

## BOOT CAMP 1531

### Chapter 1531: Hard Work

The teachers fell silent.

After that, an instructor in charge of the physical fitness team smiled and sighed, “The cadets have three nightmares, personal organization, teamwork, and physical fitness. Every freshman will be tortured for at least two months. From the looks of it, Ye Jian is no different from a veteran.”

“Let’s talk about folding the blankets. The new students fold the blankets into squarish blocks resembling tofu<sup>1</sup>. The edges and corners must be clean and sharp. On Ye Jian’s first day of school, during the internal inspection, she was the only one who met the standards among all the students in the class.”

“The Internal Affairs Division was very surprised, so they took the tape measure. The bed was 65 centimeters in length and width, 15 centimeters in height, not more than one millimeter, not less. It’s just the right number. It’s flat to the point that, in her classmate’s words, even a drop of water can slide down.”

The new blanket was brand new and smelled like a warehouse. It was soft and smooth to the touch. It was comfortable. However, it was difficult to fold the new blanket into the standard piece of the tofu method!

Everyone in the conference room knew that every year when new students entered the school, the first problem they had to overcome was ‘folding blankets.’ Even if their families had enlisted or their parents were soldiers, they had to experience it.

Some of them were folded properly after a few days. However, it was rare to see someone like Ye Jian who folded the blankets properly the moment she entered school. Even if there were some, they were mostly boys.

“Although Ye Jian is a new student, she is a role model in her way of carrying herself and doing teamwork. During normal training, if I’m not around, she can become an assistant instructor. Her movements are up to standard. Since the military has already made arrangements, I believe that she won’t have any problems with the physical fitness exam.”

The instructor in charge of physical fitness was no longer worried. The teacher in charge of teaching said, “Student Ye Jian has always been working hard. As long as she has the time, she will study hard even if it’s only for half an hour.”

“I observed her studies for half a month and saw her study plan. During the summer break, the school woke up at 5:30 AM. She woke up at 4:50 AM and studied for half an hour. During the winter break, the school woke up at 6:00 AM. She woke up at 5:00 AM and studied for an hour.”

“It’s like this every day. She’s never fallen behind. She doesn’t rest during the week. She often appears in the school library and the public computer room. While her waking hours and sleeping hours are the same as usual.”

She was talented, smart, and hardworking. Her results in all aspects were in the upper echelons of her grade, but she never relaxed.

Her perseverance never changed.

A student like her would have a bright future even before she graduated.

As expected, she chose to secretly protect the leaders of the country to participate in the celebration. The teachers in the conference room didn’t have the chance to accompany the leaders of the country.

Smart, hardworking, and knowledgeable. The teacher smiled. This kind of student was rare.

After discussion, there were no more questions. The issue of Ye Jian leaving school in the middle of December was settled.

Ye Jian didn’t know that the principal specially organized a meeting at the school regarding her leaving school for training. Ever since the major general told her that she would be leaving the school for about a month, the study plan she arranged became more compact.

It was so tight that it was hard for the girls in the same dormitory to see her.

### **Chapter 1532: So Ruthless**

There were only three girls in the class. The entire class would know if anyone made any movements. Ye Jian was one of the top students, so the entire class would know if she acted unusually.

The first-year training mission was more important than studying, so every student had to take time to rest after a day of training. Some students with low physical stamina who had not adapted to the high load training would fall asleep in class.

Under such circumstances, as a girl, Ye Jian was able to study every day. She listened attentively in class and never dozed off. From September to October, she had conquered the entire class.

Now, she even started her night shift!

Last night, all the students participated in the five-kilometer run. After the run, all the students collapsed from exhaustion. At 7:00 PM, they returned to the school and dragged their legs into the dormitory. They didn’t have the energy to shower and laid on the bed to rest.

However, Ye Jian didn’t. After showering, she greeted He Jing and Xu Wen before entering the library to study.

