

BOOT CAMP 1591

Chapter 1591: Young Man, Courage

“Then I’ll be the second one.” Kite opened his mouth.” Long Eagle is more cowardly than me. I’ll cheer him up from the back so that he won’t faint from fright. No comrades will come out to drag him back to the team.”

J5, who was sitting cross-legged, looked at the two people who spoke. The twins in the team had a chemistry of 98% and above. There was also the legendary telepathy. The two of them were not to be trifled with. One of them attacked while the other defended perfectly.

At the same time, they liked challenging difficult things.

Yesterday, the two brothers didn’t see Ye Jian’s firepower. They only heard their comrades discussing one after another. Now, it was normal to arouse their desire to fight.

J5 smiled and said, “Young man, you’re brave! You two can be the vanguard. We won’t have a problem.” This would allow them to witness Azure Bird’s strength. He believed that their expressions would be interesting.

Just like when he saw Azure Bird’s ability in the past, he didn’t believe that she was a student. He didn’t believe that... a student was so powerful!

“Take care, brother.” Pigeon nodded at the two of them and gave them his blessings.

White Crane, T6, V8, and even the quiet G3 and K7 sent their blessings.

Xia Jinyuan had no objections either. “Sure, let’s do it!” He was afraid that the two brothers would go back on their words.

Besides their personalities, their looks, temperament, and height were all very similar. The twins looked at each other and a bad feeling flashed past their hearts.

... Did they do something they shouldn’t? Did they take the initiative to do something Pigeon and the rest didn’t want to do?

Although they had a bad feeling about this, things had already been decided. There was no need to think about it anymore.

They looked at each other again and nodded at Xia Jinyuan, indicating that they were fine.

Major Xia nodded at them seriously. “All the best, brother! I have high hopes for you!” Their courage was commendable. He hoped that their faces wouldn’t be too ugly when the time came.

After that, Xia Jinyuan finished talking about the competition tomorrow, the next two days, and the fourth and fifth days. Then, he made close arrangements and only dismissed them after midnight.

Li Jinnian was almost always making arrangements. The battle between Kings was exciting because they had arranged the entire battle carefully.

However, the battlefield was ever-changing. No matter how good your arrangements were, there would always be some things that deviated from your plans. At this moment, it would depend on the command ability of the entire team.

Li Jinnian and Xia Jinyuan were commanders. They were in charge of every competition. The senior generals could see their capabilities clearly.

“Battle in the mountains, the territory of the Snow Region Brigade. This time, we’re not looking at whether the Storm Commando Brigade can defeat the Snow Region Brigade. We’re looking at the Demon King’s command and adaptability on the battlefield.” Lieutenant General Xia’s figure appeared on the big screen. His voice was clear and powerful as he conveyed the orders from the military. “This newly formed sea Special Forces unit has been established for a year and a half. We can be harsh on their training normally, but we can’t use their results to negate their results.”

“The military has seen the efforts of the Storm Commando Brigade. We have high hopes for them.. This match is about discovering and solving problems, not harsh criticism.”

Chapter 1592: Search Shooting

Standing in front of the big screen, Commander Dong saluted and replied with a serious expression, “Yes! We will listen to the military’s arrangements!”

The military wasn’t the only one who had high hopes for the two special forces in the competition next year. The highest-ranking leader in the Great Hall was the same. Commander Xia conveyed the highest-ranking leader’s advice. “Since there’s a start, there must be a good ending.”

“We trained hard in the country and realized our shortcomings. We used 120% of our determination to turn our shortcomings into our strengths. Then, we used 120% of our willpower to carry the responsibility that a soldier should bear! We trained hard for the competition next year. In the end, we brought honor to our country and returned in glory!”

“Yes!” All the generals and soldiers in the command center stood at attention and saluted. They replied to the military in a loud and confident voice.

The two teams carrying the responsibility had already set off with 25 kilograms of equipment on their backs. At 3:00 AM, an order from the command center came through the radio. The match started. The two teams quickly entered the competition area and started fighting.

