

Bodyguard 1871

Chapter 1871: -examining martial skills (2)

There were only two words in Lin Yi's heart-endless, carefree!

Lin Yi practiced this move for half an hour before he slowly stopped!

Lin Yi finally understood that he'd mastered the technique-he'd have to ask elder Jiao how he'd done it, but he himself was still clueless!

Lin Yi let out a long breath, suddenly realizing that there were a few more people beside him!

Because he was in his own yard, and Lin Yi was so excited, he didn't notice what was happening beside him. It was only after he stopped that he suddenly felt someone beside him. Lin Yi was surprised, and he was careless!

Lin Yi's name was like the sun in the sky right now, and no one would dare to come and challenge him, but there was always a "what if"-what if an enemy came?

What if the enemy ambushed him while he was practicing? Although the possibility of a sneak attack under such a domineering martial technique was very small, it was still better to be careful.

"Yaoyao, Shu, uncle Fu, Chentian, you're back ..." Lin Yi's voice had just faded when he realized that the four of them were looking at him in shock and disbelief! It was as if he had done something great.

"Shield bro, are you practicing the same martial skill that you used to kill those three Earth Class Masters?" Chen Yushu asked.

"Yi ... You've already mastered all three of the wild fire Fist?" "You used this against the three Earth Class Masters that day?" uncle Fu asked, surprised.

They'd heard that Lin Yi killed three Earth Class Masters in one move, but he didn't tell them how he did it. Uncle Fu and the others were curious, but they didn't ask.

"Uncle Fu, you're the one who taught me these three skills, so you should know how powerful they are. Is it possible to kill three Earth Class Masters in one move and burn them to ashes?" Lin Yi said with a bitter smile.

"I don't think so!" "No." Uncle Fu shook his head."However, I wasn't as strong as you back then. Although I'm familiar with it, I'm still a little lacking compared to you!"

"Ah?" Lin Yi blinked at the words-he'd actually ... Already surpassed uncle Fu back then? Why did it sound so funny? After all, Lin Yi was still half-cooked before today!

"I'm ashamed. I've been cultivating for years, but I can't compare to you, who's been cultivating for months ..." Uncle Fu said, a little ashamed."But master was able to use the twentieth form of the fist of raging fire back then, and killing three Earth Class Masters in one move wasn't that hard ..."

"Uh ... Actually, I only practiced for an afternoon ..." Lin Yi scratched his head and said, a little embarrassed.

Uncle Fu took in a breath of cold air-an afternoon? He knew that Lin Yi wouldn't lie to him, so he meant what he said-but Lin Yi was able to learn the first three styles in one afternoon. Uncle Fu could only call Lin Yi a genius."Yi ... What's going on with you is too strange. You can heal my and Chentian's meridians, so it's not a surprise that you've spent an afternoon learning the wild fire Fist!"

"Ha ..." Lin Yi didn't know what was going on either. Was this the legendary sudden enlightenment? But Lin Yi was looking forward to the last few moves-the twentieth move, killing three Earth Class fighters in one move-wasn't that what he wanted?

"Uncle Fu," Lin Yi quickly asked,"do you have the last few moves?"

"I only have the first ten, and the eleventh is something only sky Class Masters can do. I didn't memorize the practitioner's Arts ..." Uncle Fu said.

"Gah?" "Then what's your master's level?" Lin Yi blinked.

"Heaven rank ..." Uncle Fu said.

"Pfff ... Ahem ..." Lin Yi choked. A Sky Class taking out three Earth Class Masters in one move wasn't something to be shocked about, was it? This made Lin Yi a little disappointed. As expected, there wasn't such a heaven-defying thing in the world.

If an expert of the same level could kill three experts of the same level with a single move, wouldn't that make him invincible?

"Actually ... Before I met you, I really didn't know which practitioner could kill three practitioners above his level ..." Uncle Fu smiled bitterly."Actually, for a Sky Class, even if it's the early phase, it'd be hard to kill three Earth Class Masters, let alone a late phase Earth Class ..."

...That day was an accident." Lin Yi didn't hide anything from uncle Fu and the others-they were his people, after all, and they wouldn't hurt him."I forced out all the fire poison Qi from the Qi deviation and used it to burn the three Earth Class Masters to death. It wasn't a martial skill ..."

"I see!" Uncle Fu and Wu Chengtian nodded as realization dawned on them. They'd been wondering how Lin Yi, an early phase Earth Class master, could kill three Earth Class Masters in seconds.

"Shield bro's the best! He's actually good at recycling!" Chen Yushu replied.

"..." Chu Mengyao was speechless as well. She felt lucky that Lin Yi didn't make use of the waste. If he didn't, they wouldn't be able to escape.

However, after using these three styles, Lin Yi felt an indescribable fatigue. He didn't feel anything when he used them, but now that he stopped, he felt like he had used up more than half of his Qi. It wasn't enough to affect his movement, but he was really tired!

"Uncle Fu, does this wild fire Fist consume a lot of true Qi?" Lin Yi asked.

"Natural consumption ..." Uncle Fu was taken aback by Lin Yi's words, but he remembered that Lin Yi didn't even know martial arts before."But it's not that the wild fire Fist consumes a lot of Zhen Qi, but all martial arts techniques consume a lot of Zhen Qi. The higher the level of the martial arts technique, the

more Zhen Qi it consumes. So, even in a duel between Masters, it's impossible to use martial arts techniques without limit. Otherwise, in the end, the enemy will die of exhaustion before he is killed."

"So it's like this!" Lin Yi nodded.

"However, the true Qi consumed by martial arts techniques can be easily replenished. This is different from the true Qi consumed by other methods." "Although martial arts techniques require a large amount of Qi to activate, it doesn't mean that the Qi is completely released after use. A portion of it is converted into other ways to stay in the body. As long as you rest, it can be converted into Qi again," uncle Fu said.

"It's actually that magical?" Lin Yi was surprised, but it made sense. If it was really hard to recover, then who would use martial arts? it would be a waste to lose all the hard work they'd put in.

Chapter 1872: A genius?

"It's not that amazing, it's just common knowledge for practitioners. As for a weirdo like you ... It's rare for someone of your strength to not know ..." Uncle Fu shook his head with a bitter smile.

Lin Yi was a little embarrassed-it was true, his master had left a long time ago. Old Lin did have a spiritual practitioner's art as his minor, but it was only a support one, let alone a martial arts one. The only one who could guide him on the path of martial arts was Jiao yazi, but he was an illusionary body with incomplete memories, and he often had to recover his memories ... This made Lin Yi feel like he was in a tough spot.

"Then, starting from the eleventh move, the reason why I can't use the other ten moves is also because I don't have enough Zhen Qi in my body, right? If your strength has not reached that level, you can not provide the amount of true Qi needed to activate the martial skill?" Lin Yi asked.

"You can say that, but it's not entirely true. If you exhaust all the true Qi in your body, you should be able to use the next martial technique, but this is often a life-saving method in a life-and-death situation." "It's because the Qi required to activate the next move isn't something my current strength can handle. After activating it, not only will I enter a very weak state, but my Qi recovery won't be able to recover completely either, because the next move won't be converted back by the current level of practitioner's Arts. In other words, it'll drop a level ..." Uncle Fu said.

But at this point, uncle Fu was looking at Lin Yi in surprise and envy.

"What's wrong?" Lin Yi's hair stood on end as uncle Fu looked at him.

