

BOOT CAMP 1551

Chapter 1551: Absolute Submission

This time, the teacher didn't raise any objections. "That's true. She has a strong commanding ability and trustworthiness. However, we can't just let this pass. We still have to abide by the rules. Ye Jian can handle it well, but I'm still observing the other students."

What he meant was that he believed that Ye Jian would always be good. The rest of the students were still confused.

"I agree. Although this matter was handled appropriately, we will never encourage it." The commander agreed.

Although the seven people who fought didn't get punished or expelled, the teachers said that there were too many fallen leaves in the school recently.. The cleaning lady was too busy. The seven of them could help her sweep until winter vacation this year.

The seven of them helped the cleaning lady to clean up the place. The students in the class were puzzled, but they couldn't find out the reason. After a week, no one asked.

He Jing knew about that day and said indignantly, "If I was there, I would have crippled a few!"

When she thought about how she didn't help out, He Jing took the initiative to join in the cleaning. They couldn't persuade her no matter how hard they tried. In her words, "We will share blessings and suffer together!"

The pure and simple relationship between comrades would be built day after day, and year after year. Every day, they would crawl, touch, and roll around together. They would eat, drink, and sleep together. Even after they separated, they would still remember each other and miss each other.

After this matter, Song Zhiqiu, Xu Wen, and the other five people had already reached the point of absolute obedience to Ye Jian. As long as Ye Jian said anything, they would listen to her and believe that what she said was correct.

They weren't the only ones who believed in Ye Jian. As time went by, the students in their class would be affected too. They wouldn't hate anyone because they were implicated and punished because of him anymore. They wouldn't specially warn anyone afterward and stop making mistakes.

During training, whoever was slow would immediately be pulled along. There were no private conflicts. They would settle it together.

This change surprised the teachers. According to their experience, it would take at least a semester for a class to integrate into helping, supervising, and caring for each other.

Unexpectedly, their class didn't wait for a semester. The atmosphere in the class was so harmonious that the teachers felt refreshed when they entered the classroom.

Once again, it was confirmed that Ye Jian had a certain level of leadership, cohesion, control, and command.

In addition, her stamina was outstanding and her studies never fell behind. All the instructors felt that this year's 'outstanding student' award definitely belonged to Ye Jian.

After entering December, Ye Jian got busier. There was still half a month before she left school for training. She learned everything on her own. If she didn't understand anything, she would ask the instructors immediately. At the same time, the number of times she entered and left the laboratory increased. Sometimes, she would still be in the laboratory at midnight.

That was because she had to complete all the experiments before the training.

Other than a few kilometers of cross-country running and participating in group activities, she didn't go for other personal training.

During the military training, her fourth senior brother said that as long as you were outstanding, you could watch your classmates train.

Ye Jian belonged to this category now.

However, she really didn't have the time to watch her classmates train. She needed to devote all her time to studying. She needed to compress what other people learned in 45 days until she left school on December 12.

Chapter 1552: This Is Evil Fate

Her classmates didn't know that she would leave school for training. On December 12th, after 12:00 PM, the students were having their lunch. Ye Jian wore casual clothes and was sent to the airport by the school. This time, no one came to fetch her. She needed to rush over herself.

In the afternoon class, Ye Jian's seat suddenly became empty. The students in the class were all surprised. He Jing even suspected that Ye Jian was too tired recently and fell sick.

The teacher only said that Ye Jian had a mission outside. The entire class was enlightened. No one was surprised that Ye Jian went out for a mission.

Last Saturday, they had a comprehensive training with the fourth-year students. Ye Jian defeated the best senior brother in the fourth-year. This became the fourth-year students' nightmare.

It seemed normal for her to go on missions.

At this moment, Ye Jian was walking in the crowded airport. She went through her boarding procedures and flew to the southernmost city of China. Then, she took a military helicopter to a certain island to complete the competition training.

Xia Jinyuan led the members of the Snow Region Brigade and started their combat training with Li Jinnian's team, the Storm Commando Brigade. After completing the two teams' competition and discovering the problem, they completed their combat training together.

