

BOOT CAMP 1571

Chapter 1571: Doesn't Look Like a Captured Person

The navy commander looked at the Storm Commando Brigade with a serious expression. His gaze was locked on them. Although it was just a match between two teams, it showed the combat skills of their respective teams on the battlefield.

There were five big missions in this match. It was equivalent to one big mission a day.

Although this competition was not about winning or losing but about discovering their own problems and gaining experience to improve their combat skills, they could not lose easily.

He had already seen the analysis data sent by Demon King. It clearly stated that the Storm Commando Brigade was at a disadvantage against the Snow Region Brigade.

The highlands, forests, plains, and deserts were their weakness!

Among the Water Ghosts in the Storm Commando Brigade, only Li Jinnian went to the highlands to complete his training. The other Water Ghosts didn't even do that.

The navy commander's heart was heavy.

The major general's heart was heavy too. Azure Bird... wasn't easy to deal with. It would be difficult to capture her alive.

"The Snow Region Brigade likes to launch sneak attacks at night. We have to guard against this. However, Q King knows that I'm familiar with their combat style. Based on my understanding of him, he will definitely adjust his tactics. Demon King, this beach grab is our Storm Commando Brigade's strong suit. Let's not care about the later fights. Let's take down today's battle first."

The person who spoke was Ye Jian. At this moment, she was a member of the Storm Commando Brigade. She wasn't the comrade Xia Jinyuan and the rest fought together with. Since they were in different camps, she would naturally give her best to win.

She had seen the information Li Jinnian gave her and knew where the weakness of the Storm Commando Brigade was. Hence, what they needed to do now was to play to their strengths and avoid their shortcomings.

"I'm in the same team as Big Prawn. Big Prawn's anti-reconnaissance ability is very strong. If anything happens to me, Big Prawn will inform everyone immediately. If I unfortunately become a captive, comrades, don't be in a hurry to act. The Snow Region Brigade's members will use me as bait to lure you. So, if I'm captured, I will think of a way to escape."

Li Jinnian looked at Azure Bird who had guns on her chest and back. He smiled and said calmly, "You don't look like someone who will be captured."

“Thank you, Demon King, for your kind words. I will definitely not let myself become a captive, but Q King will target me and try to catch me first. After all, there’s a ‘kidnapping plan’ inside. He warned me from the start.” Ye Jian knew Xia Jinyuan well. Before the two sides ‘exchanged fire,’ they had already analyzed each other.

All the Water Ghosts of the Storm Commando Brigade listened attentively. They deployed and counted their equipment.

One of the Water Ghosts pointed at the yellow firepower supporting device installed on the muzzle and smiled. “I have to be careful about this. The firepower is a little strong.”

This was an underwater rifle, but it wasn’t the underwater rifle that was normally used for training. It was the latest underwater combat rifle that China had researched and specially assigned to the Storm Commando Brigade’s Special Forces. It was mainly used to break through underwater and snatch the beach cover.

The equipment for this confrontation was not bad, especially the complementary firepower. There were assault rifles, sniper rifles, submachine guns, and pistols.

The communication was complete too, but the most complete was still the equipment. In short, everyone was confident when they saw their equipment.

Of course, they were confident.

“Azure Bird, a sniper is equivalent to the strength of ten people. The most crucial point of the beach is in your hands.” Li Jinnian handed the sniper rifle to Ye Jian. However, the magazine was still in his hand. After Ye Jian took the gun, he bent over slightly. His cold and handsome face was focused as he personally loaded the magazine. “Good start.”

Ye Jian carried the sniper rifle on her back and smiled, “Good start!”

Chapter 1572: Hidden Sniper

At 12:00 AM, an order from the military came through the wireless earpiece. The five-day battle between the two armies had begun.

After giving the order, the members of the Storm Commando Brigade, who were wearing black rubber diving suits, slid into the sea silently. They brushed their hands lightly and covered a few meters in a moment. Then, they dived into their territory like demon fish.