"In theory, you've already fainted!" Uncle Fu smiled bitterly."It's normal for an early phase Earth Class to be able to use the first form. At most, you can barely use the second form, but the third form ... Is something an early phase peak Earth Class can do. You're able to use it all at once, and you're not even unconscious ... So, the theory I told you before might not be applicable to you ..."

"Actually ... I'm a little tired too ..." Lin Yi sweated. Was this the effect of the art of Dragon mastery? Lin Yi felt like he'd used up quite a bit of Qi, but he didn't feel tired or weak at all.

"..." Uncle Fu was speechless.

At night, Lin Yi couldn't wait to tell elder Jiao everything that happened before he went into the Jade space.

"Elder Jiao, am I a genius?" Lin Yi said cockily after explaining the strange encounter.

Elder Jiao was just about to explain when he burst out laughing. "I say, Lin brat, aren't you too full of yourself? There's a genius who has been cultivating the art of Dragon mastery for ten years and hasn't even reached the first stage?"

"Ugh ..." Lin Yi was a little embarrassed, "I'm just making a casual remark. Today, when I was practicing the wild fire Fist, I did it smoothly and smoothly without any obstruction. It felt as if the wild fire Fist was made for me!"

"That's true, but it's not quite accurate. To be more accurate, it's you who made the wild fire Fist!" Elder Jiao said.

"What's the meaning of this?" Lin Yi asked, surprised.

"During this period of time, my memory has slowly recovered. Although it's not complete, it's enough to answer some of your questions at this stage." "Do you have any questions?"

"Didn't I ask you before?" Lin Yi said.

"Oh, you're talking about practicing martial arts? that's normal." "The art of Dragon mastery can produce all-powerful true Qi," elder Jiao explained with a nod. "In other words, the art of Dragon mastery, or the all-powerful mental cultivation method, can train in any combat technique! So, it's not that the martial technique was tailored for you, but that you were tailored for the martial technique!"

"Ah? It can't be, right?" Lin Yi was shocked and overjoyed at the same time. Didn't that mean that he could learn whatever skill was strong, and he wouldn't have to worry about finding a suitable one?

"This is it." "Now you know the benefits of the art of Dragon mastery, right?" elder Jiao nodded.

"Then ... Why couldn't I do it before?" Lin Yi was confused after calming down. "I've practiced the wild fire Fist countless times before, but I've never been proficient in it. I'm still very rusty ..."

"That's because you haven't trained in any martial arts or the second stage of the art of Dragon mastery! And these two are indispensable." "The first stage of the art of Dragon mastery only works before Earth Class, which is the so-called Foundation Stage. For practitioners, it's the Foundation Stage. Only after reaching Earth Class can they practice martial arts, and that's the turning point."

"I see!" "So you're saying that only the second stage of the art of Dragon mastery can be used with martial arts?" Lin Yi said, suddenly understanding.

"You can say that. However, although mental cultivation is an all-purpose mental cultivation method, it can only be transformed into all-purpose true Qi. If you want to practice martial arts, you have to transform the mental cultivation method into a corresponding mental cultivation method to match various martial arts. So, here, you need another transformation incantation." Elder Jiao said.

"It's ... That martial arts technique?" Lin Yi remembered the martial arts he'd gotten from the cave.

“That’s right. That martial technique can also be called an all-purpose martial technique. As long as you cultivate this all-purpose martial technique, then no matter what martial technique you cultivate, you can automatically transform your mental cultivation method into the most suitable corresponding mental cultivation method for the martial technique, and thus unleash the maximum effect of the martial technique.” “That’s why you’re stronger than the original owner-their practitioner’s Arts, even though they’ve been through a lot of training and compatibility, aren’t as tailored as those that automatically change.”

“...This is too heaven defying ...” These were the only words Lin Yi could use to express his feelings. What kind of skill was this? he thought it was just a useless Support Practitioner’s art, but he didn’t think it was this powerful!

Lin Yi let out a long breath after a while.

In other words, not only could he use the wild fire Fist, but he could also learn it as long as he had the corresponding martial arts manual. Just thinking about it made Lin Yi’s blood boil.

“It’s not to the extent of being heaven-defying, but Lin brat, I want to remind you of an old saying,” a man’s heart is not content, like a snake swallowing an elephant.” Don’t think that you’re invincible just because you’ve cultivated a lot of martial arts techniques. It’s not easy to master a powerful martial arts technique!” “It might seem like the second stage of the art of Dragon mastery and the omnipotent technique are the reason why you were able to use the wild fire Fist so quickly today, but isn’t it also because you’ve practiced it thousands of times?” elder Jiao said. If you didn’t practice and figure it out thousands of times, how could you activate it without any obstacles? It’ll take you some time to get familiar with the incantation, right?”

Chapter 1873: New product launch

“You’re right, elder Jiao!” Lin Yi nodded seriously, cold sweat dripping down his back.

It was true that in that instant, Lin Yi felt like he was looking down on all the Masters in the world, but now that he thought about it, it was an abnormal self-confidence boost. If it weren’t for elder Jiao’s timely advice, he might’ve gone down the wrong path!

If one were to blindly pursue and learn more martial techniques, one might not even know which martial technique to use in a real battle. If one thought too much and wasted time, one would be beaten to the ground by the enemy.

“Hehe, I’m just saying. It’s good that you can remember it.” Elder Jiao nodded.

“By the way, how did I suffer from Qi deviation the last time?” After Lin Yi recovered, he was busy with his training and didn’t have time to ask about the Qi deviation.

“You still don’t know?” “I don’t know either ...” Elder Jiao said, surprised.

“You don’t know either?” “You don’t know what happened after I fell unconscious?” Lin Yi was even more surprised.

"I don't know. My connection with the outside world is through you. You're unconscious, so how would I know what happened?" "Plus, I can only sense what's going on outside when we're in contact. I'm sealed off the rest of the time," elder Jiao said, shaking his head.

"Looks like I'll have to ask Shu and the others ..." Lin Yi asked Yaoyao and Shu about his Qi deviation after he woke up, but they only gave him a brief account of what happened. They went to the valley to get an Ice Spirit fruit under old Lin's advice, but they didn't go into detail about the process.

This was the Miss "personality-no matter how much she'd given up, she wouldn't show it off. Lin Yi knew that the ice Spirit fruit wasn't as important to the valley as the fire spirit fruit, but she'd still paid a price for it.

It was just that the young miss was cold on the outside but warm on the inside, and was unwilling to take credit. What made Lin Yi feel strange was that Shu didn't say much, either. She didn't use her eloquence to tell him what happened.

Lin Yi thought that perhaps the Miss had ordered her to keep her mouth shut.

"No need. Tell me what you did before you went crazy. Something probably went wrong ..." Elder Jiao said.

"Okay ..." Lin Yi nodded and told elder Jiao everything that happened before the Qi deviation.

"A!" Elder Jiao sighed, speechless.

"What's wrong?" Lin Yi asked, curious about elder Jiao's reaction.

"Little Lin, what do you mean by haste makes waste? How many times have I said before that a skyscraper rises from the ground, and you ... Actually used other medicine to replace the body tempering medicine, it would be strange if you didn't go crazy!" "How can the resting grass be replaced so easily?" elder Jiao said with a bitter smile. That's the key to calming the mind, but if you replace it, you won't be able to play the role of calming the mind. Isn't it normal to go into Qi deviation?"