At six o’clock in the morning, the Water Ghosts of the Storm Commando Brigade, who were crawling in the deep withered grass, stared at the pine forest in front of them without blinking. Three minutes later, four figures hunched their backs and approached the forest with the withered grass as cover.

Two of them scouted and two of them were on guard. After confirming that there were no problems at the edge of the forest, they sent a signal to their team members. The Water Ghosts in the bushes advanced quickly as a unit.

The ground beneath their feet was covered with thick and soft pine needles. Due to the autumn rain last night, the entire forest was filled with the smell of dampness and decay.

“Advance!”

Someone said in a low voice. Several figures, one on guard and the other on a rapid march, bent their legs slightly and leaned forward slightly. Holding their guns with both hands, they entered the depths of the pine forest as if they were ready to shoot at any moment.

In the forest, there was mist. It wasn't thick. One could see the 'mist belt' with the naked eye. It was like a handkerchief on the arm of a fairy. It was faint and illusionary.

Everyone was wearing forest combat uniforms. The color was similar to the color of the mountains and forests. It had a good camouflage function. The two of them formed a team and advanced forward. It was a strategy that didn't miss out on anything. Once the other side was taken as a target, the other members would be able to react quickly.

The birds on the branches chirped and flapped their small wings as they passed through the thick pine leaves. In the blink of an eye, they landed on another tree.

The Water Ghosts that were moving forward silently suddenly reacted. Some quickly went behind the trees, some squatted quickly, some laid down directly, and some pushed their elbows forward and quickly found the right position.

“Bang, bang, bang!” Countless gunshots broke the silence. The bullets that passed through the air instantly made the atmosphere in the forest especially tense. The Water Ghosts had already entered combat mode. When the gunshots sounded, the entire team reacted in unison and started fighting.

“Everyone, complete your search!” Li Jinnian's cold voice came from the earpieces. He and Ye Jian completed the first round of clearing and sweeping. They were already moving forward quickly. “Clear the obstacles, move forward!”

As his voice was heard, the hidden Water Ghosts moved forward quickly. At the same time, they moved their rifles and aimed at their targets. They pulled the trigger and completed their search!

Once the obstacles in front were cleared, all the members could not stay still any longer. They needed to move forward quickly and shoot.

Bang! Bang! Bang!

Chapter 1593: Unbelievable Stats

Gunshots were heard continuously in the pine forest. Every figure was moving forward vigorously. The bullets they fired all hit their targets. Everyone was tense. If they made a mistake, their results would be zero.

This was a test of the eyesight, vision, judgment, and reaction of all the members. Only by achieving excellence in all aspects could they pass the test safely.

“Demon King, four points. Two shooting points!” Ye Jian half-squatted. She completed two shooting points in an instant.

The shooting points were all prepared by the local forces in advance. Then, they went through the computer control. When they entered the infrared surveillance system, the control system sounded an alarm. Everyone immediately entered the ‘search shot.’

This was similar to a ‘hostage target.’ The difference was that they had to move forward and the search area was bigger.

Li Jinnian quickly turned his body. His gaze was so cold and sharp that it was like an icicle that was shining coldly in the winter sun. He fired quickly and cooperated with Ye Jian to complete the two shooting points.

“Clear.” Li Jinnian leaned closer to Ye Jian. The two of them moved forward quickly.

The pine forest was two kilometers in length. Every distance, a new target would appear for the advancing Water Ghosts to complete their search. When it was Ye Jian’s turn to move forward, Li Jinnian discovered a problem.

Her shooting was very fast!

At least 0.003 seconds faster!

What did 0.003 seconds mean? Her bullet completed the first and second shooting.

It was twice as fast as him!

If this was a battlefield, she would have twice the time to complete her mission. She would be able to finish her mission before the other party could react.

Even though Li Jinnian was calm, he was a little affected by this speed.

In the command center, the technician was already analyzing Ye Jian’s shooting speed, the number of bullets she fired, and her accuracy.