Armed swimming was the Storm Commando Brigade’s specialty. Because the military map was in the opposite direction, even their landing point was the opposite. Hence, they needed to swim with all their heavy equipment before they could reach the real location.

“There’s an undercurrent. Be careful.” The Water Ghost, who was in charge of reconnaissance, turned around and waved his hand in front of the underwater searchlight, reminding his teammates to be careful of being washed away by the undercurrent.

It was common for Water Ghosts to encounter undercurrents during underwater training. As long as they sent a signal, everyone would have a solution.

The Water Ghost, who was about two meters away from the surface of the sea, quickly surfaced and adjusted the three of them to swim in a group.

Although the rubber diving suit had a cold-proof function, the body was surrounded by seawater. No matter how good the cold-proof function was, the body still felt cold after swimming for half an hour.

There were still two nautical miles away from the landing point. Under Li Jinnian's lead, Ye Jian avoided a few reefs and followed the members in front at her fastest speed.

As she was at a different landing spot from the Water Ghosts with the codename 'Big Prawn,' she needed to circle around the back of the island and land at the end of the horizon. After swimming two nautical miles, Li Jinnian signaled for them to split up.

He stretched out his right hand that was clenched into a fist and touched Ye Jian's hand that was clenched into a fist as well. He made an 'okay' gesture and waved at Big Prawn. Ye Jian saw his slender and tall figure disappearing from her sight in the blink of an eye.

"Let's go!" Big Prawn gestured for Ye Jian to follow his swimming path towards the landing point.

The waves on the sea were huge. Ye Jian and Big Prawn passed through the ink-like waves like dragons and reached their landing point at the designated time.

The two of them took off their breathing masks and pressed their backs against the cold rocks. They raised their heads and looked up.

The underwater lights had already been turned off. It was all thanks to their eyesight that they could tell how high they were from the landing point.

"It's no less than six meters. It's a granite layer, so it might be heavily weathered. The climb will take one hour." Big Prawn lowered his head. His chest was still heaving as he said to Ye Jian, "There might be a sniper hiding above. It's a little suspicious."

If they could think of a landing point, the Snow Region Brigade could too.

Ye Jian, who was adjusting her breathing, smiled slyly. "The military maps we have are all problematic. In that case, the Snow Region Brigade will get the same thing as us. If we take the advantageous spot first, they will be suspicious too."

There were always some falsehoods in combat. Both sides had witnessed each other's strength. No one would act rashly. No one would think that they had the upper hand.

Similarly, the Snow Region Brigade felt the same way too.

The sea waves hit the rocks. The salty and cold seawater landed in her mouth. It was so salty and bitter that her facial features were distorted.

Ye Jian used her hands to climb the corroded black rock. She relied on the strength of her arms to climb to the top of the island and occupy a high defense position.

On the other side, the Storm Commando team swam ashore and completed the first step.

Chapter 1573: Watch the Green Bird Closely

In the Snow Region Brigade, Xia Jinyuan led his team members and passed through the dense forest on the island. There were too many vines. In order to not expose their trajectory, they couldn't cut off these vines to create a path. They had to walk on the ground.

"We will take the materials on the spot and use the vines as ropes. We will descend directly!" The scout team and the commando team at the front pushed forward quickly. They had a good grasp of the terrain so they needed to provide a route for their comrades behind them.

Hearing this, the four team members who were protecting them at the back half squatted. Two of them covered their sides so that their comrades could descend quickly.

"Hurry, hurry, hurry, hurry!"

"About 3.5 meters!"

.

The comrades from the Snow Region Brigade who went down first found a place to hide. Figures moved quickly on the rock-covered island.

Although the military gave them a landing point in the opposite direction, none of the members participating in the confrontation raised any objections. On the battlefield, combat was ever-changing. Adapting and finding the right direction that was beneficial to combat was a skill every member needed to master.

J5 hugged the tree trunk and landed quickly. He said in a low voice, "It's a protruding mountain. We will occupy the highest point first and send two snipers to guard it. No one can get close to it."