Ye Jian, who didn't participate in the early stages, only had ten days of combat training this time. Then, there was the five-day competition and the last month of combat training.

Not only did she need to train, but she also needed to revise. Besides Xia Jinyuan, Li Jinnian was her teacher too.

Both of them were soldiers with outstanding results and were qualified to be teachers.

Carrying only a small piece of luggage, Ye Jian entered the departure hall and waited patiently for her flight to Hainan at 2:40 PM.

It was still early. Ye Jian took out her textbooks from her luggage and started revising what she learned that morning.

Sitting alone in a remote corner, she adjusted the volume of her phone and concentrated on her studies. She only looked up when a familiar voice came from less than three meters away from her.

She and Ye Ying were really fated. The world was huge and there were countless airports in the country. They actually met here. This fate was too deep.

Ye Ying didn't see Ye Jian. She was holding a small white phone and talking to someone. "Young Master Qin, you really don't need to come and pick me up. My parents and I only went to the capital city for a transfer and stayed there for three hours. There's no need for you to come and pick me up."

"It's true. I'm not lying to you. I'm really only staying for three hours. Yes, I'm flying to France at eight. Yes, I've confirmed it. I'll study in France in the future."

There was obvious impatience on her face, but her voice was gentle. She didn't know what Young Master Qin said, but Ye Ying restrained the viciousness in her eyes. After a while, she said, "My body can't do it. I can't join the military. How can I blame you?"

"The medical skills overseas are advanced. Let's see if I can be cured overseas. How can I blame you? If you want to blame someone, blame myself for being weak."

Ye Jian couldn't help but raise her eyebrows when she heard that. She couldn't join the military, so she continued using her weak body and heart disease as an excuse to regain her face. Yes, this was Ye Zhifan's family's usual method.

On the phone, Ye Ying looked extremely angry. She was so angry that her hands were clenched into fists. Unfortunately, the other party was someone she couldn't provoke at the moment. She could only bear it.

After talking for about five minutes, Ye Ying hung up the phone. The smile on her face disappeared immediately. She turned her head and said to Ye Zhifan, "An illegitimate child is pretending to be a

young master in front of me. Dad, ignore this kind of person! Useless thing. You said that you know the Beijing political regiment. I believed you!”

Chapter 1553: Won't Give Up

After hanging up, Ye Ying changed her tone. She was no longer as gentle, but cold and gloomy. She didn't like him at all. “He wasted so much of our time and still has the face to call me every day!”

As if thinking of something, Ye Ying gasped. “That's not right. Dad, how did he know that our family will be transferring to France today? I didn't even mention this to him!”

Ever since Ye Ying knew that Qin Yi was an illegitimate child, her attitude changed drastically. She felt fortunate that she came to the capital city. If not, she would have been kept in the dark!

Sun Dongqing's eyes lit up.

“I didn't say it. Only your mother would say it.” Ye Zhifan glanced at his wife coldly. Then, he said to Ye Ying, “That's why I reminded you not to tell your mother about your matters. Your mother never takes her brain with her. She does things based on her personal preferences.”

In the past, if she had treated Ye Jian better on the surface and stopped instigating her daughter to bully Ye Jian, things wouldn't have turned out like this!

When Ye Ying heard that her mother did it, she could only suppress the anger in her heart. This was her mother.

She couldn't get angry, but she still had to say it. She looked at Sun Dongqing with her almond-shaped eyes that resembled Ye Zhifan's and said in a low voice, “Mom, do you want me to have a relationship with Qin Yi? He's an illegitimate child. He doesn't know anything other than playing. Are you trying to kill me?”

“I'm already miserable enough. If Qin Yi continues pestering me, I won't have a peaceful life. Mom, I'm begging you. Please don't interfere with my matters. After I leave the country, dress up more and don't embarrass Dad, okay?”

Ye Jian had gone far enough. She didn't want to be surpassed by an orphan. From now on, she must work hard.

