head, some corner iron, and wooden boards.

This kind of copper bed was no longer popular. The employer had probably gotten rich and bought a new house. He definitely didn't want such an old-fashioned thing that affected the style of the home.

"Thank you!" As granny sun spoke, she pushed the refrigerator and the copper bed head onto the cart!

According to granny sun's experience, this refrigerator could be sold for at least 300 to 500 yuan. As for the copper bedside table, just the scrap copper could be sold for a few hundred Yuan. These two items added up to nearly a thousand Yuan!

The worker from the moving company looked at granny sun with some envy. Obviously, they also wanted to get these old things from the employer at the end, but they didn't expect that someone else would speak first!

In the blink of an eye, two thousand Yuan was in granny sun's hands. She really admired Skybolt pig! With this little fellow participating, this wasn't scrap picking, it was simply picking up money!

In just one morning, granny sun and the other two went to the old items recycling market and the second-hand mobile phone recycling market three times, and they directly got more than 3000 Yuan!

Chapter 1846: Recovering consciousness

In the afternoon, Skybolt pig was even more powerful. Not only did he find a lot of discarded mobile phones and appliances, but he also found a few old bags from the villa area. All of them were international brands. He sold them at a second-hand brand store for more than ten thousand Yuan. Today's income was close to twenty thousand Yuan. Grandma sun was surprised, but she also deeply admired Skybolt pig!

Mengyao and Yushu finally let out a breath of relief when they saw that the pig was able to find these valuable things!

From now on, as long as he followed Skybolt pig to pick up these things, he wouldn't have to pick up useless things like mineral water bottles, drink bottles, cardboard boxes, and so on! With Skybolt pig around, everyone would be able to rush to the scene where the valuable items were abandoned!

Although there were times when other scrap pickers got there first and ended up with nothing, Skybolt pig's speed was still very fast!

With the fruit and medicine, Lin Yi slowly regained consciousness and "woke up" from his coma. However, he only woke up in the Jade space, and his body was still unconscious!

"I'm ..." Lin Yi opened his eyes in the Jade space and felt his body heat up. Every Meridian in his body was burning and it was extremely painful.

"You're awake?" Elder Jiao was surprised and happy to see Lin Yi awake! Elder Jiao had been worried sick-he was just a Phantom, and he couldn't do anything when Lin Yi was unconscious. He couldn't contact the outside world either, and all he could do was watch Lin Yi unconscious every day, worried sick.

Although elder Jiao could clearly feel Lin Yi's body temperature dropping, he couldn't guarantee that Lin Yi would wake up for sure. It would depend on how the outside world treated him.

Now that Lin Yi had woken up, he could finally relax.

"Elder Jiao ... What happened to me before?" Lin Yi asked drowsily. He remembered that he was in the middle of practicing, but he didn't know what happened after that ...

"Something went wrong with your cultivation and you fell into Qi deviation. Don't you remember?" Elder Jiao said.

"Oh ... Qi deviation ... Right ..." Lin Yi nodded, remembering the pain he felt when he was training, but he didn't know why he did it,""But ... Why is it like this?"

"I don't know the reason either. You'll have to find the reason yourself after you wake up." Elder Jiao said.

He could only communicate with the outside world through Lin Yi, and since Lin Yi was unconscious, he wouldn't be able to hear the conversation between him and old Lin.

“Wake up ... How can I wake up?” Lin Yi tried, but regrettably, he couldn’t return to reality from the Jade space. He couldn’t even contact the outside world.

“The people around you must have taken some measures to suppress the fire poison in your body for the time being. However, it’s not enough to rely on them alone.” “The outside medicine can only help you suppress and slowly refine the fire poison,” elder Jiao said. “But once it’s absorbed by your body, it’ll affect your body. It’ll do you no good, so it’s best if you force the fire poison out of your body yourself. That way, you can keep the pure Qi in your body, and it’ll be easier for you to cultivate the second level of the art of Dragon mastery!”

“Force it out of the body?” Lin Yi blinked, “What do I have to do to force the fire poison out of my body?”

“You can try to use the art of Dragon mastery to guide the genuine Qi in your body and gather all the fire poison in your meridians. Then, you can release the fire poison in one go by releasing the genuine Qi bomb!” Elder Jiao said.

“Gather together? I’ll find some and force some out, can’t I?” Lin Yi asked.