"This ..." Lin Yi blushed. He didn't ask elder Jiao for help, he just changed one of the ingredients himself without consulting him, and now it brought about such an unexpected result.

"Five years! Why did I give you a five-year deadline? I'm afraid that you're young, impatient, and not calm enough, so I've used five years to limit you!" Elder Jiao said,"But I didn't expect that after ten years, your impatience still hasn't subsided ... Really ..."

"It's precisely because ten years is too long ... That's why I'm in a rush ..." Lin Yi blushed.

"Next time, I hope you won't make the same mistake when you refine the jade pendant. Otherwise, not only will you fail, but you might even lose me." Elder Jiao said.

"I won't do it again!" "I'll follow the instructions strictly next time,"Lin Yi promised with a nod.

.....

Miracle doctor Guan's company's product launch was held under everyone's shock and doubt!

The public didn't understand-didn't miracle doctor Guan's medical company go bankrupt because of miracle doctor Kang's Medical Group? Why did Dongshan mountain rise again? It wasn't that there weren't companies that could rise up again after bankruptcy, but it was rare to see one rise up again in less than a month!

And because of that, many media outlets attended miracle doctor Guan's product launch with curiosity, especially with Xu Shihan. Many entertainment media outlets came as well!

This was the effect of being a celebrity, so the revival of miracle doctor Guan's medical company and the release of a new product attracted the attention of the media from all over the world. At that moment, even the seats that were prepared in advance were not enough, and many reporters who came to interview could only stand on the side and watch.

Fortunately, it was an open-air press conference, so it could be seen from nearby.

House Kang received the news that miracle doctor Guan's medical company had reopened and had new products on the market. It was within their expectations, but the speed of the news still left him speechless.

"Father, don't worry too much. Even if miracle doctor Guan's medical company goes back to life and has new products on the market, they still don't have the power to compete with us. They're cheap, but we can be even cheaper. Besides, our family is an established brand, and they're new on the market. Who do you think the consumers will choose?" Guifeng said, seeing the worry on miracle doctor Kang's face.

"That's right, Grandpa, we have the Hidden House you's support and prescription. Why should we be afraid of miracle doctor Guan?" Zhaolong said.

But only Kang Zhaoming didn't say anything. These past few days, Kang Zhaoming had been silent. He was scared by Lin Yi's strength. The Hidden House you didn't say anything when thirteenth left was killed, but they didn't send any other Masters either. This made Kang Zhaoming very worried. He was afraid that Lin Yi would come to kill him at any time!

After all, he was involved in Guan Xin's kidnapping. If Lin Yi were to pursue the matter, he would be the first one to die!

"Zhaoming, why aren't you saying anything?" Miracle doctor Kang looked at Zhaoming.

"Grandpa ... I'm a little scared ... I have a feeling that Lin Yi won't just let this go. He'll definitely take revenge on us ..." Kang Zhaoming hesitated.

"Oh?" "Why would you say that?" miracle doctor Kang frowned.

"Zhaoming, what are you talking about? House Kang relies on fair competition, and even if miracle doctor Guan's company wants to compete, it's normal business tactics. We have the price and recipe advantage, how can they compete with us?" Guifeng said as he looked at Zhaoming.

Chapter 1874: Sudden change

“Right thirteen is dead ... Lin Yi killed him ... I’m the one who offended Lin Yi, not you guys ...” Kang Zhaoming shook his head dejectedly, “It’s fine, I’m going back to rest-you’ll see how strong Lin Yi is later!”

With that, Kang Zhaoming turned around and left.

Miracle doctor Kang sighed, his face darkening.

“Grandpa, don’t listen to Zhaoming’s nonsense. He must’ve been traumatized before, but he’ll be fine after a while!” Zhaolong was happy to see Zhaoming like this. If Zhaoming continued to be so dispirited, it would be the time for him to become the heir again.

“Guifeng, Zhaolong, you guys should go to the press conference and see what Lin Yi and fatty Lai are up to!” Miracle doctor Kang said uneasily. “There are some things we have to be wary of ...”

“Yes ...” Guifeng and Zhaolong didn’t think much of it-they didn’t think that miracle doctor Guan’s medicine company would be able to do anything to reverse the situation now that house Kang’s sales were at its peak!

Of course, they didn’t know that miracle doctor Guan’s medical company was also on the verge of bankruptcy.

At the new product launch, to the surprise of the media, fatty Lai announced a few new products. All of the products matched the prices of miracle doctor Kang’s medicine company, except for the previous promotion. The price was lowered to the same price as miracle doctor Kang’s medicine company, but it was still a little more expensive. The other products were much more expensive than miracle doctor Kang’s medicine company!

This made all the media present and the onlookers ‘jaws drop! How could miracle doctor Guan’s company compete with miracle doctor Kang’s company with a price like that and similar products? He had no advantage at all!

Many people had noticed that miracle doctor Kang’s golden creation wasn’t as effective as before, but it was still cheap! Miracle doctor Guan’s injury medicine was good, but expensive. In comparison, most people would settle for second best!

Miracle doctor Guan’s injury medicine company had a promotion as well, but it was a buy one get one free deal. It was 99 RMB for two bottles, 49.50 RMB for one bottle. Miracle doctor Kang’s golden creation was 99 RMB, buy one get two free deal, so it was 33 RMB for one bottle!

In comparison, none of miracle doctor Guan’s medicine company’s products had an advantage! After all, if the injury medicine had the same effect as before, then some people would choose the slightly more expensive miracle doctor Guan’s injury medicine, but what about the other products?

Even though they had the superstar Xu Shihan as their spokesperson, unless it was a very loyal fan who would buy the more expensive miracle doctor Guan medicine company’s products, who else would want to be a spendthrift? It wasn’t that he couldn’t afford it, but that he didn’t need to spend more money!

“Hmph, I was wondering what kind of tricks he could play. It seems like Father was worried for nothing!” Guifeng, who was standing in the crowd, smiled coldly at Zhaolong. “He only knows how to copy, he

doesn't know how to create anything new, and the price is unbelievably high-it'd be a miracle if he could beat us like that!"

"Yeah, I don't know what Kang Zhaoming's worried about. If Lin Yi wanted to find us, he would've done so long ago, why would he wait until now? Just look at pengzhan industries, the an family spat out all the money they took in. The start-up capital for miracle doctor Guan's medical company might have been compensated to Lin Yi by the an family." One had to admit that Zhaolong's prediction was accurate.

"So what? Come on, let's go back-other than Xu Shihan's fans, no one would buy their products." Guifeng said.

However, just as the two of them were about to leave, fatty Lai's voice rang out again,"The product launch is over, but before Xu Shihan starts singing, I want to criticize a certain brand's unscrupulous behavior!"

All the media present went into an uproar after hearing the news. They were the most interested in what fatty Lai said. Before this, miracle doctor Guan's medicine company's products weren't competitive at all, and they felt that this conference was a failure.

However, he did not expect that this was the main point!

Guifeng's eyes twitched as he stopped! Only miracle doctor Kang's medical company could compete with miracle doctor Guan's medical company in the industry. If they wanted to disclose something, they would disclose something related to the company.

"Father, let's stay here and see what they have to say!" Zhaolong sneered. If they're lying, we can Sue them for slander!

At this moment, fatty Lai took out a test report from an authoritative organization and began to talk!