However, she couldn't let her mother drag her down.

Sun Dongqing acted according to her personal preferences and temper. If she felt that she was right, she would never admit she was wrong.

However, she couldn't bear it when her daughter talked to her like this. She even complained, “I heard from your father that although Qin Yi is an illegitimate son, his father only has one son. Isn't he a man of the Qin family? Mom thought that it's a good thing to have some connections.”

Besides, Qin Yi had a family background and looked like he cared about his daughter too. If his daughter married into the Qin family, she would definitely be able to make a name for herself with her capabilities!

Sun Dongqing didn't dare to say this.

"He's nothing in the Qin family. Dad and I asked around when we came back to the capital city." Ye Ying could vaguely guess what her mother was thinking. She couldn't help but get angry. "His status in the Qin family is so low that he doesn't appear in the family registry. What do you think he will gain?"

Ye Zhifan glanced at his wife and said sternly, "My daughter will prioritize her studies in the future. Don't talk nonsense to her and don't contact Qin Yi privately. I have my own arrangements!"

Ye Zhifan and Ye Ying recently learned of Qin Yi's identity.

Ye Ying threw Ye Zhixiang into the hospital and met Ye Jian. Ye Zhifan, who had always been calm, started panicking.

Suddenly, he thought of Qin Yi and wanted to see if he could use the power of the Qin family to let his daughter join the military as soon as possible.

Hence, he asked his colleagues who went to the capital city for business to help him find out about the Qin family while he stayed in the Southern Province to comfort Ye Zhixiang. The first day, Ye Zhixiang wanted to report a case and file a lawsuit against Ye Ying. The next day, she relented and started negotiating with him.

She requested for Sun Yaozu to get the provincial government project. If not, she wouldn't let it go.

Chapter 1554: Disgusting

In order to stabilize her, Ye Zhifan had no choice but to use his power to give Sun Yaozu a project. He also told him that if he still wanted to cooperate in the future, it was best to let Ye Zhixiang settle down at home.

A project worth tens of millions of yuan was easily taken over by Sun Yaozu.

After that, Ye Zhixiang didn't kick up a fuss anymore. That was why he had the time to bring his daughter to the capital city personally. He wanted to find Qin Yi and see if he could settle his daughter's enlistment as soon as possible.

They asked around about the Qin family, and they were told that Qin Yi was an illegitimate son.

He was not presentable in the Qin family. He was also a famous playboy in the capital city. He only knew how to eat, drink, and have fun. He didn't know how to do anything proper...

At that time, he stood at the front desk of the hotel and took a few deep breaths to suppress the anger in his heart. He didn't expect that he would be fooled by an illegitimate child!

He mistook fish eyes for pearls!

Initially, he wanted to ask Qin Yi if there was any progress regarding Ye Ying's military unit. Now, there was no need to ask. How capable could a useless playboy be?

That colleague said, "Although Qin Yi is an illegitimate son, he is also his father's only son. Hence, the people in the capital city still don't dare to talk about his identity."

With this sentence, Ye Zhifan felt better.

Then, he mentioned Qin Xiu. Everyone in the upper-class circle in the capital city knew about this promising young man from the Qin family.

He knew many languages and entered the Ministry of Foreign Affairs at a young age to be the main interpreter. He accompanied the country's highest leader to many meetings and overseas interviews.

It wasn't that he hadn't taken the initiative to befriend Qin Xiu before. On the day of Old Master Cao's birthday, he specially followed Qin Xiu to the bathroom. However, before he could say anything, Qin Xiu used the excuse that he had something to settle and left.

From this, it could be seen that Qin Xiu was a difficult person to deal with. He had the nobility and arrogance of a young master from an aristocratic family.

Just as he thought of Qin Xiu, Ye Ying mentioned him. "Dad, it was Qin Yi who purposely hid his identity! Third Young Master Qin even came to the private room that night. In the end, we missed the chance to get to know him because of Qin Yi."