On the big screen, the female soldier’s face was as cold as the male soldiers, and her gaze even more murderous.

When the three sets of data came out, the technician thought that he had made a mistake. To be cautious, he calculated again and came up with a result that was his first calculation. The technician took a deep breath.

“What a terrifying shooting speed,” he muttered softly and passed the data forward. He was in charge of sending it to the generals in the command center.

The team members who entered the competition were full of victory. The navy commander, who was watching, stared at the big screen intently. Although his expression was serious, his eyes were filled with trust for his soldiers.

Because of Demon King Li's ability, he believed in the entire team's ability.

When the data was handed over, the navy commander took a rough look. The expression in his eyes changed drastically. As for his face, it remained stern. There weren't many changes.

He leaned over slightly and whispered to the major general who was watching the Snow Region Brigade. "Old Yang, look at this data and see who it belongs to."

Her voice was a little low. There was a hint of excitement in it.

The navy commander wanted to keep him in suspense, but the major general took the data and smiled. "Old Dong, I don't need to guess. I know whose data it is."

"You know?" The navy commander moved again. There was disbelief in his eyes.

The suspected major general smiled. "Of course I know.. If not, why do you think I spent so much effort to groom her? I watched her grow up."

Chapter 1594: I'll Only Know If She's Willing After Trying

The major general's words forced the navy commander to face reality... Old Yang was right. The army watched Ye Jian grow up.

Last time, in order to allow her to enter the Storm Commando Brigade and train with Jinnian, Old Yang sent Ye Jian's personal information. This information was classified as a military secret. After he finished reading it, the system automatically destroyed it.

In the past, Ye Jian was still a middle school student, but she was discovered by the army. The army groomed her the whole way.

Now, he wanted to keep Ye Jian in the navy. Hahaha, Old Yang was so angry that he left. That was because he had good manners.

"Thank you, the army unit, for putting in so much effort to groom her. That's why I was able to see such an outstanding female soldier. This data..." The navy commander smiled and sighed. "It's really astonishing."

He smiled for this female soldier and sighed for this female soldier... because she wasn't a member of the navy.

"When I knew how fast she was shooting, her reaction was almost the same as yours. It was very shocking and a little suspicious. I felt that it was impossible for her to shoot so quickly." The major general didn't mind that the navy commander wanted to poach Ye Jian. Everyone who saw her knew how outstanding Ye Jian was. It was normal that someone wanted to poach her.

Xia Jinyuan discovered how fast she was shooting when she was carrying out a mission in Pakistan. The moment the mission ended, he reported it to the military. At that time, he was shocked too. He felt that it was impossible.

When she came back from Pakistan and he saw the footage sent by the military unit, he finally believed that the little girl was capable.

“I saw her results and her improvement.” The major general compared them with another set of data and nodded in satisfaction. “Not bad, she has improved. Her speed has increased, but her accuracy is still 100%. Very good, her school life didn’t let her fall behind.”

The navy commander smiled. “Old Yang, I want to snatch her from you even more now. Why don’t we give it a try and see if she’s willing to stay?” He was such a good soldier but he still brought her out for other people to see... It really made people want to poach her!

“Hahaha, that’s not right, Old Dong.” The major general laughed even louder. He handed the data back to the navy commander and smiled as he replied, “It’s useless even if you try.”

“We will know if it’s useful after we try it. I feel that Ye Jian is not bad if she stays in the navy. Her future will be bright too.” The navy commander really wanted to try it this time. Hence, as he spoke, his expression was especially serious. “Old Yang, I’m not joking with you. I do have such plans.”

The major general’s smile didn’t change. “Sure. As long as she’s willing to come to your navy, I won’t stop her. However, Old Dong, let’s agree that we can only use emotions and reason. We can’t use the power in our hands to force the young lady.”

As long as he agreed, everything would be fine! Although he had the intention of poaching, it wasn’t his style to let a commander do things secretly.

