

Bodyguard 1861

Chapter 1861: return of property

Uncle Fu understood what Lin Yi was trying to say—he looked at Lin Yi with respect and admiration. Of course, if he had seen what happened just now, he would be even more shocked. One move, and three Earth Class mid phase Masters were killed. Only someone like that would say something so overbearing.

Lin Yi left in peace—the news must've spread by now, and anyone who'd come looking for trouble with pengzhan and the Miss at this point in time would have to be insane or someone who wasn't afraid of death.

Of course, Lin Yi didn't think that one move would be enough to make all the hidden houses stop fighting—it wasn't realistic. When they realized that Lin Yi was only an Earth Class early phase, they'd show their fangs again, but at least for now, they wouldn't dare to. Lin Yi just needed to buy them some time.

As long as he continued to train the second stage of the art of Dragon mastery, Lin Yi was confident that he'd be able to raise his strength to another level.

The an family, this was an Jianwen's Villa. But an Mingyue, an mingri, an Jiande, and an Jianwen were all sitting in the living room.

Something big had happened today. As one of the five small aristocratic families, the members of the Firewolf gang were naturally the first to receive the news.

"Lin Yi didn't go berserk, and he even took out three Earth Class Masters in one move, one of them was even Earth Class late phase. This time ... Our an family is in danger ..." An mingri looked at an Jianwen as he said this. When he was taking Chu pengzhan's assets, he was the most active one, but when there was trouble, he was the first one to jump out,""Jianwen, it's not that I want to criticize you, but you're going to bring trouble to our an family if you make a move before you figure out the situation ..."

"Hmph, if we're talking about trouble, isn't big brother sending someone to kill Chu pengzhan a bigger problem? Wealth is small, but human lives are important. Do you think Lin Yi will just let this go after he finds out?" An Jianwen looked at an Jiande and sneered,"This is the an family's problem, we'll take it on together! Lin Yi doesn't have any evidence if they don't admit it! However, if someone were to leak the news, hehe, then we'll both be finished!"

An Jiande's body suddenly trembled. Although he had never crossed paths with Lin Yi before, he heard that Lin Yi killed three Earth Class Masters in one move. That strength and methods were not something an Jiande could compare to. So after an Jianwen said this, an Jiande's eyes flashed with a trace of worry as he looked at his father.

An mingri sighed. He wanted to use this chance to attack an Jianwen, but it seemed like everyone was involved in this. Plus, an Jianwen was highly valued by the firewolves. Even if he fell out with Lin Yi, he would still be protected by the firewolves. After all, the firewolves had a Sky Class master. At the very least, they could save an Jianwen's life.

But it was different for the others. An Jiande was the mastermind behind the accident, and if Lin Yi found out the truth, he'd probably go after an Jiande first.

“Alright, let’s all keep our mouths shut and do what we’re supposed to do, don’t let Lin Yi see through us!” “Jianwen is right,” an mingri said.”He can’t do anything to us as long as he doesn’t have any evidence!”

“Who said we can’t do anything to you without evidence?” A voice rang out from behind everyone, causing everyone to be shocked!

When they were discussing earlier, they had closed the doors and windows. How could there be another person in the living room without a sound?

The voice was familiar, too-Jianwen knew who it was right away. A look of fear flashed across his face, but he smiled.”Ha, isn’t this Lin Yi bro?”

“Did you cause uncle Chu’s accident?” Lin Yi ignored Jianwen and strode towards Jiande.

A trace of fear flashed through an Jiande’s eyes as he shook his head.”No... It wasn’t me ... Everyone knows that he crashed into the car himself ... And there are driving records and witnesses to testify ...”

“He said that you did it. I heard everything.” Lin Yi raised his chin and pointed in Jianwen’s direction.

“Don’t listen to him ... No, he ordered it, he’s the mastermind, he planned to take over house Chu’s assets ...” An Jiande was a timid person, otherwise he wouldn’t have been doing the organ trading business so honestly, while an Jianwen kidnapped people to cut their kidneys.

“Oh, he won’t be able to run away.” Lin Yi slapped Jiande across the face.”You know what? I hate irresponsible people like you the most. If you did it, then you did it. Why are you pushing it to others?”

An Jiande’s face was extremely swollen-he was just a normal person, how could he fight an Earth Class like Lin Yi? If Lin Yi wanted to kill him, one move was enough, but Lin Yi didn’t. He was torturing him, and all the pain Chu pengzhan was suffering was transferred to an Jiande.

So, before an Jiande could say anything, Lin Yi kicked him in the crotch. An Jiande’s eyes popped out, and he howled, his body bent like a cooked lobster.

Ultimate kick-this was Lin Yi’s master’s wife’s ultimate skill, and she’d tried it on Lin Yi’s master before, but it didn’t work. Lin Yi learned it from her.

It was a more devious move, though-Lin Yi didn’t usually use it, but he wanted to make Jiande suffer more so he could pay for what he’d done to pengzhan.

“What ... What are you doing?!” A trace of anger flashed in an mingri’s eyes, but he didn’t dare to do anything to Lin Yi when he thought of Lin Yi’s glorious battle record today,””What do you mean by that? Trespassing? If you don’t stop, I’m going to call the police!”

“Oh, go ahead. I just happened to record the contents of your conversation.” Lin Yi said faintly, but his hands didn’t stop moving. He threw another heavy punch at an Jiande, knocking him to the ground.

An mingri didn’t expect Lin Yi to know how to record, and he was caught in a dilemma. Calling the police was just to scare Lin Yi, but Lin Yi had something that was disadvantageous to the an family. If he called the police, the an family would be the one in trouble.

“If you let him go, I’ll give you back all of pengzhan industries” properties!” An Mingyue sighed in her heart. The situation was over, and the an family’s efforts had been in vain!

It wasn’t that an Mingyue felt bad for an Jiande, but the problem was that Lin Yi would deal with the others after dealing with an Jiande. It was better to be friendly than to let Lin Yi Do it.

“We’ll settle the business later.” Lin Yi stepped on an Jiande’s spine, making a crisp sound. Even if an Jiande didn’t die from this kick, he would be disabled.

An Jiande howled in pain.

Chapter 1862: strong Lin Yi

“You know pain now? However, it’s still too early.” “Uncle Chu’s spine is broken, there’s internal bleeding in many parts of his body, more than twenty fractures, and his brain is heavily injured with blood clots. I’ll help you make these injuries worse!” Lin Yi said faintly.

“Lin Yi, don’t go too far!” An mingri roared in grief and indignation.

“Too much? Why didn’t he think it was too much when he hired someone to hit uncle Chu?” Lin Yi said as he started to create injuries on an Jiande’s body. Only Lin Yi could create these injuries, otherwise an Jiande would be in a vegetative state even if he was saved.

An Jianwen’s face twitched at the bloody scene.

At first, he thought that he was already cruel enough, but after seeing Lin Yi stepping on people with that emotionless face, he realized that Lin Yi was the real devil. Of course, that was under the condition that they provoked him. Otherwise, this guy seemed harmless.

“All of Chu pengzhan’s properties, plus one billion.” An Jianwen stated his conditions.

He knew that he couldn’t escape Lin Yi’s hands—even three Earth Class Masters couldn’t escape from him, what did he have to offer? Hence, an Jianwen gave out his life-saving conditions without hesitation.