He didn't say what brand it was, but the products he was referring to, like golden creation limited edition, pain killer, and weight loss medicine, were all miracle doctor Kang's top products. Anyone with eyes could tell who he was referring to!

Guifeng and Zhaolong's faces changed when fatty Lai accurately pointed out the chemical components and harmful effects of the medicine!

They knew the chemical components of the Golden creation limited edition and painkiller, especially since Zhaolong was in charge of the entire research and production process. However, the hormone and aminoblin weren't illegal drugs, so even if they added them, they would at most hide it. The weight loss medicine, on the other hand, was a big problem!

However, the recipe was from the Hidden House you, and no one in house Kang could understand the medicine and properties of the recipe. Zhaolong may be a professional in this field, but he couldn't understand the medicine and properties of the recipe. Now that fatty Lai exposed it, both of their faces turned green!

The negative effects of the Golden creation limited edition and the pain killer were relatively easy to resolve. After all, hormones could also be used to cure diseases if used well. Aminogen, painkiller, and cold medicine also contained this chemical substance.

But that 'weight loss medicine' was the death of house Kang! If what fatty Lai said was true, then miracle doctor Kang's Medical Group would face unprecedented pressure! Anyone who bought medicine would reject it at first sight-no matter how cheap the medicine from miracle doctor Kang's medical company was, consumers wouldn't accept it because they were spending money to cure the disease, not looking for death.

The whole place went into an uproar when fatty Lai finished explaining the side effects of the weight-loss medicine. The media had found big news and the people who were watching-some of them were using the medicine themselves, some of them were friends and family, and they were all cursing at miracle doctor Kang for being heartless!

He actually created such a harmful thing. If he took it for a long time, wouldn't it be equivalent to a slow-acting poison?

Chapter 1875: finished

"Zhaolong, could he be lying on purpose ..." Guifeng's face darkened as he asked, hoping that he'd be lucky.

"I don't think so ..." Zhaolong's face was ashen,""The names of the herbs he reported are the exact formulas of our weight-loss potions ... Since he said it, he must have verified it with an authoritative organization ... We're finished ... We're completely finished this time ..."

Guifeng was a little dejected after hearing Zhaolong's words, and the father and son prepared to head back to house Kang to report the situation ...

On the other hand, Shihan's performance was attractive, but it was only for the entertainment media. The business Media were all thinking about how to dig deeper into the dirty secrets of miracle doctor Kang's products ...

Before Xu Shihan started singing, she said to the fans and cameras with determination,""I've always been using miracle doctor Guan's medicine company's products. They're healthy, non-toxic, and have no side effects-that's what they're based on. They're expensive, but health is priceless!"

Everyone nodded in agreement. That's right, miracle doctor Kang, that old liar. Golden creation was cheap, but he cut corners on the ingredients. All the other medicines were all lies, and the weight loss medicine was even worse!

"Miracle doctor Guan's injury medicine promotion is a real promotion. It's a promotion with the same quality as before, not cutting corners. I can use my reputation as a guarantee!"

For a superstar like Xu Shihan to make such a guarantee, she had to take a huge risk, but it also proved her confidence in miracle doctor Guan's medical company!

Lin Yi was also looking at Xu Shihan from below. Xu Shihan's words were all just her last words, she didn't rehearse it beforehand.

And so, Lin Yi couldn't help but smile. This girl was quite interesting, she knew how to be grateful-he didn't help her for nothing back then!

The two of them weren't really close friends, but at this moment, Lin Yi had no doubt listed Xu Shihan as an important friend. It was for no other reason than this trust!

The press conference had come to a perfect end, and it would be impossible for fatty Lai to not make a lot of money in the future.

On the other side of the press conference, fatty Lai and Kang Xiaobo were overjoyed. After today, miracle doctor Kang would no longer be a worthy opponent! Even miracle doctor Kang's medical company wouldn't be able to do anything-their products would be seized tomorrow!

"Let's go back and pack up. We have to go to Eastern Sea city tomorrow. School is starting." Lin Yi said to Mengyao and Yushu. He didn't know why, but he felt like something was missing ...

"En!" Although Chu Mengyao and Chen Yushu were both Xu Shihan's loyal fans, they had already promised that Xu Shihan would go back to the Chu villa after the press conference to play with Chu Mengyao and Chen Yushu, so they didn't have to wait here like the other fans to see Xu Shihan.

Eastern sea's Kang family.

It was a mess-Guifeng and Zhaolong brought the news back, and miracle doctor Kang was sent to the hospital with a brain hemorrhage!

Zhaoming smiled bitterly as he muttered to himself, "You're here? You're finally here ..."

Guifeng and Zhaolong didn't have the heart to hurt Zhaoming anymore-house Kang was at its most critical moment, facing seals, products being taken off the shelves, unsalable sales, and consumers "lawsuits and huge compensation!

One could say that house Kang was in a worse state than miracle doctor Guan's medical company!

Xu Shihan sneaked into house Chu's Villa in a black SUV.

Chu Mengyao and Chen Yushu were very happy. After Xiaoxiao left, Xu Shihan didn't come to the Chu villa anymore. Although they would text each other occasionally, Xu Shihan was busy every day and didn't have much time to chat with them!

Sometimes, Xu Shihan would take a long time to reply to a message, or even a few days. But even so, the two of them still felt a lot more superior than the other fans! As long as it was their text, Xu Shihan would definitely reply after seeing it.

A few days before Xu Shihan came to Songshan, Chu Mengyao had already warned her not to mention Tang Yun. Although Xu Shihan was surprised, she still agreed.

However, Xu Shihan heard that Feng Xiaoxiao didn't die, but was accepted as a disciple by some big sect, and she was very happy! She liked this girl very much and felt that the two of them were fated to be together. They were not sisters, but they were as close as sisters.

Mengyao and Yushu, on the other hand, were close too, but not as close as Xiaoxiao.

It was a mysterious fate between two people, and Shihan herself couldn't really explain it.

However, Xu Shihan's time in the Chu villa was limited, and her schedule was packed with her management company, so this half a day was just a break!

To Shihan's surprise, Lin Yi was still cold. He nodded at her and went back to his room, leaving her, Mengyao, and Yushu in the living room.

Logically speaking, he had helped him a lot, and he had taken the risk to express his stance at the press conference today. He should be more enthusiastic about him, right? But thinking of Lin Yi's usual performance, Xu Shihan knew that this guy was always like this, he didn't even think of her as a star!

In his eyes, she was just a pretty girl, and he never lacked pretty girls ...

At that thought, Shihan felt a little depressed-this guy was really annoying!

Xu Shihan played at Chu Mengyao's house for a night, and the next morning, she was picked up by her manager's car, and Lin Yi and the others were on their journey to Donghai city!

They'd already filled in their first choices, and all three chose Eastern Sea city Engineering University. Mengyao and Yushu chose economics, since Mengyao really wanted to learn business so she could help her father ... Or Lin Yi.

Yushu, on the other hand, didn't have much of an idea. She'd just follow whatever Mengyao was learning.

Lin Yi, on the other hand, applied for a less popular major-medicine, a botanical major in the biology Department.

This major was all related to medicinal materials, which was the least popular among the unpopular professions. Those who really studied plants would not apply for this kind of specialized medicine major. Those who wanted to study medicine would apply for a specialized medical University.