“That’s fine. But can you wake up now? I’m referring to your body in the outside world.” Elder Jiao asked.

“This ... I can ‘t.” Lin Yi said, shaking his head.

“This is it.” “You can’t even wake up, how are you going to release your Qi?” elder Jiao asked. Do you want to release it into the Jade space? If you release it here, then when you absorb the energy in the Jade space, there’s a danger that you’ll be able to absorb it back at any time.”

“I see ...” Lin Yi immediately understood what elder Jiao meant. “In other words, I can only wake up if I gather all the fire poison in my meridians together, right?”

“This is it.” Elder Jiao nodded.

“Sigh, I still have to force the fire poison out of my body. If I was like Zhang naipao, accepting everything and absorbing all kinds of Qi and energy, I wouldn’t have to go through so much trouble ...” Lin Yi smiled bitterly. At this moment, he was envious of Zhang naipao.

“As far as I know, yes,” Elder Jiao’s answer was out of Lin Yi’s expectations.

“Can I?” Lin Yi asked, surprised.

“Not now, but in my memory, you should be able to do this. Maybe you can in the future, but I might have remembered it wrong and messed up the arts in the chrysanthemum Arts,” “My memory hasn’t been unlocked yet,” elder Jiao shook his head. “I only have a vague impression.”

“Alright ...” Lin Yi was disappointed.

Even if he could, now wasn’t the time-elder Jiao might’ve made a mistake and messed up naipao’s chrysanthemum Arts memory. Right now, he still had to use the art of Dragon mastery to guide the fire poison in his meridians, compress it together, and force it out.

He pulled himself together and focused all his energy on the first stage of the art of Dragon mastery. He started searching for the fire poison in his meridians.

Lin Yi had already repaired his own meridians multiple times before, so he was extremely familiar with them. He activated the art of Dragon mastery and circulated his Qi through his meridians, searching for the fire poison.

Of course, Lin Yi didn't target the organs at the start, but chose the hands and feet, where there were less meridians. The meridians were relatively rare, so the fire poison was naturally less. Even if there was a problem, it would not cause any greater damage.

Lin Yi carefully channeled his Qi through his right arm, and finally found the fire poison in his meridians. Strictly speaking, this fire poison was a mutated fire type of Qi, mutated from Lin Yi's all-purpose Qi. However, the art of Dragon mastery was like a one-way converter-it could turn his all-purpose Qi into other types of Qi, but it couldn't turn other types of Qi into his all-purpose Qi.

Chapter 1847: A delightful discovery

This was the exact opposite of naipao, and it was why Lin Yi envied naipao.

But looking at it from another perspective, naipao could naturally convert his Qi into his own, and his Qi naturally wouldn't have the ability to heal-Lin Yi still had the advantage.

This type of mutated fire poison Qi filled every corner of Lin Yi's meridians. They weren't connected, but scattered. However, perhaps under the suppression of external medicine, they were temporarily suppressed by the normal Qi in his body. If there weren't any external medicine, they would probably have the upper hand.

Lin Yi carefully used his own Qi to wrap the fire poison Qi, trying to gather them together. Only by gathering them together and suppressing them would Lin Yi wake up and force them out of his body in one go.

However, while it seemed easy to say, it was extremely difficult to do.

When Lin Yi's Qi came into contact with the fire poison Qi, the fire poison Qi that was already calm became restless again. Lin Yi suddenly felt an extremely hot Qi coming from the fire poison Qi, making him shiver. The fire poison Qi was terrifyingly hot, and in just that moment, it made people feel a sense of fear, not willing to get any closer!

As expected, Qi deviation was the biggest obstacle on the path of martial arts. Since ancient times, many martial arts geniuses were destroyed by Qi deviation, either going crazy for the rest of their lives or exploding to death. Even with Lin Yi's strong will, he had the thought of giving up immediately when he first came into contact with the fire poison Qi!

But Lin Yi took a deep breath, gritted his teeth, and endured it. He quickly circulated the first stage of the art of Dragon mastery, using his Qi to drive the fire poison to his right hand. Lin Yi was ready to drive all the fire poison to his right hand and force it out.

However, in the next moment, Lin Yi realized that while his idea was beautiful, the fire poison Qi didn't seem to listen to the art of Dragon mastery's commands at all. It even seemed to be resisting it, which made Lin Yi extremely shocked!