“One billion is a lot?” Lin Yi turned to Jianwen, leaving Jiande behind.

“I wasn’t a part of the accident, and I even gave Yaoyao a hundred thousand Yuan to cover her medical expenses.” “I’ll add another two billion to the conditions!” Jianwen said.

“Alright, give me the thing.” Lin Yi nodded, his face expressionless.

An Mingyue sighed and went upstairs. All the documents were in the safe, but he didn’t dare to run. If he ran, then an Jianwen, an mingri, and an Jiande wouldn’t be able to leave this room alive.

Lin Yi looked kind and friendly, but he’d made Jiande half human and half ghost just like that. He knew that the rumors about him killing three Earth Class Masters with one move were true.

An Mingyue took out the authorization documents and shares agreement, signed them one by one, and handed them to Lin Yi.

Then, he made a call and transferred two billion to Lin Yi’s account. Jianwen was rich, but the an family was in a bad shape after losing two billion.

The money they'd borrowed from Chu pengzhan before was all fake-it didn't exist at all! The an family didn't get anything out of it this time, but they'd lost two billion!

"I've given you everything, so can you let us go?" Jianwen asked.

"That thing was originally mine, did I say I would let you go?" Lin Yi asked faintly.

"You ..." Jianwen's face reddened. He was furious at Lin Yi's words.

Lin Yi was about to say something when he frowned. He felt a strong presence approaching the villa at high speed!

Earth Class late phase peak!

He didn't even need to think to know that a master of this level was here for nothing good.

The next moment, a Man in Black appeared in the living room. His eyes swept across everyone present, not paying much attention to an Jiande, who was lying on the ground like a dead dog, but his eyes stopped on Lin Yi.

"You're Lin Yi?" The Man in Black asked Lin Yi.

"And you are?" Lin Yi took a deep breath. He didn't expect to meet a master like this here.

"You don't need to know my name. You just need to know that I'm here on the orders of the Firewolf gang's leader to protect an Jianwen and his family. That's enough." The Man in Black didn't hide his strength at all, revealing his Earth Class late phase peak.

"Ha ..." Lin Yi was shocked, but he smiled faintly. He didn't use the art of Dragon mastery, and there wasn't any aura on him.

Of course, Lin Yi did this on purpose-if he were to reveal his strength as an Earth Class early phase now, the enemy would be even more fearless.

"I know you're strong, you can kill three Earth Class Masters in one move, and one of them was a late phase Earth Class." The Man in Black looked at Lin Yi's smile, unsure of Lin Yi's bottom line,"But, Sir shouldn't have advanced to the heaven rank, so Sir's strength is at most the same as mine. It'll be very difficult for you to stop them in front of me!"

"What do you think?" Lin Yi asked without changing his expression.

Lin Yi knew that an Earth Class late phase peak was speaking to him in such a polite tone because he'd just taken out three earth classes in one move-but if he showed any signs of weakness now, he'd be faced with a storm of attacks!

"You should have heard of the firewolves, right?" "If you leave, then we'll live in peace. If you insist on keeping an Jianwen here, you might be able to beat me by a stroke or two, but what awaits you is the firewolves" revenge,"the Man in Black said.

"I'll leave if he breaks his own legs. " Lin Yi pointed at Jianwen, his tone firm.

The Man in Black pondered for a while, his expression uncertain as he looked at Lin Yi. To be honest, the news the firewolves received couldn't be fake. Lin Yi killed three Earth Class Masters in one move, so he didn't know if he was Lin Yi's match!

If Lin Yi's skills were that strong, then even if the Man in Black was lucky enough to win one or two moves, he'd have to pay a heavy price!

So after some hesitation, the Man in Black didn't say anything. He just waved his hand and an Jianwen moaned in pain and knelt on the ground!

With Lin Yi's eyesight, he could tell that the Man in Black only broke the bones in Jianwen's leg-it was a small injury, but Lin Yi didn't want to dwell on it. It was already a great achievement to be able to make an Earth Class late phase peak compromise by acting like a pig!

"Alright, goodbye!" Lin Yi cupped his fists and walked out of the villa. He didn't use any pure energy from the beginning to the end, so he was like a normal person as he walked out of the room step by step.

The Man in Black didn't stop Lin Yi as he watched him leave. His mission here was to save Jianwen's life, and he'd already done it.

He really couldn't see through Lin Yi's abilities, so there was no need to make an enemy out of him. The Man in Black didn't need to worry about the grudges between Lin Yi and an Jianwen.

"Hu ..." Lin Yi's aura made an Mingyue and an mingri sweat like rain. They only collapsed to the ground after Lin Yi left.

"Hurry ... Hurry and send Jiande to the hospital ..." An mingri suddenly thought of his son's safety and shouted.

Chapter 1863: leaving by luck

The Man in Black quickly walked to an Jiande's side and checked his injuries. He immediately shook his head and said,"With this kind of injury, even if he's cured, he'll still be in a vegetative state. Unless he has the sky elixir sect's Meridian opening pill and great recovery pill, there's no way he'll be able to survive!"

An mingri's heart sank when he heard the name sky elixir sect. Of course, he knew what kind of existence the sky elixir sect was. Even the Firewolf gang's leader was on the same level as them. Such a precious pill might be possible for an Jianwen, but it was impossible for him to use it on an Jiande.

Jianwen's leg was in pain, but he could still take it. He looked at Jiande, who was lying on the ground in a deformed state, and his eyes flashed with a strange look,"According to the professor, his Shixiong is skilled in the art of medicine, and is even stronger than the professor. How about we let the professor's Shixiong help, and he might be able to save big brother's life?"

"Alright, then I'll have to trouble nephew Jianwen!" An mingri quickly said when he heard that there was hope.

He naturally knew how heavy Lin Yi's blow was, and Lin Yi was a Master of Medicine. If he did it himself, an Jiande would probably die. But since there was a glimmer of hope, he had to grab it.

"Please take my big brother back to the fire Wolf Gang. As for asking the professor for help, I'll talk to him about it." Jianwen said to the man.

"Alright," he said. The Man in Black wasn't an Jianwen's subordinate, but he wouldn't reject an insignificant request like this. If the branch leader wanted him to protect someone, then that person must be someone that the branch leader valued greatly. He might even become more successful than him in the future!

In the Firewolf gang, one's position wasn't solely determined by one's strength. There were also strategists and doctors who did scientific research. These people all had high positions!

The Firewolf gang was a gang, and while they were as strong as the ancient sects, they were still a gang, after all, and their structure was different from the ancient sects.

"Mr. An Jianwen, please take this. It'll be good for your leg!" As one of the Guardians of the branch leader, the Man in Black naturally carried a variety of healing medicine with him, some of which could quickly heal a broken leg.

"Many thanks!" An Jianwen took the medicine and swallowed it. In an instant, a cool feeling spread through his body. His legs didn't hurt as much as before, and his furrowed brows relaxed.

An mingri looked at an Jianwen with envy, then at his own son. He sighed in his heart. He hoped that the professor's senior would have a way!

Lin Yi walked out of Jianwen's Villa for about a kilometer, and only let out a breath of relief when he saw that no one was chasing after him.