"It's too late. Demon King Li has his eyes on this place." Xia Jinyuan retracted his binoculars and hung it on his neck. After that, he smiled sinisterly and coldly. "Azure Bird might be up there. Pigeon, White Crane, you two hurry. Lock her position first and confirm her exact location before reporting it to me."

"Yes!" Pigeon and White Crane accepted the order and swung the assault rifle in their hands behind their backs. They jumped up and grabbed the roots that had grown for many years and were exposed to the outer layer of the rock. The two agile Special Forces soldiers disappeared in the blink of an eye.

Xia Jinyuan curved his thin lips and looked at the highest point with his dark eyes. Little Fox, you have to be steady. If you get captured, you might have to postpone your dream of entering the Snow Region Brigade.

Wearing his five-fingered combat gloves, Xia Jinyuan clenched his fists secretly. His heart was a little tense.

There was no open space on the island. It was filled with mysterious rocks and woods that offer camouflage. Although the woods were easy to hide, it was also very dangerous. When a scout from the Snow Region Brigade jumped down from a rock, he wore his combat boots and landed on a smooth rock with moss growing on it. He twisted his left leg suddenly and got a sprain.

“Fix it with a bandage to prevent a second injury. Spray it with anti-inflammatory and pain stabilizing spray. Let’s finish this tonight first.” K7 became a medic. He took out bandages and sprayers from his first-aid kit. He took off his comrade’s combat boots and socks and started to treat them simply.

After bandaging his wound, the injured comrade moved his ankle. “Done!”

“If you’re done, let’s go, brother.” J5’s voice came from the earpiece. It was low and you could faintly hear the sound of the sea waves. He was already close to the beach.

It was already 3:20 AM.

Three hours and twenty minutes passed. Neither side made any progress, but the battle had already begun.

“Big Shark, six o’clock. The sentry position is concealed.” Ye Jian, who had already set up her gun, used her scope to observe her surroundings. After nearly an hour of observation, there were a few leaves shaking lightly in her scope. The wind on the sea was very strong. It was normal for the leaves to shake. The abnormal thing was that the leaves were all tightly clenched.

Chapter 1574: Target Locked, Danger

Ye Jian noticed the situation and reminded her comrades in a low voice. She started adjusting her aim and preparing to cover and complete her sniping. She needed to maintain the consistency of her close-range and long-range shooting, so she needed to adjust her aim occasionally.

The Water Ghosts of the Storm Commando Brigade had already successfully snatched the beach and started moving towards the inside of the island. After reminding Big Shark, who had already discovered the sentry position, they avoided the other party’s alert range and circled around to flank them.

At 3:30 AM, a Snow Region Brigade comrade was ambushed by two members of the Storm Commando Brigade and unfortunately ‘died.’

This was a good start. The navy commander heaved a sigh of relief. At least he could take a breather.

The sound of blank cartridges started ringing in the air above the island. The Snow Region Brigade, who knew that one of their comrades had ‘died,’ took care of a Water Ghost that was doing reconnaissance as quickly as possible.. Very good, within five minutes, the two sides were tied.

The major general of the army heaved a sigh of relief. It was not bad to win one round in five minutes.

Li Jinnian's cold voice reached everyone's ears. "We have entered the attack range. Second team, first team. Advance forward alternately." At night, they could focus on sneak attacks. Using such tactics would yield good results.

Although there was enough firepower in this match, there were no infrared sensors in modern equipment except for communication. There's only night-vision goggles so that you wouldn't fall badly.

Thus, they relied on their eyes and ears to receive the dangerous information from the outside world. They were able to quickly escape danger.

Xia Jinyuan sat on a rock. He was waiting for the scouts to reply so that he could confirm what the mission was.

The military map was wrong and the mission was unclear. There was no clear competition. Xia Jinyuan hugged his gun and waited patiently. His beast-like eyes were filled with excitement.

It was indeed more challenging to fight a match where neither side knew what the final outcome would be.