After she finished running five kilometers in the morning, she could still study until midnight. The next morning, He Jing placed her hand on her forehead and said to the boys in her class, "She has a strong will. We can't catch up with her."

"It's been hard on you and Xu Wen." The boy, Qian Yanjun, looked at her with 'heartache.' He felt sorry for her. "Living with her is extraordinarily stressful."

The scariest thing wasn't that someone was better than you, but that someone was more hardworking than you.

He Jing nodded heavily and grabbed the books on the desk. She gritted her teeth and said, "I want to work hard. I want to look at Ye Jian every day and encourage myself!" As a cadet with great ambitions, how could she lose to her?

"If you girls are so ruthless, how can we boys bear with it?" Qian Yanjun grabbed the books on his desk and widened his eyes as he digested the professional knowledge he had learned.

After watching for less than five minutes, Qian Yanjun couldn't help but squint his eyes. He was so tired and sleepy. He wanted to lie on the table and sleep for a while.

It was too difficult. He hadn't recovered from the five-kilometer run last night. Today, he went out of bed early in the morning, so he just wanted to have a good sleep.

A few minutes ago, he said that he wanted to work hard. Now, Qian Yanjun turned his head and glanced at He Jing. Damn it. She was already sleeping on the table!

The 45 students in the class were all top students in the past. However, when they entered the military school that was more complicated than their studies, their physical stamina was exhausted. It was difficult for them to learn and train simultaneously.

He Jing and Qian Yanjun were the epitome of the entire class. The high-intensity training every day made it difficult for these top students to have the energy to study.

Also, if your military, personal organization, and teamwork were not good enough in the military school, the negative effects would often be greater than their lack of learning. Thus, even if the students knew that they were not good at studying, they were not anxious.

After all, no one would find trouble with them as long as they didn't fail or take any additional exams.

Over time, the focus would naturally lean towards aspects like military affairs, personal organization, teamwork, and stamina.

However, Ye Jian didn't. She listened attentively in class and took notes. After the training ended, she combined her studies with her rest. She turned her studies into rest and rest into her studies. She never missed any lessons.

She always knew what her dream was and always fought to realize her dream. Her hard work today was all for the sake of becoming an outstanding Special Forces soldier like Xia Jinyuan in the future.

So what if it was harder now?

### **Chapter 1533: How Many Streets Did She Shake?**

She had never been lost or disheartened. She maintained her initial resolution and moved forward steadily. This was Ye Jian, a simple but extraordinary girl.

October passed and it was November. The city where the Chinese Academy of Sciences was located became cold. The students wore their winter uniforms and their outerwear. They walked around the campus with a natural aura. Just looking at their backs made them look extremely handsome.

The camphor leaves in the school were falling one by one. One night, they could cover a thick layer.

Ye Jian and Song Zhiqiu came out of the library. As they walked, they discussed a professional topic. At this moment, Ye Jian felt a little fortunate that she listened to Xia Jinyuan's suggestion when she chose the profession. She gave up on the technical aspect and chose the command aspect.

Command specialization focused on military training while technical specialization focused on cultural knowledge. It looked like the technical specialization was relatively easy, but it was not.

The technical profession not only had the same physical training but also a lot of studies. In the second half of the second year, the laboratories, classrooms, and training grounds had to be arranged at the same time.

This was because the Chinese Academy of Sciences was famous for its technical expertise. The school emphasized this aspect.

As a result, technical specialization students were often much more hardworking than the command specialization students. As a result, it was difficult for them to learn and train simultaneously.

The Chinese Academy of Sciences was one of the top military schools. They groomed countless missile researchers, scientists, technologists, and new command officers. It was indeed a wise move for Ye Jian to avoid technology.

After all, she couldn't enter the laboratory with a military rank. Instead, she wants to go to the frontline to become a Special Forces soldier.

Ye Jian was going for infantry joint training. Joint meant two degrees—engineering and military.

In the first two years after enrollment, they received a unified education and basic military training. In the second semester, they would choose a 'training' specialization based on the requirements of the soldiers.