Lin Yi's dominance at the an family's Villa today was purely borrowed. He relied on the power he had gained from killing three Earth Class Masters today to stop the Man in Black from acting rashly. Otherwise, Lin Yi would probably be dead there!

He'd gotten his revenge and gotten back pengzhan's assets, along with an extra two billion. This was a great harvest, and Lin Yi was satisfied with it. As for Jianwen's life, he didn't need to take it for now.

With the firewolves backing him up, he wasn't someone Lin Yi could mess with right now. This was also why Lin Yi didn't kill him off every time he fought with Jianwen.

But even so, an Jianwen didn't get any advantage at all. Not only did he lose a kidney, but he also gave Lin Yi a lot of money. This kind of money tree, how could Lin Yi just kill him?

But as for an Jiande, Lin Yi didn't have any concerns. It was obvious that the firewolves didn't care much about him.

He'd just killed three Earth Class fighters in one hit, but Lin Yi wasn't going to let the victory get to his head. He knew how strong he was-he could barely go up against a hidden house, let alone a giant like the firewolves.

Lin Yi knew one of the three Earth Class Masters that appeared at the entrance today, but he didn't know the background of the strongest one. Of course, he couldn't ask anymore now that he'd turned into ashes.

Yu Liu, Mengyao and Yushu had mentioned him before-he was the one who'd followed them that day. As for thirteenth on the right, Lin Yi had fought him before, and the only one he didn't know was Zhao Guang 'er.

The Hidden House Yu and house Kang ...

Lin Yi sighed. He'd always been reluctant to face the Hidden House Yu, not willing to face them head on. Yu Bing was one of the reasons, but he knew the bigger reason ... It was because of that girl ...

But now, he'd destroyed the common house Yu and killed Yu Liu-this enmity was formed. It wasn't something that couldn't be solved, but if Lin Yi couldn't come up with something that could definitely resolve it, then it wouldn't be over so easily.

As for house Kang, it was time for them to retaliate.

The news of Lin Yi killing three Earth Class Masters spread like wildfire to thousands of families.

Zhenhu, the head of the Liu family, was all smiles, but Jinghan only smiled at her embarrassed father.

Tianyi, on the other hand, let out a long breath. He had his father's support, but it was too risky for them to bet all their money on Lin Yi!

Old Wu gonggao and old Sun, on the other hand, were slapping their thighs in regret. Why did Lin Yi change his mind when they knew that he liked to play the game? Even Lin Yi's lackeys, Chen Yutian and Wu Chentian, learned how to play the pig to eat the Tiger during the noble House meeting last time-why didn't she believe that Lin Yi was doing the same this time?

However, sending charcoal in the snow was precious, and adding flowers on top of a brocade was not. Gonggao and old man sun wanted to remedy the situation, but how could they do so now? Once Lin Yi woke up, they wouldn't be able to help him anymore.

Gonggao and old man sun could only call Chentian and Jingyi, telling them to try their best to get on Lin Yi's good side. They didn't know what to do, but they'd still try to get on Lin Yi's good side even if their old man didn't say anything.

Fatty Lai, Kang Xiaobo, sun Jingyi, Wu Chentian, Chen Yutian, song Lingshan and even Guan Xuemin all came to the First People's Hospital, Chu pengzhan's room. They didn't know where Lin Yi was, but they thought that Lin Yi would come to his room as soon as he woke up.

Xiaobo had agreed to go on a trip with Fen during the summer break, and he'd just come back to find out that something big had happened at home! (To be continued.)

Chapter 1864: sorrow

But Xiaobo was only a Vice President, and even fatty Lai couldn't do anything about it. What could he do? Moreover, his family was not considered rich. A teahouse was enough to sustain their household expenses, but it would be a bit difficult for him to come up with the funds to reverse the situation.

But Xiaobo still said that if pengzhan needed money, he'd let his family sell the teahouse first. But uncle Fu had already received the money from Mengyao, so the medical fees wouldn't be a problem anymore.

In the room, everyone saw Chu Mengyao and Chen Yushu. Although Lin Yi wasn't there, Chu pengzhan had woken up. It was obvious that he had been saved by Lin Yi. Only Lin Yi could make a person who was on the verge of death return to normal so quickly.

Chu Mengyao and Chen Yushu didn't like song Lingshan before, but song Lingshan risked everything to help stop Yu Liu. Chu Mengyao and Chen Yushu remembered this kindness in their hearts. Although the two knew that song Lingshan did it for Lin Yi, the three of them didn't go against each other like before.

However, as for getting along well, that was impossible. At most, he would just pretend that the other party didn't exist.

"Mr. Chu, Mr. Li, I'm really sorry that I couldn't get my son to help you guys reduce your medical fees ..." Xuemin came here to express his apology.

"Elder Guan, don't say that ..." Uncle Fu knew the truth, and he also knew that Guan Xiaoxiang and Guan Xuemin had an argument because of Lin Yi's medicine company. Now that the medicine company went bankrupt, how could Guan Xiaoxiang be nice to Lin Yi's people?

"That's right, elder Guan. This is all my fault. If I didn't expand without a care, this wouldn't have happened." Fatty Lai said with a bitter smile.

"This ... It's not anyone's fault, it's my fault for suddenly going crazy and wanting to invest in futures ..." Chu pengzhan waved his hand and said, "As for me, I'm really flattered to have so many friends to help me think of a solution, but I know that it's because of Yi, so I thank you!"

Pengzhan said sincerely. He'd heard from uncle Fu and Mengyao about the difficulties they'd been through—he knew that there weren't many friends in the business world. These were all Lin Yi's friends, and even Guangbo was giving him face by sending him money.

This made Chu pengzhan emotional and happy at the same time!

Lin Yi came to Songshan all by himself, and in just half a year, he'd already built up such a strong network. He had so many friends who treated him with great care, and this was something that Chu pengzhan could only look up to but not reach. However, after experiencing this great change, he had also changed his mentality.

It was necessary to start a new business, but at the same time, he wanted to make some friends who could take care of him. He didn't want to spend all his time working ...

In a daze, pengzhan felt like he had returned to his youth, back to the days when he and Wan'er were hiding from the Dark Palace's search. At that time, the friend he met was his true friend!

For his sake, he was willing to go through mountains of daggers and seas of fire. He faced the entire Palace of Darkness and forced them to give up on killing him and Yaoyao.

Otherwise, the Dark Palace wouldn't have let Chu pengzhan and Chu Mengyao go so easily under the circumstances, but they compromised ... But ten years had passed, where was that friend now?

Sometimes, pengzhan would blame himself for being too young when he thought about the past. There were a lot of things he didn't get to know, but his father got along well with him, but every time he asked where his friend went, his father would keep it a secret ...

"You're too kind, Mr. Chu!" "You're the elder, we don't deserve your thanks!" Fatty Lai said with a smile. However, now that the boss has woken up, the day of our comeback is not far away!"

"Yeah, it's all in the past now ..." Chu pengzhan sighed, "Even though we've lost a lot, we can start over again!"

Although these words sounded encouraging and shocking, both fatty Lai and pengzhan knew that it wasn't easy to start over.

Fatty Lai was fine-with Lin Yi's support, the medicine company would be able to rise again. Pengzhan, on the other hand, was in the business world. It would be extremely difficult for him to start over.