That was because you needed to fight while exploring. The first person to figure out what their mission was would be able to deploy in advance and snatch the opportunity.

"Group A is still 700 meters away from Group B's mission target." In the command room, the technician operated the computer and zoomed in on the 'war zone.' An abandoned three-story building appeared on the screen.

The entire building was shaped like a '7.' The Storm Commando Brigade needed to occupy this place to win the competition.

The navy commander sighed in admiration at the major general sitting beside him. "The 'sharp blade' of the country lives up to its reputation. They found the site so quickly." If they could start defending the moment they found the site, the Storm Commando Brigade would have to use force.

"Both sides have entered different locations. If Group A hasn't discovered the situation, I will consider removing Q King's position," the major general replied in a deep voice. "Three hours and forty minutes have passed. If both sides don't even know what they are guarding, I will have to apologize to the country."

Group A was the Snow Region Brigade, and Group B was the Storm Commando Brigade.

Five minutes later, Xia Jinyuan suddenly jumped down from the rock like a leopard. Then, he rushed into the night and entered the forest where the branches were intertwined.

Chapter 1575: High Standards!

The members of the Snow Region Brigade had already arrived at a dilapidated building that was no different from a haunted house. No one knew how long ago it had been built. The outer walls were covered with vines and plants. The walls were peeling badly. Some of the walls had even collapsed.

Z7 moved closer and scratched the wall with his fingers. A huge piece of the wall was easily torn into pieces. "Q King, this is the position we need to cover."

"Okay, I need to know the internal structure of the entire building in five minutes." Xia Jinyuan raised his head and looked at the abandoned building. It was built secretly. It was actually built at the lowest point of the entire island. If you didn't look carefully, you wouldn't know its existence at night..

He lowered his head and looked at the time. He said in a low voice, "The time starts now. I'll be back in five minutes."

There was no need for him to split the work. He left behind the sentries and the ambushes... The scouts scouted the path and started moving quickly.

Occasionally, the team members' voices would come from the earpiece and report the situation on their side. Xia Jinyuan said calmly, "Found construction cover. It's three stories high and dangerous. The six of you will guard outside. The few of us will guard inside. Whoever dies think about what I will do to you."

The threat was self-evident.

Although there were good benefits to following their captain, there was also pressure.

On this night, there were no stars in the sky. The weather on the sea was ever-changing. One second ago, the moon was cold and the stars were sparse. The next second, there might be dark clouds covering the sky. The sudden rain was accompanied by thunder and lightning.

The six special forces soldiers from the Snow Region Brigade were trying to confuse the Storm Commando Brigade so that the Water Ghosts would think that they were all hiding in the forest.

However, Xia Jinyuan didn't think that he would be able to fool Li Jinnian. He contacted White Crane and Pigeon who were looking for Ye Jian's hiding place. "How's the situation on your side? Have you found the exact location?"

White Crane didn't reply. Pigeon was the one who answered him. His voice was low and ruthless. "Q King, White Crane died in battle. He raised his gun and was silently killed. Sigh, Azure Bird's long-range sniping is too far away. What sniper rifle is she holding? Her shooting range is probably more than 800 meters!"

"It's quite fast. Let him squat for two hours." Xia Jinyuan's voice was heard almost as soon as Pigeon finished speaking. His tone was calm, as if he was not surprised at all, as if he had heard something very normal.

Pigeon looked at his poor comrade who had been killed. The seriousness on his face became even more serious. "Q King, Azure Bird is holding back. I'm afraid the Demon King already knows your delay tactic."

“I didn’t think that I would be able to hide it from him for long. To me, one minute is one minute.” Xia Jinyuan raised his eyebrows. He was happy for Ye Jian’s performance, but he was a little disappointed.

He wanted to fight alongside her too...

Then, he gave Pigeon an order. “Retreat after you have stabilized. Be careful not to be stared at by her from all angles. Also, tell White Crane that there’s no need to be surprised if he was killed by Azure Bird. Her sniping skills have already surpassed mine, so it’s normal for her to kill White Crane.”