But there was a reason for the existence of a major like this in a Science and Engineering school. Lin Yi applied with the same interest as himself, and the idea of being with the Miss and Shu at the same time. He didn't really care what he could learn.

Chapter 1876: buying a house

Pengzhan had wanted to send him off, but he'd just taken over the company and there were many things he had to deal with. He'd wake up early every day and didn't want anything to go wrong with the company he'd just taken over!

Besides, pengzhan and uncle Fu had dinner with Mengyao, Shu, and Lin Yi before they left, so there was no need for a formal farewell.

But before he left, he asked fatty Lai about the orphanage. He knew that the orphanage was doing very well. Although there were only dormitories and no other facilities, at least the orphans had a place to live.

Lin Yi hinted to fatty Lai that he could give the orphanage some funding, and fatty Lai agreed. With the current development of miracle doctor Guan's medical company, it was impossible to build the orphanage all in one go, but it was possible to build it one by one.

_October 8th, morning. _Lin Yi drove Mengyao and Yushu to grandma sun's house in the Grand Cherokee.

He'd already told granny sun a few days ago that he'd be bringing her to Donghai city today, and that everything was settled here as well. Granny sun was already waiting in the yard when Lin Yi arrived.

"Granny sun, you don't have any luggage?" Lin Yi looked at the empty-handed granny sun in surprise.

"Hehe, I'm alone and don't have any wealth. It's not appropriate for me to put these old things in your new residence. I will buy some new ones!" Granny sun said with a smile.

"How can I let you buy anything there?" "Great, let's travel light," Lin Yi smiled.

Chu Mengyao had already told Chu pengzhan about grandma sun. Although Chu pengzhan didn't have the time to see grandma sun, he heard from Chu Mengyao that she was a good person and even took them in during the difficult time. Naturally, he didn't object to grandma sun coming with them to Donghai city. She could take care of them in their daily lives.

October 10th was the first day of school for the freshmen of East Ocean industry University. It had been a tradition for the freshmen of East Ocean Technology University to start school in October, which made the students who applied to the University feel very refreshed. They could have a longer holiday after the tense third year of high school.

Of course, this rule only applied to the new students. The older students still started school on the 1st of September.

The four of them drove to East Ocean City on October 8th. They arrived two days earlier so that they could settle down.

His master's acquaintances were here, but Lin Yi didn't want to trouble them unless it was something important. Buying a house wasn't important, so he didn't want to trouble them.

East Ocean industry University was located in the University town of East Ocean City. There were more than ten universities in the town, and they were all very close to each other.

Lin Yi drove the group around the vicinity of East Ocean industry University to get a feel of the school's atmosphere.

Because of the unified planning a few years ago, all the universities in Donghai city were moved together, so the campus was newly built. At first glance, it had a modern atmosphere, and even granny sun had a vibrant mentality!

In fact, granny sun carefully tidied up and changed into a new set of clothes. She didn't look very old, and granny sun's age was actually less than fifty. It was just that she was out scavenging all day long, exposed to the wind and sun, which made her look a lot older.

Of course, compared to an elite school like Di Yi high school, the building here was still a little worse. After all, Di Yi high school was a private elite school. The decorations and other things could not be compared to ordinary schools.

However, the size of this place was far larger than that of the first school. There were many magnificent high-rise buildings everywhere, and the area was also much larger than the first school. An ordinary small sports field was as big as the entire sports field of the first school.

"The environment is not bad. Let's buy a house nearby." "It's not too far from school, we won't be late," Lin Yi said.

"En, you make the decision." The young miss said indifferently.

Unknowingly, Lin Yi had become the backbone of the family, and the Miss would no longer give her own suggestions.

Lin Yi stopped the car in front of a real estate agency and got off with Mengyao and Yushu, leaving granny sun in the car. As far as she was concerned, she couldn't give any suggestions anyway, so she might as well stay here.

Lin Yi found that the business was quite good after entering the agency. It was only morning, and there were already four students renting a place—two boys and two girls. They seemed to be a couple, one of which was slightly older, probably graduate students. They signed the agreement, paid, and left.

The other couple, on the other hand, were around the same age as Lin Yi and the others, and judging from their mannerisms, they were probably new students.

The agent was helping them to look for a house.

It was a girl with long hair and delicate light makeup. She had black eyebrows and big eyes, and she was very delicate and lively.

The boy beside her seemed a little shy. From his appearance, he looked a little immature, as if he was younger than the girl. He seemed to let the girl make the decisions everywhere. He stood at the side, pursing his lips and not saying anything, as if he was a little weak.

"Actually, for freshmen like you, it's the most cost-effective to rent a one bedroom apartment. It's cheap and has complete facilities. Don't look down on the house just because it's only about 20 square meters, it has a kitchen and bathroom. This is the most popular apartment among freshmen. The rent is also very cheap, only 700 to 800 Yuan a month!" The agent said.

"How are we going to stay in one room? I'd like a two bedroom apartment." The girl shook her head and interrupted the agent.

"Aren't you a couple? "What's wrong with living together ... Haven't you guys ..." The agent looked at the young couple with a strange look and stopped mid-sentence.

“Who said we’re a couple ...” The girl didn’t know whether to laugh or cry. “He’s my cousin. Although we’re relatives, he’s already so old. He can’t just stay in the same room. How inconvenient is that?”

“Uh ... I see!” The agent was stunned for a moment, then shook his head apologetically. He was the first-mover, and the men and women who rented here were basically student couples. It was rare to see a brother-sister pair like this.

Lin Yi understood now-no wonder he felt that way. So these two really were brother and sister, there was nothing wrong with the sister taking care of them.

At this time, another agent also came up to him ...

Chapter 1877: Strange behavior (1)

He looked at Lin Yi’s trio curiously as well. One man and two women? What was the relationship between them? Why did they come to rent a house today with such a strange combination?

With the previous example, he didn’t dare to recommend it casually this time. Instead, he asked directly, “Students, what kind of house do you want to rent?”

“We want to buy a house.” Lin Yi said.

Lin Yi’s words attracted the attention of the girl and the boy. The girl looked at Lin Yi with surprise and excitement in her eyes, but she quickly hid it and turned back to discuss the rental problem with the agent.

A normal person wouldn’t have noticed the strange look in the girl’s eyes, but Lin Yi’s senses were so sharp that he didn’t notice it. What puzzled him was that he didn’t know this girl. What was she trying to do?

“Ah ... Buy a house ...” The agent was also stunned. Although there were many people who came here to buy a house, most of them were teachers or staff members of the school, or parents who accompanied students to study.

“En, are there any villas nearby?” Since Lin Yi was living with Chu Mengyao and Chen Yushu, it would be better for Lin Yi to live in a separate house with Chu Mengyao and Chen Yushu, in case others found out that she was “cohabiting” with a boy.

“Villa?” The agent was slightly stunned, but when he saw the Grand Cherokee parked at the door, he thought that these three must be children from rich families. Perhaps one of the man and two women was the man’s girlfriend, and the other girl was one of their sisters.

“En, is there anything for sale around here? It’d be best if it’s well-decorated and can be used as a residence.” Lin Yi said.

“Ah, yes!” The agent was sighing at these kids who spent their parents’ money, but the thought of the High Commission they’d get from selling a villa made the agent go on drugs. He opened up his laptop and entered the search criteria, showing Lin Yi and the others all the nearby villas that matched the conditions. “They’re all here. There are three villas for sale in this area. There are more in places further away. There are more than ten villas for sale in this area.”