How could this fire poison true Qi be so powerful?

"Ah Yingluo!!!!" After struggling for half an hour, Lin Yi finally couldn't hold it anymore and gave up.

That was because he realized that no matter how hard he tried, the fire poison true Qi would not listen to his command. It did not move at all. If you told me to go east, I would not go west, but I would not go east either. I would just stay where I was. What could you do to me?

It'd only been half an hour, but Lin Yi was already sweating like rain. He felt like the energy he'd spent fighting the fire poison in this half an hour was even more difficult than breaking through normally.

"Elder Jiao, I can't take it anymore. That fire poison true Qi doesn't listen to my commands at all. I can't force them together!" Lin Yi said with a bitter smile.

"That's right. It would be strange if I listened to your orders!" Elder Jiao heard Lin Yi's words and nodded as if it was only natural.

"Gah?" Lin Yi's eyes went wide, surprised. "What do you mean? Didn't you ask me to do this?"

"I did ask you to do it, but when did I say that you should use the first stage of the art of Dragon mastery to expel the fire poison?" Elder Jiao asked.

"If I don't use the first level, should I use the second level?" "I went into Qi deviation because of the second level," Lin Yi retorted. "Wouldn't it be suicide if I used the second level?"

"Didn't you already misfire? Moreover, the people outside must have given you an antidote to suppress your Qi deviation. You've already passed the second layer of tempered body and the early stage of Foundation establishment cultivation, so you won't have Qi deviation again. At least, you won't have Qi deviation for the same reason!" "This fire poison true Qi is a result of Qi deviation from the second stage of the art of Dragon mastery. You want to use the first stage to get rid of it?" It's impossible even if you're stupid!"

"Ugh ..." Lin Yi wiped the sweat off his forehead, a little embarrassed. Indeed, he didn't think of this before. The fire poison was caused by Qi deviation in the second stage of the art of Dragon mastery. How could it be driven away by the first stage?

No wonder it wasn't afraid, and even had the intention to fight back. It turned out that he had used the wrong heart technique.

"Then ... Why didn't you remind me before, or stop me from doing useless things?" Lin Yi said sadly, wasting half an hour of effort.

"I didn't dare to disturb you when you were cultivating. I was afraid that if I reminded you, you'd go into Qi deviation again, and it wouldn't be worth it." Elder Jiao said seriously.

“...” Lin Yi was speechless. Elder Jiao always talked to him when he was training, but he was scared now! But Lin Yi understood-he’d had a mental trauma from his Qi deviation earlier, and he didn’t want something else to happen again!

After resting for a while, Lin Yi started channeling the art of Dragon mastery again, but this time, he was using the second stage. He wasn’t very familiar with it yet, so he had to feel it out while circulating it carefully. Before he got familiar with it, he had to try his best not to touch the fire poison.

As for the fire poison Qi, Lin Yi didn’t touch it, so they naturally didn’t bother with what Lin Yi was doing.

After about a day, Lin Yi had completely mastered the second stage of the art of Dragon mastery. It wasn’t a small achievement, but at least he could use it freely! Lin Yi didn’t plan on making any progress in his training before the fire poison was expelled.

Slowly, Lin Yi began to use the second stage of the art of Dragon mastery to guide the Qi in his body to wrap around the fire poison.

At this moment, something that surprised Lin Yi happened. The once arrogant fire poison became fearful and respectful when it encountered the second stage of the art of Dragon mastery. It didn’t have the arrogance it had before!

Lin Yi was overjoyed at the sight-he’d have wasted half an hour if he’d done this earlier.

The fire poison Qi was wrapped in Lin Yi’s Qi, and with the guidance of the second stage of the art of Dragon mastery, it started moving slowly, albeit unwillingly ...

This change made Lin Yi even happier. Although the poison fire was moving very slowly, it was good that it could move. From the looks of it, the poison fire was mutated from the second stage of the art of Dragon mastery, but it couldn’t resist the second stage of pure Qi.

Chapter 1848: attack again

Finally, the small ball of fire poison Qi was sent to the end of the meridians in Lin Yi’s right palm, and he began to move the second ball of fire poison Qi. With the previous experience, he was much more familiar with it this time.

Very quickly, the second ball of fire poison Qi was also driven to the end of his right Palm’s meridians, fusing with the previous ball of fire poison Qi, forming an even bigger ball of fire poison Qi!