“As for you, be careful. Azure Bird is very patient. She can lurk in the desert alone for one day and one night. As long as the sand covers her body and she doesn’t get buried alive, she will definitely not move. She will definitely not let go of her next target. So, do as you deem fit. If you die, White Crane will have a companion.”

Chapter 1576: Powerful Combat Style

Pigeon: “...” He was stunned. Her sniping skills exceeded Q King’s, who was also a sniper... Didn’t he and White Crane understand Q King’s situation?

Xia Jinyuan didn’t have the time to care about his comrade’s complicated feelings. He cut off the communication and thought of Ye Jian. There was a hint of gentleness in his cold and handsome face. The gentleness was only for Ye Jian.

He wouldn’t be surprised if Pigeon was killed too.

To him, this was a normal thing because he understood Ye Jian’s capabilities.

Snipers needed to keep practicing and mastering new skills. In order to support her superior unit, she needed to be able to fight in any environment and cooperate with any unit that required her cooperation. Ye Jian was very talented and had trained with Demon King Li before.. It could be said that the two of them had already cultivated their initial chemistry.

Now, her identity has turned into a Water Ghost. There was no need for any buffer. She could fight directly.

When she came over from school, he was still worried that she would not be able to keep up with the training pace of the two teams. In just half a day, he knew that his worry was unnecessary.

The military unit had high requirements for the sniper’s stamina and brainpower. They needed to be able to display their unique skills in any environment. They were able to enter the sea island and receive instructions to snipe and to enter their optimal state quickly.

Ye Jian had an extremely high level of quick scanning ability. She was able to quickly detect if there were any signs of enemy activity in the area. If it was during the day, she would be able to find out if there were any signs of them passing through the hidden sniper points she hid in less than 30 seconds.

At night, she would observe her surroundings carefully as she walked. When she hid well, she would observe her surroundings carefully with her scope.

With her heaven-defying memory, she would remember everything she saw. The next time she noticed something amiss, she would know that something was amiss.

Once she noticed something amiss, Ye Jian would not hesitate to attack.

Now, whether Pigeon could escape from a sniper's gun depended on Pigeon's ability.

In the Storm Commando Brigade, Big Prawn had already reported Ye Jian's situation to Li Jinnian. His tone was filled with admiration. "Very impressive! She was able to complete an accurate 800-meter long-distance shot in this complicated mountainous terrain and directly kill a member of the Snow Region Brigade who was trying to get close to us."

"There's no need to occupy it." After hearing that, Li Jinnian gave a new order to Ye Jian and Big Prawn. "Q King is misleading us. There are only a few members on the island. Snatching the beach is not our priority."

If this was the main point, they wouldn't encounter any firepower when they landed. Hence, when they entered the island to search, they would have to exchange fire. However, there were only a few sounds.

Ye Jian didn't shift her gaze away from the scope and joined the conversation. "It matches Q King's combat style. Over."

There was another goal. Where was it?

After she finished speaking, Ye Jian inspected the entire area that she was in charge of. She first used the system mode from left to right and then from right to left to quickly cover the entire area so that she wouldn't leave any places behind.

After confirming that there were no problems, she did a thorough scan again. She focused on dividing the range of her sniper rifle. Starting from her defense line, she split the entire area into three sections: left, middle, and right. Every section was scanned to a depth of about 55 yards.

Chapter 1577: Terrifying Strength

Whether she had seen the Snow Region Brigade or not, in Ye Jian's heart, they were like towering snow mountains that were hard to cross. Their capabilities were the same.

To be honest, it was more exciting than fighting alongside them.

Ye Jian held the butt of the sniper rifle. Her beautiful face was hidden in the dark. Her expression was cold and calm. After completing her first shot, she didn't immediately get up and go to the next sniper base. She didn't need to leave the base now.

The reason was simple. She was a 'hunter' and her former teammates were her prey.

Due to the quick reaction of the Snow Region Brigade's Special Forces, Ye Jian didn't pause much. She moved the sniper rifle slightly and completed a comprehensive scan.