“What about the renovated ones?” Lin Yi nodded. He didn’t know what he’d think if he found out that the agent suspected him of spending his parents’ money. This was all money he’d taken from Jianwen!

“Yes, both of them. One is simple and the other is fully furnished. They are both in the nearby xueshang District. The layout and size are the same, but the price is different. The fully furnished one is much more expensive,” said the man. The agent said.

“Yaoyao sis, let’s take this one. That one’s too luxurious, it doesn’t suit us.” Chen Yushu pointed at the simple villa on the screen, “This one’s just nice, it’s like the one we live in Songshan.”

“Alright, Lin Yi, what do you think?” Mengyao nodded as she turned to Lin Yi.

“Then this one.” Lin Yi nodded casually, “How much is it?”

The agent heard Chen Yushu call Chu Mengyao Yaoyao sis and immediately understood that this girl must be the boy’s little sister, and this Yaoyao sis must be the boy’s girlfriend!

He was feeling proud of his success when he heard Lin Yi ask how much it was. Usually, buyers would look at it carefully before looking at the price, but Lin Yi only took a few glances and asked about the price.

“The villa’s price was 9.5 million, but the owner said it was negotiable.” The agent told him the bottom line.

“Oh ...” Lin Yi did a rough estimate of the price. This was considered cheap in a provincial city like Donghai city, but the University was in a remote area, so it was normal for the price to be lower.” Call the owner and ask him. If it’s 9 million, we’ll pay by today.”

“Ah ... Okay!” The agent blinked, not expecting Lin Yi to be this straightforward! 9.5 million was a reasonable price. In the eyes of the intermediary staff, it was not a problem to get it for 9 million. He had actually closed such a big business deal in one go!

As expected, the owner agreed after a moment of silence. Lin Yi was paying for the house with cash, so the owner was happy to be free.

“Alright, I’ve already made an appointment with the house owner. We can go and look at the house now!” The agent nodded and said.

“Okay, you lead the way, I’ll drive.” Lin Yi nodded.

Lin Yi and the others walked out the door, but the girl put down her mouse and stopped choosing. She turned to the agent, “I don’t want to rent a room anymore.”

“Ah? You’re not renting?” The agent was slightly stunned. He didn’t know how he had offended this customer, but since he didn’t want to rent it, he couldn’t force him to, right? Could it be that they were unhappy when he said that they were a couple?

“Yeah, I’ve changed my mind. We’re buying a house too.” The beautiful girl said.

“Ha? Buy?” The agent’s eyes widened. He looked at the beautiful girl who didn’t seem to be joking and finally confirmed that he didn’t hear wrong. He felt extremely strange in his heart. There were really

Strange Things Happening Every Day, but there were especially many today! The three people from before had bought a house, and this pair of siblings wanted to buy a house too!

Could it be that all the rich students had gathered together?

However, looking at the sisters, they were dressed quite simply. Although the beautiful girls were dressed very youthful, the clothes they were wearing were definitely not too expensive. As the staff of the real estate agency, he could tell at a glance.

However, if the three people who bought the house before didn't drive here, who would know that they were rich? Because they were not dressed very luxuriously, they were all very ordinary and casual clothes, and they could actually afford a villa!

"Yes. Was there another luxuriously decorated villa near the one they were looking at?" The beautiful girl asked.

"Yes ..." The agent subconsciously nodded.

"I'm taking it," The beautiful girl said.

"Ah?" The agent's eyes were wide open as he looked at the beautiful girl in front of him in disbelief. He had the urge to shout, he had gone crazy! She was just a young girl who wanted to rent a house, and now she suddenly wanted to buy a villa! Was this for real? He was still joking.

"Sir, what's wrong? I want to buy a villa, what's wrong with that?" The beautiful young girl asked with a slight frown.

"No... Nothing ... That villa ... Twelve million. It's a luxurious decoration ..." The agent asked carefully.

Chapter 1878: Strange behavior (2)

"It's a second-hand house. How can the renovation be so expensive?" " 11 million," the beautiful girl said calmly, "I'll pay by card now if possible. "

"Ah? Pay by card? You're not looking at the house?" The agent was stunned.

"There's no need to look. The villa I bought is very close to the one they bought before, right?" The beautiful girl asked.

"Yes ..." The agent nodded.

"Okay, if you can, let's go through the procedures now ..." The beautiful girl took out a bank card. It was the kind of Black Diamond card that required at least five million Yuan in savings to apply for.

Seeing this card, the last trace of doubt in the agent's heart was gone. He sighed. What's going on today?

Just now, he was envious of his colleague for selling a villa, and now he was selling another one? This was too much of a coincidence, right?

Lin Yi brought Mengyao to the villa area of the xueshang District. The environment here wasn't as elegant as the ocean view Bay Villa area in Songshan, but it was still a high-end area. Not all the buildings were villas, but the other buildings were all bungalows. It was very unique.

The student business district, as the name suggested, was a District where businessmen lived near the University town. It was also a District that was for sale to these rich people. It was very different from the district where students rented their houses. The property fees here were high, but the district was still in order. There were many parking lots, the roads were clean, and the villa area was quiet and beautiful.

And so, Chu Mengyao and Shu only needed one look to be satisfied with the environment. Lin Yi didn't say anything else and signed the contract with the owner, paying the room fee with his card and going through the transfer procedures.

With that, the villa became Lin Yi's property.

In the afternoon, Lin Yi drove Mengyao and Yushu to the supermarket to buy some daily necessities. The four of them began to clean the villa thoroughly after coming back. The villa had been empty for a long time, and it was full of dust.

However, the villa was too big. The four of them didn't stop to clean the villa for the rest of the day. The third day was the day the new students of East Ocean industry University were admitted.

Lin Yi drove the girls to East Ocean industry University early in the morning.

It was a public university, and the students were rich and poor, so driving to school wasn't a rare thing. Lin Yi's Grand Cherokee wasn't cheap, but it kept a low profile-it wasn't as eye-catching as Mercedes, BMW, or Ferrari.

After parking in the school's public parking lot, the three of them brought their acceptance letters and related identification documents to the new student registration counter.

There were a lot of parents of new students in the parking lot, and a few of them were proudly comparing their children's results with each other beside Lin Yi's car.

However, this was only temporary. In college, it would be completely different from high school and junior high.

High school and junior high school were based on results. However, in college, although results were also important, personal ability also took up a large proportion.

Finding a job wasn't just about having good grades. Personal ability and practical work were both important, especially for fourth-year students who had started looking for a job. They had a deep understanding of this. With the same academic qualifications, the hiring company wouldn't pay close attention to your results in every semester, but more attention to your personal performance in actual interviews.

Of course, this was too far away for the new students!

Those who could get into East Ocean industry University were all geniuses of their respective schools. The admission score was not low, so it was a proud thing to be able to get into this University.

Not far away, there was a new student registration information Office set up by the Student Union, guiding the new students of each major to register at their respective departments.

Lin Yi, Mengyao, and Yushu were in different majors, so he decided to go with them first before he went to the medicine major.

However, when Chu Mengyao and Chen Yushu asked where they could register for the economics Department, two boys walked over and asked with kind faces, "Two new students, are you going to the economics Department? Shall we take you there?"