After that, he would just follow suit. As long as he had perseverance, he would be able to gather all the fire poison true Qi in his body!

Yu Liu returned to the Hidden House Yu, a little dejected. Yu Xiaochen didn’t blame him, but he still felt a bit of regret for losing a Godsent opportunity like this.

After that, Xiaochen went to see the elder again and told him everything.

“Although it’s a pity, you did the right thing.” The old elder nodded and said seriously, “If Yu Liu really is injured ... Hehe, then we house Yu won’t be able to escape this either!”

“Yes!” Xiaochen nodded, “but, isn’t it a bit of a waste to just give up on searching for Lin Yi?”

"It's a pity to give up, but with our hidden house Yu's power, it's extremely difficult to find someone who's hiding in Songshan!" "Especially with song Lingshan and Chen Yutian in the middle, it's even more troublesome for us ... But Lin Yi's enemies aren't just us House Yu, there's also the Hidden House Zhao and hidden house you. If we pull them in and find Lin Yi together, it'll be much easier!" The old ancestor said.

"That Qi gathering pill ..." Xiaochen was worried that the pill would end up in someone else's hands.

"Of course we won't tell them about the Qi gathering pill, and when we make our move, we can also make an agreement that all three of us will send our Masters to Lin Yi at the same time. This way, the responsibility on all three sides will be smaller, and I believe they'll be more than happy to work with us!" The elder of house Yu said.

"Alright, we'll do as you say, father!" Xiaochen said with a nod.

Don't look at how the you family didn't get in touch with the great elder before, which hidden house wasn't a smart person? Although the threats from the great elder and that person were gone, these people were still waiting to see what was going on. Yu Liu went out for a walk, and didn't attract any trouble, so they couldn't wait to go out and have a look.

House Yu had sent a message to them, asking them to look for Lin Yi together. Naturally, they would agree to it.

And so, the Hidden House you and house Zhao's people all came to Songshan city and started looking for Lin Yi in the crowd.

Of course, all of this was done in the dark. After all, song Lingshan was the captain of the criminal investigation team. If they did it openly, song Lingshan would definitely know. If song Lingshan had contact with Lin Yi, she would inform Lin Yi and the others immediately, making them more alert. It would be even harder to find Lin Yi's traces!

It was a tough time, and Mengyao and Yushu worked hard every day, but they were happy.

Although he was exhausted and sore every day, he enjoyed it! Whenever they found an old phone or home appliance, they would be overjoyed, full of energy, and move on to the next target. The sound of Skybolt pig became their motivation.

However, as hard as it was, she managed to save up enough for Lin Yi's medical expenses and for Chu pengzhan's medical expenses as well. She would transfer ten to twenty thousand Kuai to uncle Fu almost every two or three days.

Even Uncle Fu couldn't believe how fast they were making money. If he didn't know Mengyao and Yushu very well, he would've thought that they were in some shady business. After all, these two girls had to pay for Lin Yi's medical fees and save five to ten thousand Kuai a day at the same time. What did they have to do?

If they were white-collared workers from a big company, it would be fine. However, they had no social experience and no college education. Which company could they go to get this salary?

But if Mengyao and Yushu didn't want to talk about it, uncle Fu wouldn't ask. He knew that Mengyao and Yushu weren't frivolous people.

"Today's income is almost there. It's close to 20000 Yuan!" Mengyao couldn't stop smiling-she wouldn't have been so emotional if she'd made twenty thousand before, since pengzhan industries was making so much money every day that twenty thousand was nothing.

But now, she was overjoyed for the twenty thousand Yuan-it was money that could save Lin Yi and her father's lives.

"En, I'm so happy! Skybolt pig, you're so strong! I'll get shield bro to level you up first, so you can level up before general Weiwu!" It didn't cost money anyway, so she didn't mind making promises.

However, that alone was enough to make Skybolt pig happy. General Weiwu, on the other hand, was a little depressed. 'I'm the big senior brother and you're the second Junior Brother, but now big senior brother is even slower than second Junior Brother!'

"Ji Ji!" Skybolt pig looked at general Weiwu proudly and shook his little body in front of general Weiwu as if showing off.

The next step was to gather the fire poison in his heart and head into his right palm. He realized that his long-lost connection with the outside world was restored. He couldn't wake up yet, but he could clearly feel the situation outside his body!