"Eh? By the way, where's Tang Yin sis-in-law?" Xiaobo realized that an important person was missing-Tang Yin! Chu Mengyao and Chen Yushu were both here, but Tang Yun was missing. It was impossible!

Other than Kang Xiaobo, everyone else knew about Tang Yin's whereabouts and avoided talking about it. However, Kang Xiaobo had just returned and naturally didn't know about this.

"She ..." Chu Mengyao's heart ached when she thought of Tang Yun. She slowly told him about Tang Yun ...

Xiaobo said, shocked and sad at the same time ... He couldn't see her anymore? We won't see each other again?

The others were already aware of the situation, but hearing Mengyao's explanation made them feel sad and disappointed ...

"I heard that boss Lin Yi took out three Earth Class Masters in one move, and one of them was even a late phase Earth Class. Yaoyao, Shu, you were there, right? can you tell me what happened?" Chen Yutian saw everyone's sadness and gave Chen Yushu a look. Although Lin Yi wasn't here, he could be back at any time, so he changed the topic.

"Yeah, Yaoyao sis and I were there!" Chen Yushu immediately understood and started explaining, "Here's what happened-Yaoyao sis and I just got home, and just as we were at a loss, and the three men were about to take our lives, shield bro was like a god descending from heaven, blocking us and saying one word to the three Earth Class Masters-one move!"

Yushu's vivid description made everyone feel like they were in the same situation, especially when Lin Yi said "one move." Their blood started boiling! What kind of confidence did he have to be able to face three Earth Class Masters so arrogantly?

Plus, Lin Yi wasn't bragging-he really did it, killing three earth classes in one move! This was a legend to people of the same level, and even Earth Class late phase peak wouldn't be able to kill three Earth Class early phase Masters in one move!

After all, in the earth Class, the difference in strength was important, but not as important as before. In a battle between Earth Class Masters, the key to victory was the martial arts!

Chapter 1865: Uncle Fu's bitterness

If an Earth Class early phase had a strong martial skill, it could easily beat an Earth Class early phase peak with a normal martial skill, or even a mid phase Earth Class without any martial skill!

"Shu, it was just an instant-you can describe it in such detail?" Lin Yi smiled as he walked into the room, listening to Shu's story from the door. He didn't think much of it at the time, but from Shu's story, Lin Yi finally understood how strong the fire poison was.

At the same time, Lin Yi sighed to himself. This fire poison Qi could only be used once. It would be perfect if he could use it multiple times! But Lin Yi knew that it was just a fantasy-the price for that was too heavy.

"Boss!" Yutian, Chentian, fatty Lai, and Xiaobo stood up at the same time. They knew that Lin Yi was safe, but they only relaxed after seeing him.

"Hehe, you're all here!" Lin Yi nodded.

"Boss, my Grandpa ... He didn't bring the money over ..." Wu Chengtian looked at Lin Yi apologetically, a little embarrassed.

"My family too ... My Grandpa, you know ..." Sun Jingyi was also a little embarrassed.

"Boss ... I ... Something like this happened at home, and I'm still hanging out with Fen ... It's really ..." Xiaobo's face was red as well.

"It's nothing. You guys are you, and our family is our family! As for Kang Xiaobo, it's finally summer break, it's normal for him to go out and play. I'm leaving too, aren't I?" Lin Yi waved his hand. He couldn't let house Wu and house sun be on good terms with him like they were with Jingyi, so he didn't blame them at all. As for Xiaobo, Lin Yi didn't have any complaints. Didn't he bring ... Bring ... Bring Chu Mengyao and Chen Yushu out to play as well?

Lin Yi was confused. He remembered that there were more than three people going to the village, but how did he remember that there were three people? Yes, general Weiwu and Skybolt pig ... But ... Something doesn't seem right?

Lin Yi shook his head-he'd just woken up from the Jade space, and his thoughts were probably still a bit messed up.

Uncle Fu only noticed her now-he'd seen her before, of course, but hadn't looked at her this closely.

He couldn't help but take a closer look at Jingyi after hearing what she said-she looked familiar, and he couldn't help but think of his wife from back then. He felt a little sad-Jingyi gave him a natural sense of closeness!

This was his wife's junior ... Uncle Fu's eyes were a little wet-if it weren't for the fact that he couldn't reveal his identity, he'd have the urge to acknowledge Jingyi! He was her uncle!

Everyone said that nieces were like aunties-looking at sun Jingyi, uncle Fu felt like he was looking at his wife from back then. He suppressed his impulse and turned his head away, not looking at sun Jingyi anymore. He sighed in his heart-maybe one day, he'd be able to get his revenge!

His master, wife, and daughter had all disappeared. Even the treasures in the sect had all been devoured by those people!

If it was before, the thought of revenge wouldn't be this strong, but looking at sun Jingyi today, thinking of his missing wife, and seeing Lin Yi take out three earth classes in one move, uncle Fu felt his blood boiling!

Lin Yi was at the early phase of Earth Class, and he could already kill Earth Class Masters-what if he was Sky Class? Wouldn't he be able to kill a few Sky Class Masters in one move?

It was shocking to hear, but uncle Fu was confident! Lin Yi was already the strongest under Earth Class when he was Mystic, and if he had this achievement right after he broke through to Earth Class, then Sky Class would be even more powerful.

As long as Lin Yi was willing to help, then revenge would not be a dream.

"Thank you, Yi!" Pengzhan knew that Lin Yi had gone to seek justice when he saw him leave, but he thought that Lin Yi hadn't found the family yet since he came back so quickly,"Although the family might have planned this, we don't have any evidence. We didn't find them. Let's forget about it and learn from our mistakes. Let's start over!"

"There's no need for evidence. The accident was caused by an Jianwen's brother, an mingri's son, an Jiande. I've already stomped him to death," Lin Yi only smiled and said innocently,"An Jianwen, I've used the shares and rights of these businesses, along with two billion in cash, in exchange for his life. But with an Earth Class late phase peak present, I only made him break his legs-that was too good of a deal for him!"

Everyone sucked in a breath of cold air at Lin Yi's words.

An Earth Class late phase peak? Lin Yi could even stomp an Jiande to death and make an Jianwen break his own legs, and he still had to pay the shares and property rights of these industries, plus two billion in cash. This was unbelievable!

Of course, no one thought that Lin Yi was joking-he had just killed three Earth Class Masters in seconds, and making Earth Class late phase peak back off wasn't that hard.

"Uncle Chu, the shares and property rights are yours, I'm returning them to you." Lin Yi said, a little embarrassed."But I'm afraid I can't give you the two billion in cash. My pharmaceutical company is in danger ..."

Chu pengzhan was stunned. He didn't expect Lin Yi to say that! Getting back the shares and properties was already out of pengzhan's expectations-even if Lin Yi didn't return them to him and took them all for himself, pengzhan wouldn't say a word about it. Lin Yi got them back with his own strength, so they were Lin Yi's.

Yet Lin Yi was actually returning these things to him and even said sorry-pengzhan was a little overwhelmed,"Yi, what are you talking about? you're the one who took back the shares and the property rights, they're yours to begin with. You don't even need to give them to me, let alone the two billion in cash!"