Ye Jian chose 'Command Automated Engineering.' There were eight main courses. Similarly, it was Xia Jinyuan's suggestion.

Her personal ability had reached the standard, but she remained green with her technological skills. The 'Command Automated Engineering' specialization required professionalism. The 'Military Operations

Research' and 'Information Obtainment Technology' courses would be very helpful to Ye Jian in the future.

Based on Ye Jian's capabilities, Xia Jinyuan carefully studied and analyzed her options. He discussed this with the major general several times before suggesting Ye Jian to choose the 'Command Automated Engineering.'

Ye Jian needed a lot of time to complete it. However, it was still less than the technical profession.

Song Zhiqiu also wanted to specialize in Command Automated Engineering. After knowing that Ye Jian was like him, the two of them went to the library together many times. The topics they talked about were always professional.

Today was Saturday. It had been raining for more than ten days. It wasn't heavy, but it never stopped.

For the first time, the school didn't arrange any training classes. They even gave every class some quota that allowed students to book out.

After the class leader, Song Zhiqiu, announced this piece of good news last night, he had less than a minute of "sales" before the book-out slips in his hands were snatched up. The speed was faster than eating fast food after the long training!

She was still blinking and considering what she could do with the book-out slip when the ten slips were snatched up.

From this, it could be seen how popular the book-out slips were. It was hard to get one. Sometimes, there wasn't even one slip per class.

Chapter 1534: Let's Go and Fight

Ye Jian and Song Zhiqiu were talking about how many things they would bring back when they went out. Their classmate, Liu Yang, walked over hurriedly. When he saw Ye Jian, his eyes lit up. If he wasn't afraid that an officer would appear, he would have run over.

He quickened his pace and rushed over. Sweating profusely, he lowered his voice and said to Ye Jian, "Something happened outside. Xu Wen accidentally dropped the ice cream in her hand on a young man's jacket. Xu Wen hurriedly apologized but got harassed."

"Xu Wen was frightened. Ge Jinglin and the rest came out of the supermarket together and saw a few gangsters dragging Xu Wen towards a Santana sedan."

After that, when the hot-blooded male student saw that his classmate was being harassed, he suppressed his anger and rushed forward to pull Xu Wen back. However, he didn't know that the gangster wouldn't give up and started fighting.

"Ge Jinglin and the rest are wearing their winter uniforms inside and wearing large jackets outside. They didn't dare to hit them too hard because they were afraid that the military uniforms inside would be exposed. Who knew that the other party thought that they were scared and chased them all the way. Now they are stuck in No. 49 Alley. They are wondering if they should give it their all."

Ye Jian's expression turned cold. "There are ten people in total. Xu Wen, He Jing, two girls, and eight boys. Are they all together?"

"That's right. If the ten of us fight together, we still have a chance of winning. It's just that we're separated, so we're wondering if we should give it a try." Liu Yang said anxiously, "If we are attacked, we should retaliate. However, when the other party comes to the school, we will be the ones at a disadvantage."

Xu Wen was teased and almost dragged into the car by a gangster. If she really wanted to retaliate, she was able to defend herself.

The problem now was that there were not enough people!

Song Zhiqiu immediately said, "We can't alert the school. Let's go out and take a look first." After he finished speaking, he sized up Ye Jian. Suddenly, he said with interest, "My cousin said that you're very good at fighting. You defeated ten people easily."

"As your classmate, I wonder if I will be honored to see your valiant and heroic figure today."

The top students would never say this in the past. Fighting was a distant thing for them.

In their twelve years of education, only bad students would fight. The top students were always obedient.

It looked like the military school was the same as the military. It was a place that could stimulate the bloodlust of anyone.

The environment changed. The daily training stimulated the competitive instinct in the young people. Normally, there were strict rules that prevented them from crossing the minefield. However, once there was an explosive point, the bookworms would turn into beasts, and the hands holding the pen would become fists.