Hearing that, the navy commander replied seriously, “Then you can rest assured. You should know my character and way of doing things. It’s impossible to use force to intimidate someone into joining the navy. As long as I know that she doesn’t have any intention of entering the navy, I will definitely not use my power to suppress her.”

If he used his ‘power’ to suppress her in the military, something big would definitely happen.

Ye Jian finished her ‘Search Shooting’ and took a break with her comrades. They cleaned up their equipment and filled their magazines.

Chapter 1595: Ye Jian, a Gun Practitioner

With a click, Li Jinnian reloaded the magazine. He raised his head and saw Ye Jian disassembling the magazine. Beside her was a male soldier from Fuzhou with the codename ‘Big Salmon.’

He was saying to Ye Jian, “It was stuck. I almost missed the bullet.”

“There are many reasons why the bullet casing is stuck. Some of them are deformed due to the huge reaction force and can’t form a ‘casing’ normally. Some of them might be stuck because the first bullet was thrown in the wrong direction. Although this is rare, this is the problem with the gun’s casing.” UncleGen taught Ye Jian how to repair the gun, unload the gun, and inspect the barrel.

Now, what she said to her comrades was taught by Uncle Gen. From the day she touched the gun, Uncle Gen taught Ye Jian how to recognize guns, identify guns, measure guns, and unload them. He only started teaching her when she reached a certain level and could assemble all kinds of guns with her eyes closed.

She took off the gun barrel and unloaded the barrel. Then, she released the small parts one by one, like a rebound force block, and then the front and back of the spring rail... Then, she released the automatic brake iron and took down the decelerator. Then, she found the crux of the problem.

Big Salmon was dumbfounded.

“Come, look at this. There’s no way to repair the shell. Let’s return the needle below to its original position. The shell will return to its original position automatically.” Ye Jian used the empty cartridge to move the thin, sharp, and extremely short needle. With a soft ‘dang’ sound, the shell returned to its original position.

Ye Jian smiled at him. Her face, which was covered with paint, was so gentle that it seemed to have a jade-like luster. “It’s fixed.”

“...She even knows how to fix guns.” Big Salmon stuttered. In the beginning, he really thought that she was joking. He didn’t expect her to really know how to fix guns.

“I know a little. I don’t need to use big tools to fix it.” Since the bad parts had been fixed, she needed to reassemble the gun. After Ye Jian finished speaking, she had already installed the three parts. Her hand speed was so fast that Big Salmon’s eyelids were twitching.

Li Jinnian kept looking at her. He watched as she took over Big Salmon’s gun. As she spoke, she dismantled the gun skillfully. Then, she accurately found the problem and finished loading the gun in less than three minutes.

He lowered his head and looked at the time. It took... six minutes!

Ye Jian returned the rifle that had been repaired and said, “Don’t worry about getting stuck again. If there are any more problems, you can look for me.”

“You know how to fix a gun too?” Li Jinnian’s voice came from the side. When Ye Jian looked over, the tall and slender man was already sitting beside her. The paint was so thick that Ye Jian couldn’t see his face clearly. Only his sharp and cold eyes made Ye Jian feel familiar.

After changing into his combat uniform, Demon King Li looked even more imposing than usual. With heavy oil paint on his face, he seemed to have become another person.

Ye Jian, who had been hugging her assault rifle, nodded with a smile. "Normal problems can be solved. Some problems can be solved as long as you find them. The harder ones will take some time."

"The army trained you meticulously." Li Jinnian nodded slightly. Then, he said something that stunned Ye Jian.

"Join the navy?" Ye Jian was a little surprised. "Did the commander say that?"

Chapter 1596: Don't Fight with Me

That's right! Li Jinnian was referring to this.

He didn't feel that there was anything to be surprised about. He didn't feel that it was difficult to answer this question either. However, he was surprised when he saw that Ye Jian was a little surprised. "Are you very surprised?"

Of course, she was surprised. She was sent by the army to learn and train. Didn't the navy commander know about it? Why did he want her to join the navy?