Lin Yi wasn't surprised at all-he'd used his heart and head to connect with the outside world, after all, and now that the fire poison was gone, it was only natural that he'd be able to connect with the outside world.

He was in an unfamiliar room, and the décor was old and worn-you could even say that there wasn't a single decoration in the room. He was lying on an old, broken metal folding bed, and beside the bed was an old, worn table with some clothes and women's items on it. Lin Yi could tell with one look that they belonged to Chu Mengyao and Chen Yushu!

Next to the folding bed was a floor mattress. The so-called floor mattress was a mattress and blanket that was laid on the ground for people to sleep on.

It was probably where Mengyao and Yushu slept, and Lin Yi didn't understand why he'd be sleeping in such a run-down place. The place was clean and spotless, but it was too old and broken-it couldn't even compare to West Star Village.

Lin Yi couldn't find anything similar in his memories.

It wasn't long before Lin Yi heard footsteps outside his room, along with Chu Mengyao and Chen Yushu's cheerful voices.

Chapter 1849: moved

"Yaoyao sis, I can't believe that old laptop was sold for over two thousand dollars with just a broken hard drive!" "I thought it was only a few hundred before, but we've broken through twenty thousand today!" Yushu said excitedly.

“Yeah, but fortunately, we have many years of relationship with granny sun. Otherwise, we wouldn’t have understood if those second-hand electronic products buyers lied to us.” Chu Mengyao was also very happy. Today’s income had exceeded their budget.

Lin Yi couldn’t help but be curious-what kind of laptop would sell for two thousand? And who was granny sun?

Immediately after, Chu Mengyao and Chen Yushu entered the room. The first thing they did was to check on Lin Yi’s condition. After making sure that Lin Yi was fine, they nodded in relief.

“Shu, I’ll go get the medicine, you take a shower first.” Mengyao said.

“Okay.” How could the clean-freak Shu and Yaoyao take it when they were dirty from scavenging every day? Fortunately, granny sun’s house had an old-fashioned water heater for bathing, so they would take a bath and go to bed every night when they came back.

Of course, after washing and wearing dirty clothes the next day, they would still be dirty, but at least they could sleep comfortably at night.

Because of the smell of medicine, Shu would take a shower first and Mengyao would take a shower after the medicine was made. This way, the two could switch on the water heater, or it wouldn’t be able to provide enough water for two people at a time.

Lin Yi found it even more strange when he saw how dirty they were. What were they doing?

However, Lin Yi could only feel the outside world just now. He couldn’t ask about it when he was awake, so he could only bury the questions in his heart.

However, what Lin Yi didn’t expect was for Yushu to start taking off her clothes right after Mengyao left the room. In the blink of an eye, she was completely naked!

Lin Yi’s blood was pumping!

Although he’d seen Shu naked before, Lin Yi realized that using his perception to see the outside world was much clearer. He’d only been able to see it briefly before, but now he could see everything.

“Shield bro, after Shu’s done with her shower, I’ll help you clean up! You haven’t taken a bath in a long time!” Yushu didn’t know that Lin Yi could sense her presence, so she went to Lin Yi’s side.

Instantly, Lin Yi felt like he couldn’t take it anymore. Shu made his body extremely hot, and the fire poison that was already under control started to move again!

Lin Yi jumped at the sight and quickly cut off the connection with the outside world. Shu was pretty, but he’d probably lose his mind if he looked at her again. He didn’t dare to look at her anymore!

“Phew ...” Lin Yi calmed himself down and calmed himself down. There was always a knife in the head of lust, and he almost went into Qi deviation again. Lin Yi was still scared.

“What’s wrong with you?” Elder Jiao looked at Lin Yi oddly, not understanding why he was breathing so heavily.

"It's nothing!" Lin Yi didn't have the face to tell her what he saw. With a bitter smile, he hurriedly continued to work hard to push the fire poison true Qi to the meridians of his right hand ...

After a while, Lin Yi realized that someone was lifting his body outside. Out of curiosity, Lin Yi stopped expelling the fire poison and used his perception to check the situation outside. He found that Chu Mengyao was helping him up slowly and putting a bowl of boiled medicine into his mouth!

Lin Yi didn't know what the medicine tasted like, or if it was hot or not. He only used his perception to communicate with the outside world, and if he could smell the medicine, it would mean that he was about to wake up.