Although Xu Wen could use violence, her rationality was still there. She knew that the four of them wouldn't be able to win. She could only ask her classmates for help.

And the person to ask for help couldn't be anyone else. It had to be Ye Jian.

That was because only when Ye Jian went to look for the instructor could they get the exit registration.

Liu Yang was stunned. When Ye Jian and Song Zhiqiu walked towards the teacher's office, he caught up with them. "Comrades, are you going to fight together?"

"That won't do. If the school finds out, they will all be punished. Calm down, calm down. We must calm down. We can report the actual situation to the teachers and let the teachers handle it. Isn't that better?"

A typical good student solution.

## Chapter 1535: The Art of Talking

Song Zhiqiu patted this good student's shoulder. "Comrade, we have been in school for more than 40 days. Don't you feel suffocated? Don't you need to vent your anger outside? Now, we have a good reason for us to vent. Can you bear to reject us?"

That's right! The three of them should go to fetch their comrades. If the other party didn't let them go and forced them to defend themselves, they wouldn't be able to do anything. The reason was fair!

Moreover, they were so bold that they dragged the female cadet into the car. Their motive was obviously not pure. They even dared to snatch her in front of so many people. Their nature was extremely evil!

They were forced to take action to protect their comrades. How could the school punish them?

Liu Yang's interest was piqued. He even suggested bringing a few more students over.

"There are already ten people outside. Including the three of us, that's enough. If we call a few more people over, it will be a gang fight. Our reason will fundamentally change." Song Zhiqiu explained. It could be seen that this was a brave and scheming student who had fought many times in the past. He was a good student who knew how to protect himself.

Liu Yang learned something. Although they were still fighting, the school would know that they wanted to settle things peacefully.

With Ye Jian in charge, the instructor only asked a few simple questions about the reason for going out. Ye Jian didn't hide anything and told him everything. Then, the instructor passed the three book-out slips to Ye Jian and said, "If there's anything, solve it outside. Don't leave any traces behind."

How arrogant. They actually dared to drag a female cadet into a car. If they didn't show some toughness and let these young people know the consequences, they would think that they were very capable and could walk around freely.

Liu Yang's eyes almost popped out when he saw the three bars that he could never get his hands on normally.

Damn!

So simple!

"This is called the art of talking. You can grasp the main point. Learn more in the future." Song Zhiqiu had learned his lesson too. Ye Jian grabbed the main point first and used a serious expression and tone to talk about the matter first. Then, she changed into an anxious and uncertain tone to express her intention. At the same time, she didn't forget to tell the instructor that she would settle the matter properly.

Ye Jian was smart. Even her words were filled with wisdom.

The three of them could leave the school immediately after they received the leave application. However, to prevent their identities from being exposed, they returned to the dormitory at the fastest speed and changed into casual clothes. Five minutes later, they left the school together.

Four Nine Alley was the famous street food in the city. In the past, there were many exits. However, this October, the city was renovated. No. 49 Alley was listed as an important renovation project. The street food carts stopped operating temporarily. There was only one entrance and exit.

Ge Jinglin, Xu Wen, and the other students, who were not familiar with the city, didn't go out often. They rushed in and realized that this path was blocked!

"Damn it, search carefully! I don't believe that they can still run!" A few gangsters walked over with steel pipes in their hands and shouted arrogantly outside the construction frame.

Ge Jinglin calculated the number of people on the other side and his expression turned a little bad. When he couldn't hear any footsteps, he whispered, "Twenty-three. We only have four now. We have no chance of winning. We can only wait for Ye Jian and the rest to come."

They were outnumbered. They could only hide and wait for reinforcements.

Fortunately, they had found a hiding place. If not, they would have to fight when they met them. Ge Jinglin felt his teeth hurting just thinking about facing the steel pipe in their hands bare-handed. He might break some bones.