There would always be some second and third-year boys waiting at the information counter every year. After all, the ratio of men to Women in Science and Engineering was off-balance, and there were even fewer beautiful girls. So when the boys saw Chu Mengyao and Chen Yushu, their eyes lit up.

But now, the two people who appeared were both from the sports department. One was called biaohan li, the president of the boxing club. The other was Zhuang niodao. Although he was not from any club, he had a mysterious background and was very skilled. Even the Presidents of the Wushu club and Taekwondo club had to give him some face. Only biaohan li could compete with him. However, it was said that it was not because of biaohan Li's skills, but because his background was similar to Zhuang niodao.

Of course, in terms of individual strength, these two were also extremely strong.

Therefore, the girls that caught their eye first, the others could only give up dejectedly. Although these two had hit on countless girls, no one dared to say anything.

Mengyao's eyes were on full alert as she looked at biaohan and Zhuang naodao.

"No, we can find it." Mengyao said.

"Haha, this school is huge. It's normal for new students to get lost. Let us take you there!" Li biaohan and Zhuang naodao had a tacit understanding. There were two pretty girls anyway, so one for each was just right and they didn't fight over it.

"I know, you want to hit on us!" Chen Yushu saw the look in their eyes and immediately guessed their thoughts. She shouted, "Shield bro, there's someone here who's trying to hit on Yaoyao sis and me!"

Lin Yi had just received the registration map for the medicine major when he saw two boys blocking Mengyao and Yushu's way. He frowned-Yushu's voice made it clear what the two were thinking.

He'd heard that there was an imbalance between men and Women in Science and Engineering, but these two didn't have to be this worried, did they?

Yushu said gleefully as she saw Lin Yi walking over. "We have people to escort us, we don't need you!"

Li biaohan and Zhuang naodao frowned-they didn't think that these two girls were already taken, but they weren't willing to give up on Lin Yi alone.

"Which one of these two is your girlfriend?" Zhuang naodao asked, not willing to give up. Although he was a domineering person, he couldn't do such a thing in public. However, it didn't matter if he did it behind his back. At least he had to look okay for now.

So, if Lin Yi took one, there would be one left. As for who could take it down, it was up to him and Li biaoan's ability.

Chapter 1879: experts meet

Lin Yi looked at the guy and frowned. Since when were there so many masters? As expected of a big city, running into a golden class master in school!

Of course, Lin Yi didn't want to cause any trouble on his first day of school. He looked at the two and didn't say anything as he left with the girls.

"I say, little brother, which one of you is your girlfriend? You're not thinking of protecting two, are you?" Li biaoan saw that Lin Yi wasn't talking and blocked his way.

"That's right." Lin Yi nodded, confirming Li biaoan's words.

"Kid, are you new here? One person wanted to occupy two resources? "Be quick, who's your girlfriend? I won't make things difficult for you if you take her away, otherwise ..." A trace of hostility flashed in Li biaoan's eyes.

He couldn't do this to normal new students, but Chu Mengyao and Chen Yushu were too pretty. They had the potential to become the new school beauties. How could Li biaoan let them go? This was a hundred times better than those ordinary women.

"None of them." Lin Yi looked at him faintly, "I'm a bodyguard."

"What?" Li biaoan was stunned. Bodyguard? What did that mean? These two even brought bodyguards to school?

Zhuang naodao was stunned as well, not knowing what to say. This was the first time he had encountered such a situation.

Lin Yi, on the other hand, had already left with Mengyao and Yushu, leaving the two of them alone.

"This kid must be lying. I saw him take out the admission Notice just now. He must be a newcomer who came here to report!" After a long while, Li biaoan finally reacted and realized that something was wrong.

"It's okay. These two girls will be on the list of campus beauties soon. It'll be easy to find out about that kid. When the time comes, I'll get them out and teach him a lesson. I'll let him know what kind of strength he has to be a bodyguard!" Zhuang naodao sneered.

However, just as the two of them were standing in the middle of the road and discussing, they suddenly heard a rapid car horn!

Li biaoan and Zhuang naodao were stunned. In the school, other than the teachers and leaders, which student would dare to honk in front of them?

However, when he turned around, he found that it was a Ferrari convertible sports car. The driver was a bald young man, and beside him was a yellow-haired young man. In the back seat was a purple-haired young man.

“What are you looking at? Are you looking for death? Stand in the middle of the road!” The yellow-haired guy looked at li biaoan and Zhuang naodao and shouted.

Li biaoan and Zhuang naodao were pissed off-they were overbearing, but they didn't dare do anything to Lin Yi in public. After all, Lin Yi didn't do anything to them, and it'd be a bit unreasonable if they hit him.

But for this kind of public provocation, li biaoan and Zhuang naodao naturally wouldn't be used to it. They were ready to vent their anger on the three new students who drove the Ferrari!

Although the three newbies were dressed like gangsters, one bald and two with dyed hair, they were a piece of cake for li biaoan and Zhuang naodao!

Li biaoan was a golden class late phase peak, whereas Zhuang naodao was a Mystic early phase peak. They could be said to be fearless as they walked over.

“Young master you, these two people also seem to be martial artists!” The yellow-haired guy looked at the way li biaoan and Zhuang naodao were walking and frowned.

“You go and deal with the two of them. Damn it, we've met two idiots in the way on the first day of school!” Young master you was naturally the you family's you Panhu. He was also a freshman at East Ocean industry University. Of course, he didn't get in through a formal examination, but a self-funded student.

“Yes!” The yellow-haired guy started his practitioner's Arts as soon as he got off the car, showing off his Mystic early phase strength.

Li biaoan and Zhuang naodao's faces changed-they didn't think that this gangster-looking yellow-haired guy was a Mystic early phase!

However, Zhuang naodao wasn't afraid. He was a physical master at the peak of the early stage of Mystic class. Although spiritual masters were always a bit stronger than physical Masters of the same level, this yellow-haired guy was one level lower than him. He also had li biaoan's assistant, so his chances of winning were still very high.

“Heh, I didn't think it'd be Mystic early phase!” Zhuang naodao waved his hand indifferently, his Qi surging as he revealed his Mystic early phase peak physical strength.

The yellow-haired guy was also surprised-he didn't think that reporting to young master you would get him a Mystic class master!

Right-hand Panhu's expression also changed slightly. He gave a look to purple hair, who was behind the carriage, and said,“”You go down and ask about the other party's background!”

It was impossible for a Mystic to be a master without some background, especially one this young!

If it was an expert in his forties or fifties, right Panhu wouldn't have cared. At most, he would be a foodie or a branch disciple of a certain family. He wouldn't be a core disciple, so it didn't matter if he offended him. However, since the person in front of him was a college student and had such strength, he was afraid that he was a core disciple of a certain family.

Purple hair nodded. When he got out of the car, he started his practitioner's Arts, showing off his strength as a Mystic mid phase. Zhuang naodao and Li biaoan's expressions became extremely serious and ugly!

If it was the yellow-haired guy himself, they might have a chance of winning, but now there was a Mystic mid phase purple-haired guy. Even two Zhuang naodao wouldn't be able to beat him, let alone Li biaoan who was only golden class late phase peak!

"Young master you asked me to ask you two, which family are you from? Don't let the flood wash over the Dragon King's temple!" The purple-haired man said indifferently.