Just half a month ago, Third Young Master Qin became a diplomat. It was reported on the news. Two days ago, he even accompanied the country's highest leader for an overseas visit!

Ye Zhifan didn't mention that he actually went to make friends with Qin Xiu that day. However, the other party didn't give him any face. When he heard that, he said calmly, "That's enough. It's fine if you miss it. There's no point in saying anything."

After he finished speaking, Ye Zhifan's face turned darker.

At that time, he knew Qin Yi's identity, so he didn't have the mood to stay. In addition, Ye Zhixiang's side was no longer causing trouble. He wasn't worried that his daughter's file would be tainted, so he didn't go to the capital city. He stayed for a night and returned to the Southern Province.

Now that he thought about it, he should have stayed in the capital city for a few more days and known Qin Xiu through him.

The family of three didn't speak loudly. However, the waiting room was quiet, so Ye Jian could hear what they were saying even though she was a distance away.

The Qin family in the capital city, Qin Xiu. That was the Qin Xiu she knew.

She didn't expect Ye Zhifan to take so many routes just to let Ye Ying enter the military unit.

In the end, Ye Ying didn't manage to enter the military unit.

Ye Ying studied in France... Just like in her past life, she was still going to France.

Chapter 1555: Wait For Your Revenge

However, the difference was that in her past life, Ye Ying went to France to study and became the first girl to study abroad.

In order to curry favor with Ye Zhifan, the town official even put up a banner in town. From then on, Ye Ying became a famous person in Fujun Town. She became a golden phoenix that flew out of a mountain ditch.

In this lifetime, Ye Zhifan was protecting her. Although she was in a sorry state, she still went overseas.

Sun Dongqing muttered something under her breath. Ye Ying's expression changed. She felt so wronged that she was about to cry.

"That's enough. Your mother is like this... You just need to learn less from her." Ye Zhifan didn't want his daughter to be unhappy the night before she went overseas. It was rare for him to speak up against his wife. He glared at Sun Dongqing, who knew that she was in the wrong. He pursed his lips and reminded Ye Ying again, "If you want to take down Ye Jian and step on her again, this overseas trip will be your last chance."

Ye Zhifan lowered his voice even more when he was talking about something important. His expression was vicious. "Remember, Ye Ying, it's better to suffer than to die. Don't always say that you want to get rid of her and make her disappear. You're not her match now. Even Dad isn't her match."

There were too many people protecting Ye Jian. At first, he wanted Sun Yaozu to get rid of her during the National Day holiday. However, in the blink of an eye, he saw her standing upright beside the leader of the country and watching the celebration together.

He wanted to go all out and kill her.

The fact that she was able to appear beside the leader of the country meant that she had already attracted other people's attention. She was even more important than him, the director of the Provincial Construction Bureau!

"Remember what I said. If you don't have the ability, don't try to provoke Ye Jian and think of killing her. If you lose your cool, you will only bring destruction to yourself. In the end, you won't get anything. Ye Jian is no longer the Ye Jian that you look down on."

"Ye Ying, do you want to look up to an orphan girl who was always inferior to you?"

No, no. She definitely didn't want this day to come!

The color on Ye Ying's lips disappeared instantly. She shook her head. Her watery almond-shaped eyes were filled with coldness. "I will not let her stand on my shoulder forever. I will make her lie at my feet obediently and never get up again."

Ye Jian, who had been paying attention, smiled. Her bright eyes were curved into crescents. The ripples in her eyes were like black pearls that fell into the jade waves. Her beauty was pure.

It turned out that Ye Ying wanted to kill her at this moment. Fine, I will wait for that day!

Let's see who will be the one lying at the feet of whom in this lifetime!

No wonder she was teased by Ye Ying in her past life. It turned out that... Ye Zhifan taught her everything!

He was the one who taught Ye Ying to torture her. Just like what he said, when a person dies, everything will be over. Only by staying alive can they get revenge!