### **Chapter 1536: Can't Beat Them to Death**

At this moment, they couldn't sneak out anymore. They especially chose a route and ran into No. 49 Alley. They thought that they would be able to get rid of those gangsters very quickly. Who knew that they weren't able to.

Fortunately, there was a construction site there. Wu Bingcheng entered the office and called the school. If not, he wouldn't be able to rush back to school on time.

There were only five hours before they went out. More than three hours had passed!

Xu Wen looked at the time and felt a little anxious. "What should we do? It's almost time to go back to school. Will we be late?" Although Xu Wen had a father who joined the military, she had always been carefully taken care of by her family. Although she wasn't arrogant, she was a delicate lady.

Her father forced her to enter the military school because he wanted to get rid of her delicateness.

The family environment was not bad. From a young age, she received a good education. From kindergarten to high school, she went to a famous school in the capital city. Although her classmates had conflicts and fought, Xu Wen had never done it. She had never encountered such a situation before.

If her male classmates didn't appear in time, Xu Wen might have been dragged into that car.

Thinking back to what happened just now, Xu Wen's calves were still trembling a little. However, if it were in the past, she would have cried loudly in fright instead of calmly wondering if her classmates would be late.

However, Wu Bingcheng shook his head. "No. I asked Liu Yang to call Ye Jian out because I know she has a sense of time. She won't be late. Don't worry about this."

"Soldier, guard your back. Don't get ambushed." He reminded another male student, Soldier Yuan.

His words made the other three people heave a sigh of relief. That was true. Ye Jian would watch the time and not be late.

They didn't know how many people she would bring out. She could bring five people out since ten people might not be possible. There were 45 people in the class, and ten people had already gone out. If another ten people came out, almost half of the students would come out. It was impossible.

Five, there should be five.

But before Ye Jian came, the four of them had to hide carefully!

They had been military school students for a few months and more or less knew some small tactics. The four of them arranged for Ge Jinglin and Wu Bincheng to keep a close eye on the front while Yuan Dabing kept a close eye on the back. As for Xu Wen, he let her have a good rest for the time being. Just now, when he pulled her back from the hands of the gangsters, her face was pale. It could be seen that she was badly frightened.

Outside, more than twenty gangsters were purposely knocking on the alley with steel pipes. They kept on talking arrogantly.

They knew that the person was in No. 49 Alley. Although they couldn't find her now, they would definitely find her. The entrance was blocked. Let's see how long they could hide!

They dared to embarrass them, so they would be beaten to death!

Fighting was a common occurrence for them. It was a huge matter that they lost face in front of their brothers today. If they didn't take revenge, how were they going to survive?

Fighting was their favorite method too. However, they were all cowards and didn't dare to fight alone. They loved to call a group of people. They thought that they were aggressive and impressive.

To put it bluntly, it was all for their face.

Ge Jinglin and the rest pulled Xu Wen along and ran away. This made the hooligans think that they were easy to bully. If they were slapped in the face by someone easy to bully, they would be even more embarrassed!

If you don't get your pride back, you can't raise your head!

Chapter 1537: Killing Everyone Alone

Face was more important to the gangsters than their lives.

No. 49 Alley was not far from the school. They could reach it by bus at six stops.

Ye Jian, Song Zhiqiu, and Liu Yang got off the bus and rushed to the place that Wu Bincheng mentioned.

The three of them jogged. They were afraid that their classmates would suffer if they were late.

There was a steel pipe construction frame at the entrance. A few workers wearing construction helmets were squatting and smoking while chatting.

They didn't care about the sounds coming from inside. It was normal for the construction site to have these sounds.

They walked past them and weren't stopped. However, she raised her head and looked at them.

Although No. 49 Alley had been renovated, some residents still hadn't moved out in time. The construction team couldn't wait that long. As they worked, they waited for the residents inside to move out. It was normal for people to enter and leave.

However, many unfamiliar faces were entering and exiting today.

The workers continued resting and chatting as they watched Ye Jian and the other two enter the alley.