Fatty Lai, who had been depressed, straightened his back when he heard that Lin Yi had gotten back two billion! His face was also smiling like a flower! He'd been worried about funds-even if Lin Yi had the recipe, he wouldn't be able to turn the situation around in an instant. The factory was in debt, after all, and a few recipes wouldn't be able to solve anything!

House you's support was one of the reasons why house Kang was able to rise so quickly. With house you's connections, helping house Kang acquire some small pharmaceutical companies was as easy as flipping their hand! (To be continued.)

Chapter 1866: How to deal with it

The initial capital and prescription were all provided by house you, and with the help of house Kang's old name, they could quickly rise again.

But miracle doctor Guan's company was different-without money, no amount of prescriptions was of little value. His big brother had already drawn the line between them, and fatty Lai wouldn't borrow money from him.

"Uncle Chu, these things are yours to begin with, I have no use for them. Besides, we don't have to split them so clearly, do we?" "It's all thanks to Yaoyao for taking care of me during the Qi deviation," Lin Yi smiled," she made medicine for me every day, or I wouldn't have woken up so quickly. "

"You're right. I'll take the shares and assets for now, but it'll be yours and Yaoyao's sooner or later. " Pengzhan said.

Lin Yi pretended that he didn't hear anything, but the Miss blushed and sneaked a glance at Lin Yi. She let out a breath of relief when she realized that he didn't seem to notice anything.

"Uncle Chu, let's go back. The villa is back in our hands now." "I'm a little tired too, I'm going back to rest ..." Lin Yi said.

In fact, Lin Yi was in a hurry to continue training the second stage of the art of Dragon mastery. The enemies were too strong, and Lin Yi didn't have any new trump cards to deal with stronger enemies.

"Alright, I'll be discharged now!" Pengzhan said with a nod.

"Wu Chengtian, you come with me. The others can go back and rest." Lin Yi turned to Yutian, Lingshan, and Jingyi."Fatty Lai, come with me later. Tell me about the company and see how we're going to beat miracle doctor Kang,"

"Alright!" Chentian and fatty Lai said at the same time.

Although the medical fees couldn't be waived due to Guan Xiaoxiang's obstruction, Xuemin's face was still quite useful in other aspects. When Chu pengzhan wanted to leave the hospital, there was almost no doubt or obstruction, and the procedures were completed.

They went down the stairs, and Lin Yi realized that there wasn't a car. He smacked his head."An Jianwen, that B * stard, he forgot to ask for the car!"

At that time, Lin Yi was thinking of leaving the villa as soon as possible so that the Man in Black wouldn't notice anything wrong. He didn't drive the car back.

“Haha, forget it. It’s just a car!” Pengzhan didn’t mind-this was the best result he could hope for. He’d gotten the business and shares, and the other things didn’t matter.

Song Lingshan and Chen Yutian both had cars, but they were allocated to them. Otherwise, they would have sold their cars to support Chu pengzhan.

As for Kang Xiaobo and fatty Lai’s company car, it had already been taken away by the bank to pay off their debts.

“Let’s send everyone back.” Yutian said as he pointed at Lingshan and his car.

“Alright!” Lin Yi nodded and got in the car with the others.

On the way, fatty Lai told Lin Yi about the company’s bankruptcy and apologized sincerely at the end. He couldn’t blame miracle doctor Kang’s medical company for this-competition was a normal thing in business. Miracle doctor Guan’s medical company’s bankruptcy was also related to the rapid expansion of his factory. Once the capital chain broke, it would be an unexpected disaster.

“Miracle doctor Kang’s medicine company made this many products all of a sudden?” Lin Yi was a little surprised-he’d only been back to the village for half a month, and miracle doctor Kang’s medicine company had already created so many amazing products.

However, it wasn’t that surprising. From the appearance of the thirteenth on the right, it was obvious that there must be some other power behind house Kang. So it wasn’t strange for house Kang to rise so quickly.

“Indeed, I’m also very surprised.” Fatty Lai nodded,”and the most important thing is that the price is frighteningly low. We don’t have many products, so we can’t do a full scale promotion like them ...”

“Give me a copy of each of their products. I’ll go back and do some research.” Lin Yi said after some thought.

“Officer song, please park your car at any pharmacy. I’ll go and buy a few products!” With that, fatty Lai turned to Lin Yi.”Basically, every pharmacy has their products.”

“Okay, but since we’re both Lin Yi’s friends, you can call me Lingshan. It’s a bit too formal.” Lingshan said.

“Haha, good!” Fatty Lai didn’t reject the offer. Since they were all Lin Yi’s people, it was natural for them to be more familiar with each other.

Song Lingshan found a pharmacy and parked her car. Fatty Lai got off the car and went to buy some things. Not long after, he came back with a bag. He got in the car and handed the bag to Lin Yi.

Lin Yi flipped through it and found a lot of the same medicine. He found it strange.”Why did you buy so many?”

“There are buy one get one free ones, buy two get one free ones, and also free samples. It’s a waste not to take them, so I brought them all back.” Fatty Lai shrugged helplessly,”Their sales tactics are amazing.”

“Alright, I’ll go back and study it.” Lin Yi nodded.

Mengyao and Yushu felt like a lifetime had passed when they returned to the villa.

When they first stepped out of the villa with Lin Yi, general Weiwu, and Skybolt pig, they thought that they would never come back and that this place would become someone else's territory. But not long after, they came back.

"Why is it so chaotic?" Lin Yi saw all sorts of boxes in the living room the moment he entered.

"These are things from Shu's Villa. Her villa's property rights were given to her by daddy ..." Mengyao explained what Jianwen had given her.

"I see. Since you've moved here, find a place to put them away. Don't send them back." Lin Yi nodded, "we're going to school in Donghai city soon anyway. It doesn't matter if we have more things here. Wu Chengtian, help Yaoyao and Shu pack up. I'll go and study the medicine that fatty Lai bought ... Oh right, general Weiwu and Skybolt pig are still at granny sun's house."

"Oh ... Right, the car is still under the overpass. Shall I go and get it?" Mengyao said.

"Let Wu Chentian go with you guys, I'll be worried if he goes with you." Lin Yi said.

"Alright, boss!" Chentian, Mengyao, and Yushu went to pick up the cars and bring general Weiwu and Skybolt pig home.

Lin Yi, on the other hand, went into his room and poured all the miracle doctor Kang's products on the table, studying them one by one.

The first thing Lin Yi opened was miracle doctor Kang's golden creation medicine. Lin Yi could clearly feel the difference from before-it was completely different from miracle doctor Kang's golden creation. It was like Lin Yi's injury medicine that he'd cut corners on! (To be continued.)

Chapter 1867: A Big Star's call

This person's understanding of medicine and its properties wasn't as good as Lin Yi's, but it was already very good for him to be able to reach this stage.

House Kang had a powerful master behind them! Lin Yi's hypothesis was further confirmed after seeing the cheap version of golden creation.

It wasn't likely that he'd be making a big deal out of golden creation, so Lin Yi set it aside.

If Lin Yi wanted to reverse the situation, he had to create some negative impact for miracle doctor Kang's medical company. Even Lin Yi, who didn't know how to do business, knew this simple logic. Otherwise, even if miracle doctor Guan's medical company launched a similar product, it would be hard to reverse the situation. It was no longer possible to just fight for the price, because miracle doctor Kang's medical company also had low-cost recipes.