Normally, the two wouldn't mind joining forces to teach these two a lesson, but now, all the conflicts were focused on Lin Yi. Thirteenth of the right was burned to death by Lin Yi, and this news shocked the whole house!

Old man you was shocked and angry. He wanted to take revenge, but thinking about how Zhao Guang'er, who was only earth Class late phase, had just died for nothing, he didn't dare to touch Lin Yi!

The spokesperson in the secular world, house Kang, had also suffered such a huge blow. Golden creation medicine was unsalvageable, and many of its drugs were seized. They were facing bankruptcy at any time, which made it impossible for the you family to divert their attention to deal with other enemies.

Therefore, at this time, as a core disciple of the you family, you Panhu naturally tried not to cause trouble as much as possible. Otherwise, with you Panhu's character, how could he still pamper the two in front of him?

"Young master you? Could it be the young master you of the hidden you family?" Zhuang naodao paused, remembering one of the hidden houses that was on the same level as house Yu.

Only the Hidden House you would have two Mystic class Masters as bodyguards, right?

"That's right, it's the you family's second young master, you Panhu!" The purple-haired man nodded and his expression became serious. He no longer had the arrogance from before as he cupped his fists and said. (To be continued.)

Chapter 1880: An unpopular major

Because of purple haired listening to bird blade's words, he knew that he was someone who knew about the Hidden House. If he was an ordinary person, he wouldn't know so much and immediately thought of the Hidden House you.

"I'm hidden house Zhuang's Zhuang naodao ..." Zhuang naodao also cupped his fists. He was the young master of the Hidden House Zhuang, but because he wasn't talented enough, the house didn't even let him participate in the test. They'd sent his two brothers Zhuang niaoqiang and Zhuang niaopao.

However, his two younger brothers were talented in cultivation and had no interest in managing the Zhuang family's business. The position of the Zhuang family's future head would definitely fall on Zhuang naodao, so he was now studying management at Donghai Engineering University.

Logically speaking, he was the young master of the Zhuang family, the future head of the Zhuang family. In front of you Panhu, the second young master of the you family, he didn't need to address himself as "lowly." He could even act a little arrogantly. However, Zhuang naodao had his own thoughts.

After he took over as the head of the Zhuang family, his connections would be the most important.

House Zhuang was a hidden house, but they weren't strong. Compared to house you and house Yu, they were nothing. Plus, house Zhuang didn't have their own practitioner's Arts. They were both internal and external, so their overall strength was very weak.

But the you family was different. The second young master of the you family actually had two Mystic class bodyguards. How impressive was this? As for building a good relationship with the young master of the you family, Zhuang naodao didn't even dare to think about it.

Therefore, it was precisely because of these reasons that he addressed himself as 'this one'!

"Li biaoan of the firewolves." Li biaoan also cupped his fists. Although Li biaoan was only a golden class master, he was the eyes and ears of the Firewolf gang in the vicinity of East Ocean University City. He was a small leader, so with the Firewolf gang as a Tiger's skin, he didn't have any intention of pleasing the two masters of the you family.

The Firewolf gang was different from house Zhuang. They didn't need to curry favor with the hidden houses.

Purple hair and yellow hair's faces changed slightly. They didn't expect the man in front of them to be from the Firewolf gang. Although the you family was powerful, they didn't have the power to fight against the Firewolf gang. Of course, if they mentioned the sky elixir sect, the you family wasn't weak either.

When you Panhu heard that one of them was the eldest son of the Hidden House Zhuang and the other was from the fire Wolf Gang, he couldn't sit still and got out of the car with a smile.

"So it's brother Li from the Firewolf gang and the eldest son of the Hidden House Zhuang, brother Zhuang!" You Panhu also cupped his fists and said, "I've long heard of the Firewolf gang's might. Brother Li is indeed a man of striking appearance! I've heard of the Zhuang brothers, and I've finally met them today!"

"Haha, what happened before was all a misunderstanding. We're all brothers. In the future, we'll help each other out!" Looking at right-hand coiled Tiger's posture, Birdman saber was also very satisfied. It seemed that they would be able to play with this right-hand coiled Tiger in the future.

"The firewolves have business with house you and the sky elixir sect. We're all family. Brother you, you're too polite!" Li biaoan was also very happy with right coiling Tiger's respect and returned the salute with cupped fists.

"Since we've met, then this little brother will treat you. Big Brothers, find a hotel and we'll drink until we're drunk!" Zhuang naodao wanted to build connections for him, but right Panhu did the same. If he wanted to have more power in the you family, he had to have his own power.

As the saying went, "when gods fight, the little devil suffers." So when these few people faced each other, the other students who knew about Li Biaohan and Zhuang Niodao's fame all stayed far away. Even the new students who didn't know about them also took a detour after being dissuaded by the older students.

Therefore, no one else heard what these people were saying. From afar, they saw that these people were about to fight, but they left while talking and laughing, making the onlookers very puzzled.

Lin Yi brought Mengyao and Yushu to the economics Department to complete the procedures and pay the fees with his card. He then brought them to the dormitory, but was stopped by the old lady at the door.

"Hey, that boy over there. Stop. Don't you see what's written here?" The old lady waved her hand, stopping Lin Yi from moving forward.

Lin Yi raised his head and saw a sign at the entrance of the girls "dormitory." "Non-women are prohibited from entering."

"Uh ..." Lin Yi didn't notice it before, but he saw on the forum that the female dormitory didn't allow boys in, so he wasn't surprised.

Moreover, the sentence "non-female is not allowed" also had a story behind it. It was said that the previous sign was "male is not allowed to enter", but now it was replaced with the current sign. One explanation was that a male wanted to enter, but he told the old lady at the door that he was not a male, but a transvestite. Another theory was that a girl kept a pet in her dormitory, so the school changed it to "non-women are not allowed to enter", and all creatures other than women were not allowed to enter.

However, it was said that there were girls who wanted to take advantage of the situation with their 'female' pets ...

Of course, that was just a rumor—he'd treated it as a joke when he told Mengyao and Yushu.

"Then I'll send you guys off here. Call me if you need anything." Lin Yi said to Mengyao.

Lin Yi could sneak in through other channels if they didn't let him in, but there was no need for that.

"Alright, bye shield bro!" Chen Yushu waved her hand at Lin Yi.

Mengyao nodded and went upstairs with Yushu.

After sending the two off, Lin Yi walked towards the "biology" class.

The biology Department was the same as the other departments. In front of the main teaching building, there were many tables and chairs in order. The names of the various specializations were written on them. Some specializations had long lines, while some specializations only had a dozen or twenty people.

When Lin Yi found his "medicine" class, he was sad to find that there wasn't a single new student at the table!

This major wouldn't be so unpopular, right?

Lin Yi shook his head helplessly as he looked at the receptionist, who was sitting on a chair with nothing better to do.

"May I ask if this is the report office for the medical profession?" Lin Yi asked.

"Argh! I've finally seen someone!" The boy stood up excitedly. "Junior, are you here to report to the medicine Department?"

"..." Lin Yi was speechless. Why was this guy so excited when he was here? He finally saw a person. Were the people around him not human? Or was it that his eyes had reached the legendary level of big eyes leaking spirit, and he simply couldn't see clearly beyond three meters?

"Hurry up and tell me, is it true!" The boy looked at Lin Yi nervously and asked loudly.

"That's right ... I am ... But ..." Lin Yi didn't even finish when the notification was snatched away from his hand.