After entering the alley, Ye Jian saw six young men holding steel pipes in their hands. They were standing crookedly. Ye Jian squinted slightly.

No wonder Ge Jinglin and the other three needed to hide. The other party had a weapon. If they fought, they would be at a disadvantage.

"They still have steel pipes in their hands!" Liu Yang muttered softly. He was a step slower than Ye Jian and walked behind her. "Ye Jian, walk in the middle. Don't panic. I saw many wooden planks just now. Let's take one to protect ourselves later."

Song Zhiqiu turned his head and looked at Liu Yang. He unintentionally saw Ye Jian raising her right hand and gently touching her left wrist. Vaguely, he seemed to see thin silver accessories wrapped around her hand.

Without thinking too much, she said to Liu Yang, "Don't be too nervous. Let's find everyone first."

"I, I, I... I'm not nervous. Ye Jian is a girl. It's only right for a boy to protect a girl." Liu Yang swallowed his saliva with difficulty. His expression was tense too. She could tell that he was nervous.

It felt a little weird to be protected by a boy.

Besides her comrades protecting each other on the battlefield, Ye Jian had never been protected by a boy before.

It was the first lesson of the new school term. After the teacher came in, he wrote the word 'comrade' on the blackboard. Then, he directly asked the new students to stand up and understand and explain what 'comrade' was.

After everyone explained, the teacher wrote a line on the blackboard, "The person who can carry you back from the dead is your comrade." This sentence stunned all the students.

If you can leave danger to yourself, your comrades will be the ones who can bring you peace.

You are me, and I am you. They trust each other, rely on each other, and protect each other. In the first lesson of school, they took a lesson that directly hit their hearts.

Liu Yang was nervous, but he subconsciously knew how to protect his comrades. This was the camaraderie they built.

"Let's settle this peacefully first. If it really doesn't work, we can settle it with violence." Ye Jian didn't let him go last. The three of them walked side by side again. "In my opinion, these people are just paper tigers. If they really attack, they will be more cowardly than the other."

That year, Luo Ran brought a bunch of gangsters with him. Brother Huang was fierce too. In the end, he got frightened and begged for mercy.

Cowards usually participate in gang fights.. Why would a bold person ask someone for help? They would kill everyone single-handedly.

### **Chapter 1538: People From Two Worlds**

Liu Yang was a little nervous at first, but he found it funny after hearing what she said. He looked at those people wearing tight pants of all colors and had their legs wrapped like bamboo poles. He couldn't help but laugh. "All of them are so skinny. I feel that I can beat two of them alone."

He was someone with a bit of muscle in his abdomen!

"Don't be so sure. Don't let Ye Jian protect you when the time comes." Song Zhiqiu teased Liu Yang in a low voice and said half-jokingly, "Later, we just need to protect ourselves. Don't drag Ye Jian down."

When his cousin said that she could fight ten enemies at once, he didn't suspect anything.

After looking at her calm expression, her gaze revealed a hint of disdain. She didn't put these people in her eyes at all....It could be seen that she was very confident.

Ye Jian smiled and asked him, "How many can you fight? Three?"

"Three is enough. Five won't do." Song Zhiqiu put his arm around Liu Yang's shoulder and smiled. "We should have a chance of winning."

The smile on Ye Jian's face got deeper. "You will deal with three while Liu Yang will deal with one. If Ge Jinglin and the rest appear, there is a high chance of winning."

Before they started fighting, they had to prioritize their mission. This was called planning a battle.

The six young men were holding a steel pipe and talking.

When they saw someone walking in, they couldn't help but raise their heads and look over. Their gazes were fierce as they stared at... Ye Jian, who was walking in the middle.

"Thank you." Ye Jian stood in front of them with a faint smile on her face.

A young man in the middle stared at Ye Jian in a perverted manner. He spat out what he was chewing and walked over with a smile. "Where are you going, pretty lady? Do you want us to send you there?"

She really wanted to beat someone up!