The next target was the special edition golden creation. Lin Yi didn't even need to look at the 299 Yuan golden creation to know that house Kang had changed the recipe. This wasn't the skin beautifying golden creation from the auction, but a new product that was an imitation of Lin Yi's injury medicine

special edition. Otherwise, the thousand year Snow Lotus alone would be enough to make house Kang lose a lot of money.

As expected, this was a very normal recipe, an upgraded version of golden creation. Lin Yi sniffed the medicine and was shocked!

The medicine master behind house Kang was quite skilled-the ingredients he added were similar to the ones Lin Yi had added in the special edition injury medicine ... But after a while, Lin Yi's face turned suspicious again.

There was nothing wrong with these ingredients, but it seemed like the Golden creation special edition still lacked one ingredient to fully utilize the effects of these ingredients. Lin Yi's special edition injury medicine had it, but miracle doctor Kang's didn't!

But if there was no such thing, how did this medicine play its role in removing scars?

Lin Yi made some golden creation medicine and applied it on his hand. After a while, a look of understanding appeared on Lin Yi's face, along with some joy!

Hormones! The hormone wasn't harmful to the human body in small amounts, but it went against miracle doctor Kang's slogan of non-toxic, no side effects, and pure herbal medicine-this was a great time to attack!

Lin Yi found a pen and paper and quickly wrote down the amount of hormones in the limited edition golden creation medicine and the test method. He was going to give it to fatty Lai tomorrow.

After that, Lin Yi started researching miracle doctor Kang's painkiller. The smell of the ingredients was strong, but Lin Yi could still tell that there was something unusual about it. Aminogen was a chemical that was often used in Western medicine such as painkiller and cold medicine. It was widely used in many kinds of medicine, but now it was used by the Kangs in his so-called pure herb medicine, miracle doctor Kang's painkiller. It didn't seem right, and it had to be used for a long time. It could even cause kidney and liver function abnormalities!

The instruction manual, however, didn't show this, and Lin Yi wasn't going to let it go so easily. He continued to write down the chemical names and testing methods.

The last item was miracle doctor Kang's weight-loss medicine. Lin Yi's brows furrowed deeply as he looked at the medicine. This was the most complicated medicine he'd discovered so far among all of miracle doctor Kang's products!

According to Lin Yi's initial estimates, there were at least twenty types of medicine in there. Lin Yi couldn't figure out what they were in a short time, let alone the medicinal properties and properties. But Lin Yi wasn't in a hurry!

When he was young, old Lin would always mix herbs that weren't related to each other for Lin Yi to identify when he was teaching him medicine. It trained Lin Yi's sensitive sense of smell, and according to old Lin, it was the only way to prevent himself from being poisoned.

The sound of a car came from the yard, and Lin Yi looked up-the Grand Cherokee had driven back, and Chentian, the Miss, and Shu were all back. General Weiwu and Skybolt pig got off the car with them, but granny sun didn't come with them.

Lin Yi put down his stuff and walked out of the room. Mengyao came in at that moment."Yaoyao, didn't granny sun come with you?"

"No, she said that she was with us when we went to Donghai city. She's been living in the old house for a few days. She's been living there for many years and has some feelings for us. She can't bear to leave." Mengyao said.

"That's good." Lin Yi nodded. He took grandma sun away because he was afraid that if she lived there alone, Yu Liu and the thirteen families would come for revenge. She was all alone, and naturally couldn't deal with it, but at least for now, grandma sun was not in danger before those families reacted.

"Iron Fist Wu, come and help me move the box!" Shu started to pack up the things that were moved over from her villa.

"Alright!" Wu Chengtian nodded without a second word and ran off to help Shu with her work. A Mystic late phase peak physical-spiritual practitioner had become a Porter! This was something that would only happen when he was around Lin Yi!

Of course, this was in the normal world-it wouldn't be so rare in an ancient sect. The outer disciples of the Ice Palace did all sorts of menial work other than cultivation.

Lin Yi went back to his room and continued studying the recipe for the weight-loss medicine when his phone rang.

He picked up the phone and looked at the name on the screen, surprised.

"Xu Shihan? Why did you call me all of a sudden?" To be honest, Lin Yi and Xu Shihan weren't that close, but they weren't strangers either. After all, the people around her were all fans of her. There was Xiaoxiao, Yaoyao, and Shu, and ... Who else was here? Lin Yi paused at the thought, but shook his head helplessly.

"Lin Yi, I heard that miracle doctor Guan's medical company is in trouble? I just came back from doing publicity abroad and heard about this news. Do you need any help?" Xu Shihan asked.

As the spokesperson of miracle doctor Guan's medical company, and a frequent customer of their painkiller, she naturally paid more attention to the company. She heard the news as soon as she came back and called Lin Yi.

"For now ... No need, I can handle it." Lin Yi didn't expect a call from Xu Shihan-he wasn't that close to her yet, was he? However, Xu Shihan and Xiaoxiao's relationship was good.

"Uh ... It's okay, if you need anything, just let me know ..." Xu Shihan said.

"You need it?" Lin Yi's imagination started to run wild as he listened to Xu Shihan's beautiful voice ... Xu Shihan's soft voice would make a normal man's imagination run wild, especially when she said it in such an ambiguous way. (To be continued.)

Chapter 1868: furious

But Lin Yi was a little annoyed-what was wrong with him? He was a little angry today-he must've been trying to sneak a peek at the Miss, but was interrupted. He couldn't vent his anger, so he came to tease Xu Shihan.

Xu Shihan frowned as she heard the exaggeration in Lin Yi's tone. Her impression of Lin Yi was that he wasn't a frivolous person. He'd never even looked her in the eye before, so why would he say something like that?

So, although Shihan was a bit annoyed, she still said patiently, "Yes, but is there anything I can help with?"

"There's one thing ..." Lin Yi could hear the displeasure in Xu Shihan's voice. He pulled himself together and said seriously, "I've found some chemicals in some of miracle doctor Kang's medicine, and they don't match their advertising. Can you help support them during the press conference? Your influence will attract a lot of media."

"Of course you can." Xu Shihan agreed without thinking. She thought, did she misunderstand Lin Yi? She had just dealt with the pursuit of a rich young master overseas and had become a little sensitive?

"Thanks, I'll get fatty Lai to contact you." Lin Yi said.

"Okay ..." Xu Shihan heard that Lin Yi's tone was normal and there was nothing wrong with it. She let out a breath of relief.

After ending the call, Lin Yi continued to study the weight-loss medicine. Every time he sniffed out an ingredient, Lin Yi would jot it down on a piece of paper. He only stopped when he had identified all the ingredients in the medicine!

A normal Medical Master wouldn't be able to do something like this, but Lin Yi grew up in a pile of herbs, and after learning the art of Dragon mastery, he became even more sensitive to the outside world. As long as he came into contact with herbs, he basically had a photographic memory-even old Lin couldn't help but sigh!

However, according to Zhang Liju's personal notes, this ability was related to one's physique. If a person with this kind of keen observation of herbs became a refiner, it would mean that they could reach the top!