After scanning the area, she aimed at the middle distance and surveyed the area again.

She had to be careful and complete the search. She couldn't miss any details of the locked area.

Finally, when she was about 50 meters away from her first target, she noticed something amiss. Ye Jian smiled. Her faint smile was like a red plum blooming in the snow wind. It was so beautiful that it was eye-catching. It was also frighteningly cold.

Ye Jian adjusted her aim and held her breath. She didn't shoot immediately. She needed to use the 'deviation' vision technique to shoot accurately.

At night, the part used by the eyes was different from during the day. During the day, the eyes use the middle part of the pupils. At night, they used the outer part of the pupils. Only by deviating from the center could she complete her shot.

About 5.2 inches away from the observation target center, Ye Jian didn't hesitate anymore and pulled the trigger.

Bang!

Gunshots sounded. The seabirds that finally returned to their nests were frightened again. Pigeon covered his chest and pretended to fall backward and 'die.' At the same time, he contacted Xia Jinyuan. "Q King, I'm dead. White Crane finally has a companion!"

Without answering, Xia Jinyuan cut off his connection with Pigeon.

Facing the 'heartless' abandonment, Pigeon turned off his signal device and walked to White Crane, who had been squatting with his gun raised for almost an hour. The corners of his mouth moved when he saw his comrade squatting. After a while, he sighed and said, "Brother, your squatting method is a little like constipation. It's not very elegant."

White Crane, who had died an hour earlier, glanced at his comrade who was speaking rudely and said calmly, "If you resist, be strict. If you confess, be lenient. If you feel uncomfortable squatting now, Q King will feel better."

"I couldn't tell how angry he was. I contacted him before I died. He told me that it was normal for us to be killed by Azure Bird." Pigeon found a flat spot and squatted down. He told White Crane what Xia Jinyuan told him before. "...Azure Bird's sniping skills have surpassed Q King. It's normal for us to be killed."

"That year, Q King came to our unit and used a submachine gun and a sniper rifle to kill all four small teams. The sniper rifle in his hand even killed eight of our brothers. Now, he says that Azure Bird is stronger than him. White Crane, Azure Bird's strength... is really terrifying."

"Q King killed eight of our brothers in the morning. Azure Bird killed two of us in one hour at night. Q King said that her sniping skills exceeded his. That's true. Most importantly, she's younger than Q King."

Chapter 1578: Excellent Battle weather

When White Crane heard this, he was silent for a long time before saying, "Azure Bird is indeed very powerful. I've already experienced it. As long as she's willing to come to our unit, our unit will definitely have a place for her." As he spoke, White Crane's voice had a smile. "A female soldier will come to our unit. She's also a female soldier with both talent and looks. The team will be lively in the future."

"After training every day, I don't have to face old people like you anymore. I'll go back every day to look at Azure Bird. I'll feel relaxed."

Pigeon immediately retorted, "I'm tired of your old face too. I'll go back every day to look at Azure Bird and feel relaxed too."

On the other side, Xia Jinyuan, who was about to contact his two 'dead' comrades, heard this sentence. A cold look flashed past his eyes.

In less than five hours after the match started, the two of them were shot and died. They didn't reflect on themselves and even talked about things that had nothing to do with training. When did his soldiers have such bad awareness?

Azure Bird was powerful. Didn't they know that they were inferior?

"You seem to be having a good time chatting." His cold voice came from their earpieces. Pigeon and White Crane, who were chatting happily, trembled slightly when they heard Q King.

It's over. They wanted to say that they made a mistake. Now, they hoped that he wouldn't increase their punishment.

"I was going to say that the weather is going to change, so the two of you should find a shelter to hide from the rain. From the looks of it now, there's no need to hide from the rain. Continue standing properly!" Xia Jinyuan felt that he couldn't be too kind. If his heart was too good, something might happen. "It's 4:30 AM now. Stand until 5:30 AM. Is there a problem?"