Liu Yang and Song Zhiqiu took a step forward at the same time and stared at the young man who spoke. Song Zhiqiu said in his native language, "Excuse me, thank you."

Someone shouted from inside, "F\*\* k, did you guys guard the entrance? Did anyone come out?"

"No, we are all guarding!" The young man who blocked Ye Jian and the other two shouted. The moment he opened his mouth, the smell of Areca was so strong it made people nauseous. "Brother Hui, there's another beauty outside. Do you want to come out and take a look?"

"Looks like Brother Hui and his friends are really lucky today! Brother Hui, do you want to take a look? We'll let our brothers search inside. As long as they don't run out, we'll definitely find them!"

"F\*\* k, don't tell me that there's nothing. Find those who don't respect me first! They must not have escaped. Look carefully. Find the rooms that are not locked. F\*\* k, if you find them, beat them up, but don't kill them!"

Not many residents came in and out. The young people inside were getting more and more arrogant. They had the arrogance of a big father.

He was none other than the gangster Xu Wen had accidentally dropped her ice cream on. He was tall and burly with a crew cut. He wore five to six ear studs on one ear and a string of silver accessories around his neck. He was chewing on some betel nuts and walked around energetically as if he had lice on his body.

The other twenty or so young people were all dressed similarly. They wore silver accessories around their necks. Some wore black jackets while others wore denim. Their pants were either loose jeans or tights. There was a silver chain around their belts. Their attire, dressing, and speaking were completely different from Ye Jian and the rest.

Chapter 1539: A Countermeasure

The young man who was blocking Ye Jian from outside laughed when he heard the voice. "Hui, don't regret it if you don't come out. I will snatch the beauty away." Even his smile was irritating.

Liu Yang and Song Zhiqiu's expressions darkened.

“We’re going in to look for our friends. Please make way for us.” Ye Jian didn’t look angry at all. She had a faint smile on her face. She looked like a lotus flower blooming in the summer. As she smiled, the flower petals stacked on top of each other, making people want to take them off.

The young man was stunned when he saw her.. This was a natural beauty!

He revealed a drooling expression and stared at Ye Jian intently. He smiled cheekily and said, “Beauty, don’t be so heartless. There’s no hurry to find your friends. Accompany us to chat first.”

“I’m sorry. I want to look for my friends,” repeated Ye Jian. There was no change in her expression or words. However, her eyes had turned cold.

The young man moved recklessly closer to Ye Jian. “Why don’t we accompany you to find your friends? After the pretty lady finds her friends, you can play with us. The pretty lady will definitely agree to this arrangement.”

“Beauty, Brother Cheng wants to play with you because he thinks highly of you. Don’t be ungrateful!”

“That’s right. You have to be tactful. It’s your honor that Brother Cheng likes you. Brother Cheng will let you off if you reject him, but we won’t. Don’t be afraid that we won’t be polite.”

Liu Yang was furious. “Hey, don’t go overboard.”

“Kid, what are you saying?” Two young men in black tights jumped out immediately. To pretend to be powerful, they slapped the steel pipe in their hands. “If you don’t want to get beaten up, you’d better get lost.”

Song Zhiqiu pulled Liu Yang back. “Don’t be rash. Follow Ye Jian.” Until now, Ye Jian was still very calm. It seemed like she had other plans. Also, why did he feel that Ye Jian was gentle?

They should be like her. They should be polite first before fighting.

Thinking about the crux of the matter, Song Zhiqiu reminded Liu Yang in a low voice, “Previously, Ye Jian told the teachers that she would reason with them first. Now, she’s just reasoning with them first. If it does not work, we will find Xu Wen and the other four and make other plans.”

This “other plan” was naturally... to fight.

“Sure. Can everyone make way and let me in?” Just as Song Zhiqiu thought, Ye Jian agreed with a smile and waited for them to let her pass.

No matter what, finding Xu Wen and the rest was the priority. Now that everyone was here, there was no need to be distracted.