In the past, Ye Jian would have lost her cool when she heard the conversation between the father and daughter. Now, Ye Jian understood what she wanted and what was important. Ye Zhifan, Ye Ying, Sun Dongqing, Grandma Ye, Ye Zhixiang, Sun Yaozu... Just wait!

Ye Jian closed her eyes slightly and suppressed the hatred in her heart. This life had changed. One day, she would destroy Ye Zhifan's reputation!

One day, she would do it!

Chapter 1556: You're Not As High As Her

She couldn't use the evidence she gathered in her past life because Ye Zhifan had just become the director of the Provincial Bureau of Construction not long ago! She was waiting for him to use his power for personal gain!

She remembered what Xia Jinyuan said. Before finding the person behind Ye Zhifan, she mustn't act rashly.

She also remembered Grandpa Gen's advice before he passed away. Before you have enough ability, don't think about Ye Zhifan and his family. Don't let hatred blind your eyes or you won't see which path you should take.

"When you're overseas, you must be careful. You can't be as casual as you are in China. You don't have to worry about matters here. Focus on your studies. And don't worry, I won't let your mom mess around." Ye Zhifan was a responsible father. No matter what mistakes his daughter made, he would always choose to forgive her and try his best to help his daughter.

At the same time, he didn't forget to remind her not to act rashly due to jealousy.

"Dad, I'll leave Qin Yi to you. Don't worry, I won't embarrass you again." Ye Ying cried softly.

She regretted it. She really regretted it. Now that she was given a chance to stand up, she definitely wouldn't miss it.

Ye Zhifan didn't say anything. He patted Ye Ying's hand lightly.

She won't embarrass him? Ye Zhifan rubbed his face. To be honest, he wasn't as confident as before.

The height that Ye Jian was standing at... he couldn't compare to her. Accompanying the leaders of the country to attend the celebration, even if she only showed her face, it meant that she had reached a height far beyond his imagination.

How could it be easy to take down Ye Jian?

As for Ye Zhixiang, there wouldn't be any problems. If she wanted to create trouble, she would have to see if Sun Yaozu agreed!

Now, Sun Yaozu was in charge, not the old woman who couldn't move on the bed.

Sun Yaozu, who had already tasted the sweetness, was afraid that he would lose his partnership with Ye Zhixiang in the future. He patted his chest and promised that he would look after Ye Zhixiang.

Sun Yaozu was an ambitious man. As long as he could bring him benefits, Ye Zhixiang would be fine.

As for Qin Yi... Ye Zhifan remained silent for a while before saying, "You don't have to worry about Qin Yi. Don't contact him when you reach France. Also, Qin Xiu works at the French embassy. If you have the chance, you can look for him and see if you can get to know him."

Her daughter's looks and temperament were not bad. If Qin Xiu took a liking to her... Ye Zhifan said meaningfully, "Sometimes, opportunities are fought for by oneself. Ye Ying, use your strengths and gain a better chance for yourself."

Sun Dongqing, who knew that she was in trouble, opened her mouth and agreed excitedly, "That's right, that's right. Between Qin Yi and Qin Xiu, Yingying, you should definitely choose Qin Xiu!"

Ye Jian couldn't stand it anymore. She felt disgusted!

There were still 20 minutes before boarding time. Ye Jian picked up her luggage and left.

The plane to Hainan Province took off and landed at the airport in less than three hours.

It was already 7:00 PM when Ye Jian changed into her training clothes and boarded the helicopter heading to the reef island.

There was no light on the reef island. It was pitch-black everywhere. The sound of water splashing on the shore could be heard. Besides the sound of the seawater hitting the shore, there seemed to be no other sound on the entire island.

The waves hit the shore one after another. A tall figure suddenly appeared on the sea like a ghost and walked towards the shore.

Then, a few more figures came out of the sea. They walked across the water and walked towards the first figure that came ashore.

Chapter 1557: She's Here, Excited

There was a man on the shore. He had the aura of a mountain. He stood in the dark like a waiting reef. No matter how high the waves were, he didn't move at all.