Realizing that they had made a mistake, the two of them immediately replied, "No!"

"Very good! Raise your guns and stand in the horse stance until 5:30, and reflect properly!" Xia Jinyuan had always been ruthless when it came to combat. He didn't have his usual casualness. He always had a gauge of when to do what he should do.

If not, he wouldn't be the captain of the Snow Region Brigade or be the youngest captain in years.

The frightened seabirds returned to their nest. Black clouds seemed to be sweeping over the ink-black sky. Ye Jian and Big Prawn quickly came down from the highest point. She turned her head and looked at the sea. She frowned slightly. "The sky has changed."

Fighting in bad weather was more difficult due to the environment. It was up to their comrades to keep up.

Although it wasn't a competition of who won or lost, if they really lost, they wouldn't feel proud.

"It's very common for the sky to change at sea. It's easier for snipers to hide." She shot two members of the Snow Region Brigade in one hour and five minutes. Big Prawn almost wrote the word 'respect' on his forehead. He jumped down from the rock and leaned on the ground with one hand. He smiled at Ye Jian, revealing his white teeth that were shining with a cold light. "This kind of weather is perfect for us Water Ghosts!"

The major general of the army thought so too. When he saw the two soldiers getting shot, the major general's gaze turned dark. He asked the technician, "Who fired the shot just now?"

"Report, Group B, Azure Phoenix," the technician immediately replied. He zoomed in on the location where Ye Jian was hiding so that the leaders would know more details. "Through the measurement, the first target was 802 meters away, and the second target was 852 meters away. The sniper rifle she uses has a precision shooting range of 600 meters, with a maximum range of 3,700 meters."

Chapter 1579: It's Uncomfortable to Suffer This Loss

The major general was stunned for a moment. Did that mean that the two Special Forces soldiers he had were killed by the guns of another Special Forces soldier he sent out at the last minute?

The major general didn't know whether to laugh or cry. What was going on?

"The younger generation will surpass us in time. Azure Bird's strength is indeed astonishing." The navy commander couldn't help but feel emotional. He teased the major general again. "It looks like I should consider recruiting a group of female soldiers and then list Azure Bird as the number one recruitment talent."

The major general laughed heartily. He was wearing a military uniform. Although his face was thin and his hair was stained with the vicissitudes of time, his hale and hearty eyes were filled with dignity. The major general looked exceptionally young.

He looked at the navy commander who was teasing him and sighed. "Don't even think about it. It's definitely impossible. We waited for four to five years for this soldier. We finally groomed her into a talent. How can you take advantage?"

"Hahaha, I do want to pick up the leftovers. However, Azure Bird's intention is not here. Even if I want to pick up the leftovers, I can't."

The atmosphere in the command room had been tense all this while. The two high-ranking officers teased each other. The tense atmosphere eased a little.

It didn't last long. As the battle progressed, the two senior generals discussed the advantages and disadvantages of the two teams seriously.

The heavy rain came at 5:50 AM. The heavy rain swept the entire island with a strong wind. The trees swayed as if they were going to be uprooted.

Waves that were several meters high crashed on the shore as if there were dragons underwater that wanted to swallow the entire island.

The tornado came from the horizon of the sea. It carried the power of nature and roared like a battle. It moved from the sea to the shore and then to the island. It brought about a destructive disaster.

“J5, please answer if you hear it. J5, if you hear it, please answer!” Xia Jinyuan’s expression was tense as he called J5, who was closest to the beach. The raindrops on his face formed a line as he moved forward quickly and kept calling J5.

The storm was coming. J5 said in the channel, “The tornado is coming. Brothers, be careful.” Then, he suddenly stopped, leaving only the sound of static.

No matter how much Xia Jinyuan called, there was no sound from J5. He immediately gave an order to the channel. “J5’s situation is unknown. Sparrowhawk, Kite, fetch J5! They may have been captured or were knocked out by the waves.”

“Yes!” Two loud and clear voices were heard. Then, two black figures that were almost the same height and size appeared from somewhere. They rushed out a few meters in the pouring rain.