Ye Jian and the young man walked in front. Ye Jian replied to every word the young man said. She was polite and didn’t seem angry at all. However, when the young man wanted to touch her, she glanced at him and said calmly, “Be careful of your feet. Don’t break your hand.”

This casual sentence made the young man called "Brother Cheng" shudder violently. He retracted his hand obediently.

There was a green net construction frame in front that was covered with sand. Before Ye Jian could walk over, Ge Jinglin, who was guarding inside, saw her. "She's here, she's here! She even brought people over! One, two, three..." He counted quickly and said happily, "Impressive, nine people came! Almost half of our students have come."

Chapter 1540: Begging for Mercy

He didn't take a good look at who the person was. After counting the number of people, he turned his head and talked to the students behind him. When Ye Jian and the rest walked closer, he realized that he didn't know anyone besides Ye Jian, Song Zhiqiu, and Liu Yang.

Also, their clothes were similar to the men who were chasing after them.

No way!

Ge Jinglin's heart turned cold. They have not managed to escape but instead dragged Ye Jian and the other two down!

"It's over. There are six people following Ye Jian. We haven't escaped, and she was dragged into this." Ge Jinglin stared outside intently and said to the students behind him, "Brothers, when we go out later, I'll leave my back to you!"

"No matter how ruthless they are, none of us can be apart."

.

They were all smart people. They knew what they were going to do with just a slight reminder.

Wu Bingcheng said, "The few of us have our backs against each other. Whoever takes the steel pipe first will reach out to snatch it. You must be fast, accurate, and ruthless. Snatch it and use it as your self-defense weapon."

"I can fight against 23 steel pipes bare-handed. I can't snatch one." Soldier Yuan bent his back and said carefully, "I'll leave my back to you later. Don't let anyone blow up the back of my head."

Ye Jian got closer and closer to them. Finally, she stood in front of the scaffold and said to the young man, "My friend is resting here. Do you want to go in and take a look?"

...

"Damn it. She's with them!" The young man finally understood that he had been fooled. His smile turned into anger. "She has guts. How dare she play with me!"

After he finished speaking, he shouted towards the alley, "Hui, call our brothers over. The people you found are all hiding here. They have guts. They even called helpers to deal with us."

Then, the sound of footsteps could be heard in the alley. More than ten people rushed towards the scaffold.

Ge Jinglin was the first to come out from the scaffold. He said to Ye Jian, "We've caused too much trouble. I'm sorry, Ye Jian."

"Nothing." Ye Jian smiled and shook her head. She asked Xu Wen, who came out later, "Xu Wen, are you all right?"

Xu Wen immediately stood beside Ye Jian. "I am all right. I got a huge fright just now. Now, everything is fine." She leaned closer to Ye Jian and said uneasily, "Ge Jinglin and the rest said that they won't be able to win later, so they asked us to run out and call for help. Do you think that someone will come and help us?"

"No." Ye Jian laughed. "They all have steel pipes in their hands. Normal people wouldn't dare to provoke them. They would just hide far away to prevent themselves from getting hurt." This was human nature.

Xu Wen's face was a little pale. The people who were looking for them came over with steel pipes in their hands. Xu Wen was so frightened that her shoulders shrunk.

However, she didn't dodge. She stood beside Ye Jian and swallowed her saliva. She didn't give in and said, "Then we can only fight them head-on! Ge Jinglin said that we will circle around each other and have our backs against each other. If they hit us with a steel pipe, we will snatch it first!"

A military school student would become stronger when he met someone stronger. Moreover, they were all scum of society.

Ye Jian smiled until her eyes turned into crescents. The cadets had always been very united. "Okay, but you must remember to protect your faces and not show any external injuries."

On this side, Brother Hui, who was looking for trouble with Xu Wen, came over. The moment he saw Ge Jinglin and the seven of them, he said without hesitation, "Beat them up! Beat them up until they kneel and beg for mercy."

This' begging for mercy'...