Even Zhang Liju himself only had a small part of it-he wasn't very sharp, and guessing eight out of ten was already impressive. The Hidden House you naturally didn't have a master like that, or they wouldn't have asked Lin Yi for the pill recipe.

Of course, Lin Yi was happy that he had this ability, but his control of the refinement fire was still too weak. It would be a waste if he couldn't control the fire with this ability! No matter how powerful he was, he couldn't become an Alchemist. At most, he could only be an alchemy boy by the alchemist's side!

He shook his head and got rid of these unrealistic thoughts. He started to analyze the prescription in his hands ...

No poison, no side effects, no rebound, no diet, healthy weight loss-this was the advertising slogan of miracle doctor Kang's weight-loss medicine.

But with the previous experience, Lin Yi didn't believe that there wasn't something fishy going on!

Lin Yi really couldn't think of any effects when all these drugs were put together. Many of them didn't even fit together at all-how could they have any weight loss effect?

If it weren't for Lin Yi's confidence in his nose and mouth, he would've thought that he'd misidentified some of the drugs.

Lin Yi frowned, deep in thought.

After a while, Lin Yi finally opened his eyes, a look of understanding on his face.

These were two formulas, not one! Lin Yi had thought of it as one prescription, and naturally, there would be a lot of contradictions and unreasonableness, but if it was split into two, there wouldn't be any problems!

However! A trace of anger flashed across Lin Yi's face after he separated the medicine! A doctor had a kind heart-Lin Yi wasn't a good person, and he wouldn't just make house calls, but as long as he did something, he would try his best to cure the patient. He wouldn't just treat one person half-heartedly or have another problem pop up after he'd cured one.

As for the weight-loss medicine, one of the recipes wasn't anything special. It was just a normal supplement recipe, but what confused Lin Yi was that the person losing weight wasn't one of those dying people-what was the point of using this recipe? Many of the herbs in this prescription could replace food to provide nutrients for the human body, but only some people who couldn't eat on their own would use this medicinal liquid to maintain their lives. Now, it was mostly replaced with glucose and so on. It could be said that almost no one used this prescription anymore.

But when he looked at the other prescription, Lin Yi understood why they needed supplements!

The second prescription wasn't meant to cure anything at all. In Lin Yi's eyes, it was just a harmful poison!

This prescription could inhibit the function of the digestive system and hinder the digestion and absorption of food, causing food to be directly expelled from the body. Long-term consumption could even cause gastrointestinal dysfunction or even damage to its function!

The theory behind these two prescriptions was also very obvious. One was to use medicine to provide a small amount of nutrients to the human body, while the other was to prevent the digestion of the food he ate every day to achieve the goal of losing weight! But this wasn't losing weight, it was a scam.

Short-term consumption could have an obvious effect, but long-term consumption would destroy the stomach and intestines. It would be too late to regret then!

Lin Yi hated black money the most, and the reason why no one noticed anything wrong with the recipe was because the person who made it was smart enough to mix the two recipes together. Even if someone found out the recipe, they wouldn't be able to understand the theory behind it!

Only someone as talented as Lin Yi would be able to see through the flaws in the medicine, and it was probably the reason why house Kang was so confident in selling this product!

Lin Yi jotted down the testing method and the properties of the weight-loss medicine-he'd completed an important task. Naturally, he couldn't use the same methods he used on the an family.

Lin Yi was a tyrannical man, but he had his principles. If the an family used extreme methods to deal with Chu pengzhan, Lin Yi would use extreme methods to deal with them. However, house Kang, at least on the surface, competed with miracle doctor Guan's medical company using proper business methods. If Lin Yi wanted to get back the market, he had to use proper methods, not force. It would be bad for miracle doctor Guan's reputation.

As for the main culprit, thirteenth right-hand, he was killed by Lin Yi as well. He could use normal methods to deal with house Kang.

The next day, the news of pengzhan industries changing hands spread throughout the entire business world of Songshan!

Chapter 1869: examining a martial skill (1)

But this time, it was back in Chu pengzhan's hands! They didn't know the details, but no matter what, pengzhan industries was still under his control!

Pengzhan didn't blame the small shareholders-it was normal for them to suck up to the new chairman. He could only blame himself for not having a few close friends.

Miracle doctor Guan's medical company didn't resume business. After Lin Yi gave the testing methods and defects of miracle doctor Kang's medicine to fatty Lai, fatty Lai started to look for professional agencies to issue test reports. He used the two billion that Lin Yi brought back to buy back the factories and lands that were sold at a lower price. Although the price was higher than the selling price, it wasn't a big deal with the support of house Wu and house sun.

Lin Yi only laughed at their actions and didn't comment on it. He only told fatty Lai to take the money first since they were willing to lend it to him. Businessmen were after profit, and Lin Yi only saw them as businessmen. After this, he would naturally compensate them, but it was impossible for them to be as close to each other as house Liu.

Of course, Lin Yi didn't expect gonggao and the others to become friends-he only wanted to befriend Chentian and Jingyi.

As for the recipe to go up against miracle doctor Kang's medicine company, Lin Yi gave it to fatty Lai and miracle doctor Guan as well. The company was going back to work quietly, but they didn't release any products to the market.

Everyone around Lin Yi knew that fatty Lai was waiting for the right time to shock the world with his results!

School was about to start soon, and Mengyao and Yushu were busy preparing their luggage for the next few days. Lin Yi, on the other hand, was in his room, practicing the mysterious martial skill and the second stage of the art of Dragon mastery.

The practitioner's Arts didn't have any actual moves, but Lin Yi thought that since he took it out from the cave, it made sense that it was a support-he had to finish the second stage of the art of Dragon mastery before he finished. There might be even more powerful skills waiting for him in the cave.

As for the materials needed to make the Jade, Lin Yi asked fatty Lai about it, but the results were disappointing. Blue crystal powder, pure yellow jade, and colored steel. Fatty Lai said that he could try to find the blue crystal through his connections. As for the other two, pure yellow jade was hard to come by, but he'd never heard of colored steel!

Xuemin, on the other hand, knew someone who was famous in both the collectors' and Jade sculptors' world-perhaps pure yellow jade existed! This news excited Lin Yi, and he decided to pay the master a visit when he had time to see if he could get pure yellow jade!

As for the colored steel, Lin Yi could only leave it to fate. He didn't know what the people around him were, and he'd never seen colored steel before. How could steel have a natural color?

He didn't get much out of his training these few days-the second stage of the art of Dragon mastery was obviously much harder than the first stage. He'd been training for so many days, but he was still at the beginning stage, just getting used to it-and this was the foundation he'd built when he forced out the fire poison Qi.

On the other hand, there were ten levels of the arts and techniques, and Lin Yi was able to reach the third level! He seemed to be under no pressure and was moving towards the fourth level!

Of course, the practitioner's Arts also explained that the first three levels were for Earth Class early phase. In other words, even if Lin Yi trained to the third level full circle, he wouldn't be able to reach the fourth level until he reached Earth Class mid phase.

Since that was the case, Lin Yi naturally slowed down his training speed. As he got closer to the completion of the third layer, he realized that it was getting harder and harder to go further. He was about to reach the fourth layer, but he was still a little bit away from it-it was the bottleneck.

With the rest of the time, Lin Yi picked up the fist of raging fire that uncle Fu gave him!