"I'm a little surprised, especially when I heard that you wanted me to join the navy." Ye Jian laughed. She couldn't guess what the Demon King was thinking. He seemed to have a deep personality and was sometimes very straightforward. For instance, shouldn't he have asked her a little more tactfully?

Li Jinnian seemed to have guessed what Ye Jian was thinking. He looked at Ye Jian with a cold and indifferent gaze. He didn't dodge and replied to her simply, "You're very outstanding. That's why the navy commander wants you to stay. Isn't that normal?"

"..." Ye Jian was speechless. Was this normal? Was he trying to poach her?

"You can consider it. Whether you want to stay or not, you just need to tell me your answer." The Demon King's words were as concise as always. He didn't elaborate and just expressed his intention clearly.

As for why he wasn't tactful, the reason was simple. He didn't feel that Ye Jian would stay. She would tell him firmly that she wouldn't stay. There was no need to think about it.

He had just counted to two in his heart when he heard Ye Jian reply with a smile, "Thank you for your kind intentions, but I'm really sorry. I want to stay in the army and become a Special Forces soldier."

As he thought, there was no need to consider it.

"Okay, I understand. There are still two minutes of rest. Pack up your equipment." Li Jinnian got up after receiving a reply. After taking two steps, he turned and looked at Ye Jian, who was tidying up her equipment. "I believe no matter which unit or position you are in, you will be an outstanding soldier."

Ye Jian was like a ball of light wherever she went. She could illuminate and warm other people. He had no reason to believe that she wouldn't become an outstanding soldier.

A female soldier who could shoot faster than other people would definitely have great achievements. She would walk further and become a revered rose on the military path.

After a short rest, they started their journey again. The Storm Commando Brigade was marching at the fastest speed. They needed to complete all the missions first and then secretly 'hunt' the members of the Snow Region Brigade.

They wanted to move forward, and so did Xia Jinyuan.

"The final meeting point will be around this mountain lake. Demon King and the rest are good at swimming. There will definitely be ambushes around this mountain lake. J5, bring a team to flank them from the back and trap them around the mountain lake. The rest will catch one and kill one." Xia Jinyuan was still eating the compressed biscuits that were used as breakfast. He needed to hurry up and make his next move.

J5 nodded, indicating that he was fine. He thought for a moment and said, "I'll leave Azure Bird to you."

"Look at you." T6 glanced at him and said to Xia Jinyuan, "I'm here to look for Azure Bird. Leave the rest to the scouts!"

Xia Jinyuan didn't mind Ye Jian using his team members as practice. "Sure. This time, I'll hand over Azure Bird and Demon King to you."

Chapter 1597: A Blushing Conversation

No one from the Snow Region Brigade fought with Xia Jinyuan for his target. The rest of the people could just watch from the side the battle between both Kings.

The Demon King's comprehensive ability was powerful. Only Q King could be compared to him.

After completing the 'search and shooting' and knowing the next step of their deployment, the Snow Region Brigade rested for ten minutes before setting off. On the other side, J5 walked to Xia Jinyuan and asked, "Azure Bird is very fast. Do you think that after the competition ends, the navy will have the thought of poaching her?"

As an officer, J5 had always thought far ahead. Now, when he thought that Ye Jian might be targeted by the navy, he felt a little uneasy.

Xia Jinyuan was tidying up the magazine. Hearing that, he smiled and said, "It's a little late for you to worry. She has already been training with Demon King Li's Water Ghosts for ten days. Yesterday, they even fought together. The navy already has a certain understanding of her strength... It's normal for them to want to poach her."

His Little Fox was a ball of light wherever she went. It was normal for a little fox like her to be targeted by the navy.

J5 got anxious when he heard this. He remembered the details of the two people changing guns in the 'search and shooting' mission. His expression changed. He stared at Xia Jinyuan and asked slowly, "If that's the case, we need to ask the major general intervene. We can't let the navy commander snatch her!"