The competition had only started for, but it was already extremely difficult.

Three of the six members of the Snow Region Brigade were dead. One of them was missing. Xia Jinyuan stood in the rain and looked at the dark clouds in front of him. A cold smile appeared on his face.

This competition was more exciting than any exercise!

Tornadoes swept past the east and west sides of the island, bringing disaster to the island and breakfast to the Water Ghosts.

Ye Jian took a dagger to pried open the stomach of a fish and took out its internal organs. Then, she rinsed them in the rainwater and placed them in her mouth to chew. The authentic new seafood feast started.

Ye Jian picked up a piece of squid. She ate it in a more refined manner. She even cut the squid into strips before putting it in her mouth to chew. She couldn’t help but smile as she looked at the prawns she was eating.. “I’ll put a few into a sealed bag and keep them for lunch.”

Chapter 1580: Deal with One

She rested temporarily under a rock to replenish her energy. The two of them happened to be outside the tornado. After the wind passed, breakfast would be ready.

Ye Jian really grabbed a few sealed bags and cut some fish slices to store them. After wiping away the traces, she walked towards the gathering point with the prawns. She needed to gather with the main team.

The sky was already bright. They could see the dark clouds above the sea clearly. It was as if they were merging with the sea. The rainwater was woven like a net and never stopped. The leaves were making crackling sounds because of the rain. It covered up the sound of movement.

At seven in the morning, two members of the Storm Commando Brigade were assassinated and killed. Even their guns were confiscated. From the number of people, it looked like the two sides were tied again. However, from the tactical point of view, the two members were obviously killed in close combat.

The Snow Region Brigade was good at sneak attacks. Li Jinnian took the fish from Big Prawn and slowly chewed one before saying, "There's no hurry. We still have a captive member."

The captive, J5, was also eating seafood. The treatment was not bad. He didn't need to deal with it himself. Someone was feeding him.

"I'm the same as you. I don't know anything. If you catch me, based on my understanding of Q King, I can't wait for you to finish me off so that he won't be angry." J5 used to be an instructor. He was good at talking and was able to escape. He wasn't in a hurry. He could even smile and talk to them.

Ye Jian knew that J5 once escaped from danger with his mouth. Her gaze was filled with pity. He didn't understand the Demon King. He became his captive. It was difficult to escape.

Li Jinnian looked at him calmly and said to the Water Ghost who was feeding him fish, "Feed him well. Don't let Q King think that we are harsh."

There was nothing wrong with what he said but, for some reason, J5 felt a chill on his back. It was as if he was being stared at by a beast. He felt a sense of danger.

The visibility was very low due to the weather, but to the Water Ghosts, this was nothing. After landing, they changed into their jungle camouflage combat uniforms. They knew that there was danger ahead, but they were still fearless and continued moving forward.

Two scouts sent out a message: 'There was movement in an abandoned building. Demon King, please instruct us.'

This news invigorated the members of the Storm Commando Brigade. Needless to say, this was definitely their target!

"Give the order. Order the Storm Commando Brigade to take down the occupied building before noon."

The command center issued the command of the navy commander. The members of the Storm Commando Brigade, who had received the order, had wolf-like eyes in their originally calm eyes. They all stared at the Demon King. J5's expression couldn't help but change.

The Water Ghosts were going to start a war!

Without a military map or a combat map, Li Jinnian relied on the information of the scout to quickly arrange his combat tactics. J5, who was listening by the side, gradually found it difficult to stand properly. This Demon King's combat command ability was on par with Q King's!

They were all trying to strangle him!

They had been training together for so long. It wasn't that they didn't know the Demon King's strength. They only knew how powerful the Demon King was when they saw his combat command ability.

"Sniper, I don't need you to shoot too many targets. Open up an opening for me!" Li Jinnian held a rock in his hand and used it as his target building. He held a branch in his hand and started deploying. "The three of you complete the explosions and block their path of retreat. Commando, cover them. If someone comes out, kill."