Before, perhaps because of his practitioner's Arts, he wasn't able to make much progress in this skill. He couldn't even use the skill to its full potential when he was fighting an enemy, but Lin Yi knew that this wasn't a normal skill!

Uncle Fu used to be the young master of a certain sect. The martial skill he cultivated must be very powerful and not ordinary. The reason why he couldn't cultivate it was entirely because of him.

But now, since he couldn't find a better skill in the cave, he could only continue to practice the skill uncle Fu left him.

There was no one else around him to ask about battle techniques, not old Lin or his master. He could only rely on himself.

The wild fire Fist had a domineering name, and from the name, one could tell that uncle Fu must've been training in a fire element. As for what it was, Lin Yi didn't ask, because he couldn't give up on the art of Dragon mastery for another internal strength.

Every cultivator could only cultivate one Natal cultivation method. If they cultivated too many, not only would they not achieve anything, but they would also be bound by it and achieve nothing. What's more, if they cultivated two conflicting cultivation methods, it was very likely that they would go into Qi deviation!

That was why Lin Yi was so careful when he chose Mengyao and Yushu's Arts.

Lin Yi didn't know why, but every time he thought about the past, especially things related to Chu Mengyao and Chen Yushu, his heart would skip a beat for no reason. It was like he had forgotten something, but it also seemed like it was only natural.

The first move of wild fire Fist!

Lin Yi had practiced this move hundreds of times, but he still couldn't fully master it. He couldn't even use the second or third move, not to mention the other moves.

This was also the reason why Lin Yi failed so many times when he was fighting against his enemies.

At this time, Lin Yi rehearsed it, but he didn't expect to succeed on the first try!

When Lin Yi was practicing before, he failed eight out of ten times and only managed to activate it two times. However, the possibility of successfully activating it on the first try after not using it for half a month was too low.

Lin Yi's two fists pushed out, and this simple punch contained a huge amount of power!

Chapter 1870: Examining battle techniques (2)

Once it was fully unleashed, it was like the water from the Yangtze River pouring in, setting the entire mountain on fire. The huge fire aura was terrifying, and even Lin Yi was shocked by the power released from the full force!

When the first form of the wild fire Fist was successfully performed, Lin Yi didn't feel anything at first, but as his practitioner's Arts circulated and pushed the first form to its peak, Lin Yi was shocked to the extreme!

It wasn't because of the power of the fist-he'd felt it before, but because this was the first time he'd used the first style to its fullest!

He'd had some successful experiences before, but he'd never been able to use it so skillfully and with such power!

Looking at his red fists that seemed to be wrapped in flames, Lin Yi was surprised. Perhaps this was the true power of the first style of the wild fire Fist! If he'd used this move earlier, he wouldn't have needed to compress the energy bomb and could've just used the wild fire Fist to finish the blue fur!

Because the blue-haired guy was just a foodie of the you family, and the martial arts he had mastered weren't core martial arts, the first move of wild fire Fist was enough for him!

However, the first style didn't seem like it was going to stop after Lin Yi activated it. The fire continued to fill the sky, turning the entire room red!

If Lin Yi didn't choose an open space to practice, he would've set the bed and desk on fire!

The second move of wild fire Fist!

He'd already memorized the second style, but he just couldn't bring it out. Now, however, it was done naturally, as if everything was so natural, like flowing water without any hindrances!

It was as if the first form had been pushed to its limit, and naturally transformed into the second form. It wasn't like when Lin Yi used it alone at the beginning, where he couldn't even activate it!

The first move was already very powerful, but when the second move was released, Lin Yi finally understood what it meant to be a small sorcerer compared to a big one!

Waves of heat surged in the room, and even Lin Yi, a practitioner, was sweating from the heat!

What an overbearing martial technique! Lin Yi thought to himself, how heroic must uncle Fu have been back then? No wonder there was a hint of pride and reminiscence in his voice when he talked about the past. As for the martial arts, uncle Fu didn't explain much about it to Lin Yi-it was all because of the practitioner's Arts. Lin Yi didn't practice uncle Fu's practitioner's Arts, so he wouldn't be able to unleash the full potential of the martial arts no matter what he did.

But uncle Fu didn't expect Lin Yi to activate it miraculously, and it was a success on the first try!

At this moment, Lin Yi's fist was like a burning comet, and Lin Yi himself was like a fire spirit, releasing a huge amount of fire energy!

The third move of wild fire Fist!

Lin Yi's body turned, and he activated the third move that he had never tried before!

Lin Yi's face was filled with shock as he used this move! Before this, Lin Yi had never tried to use the third style of the wild fire Fist because he couldn't even use the second style. He wasn't even familiar with the first style yet, so he couldn't possibly aim too high for the third style!

However, when the third move was activated, it was as if it had been practiced thousands of times. It was released so naturally!

Of course, Lin Yi had practiced these three moves thousands of times in his mind, but it was only in his mind. If he couldn't use it himself, he'd just simulate it in his mind, but the power would be far from the actual power.

Although Lin Yi's fist didn't hit the wall or the furniture, the heat wave from the third style of the wild fire Fist was enough to burn the wall and furniture. Lin Yi quickly stopped his practice!

The third style of the wild fire Fist was indeed extraordinary. It couldn't compare to the heat from the fire poison Qi, but Lin Yi was confident that he could win against an opponent of the same level or one level higher!

Lin Yi had experienced the skills of the blue-haired guy and the thirteenth on the right before. The blue-haired guy's skills were negligible, but the thirteenth on the right's skills were quite overbearing. But

now, even if he were to face the earth Class mid phase thirteenth on the right, Lin Yi was confident that he could win even without the fire poison Qi!

Of course, this was under the condition that he could successfully activate the third style of the wild fire Fist. If he couldn't, then he'd still be sending himself to death.

The heat in the room hadn't dissipated yet, but Lin Yi's heart was surging with excitement!

He had comprehended the three moves of wild fire Fist just like that? Lin Yi knew that he wasn't a martial arts genius, but understanding three powerful moves in an instant made him suspicious. What caused this?

Was it because he had a sudden epiphany after being poisoned by the fire poison, or was it because he had cultivated the second stage of the art of Dragon mastery? Or was it the three levels of auxiliary martial skills?

Or ... Was it a coincidence that he accidentally used it and couldn't activate it again?

Thinking of the last possibility, Lin Yi quickly went to the backyard and activated his raging fire Fist again!

This time, Lin Yi didn't use the first form, but chose to use the third!

"Hu ..." Continuous flames burst out from Lin Yi's fist, instantly setting off a storm!

It was a success!

Lin Yi was surprised to find that he had succeeded again. It was as if the third style of the wild fire Fist was an easy thing to do!

However, amidst his shock, Lin Yi found a flaw!

That was, the power of the third move that was directly catalyzed was not as great as the third move that was naturally transformed when he started practicing from the first move.

He'd just made it, and it wasn't at its peak yet, but Lin Yi could clearly feel the difference between the two when he used it in his room!

Of course, if he did not make a comparison with the previous moves, the third move alone was already very powerful!

In the courtyard, Lin Yi didn't have to worry about anything anymore. He could push the third style to its limit without any obstacles, and Lin Yi wanted to see how strong the third style was ...