He turned on the waterproof watch and pressed the dial lightly with his slender fingers. A faint green light illuminated a few sets of numbers. One of the numbers was 21:18:47.

It would take two and a half hours from the military airport to the Twin Moons Reef Island. It should be about time.

As more and more people went ashore, the man turned off the night light on his watch and stood upright in front of everyone. His gaze slowly swept across everyone.

It was dark, but his glowing eyes were like those of a beast. An extremely sharp light flashed past his eyes.

A sense of oppression followed. Everyone, who was exhausted, stood up straight and met his gaze.

He didn't say anything. Everyone just stood there, motionless, as if they would stand together until dawn.

The moon was clear and bright in the sky, dotted with stars.

On the surface of the sea, waves rose and fell endlessly. The monotonous sound of the rising and falling waves was like the applause of thousands of people, clapping for the soldiers who guarded the borders of their country.

About twenty minutes later, the ink-like seawater splashed higher. When the waves were louder, the sound of propellers mixed with the monotonous sound of seawater came from the horizon. The man standing in front said, "Turn back!"

His voice was like the first snowflakes blooming. It was so cold that it seemed to rub the snow into their hearts. Every word he said was extremely cold.

Everyone turned around and faced the sea. They looked at the sky in unison.

The man standing beside them pressed a button on the side of the dial. A light source shone out from the twelve, four, and eight points of the dial. This was to send a signal to the aircraft flying over, letting the helicopter pilot know their exact location.

"Identify the location and prepare to launch." The helicopter pilot with the ear mask received the ground signal and reported the distance between the ground and the sea and the plane.

"Six hundred meters, four hundred meters, three hundred meters..."

As the helicopter pilot accurately reported the distance, everyone standing on the shore saw a military helicopter gradually getting bigger and bigger until it stopped above them.

The strong wind from the propellers blew the seawater and sand into the faces facing the sea.

In less than a minute, their wet combat uniforms were covered with fine sea sand. Their faces, eyebrows, and eyelashes seemed to be wearing a sea sand mask. It was impossible to tell who was who.

Sand entered their eyes, making them sore and painful. The sea breeze blew past their eyes and face, bringing with it a strange itch that felt like thousands of ants crawling through their clothes. Still, no one moved. They maintained their upright posture and used their torch-like gaze to look in front, protecting every inch of land behind them.

“Open the hatch and launch.” On the plane, the helicopter pilot skillfully operated the helicopter, causing the entire body of the plane to remain stationary in the air. After confirming the height of the launch, he started to launch the item.

The cold man walked in front of them and looked at the supplies on the helicopter with his comrades. It seemed that thanks to Ye Jian, the supplies were sent three days earlier.

Chapter 1558: Snatching My Girlfriend?

After the supplies were delivered, a rope was thrown out of the helicopter. Everyone held their breaths.

Someone was coming down. Who would not sleep in the middle of the night and come to their deserted island?

Inspection? A lecture?

A figure appeared at the cabin entrance and waved at them. He looked so familiar!

Before they could figure out who it was that greeted them, they saw the person grabbing the rope and landing swiftly and suavely. The person had already fallen into the sea.

The figures standing on the shore gasped one after another. The descending figure was slender. One look and you could tell that it was a woman.

A woman? A female soldier? A female commander? Someone's girlfriend?

Ye Jian, who landed on the water surface, had already received dozens of gazes. One was hotter than the other.

Long time no see. The comrades of the Snow Region Brigade and the comrades of the Storm Commando Brigade.

She turned on the multi-purpose military waterproof military watch. The lights on it flickered three times, indicating that everything was safe. The helicopter crew who received the message gave her an 'OK' gesture. As the door closed, the helicopter carried the sea breeze and sand away from everyone's sight.

She had just sent the helicopter away. Before she lowered her head, Ye Jian heard the sound of dumplings falling. She looked up and saw dozens of people rushing towards her.

Ye Jian, who came with the supplies, became popular in the eyes of the male soldiers. Z7 Han Zheng had already recognized who the female soldier was. Because he was standing in the front row, he rushed towards Ye Jian like a dragon coming out of the sea.