Lin Yi was confused-what was this place?

"School's about to start, and Lin Yi hasn't woken up yet. We can't go report ..." Mengyao smiled bitterly,""I hope Lin Yi can wake up soon ..."

"Yeah, otherwise we'd have to scrap pick for the rest of our lives. Although we have Skybolt pig, we can pick up good stuff every day ..." Yushu nodded.

"It's been a hard yet fulfilling time, Shu. We can finally do something for Lin Yi. " Mengyao said.

"That's right, these days have made me understand how hard it was for uncle Chu to earn money!" Shu nodded,"but when shield bro gets better, everything will get better. We'll be able to live the life of a miss again!"

"..." Mengyao was speechless.

Lin Yi was getting more and more confused as he listened to the conversation, but he couldn't ask. He could only guess from the conversation that these two seemed to be living a hard life-they were scrap pickers for a living, and the strangest thing was that they were using Skybolt pig to scrap pick!

No wonder they were able to pick up 20000 Yuan worth of junk every day. It was an astronomical number for ordinary people, but for the pig who had the treasure hunting ability, it was nothing. It could even find treasures, let alone these valuable old things.

The two chatted for a while more before Mengyao went to shower. Lin Yi cut off all contact with the outside world-he'd be in a Qi deviation if he were to see the Miss after seeing Shu!

After a while, Mengyao finished her bath and got a basin of water. She and Shu wiped Lin Yi's face and hands and feet, not touching the other private parts of his body. Shu was embarrassed, but the Miss was.

The days passed by peacefully. Lin Yi slowly expelled the fire poison from his head and heart, and the effect was very obvious. Lin Yi believed that if he continued to work hard, he wouldn't be far from the day he woke up.

During this time, Lin Yi had also figured out one thing-why were Chu Mengyao and Chen Yushu here! From their chit-chat, Lin Yi understood that Chu pengzhan was bankrupt, and so was fatty Lai. Not only did they have no source of income, but Yu Liu from house Yu was also after his life!

As such, they could only live in granny sun's house and scrap pick for a living. Fortunately, no one paid attention to these women who picked up scraps, and Yu Liu and the others probably wouldn't have thought that the former eldest miss would do such things!

Mengyao and Yushu's care touched Lin Yi's heart. He didn't think that the Miss could go through so much hardship and sacrifice ...

Chapter 1850: Ice Palace and Snow Valley

Ice Palace.

Although the Ice Palace didn't have a source of information like the shadow group, and their friendship with the Hidden House Tang was destroyed, the fact that Lin Yi's Qi deviation was known to all the hidden houses still made it to Rock Candy's ears.

"Sect master, what do you think ... We should help?" After Qing Zhu received the news, it immediately told Rock Candy.

"Help? Help with what?" "Don't tell Xiaoxiao about this," Bing Tang said.

"Then ... What if Lin Yi is in danger this time ..." Qing paused.

"In danger? If he can't even handle such a small danger, then he's not worthy of Xiaoxiao. It's better if he dies, so he won't be a burden to Xiaoxiao!" Rock Candy directly rejected Qing Zhu's suggestion.

In fact, there was one more thing she didn't say, and it was too embarrassing to say. If Lin Yi was this weak, why would he want to marry her as his little wife? Rock Candy was very resentful towards Lin Yi's teasing back then.

She was a Sky Class late phase peak, the leader of an ancient sect, and yet she was touched by an Earth Class early phase-he even threatened to make her his little wife! Rock Candy was a very vengeful person.

Since you're so powerful, you should face it yourself.

Qing shook her head and didn't say anything else-after all, Rock Candy was the one in charge right now, and Xiaoxiao wasn't an heir yet, nor was she the sect master.

The snowy valley.

The Grand Elder finally realized that something was wrong!

Although Tang Yin tried her best to hide the fact that she'd forgotten about Lin Yi, the Grand Elder was still a powerful figure. Tang Yun was just a new inheritor, she didn't have any strength yet. It could only be said that Tang Yun's path of cultivation would no longer have any obstacles. The barriers that other people faced in their cultivation were no longer there for Tang Yun!

Accepting the inheritance was the same as having the physique of Sky Class late phase peak, and she could take that step further. So as long as Tang Yun trained properly, she could reach Sky Class late phase peak.

Of course, Tang Yun was still too young in the Grand elder's eyes, and the Grand Elder soon found out!

“You didn’t take the herb liquid?” The Grand elder’s heart skipped a beat as he looked at Tang Yun.

“I ... I didn’t!” Tang Yin shook her head, not bothering to hide anything anymore.

The Grand Elder looked at Tang Yun, his heart filled with anger and sadness, but he didn’t know what to say! Lin Yi had already left, and even if she could make another bottle of the herb liquid, it wouldn’t have any effect on Tang Yun without Lin Yi’s blood. Even if the Grand Elder was angry, there was nothing she could do to save her.

“Sigh ...” After the grief and indignation, the Grand Elder couldn’t help but sigh. “You gave Lin Yi the herb’s medicine?”

“Yes, I want him to forget me. I don’t want him to see my heartless side. That will make him suffer.” Tang Yun nodded and said firmly.

“Why didn’t you say so earlier? “If you want, I’ll make you another portion of the herb liquid ...” The Grand Elder shook his head helplessly and said.

“No, I’m not drinking. I want to remember him forever. I want to remember the days we spent together. These will be the most precious memories of my life. I don’t want to forget them!” Tang Yun shook her head. “I won’t have it anymore. I’ll keep it in my heart forever. No one can take it away!”

Tang Yun’s determination moved the Grand Elder. She knew how tough this seemingly weak girl was. She knelt in the snow for fifteen days with the thought of death in her mind. Her determination was incomparable.

So, the Grand Elder knew that she didn’t need to persuade her anymore. Tang Yun had already made up her mind, so there was no point in trying to persuade her. Besides, Lin Yi wasn’t in danger of Qi deviation anymore. The Grand Elder and the others were the ones begging Tang Yun. If Tang Yun decided to give up on her cultivation, the Grand Elder would be in tears.

“But you have to know that if you have feelings in your heart, the path of practicing the emotionless technique will be full of obstacles, and you may even go mad. It’s really difficult!” “It’s actually for your own good that I let you consume the heartless herb’s medicinal liquid!” The Grand Elder sighed.

“I know, but I appreciate your kind intentions, but I think I should be able to control my heart’s devil ...” Tang Yun said, “After all, the inheritor’s cultivation path will be smooth. Moreover, didn’t the founder of the sect achieve the great Dao without consuming the medicinal liquid of the senseless herb?”

“This ...” The Grand Elder couldn’t help but smile bitterly and waved his hand. “Fine, you have the hidden icy heart Jade bone physique, just like the founder. You can’t be measured with common sense. Let’s not talk about this in the future!”

“Many thanks, senior!” Tang Yin was overjoyed. As long as the Grand Elder didn’t force her to forget about Lin Yi, everything was fine.

As for the way Tang Yun addressed the Grand Elder, it was according to the Grand elder’s wishes. He called her “senior” instead of “master”. After all, although the Grand Elder taught Tang Yun the heartless spell, he was only accepting disciples on behalf of the ancestral master. Tang Yun’s future position would also be the Grand Elder, an existence that would surpass Xue Li and her, the Grand Elder. So, she really

did not dare to be called “master”, so she could only use “senior” instead. Once Tang Yun broke through to Sky Class late phase peak, they’d be in the same generation.

“Your parents have already headed to the snow Valley and have just settled down. You can go and see them during your breaks in cultivation!” The Grand Elder said.

“What? Is mom already here?” Tang Yin was even happier.

“Yes, they’re currently resting in the guest rooms. I’ve already arranged for them to have a separate courtyard. Once the cleaning is done, they can move in.” “Your birth mother and foster mother’s bodies are very special as well,” the Grand Elder said. “They’re normal ice-type bodies. Although they’re married, if they cultivate with the special ice-type Arts of the snow Valley, they’ll definitely reach the mystic class in their lifetime, and their lifespans will be greatly extended.”

“Many thanks, Grand Elder!” Tang Yin was both surprised and happy at the news-she ran to the guest room after thanking him ...

Looking at her disappearing back, the Grand Elder sighed helplessly and muttered to himself, “Icy heart and Jade bones, the emotionless art is to cultivate the heart. How can you be emotionless when you care so much about family and love?”

However, Tang Yun was the Valley’s only hope. The Grand Elder couldn’t stop her even though she was upset. She couldn’t do anything if she stopped cultivating.