Oh my god, he finally saw a female creature!

However, someone didn't like him. Little boy, why are you struggling when my girlfriend is here? Go away.

It was really cool. Xia Jinyuan had always been extraordinary. He bent his back like a cheetah and pulled Han Zheng's legs. Han Zheng, who was running happily, fell into the sea and drank a few mouthfuls of salty seawater mixed with sea sand.

"Who is it? Who played dirty with me?" He climbed up quickly. He must be fast. He was afraid that his comrades behind him would rush up. They wouldn't look at the water. They would step on him and rush to Ye Jian's side!

This bunch of brats, they were all perverted!

Pfft! Are they still brothers?!

A cold voice came from the sound of splashing water. "It's me. What do you want?"

!!!

Han Zheng shrunk his neck and started running in a straight line. Damn, he was so happy to see Ye Jian that he forgot that her real boyfriend, Xia Jinyuan, was in the team too!

What else could he do? He just needed to pick up the good posture!

The man standing on the shore didn't move. His handsome face, which was as cold as snow, had a hint of gentleness that was hard to see. He quietly looked at the two teams of comrades who were struggling in the sea. Then, he looked into the distant sky.

The weather tonight was good. The moon was bright and the stars were shining brightly. Ye Jian knew how to pick a date to come over.

However, he didn't expect to lose his composure when he saw Ye Jian. It was interesting that he rushed into the water with his comrades.

Other than Li Jinnian, who had only walked five steps on the beach, everyone else went into the sea to welcome Ye Jian warmly.

Chapter 1559: Becoming an Opponent

Ye Jian looked at the dozens of people running towards her. Their aura made her take a few steps back.

Water splashed everywhere. Ye Jian couldn't help but narrow her eyes. She hurriedly picked up a piece of supplies beside her feet and ran to the other side at the same speed.

She had seen the enthusiasm of the male soldiers. She was really afraid that they would lift her up and throw her into the air before catching her.

Even when she saw the figure she was most familiar with, she didn't change her mind. She dragged the material and continued running to the side.

Xia Jinyuan wanted to be more reserved but when he remembered his Little Fox, he felt a little jealous.

Previously, when he thought about becoming Little Fox's 'opponent,' he was a little excited. Now, he wasn't so excited anymore.

What was so good about becoming enemies? It would be good if they could fight together!

He was already at the front. When he saw Ye Jian suddenly running to the side, a smile appeared on his handsome face.

"You are too enthusiastic. Didn't you see that you scared her away? Go and pick up the supplies."

"Ye Jian, why are you running? We came to fetch you but you still ran. You're not giving us face!"

"Go, go, go. Why do I have to give you face? Hey, hey, hey, the supplies are floating away. Hurry up and pick them up!"

These were the comrades who knew Ye Jian.

As for the water ghost and the special forces of the Snow Region Brigade, they picked up the supplies and carried them to the shore.

Dozens of people needed quite a lot of supplies. A total of 14 buoyancy tanks were thrown down from the helicopter. A few waterproof buoyancy tanks that contained medical supplies were carried tens of meters away by the waves. Several team members waved their hands and chased after the tanks that were rising and falling with the waves.

Because of Ye Jian's arrival, the atmosphere at the scene was very lively. Everyone was in a very good mood. They even walked with a rhythm.

Li Jinnian, who had been observing from the shore, looked at the two figures running to the side. His thin lips seemed to curve as he walked towards the landing spot of the two people.

The 'King' of the Snow Region Brigade welcomed his comrades from the Storm Commando Brigade so enthusiastically. He needed to remind him.

Don't be too enthusiastic. You will be "sad" later.

"Little Fox, your appearance has ignited the fire in their hearts. They're so passionate that your boyfriend's heart can't take it anymore." Xia Jinyuan, who had caught up with his girlfriend, started to want sympathy. This man always revealed an unknown side to Ye Jian.

After being apart for almost two months, Ye Jian realized that his teeth had turned even whiter. His burning eyes were staring at her intently. The fire in them seemed to be burning her up.

Ye Jian didn't blush as easily as before when she met his eyes. Also, she was still standing in the cold sea. She wouldn't blush under his gaze.

Ye Jian handed the supply tank to him and blinked. Smiling, she said, "Major Xia, if I remember correctly, we are enemies now. Isn't it a little inappropriate for you to come over to my side directly?"

If Major Xia was defeated in a few sentences, he wouldn't be Major Xia. Hearing that, he raised his eyebrows slightly. With a teasing smile on his thin lips, he said calmly, "That's why I have to make use of the time before you enter the military unit to contact them. I might even be able to infiltrate their ranks and steal their information."

Chapter 1560: Major Xia, Please Guide Me

Under the moonlight, Xia Jinyuan's handsome face was obviously tired, but when he saw that Ye Jian seemed to have gotten rid of all the fatigue from the past few days, he felt a kind of spiritual food called 'love' supporting him. All the fatigue in his heart was swept away, leaving only the joy of meeting again.

He was a reserved man. He was calm in the face of life and death battles. Only in front of Ye Jian did he have a side that no one knew about. Sometimes, he was a scoundrel. Sometimes, he was noble. Sometimes, he was cold and arrogant. Sometimes, he was like a naughty child who wanted a piece of candy.

Ye Jian looked at the major who was smiling sinisterly again and replied calmly, "That's true. It looks like I should make use of the time to contact you. Maybe I can infiltrate the other party and steal information?"

After she finished speaking, she raised her hand and touched her face. She said excitedly, "I have never been a femme fatale. I can try it once."

"Tsk, tsk, tsk. Little Fox, your skin seems to be getting thicker and thicker. You look like me!" Xia Jinyuan laughed heartily as he stared at her smile that was brighter than the moon. Suddenly, he gave her a gentle sneak attack kiss on her forehead.

Before Ye Jian could react, he had already left. She could only feel the dampness on her forehead.

"Welcome back to the team, Ye Jian." One second ago, Major Xia was still like a cat that had stolen a fish. Now, he had a cold expression on his face. Wearing his combat uniform, he had turned into a tough Special Forces soldier.

Ye Jian: "...". Why did she feel that he changed his mindset on purpose? However, Major Xia had always been a thoughtful person. Until now, she still didn't understand him.

It was not until he reminded her that Li was behind her that Ye Jian understood why he changed so quickly. Then, she heard him say while laughing softly, "You know how to spoil the atmosphere. If not, I would have kissed you secretly again."

“Then I have to thank Li.” Ye Jian pursed her lips and smiled. She always felt relaxed when she interacted with him. It was as if nothing was difficult and everything could be solved. It gave her a sense of pleasure.

She had no reason to miss out on such a man who could give her happiness and safety.

On the shore, Li Jinnian frowned slightly. He wasn't sure if Xia Jinyuan was kissing Ye Jian. It was too fast. Before he could see clearly, he had already stood up.

The two of them walked towards the shore together. Xia Jinyuan walked beside her and kept a distance from her. There was no change in his actions. He must have thought too much just now.

“He has been in charge of sea training for the past two days. As expected of the Demon King. The intensity of his training challenges everyone's limits every day. This morning, he swam fully armed in the 5th Sea. In the afternoon, he swam lightly armed. Then, he completed the underwater shooting and returned to the camp to rest. The gains from training with him are not small.”

“The intensity of the training in the next ten days will only get harder. You still have to study at the same time. Little Fox, drink more energy supplements. Don't get tired in a moment of carelessness.” It wasn't an exaggeration. Ye Jian hadn't undergone intense training for two and a half months. Her body's functions weren't fully functioning, so it was possible for accidents to happen.

Ye Jian remembered the summer vacation when she trained with him and smiled. “It's indeed very difficult, but I'm looking forward to learning all the hard skills.” She turned her head and smiled at him. “Major Xia, please guide me.”