Xia Jinyuan raised his eyebrows as he looked at J5, who had opposed his relationship with Ye Jian several times. He said deliberately, "If Azure Bird really goes to the navy, you should be the happiest. After all, you were afraid that something would happen between us."

"That's because you liked her when she was in junior high! Of course, I was afraid that something would happen between you two!" J5 knew that he did it on purpose. He glared and said, "The situation is different now. Azure Bird is a university student now. She's already an adult. Why should I be afraid that something will happen? Besides the fact that you can't get married, you can even sleep with her!"

...

J5 was sometimes very tough when he spoke. Xia Jinyuan was shocked by his words. Very soon, the thick-skinned major nodded seriously. "You're right."

"...?" J5 had a questioning look on his face. "Q King, which of my words are correct?"

After loading the magazine, Xia Jinyuan smiled at J5. His handsome face was covered with thick paint but J5 could see a trace of... evilness that he had never seen before. That's right, it was evil. Even if he was wearing a combat uniform, it couldn't hide the evilness.

J5 blinked and saw the familiar face. It was as if he had seen wrongly.

"You're right." Major Xia looked at his comrade sincerely and replied seriously, "Don't worry, I won't let the navy snatch Azure Bird away. She can only be our comrade as a member of the Snow Region Brigade!"

J5 believed without a doubt that Q King loved Azure Bird very much. How could he bear to let other units snatch her away?

However, he needed to be careful.

"But we still need to be careful. The main thing is that the other party is very powerful." J5 moved closer and started sizing up Xia Jinyuan's face. He stopped at his chest and looked at his crotch. Then, he looked up again.

Xia Jinyuan hugged the gun in his arms. He smiled and said, "A real man having all the right goods.. Don't be jealous."

Chapter 1598: The Conversation Between Men

Men understood each other.

J5 sighed. "Q King, don't be too confident. Not only do you need to guard against the navy commander, but you also need to guard against the Demon King."

He raised his hand and patted Xia Jinyuan's shoulder gently. He said earnestly, "Although his expression is a little cold, his parents are not bad. Compared to Q King, he's really handsome."

He couldn't scare Xia Jinyuan.

It was undeniable that Demon King Li was indeed charismatic. However, his Little Fox wasn't fickle-minded.

He pursued her for four years to get her approval. She had interacted with Demon King Li for less than a hundred days. Could she fall in love with someone else in that short time?

Major Xia gave J5 a 'gentle' smile. "No matter how powerful Demon King is, he's just an instructor that can let Azure Bird learn new skills. No matter how handsome or outstanding he is, he's someone else's man."

He never doubted Little Fox's sincerity. He wouldn't worry about these things either. Of course, it was necessary to get jealous occasionally!

This young major was always confident. He was the same when it came to love.

Should he do the same?

J5 couldn't help but purse his lips. After a while, he nodded. "You're right. No matter how outstanding Demon King is, he's destined to belong to another woman."

There was a hint of sadness in his expression and a hint of melancholy in his tone. Just like Ye Jian, Xia Jinyuan didn't like to pay attention to other people's private affairs. Although he noticed J5's abnormality, he smiled calmly and said, "Yes, I believe in Azure Bird just like how she believes in me."

The more you believe, the more sincere you are. The more you work hard, the more the reward.

It was time to rest. The members of the Snow Region Brigade moved on time. A 'bloody' hunting mission was waiting in front of them. Only by killing the other party could they 'live.' A battle was a war too.

As long as there was a war, there would be a slaughter, and there would be 'death.'

As soldiers, they had no choice in the face of war. Since they chose to live, their enemies must die.

It was still drizzling at eight in the morning. The members of the two teams, who were carrying 25 kilograms of equipment, took a short rest before setting off again.

At twelve, the Storm Commando Brigade, who were carrying 25 kilograms of heavy equipment, walked through a mountain stream and walked past a piece of barren land. It wasn't very high, but the area around it was covered in gray and black scenery due to the fire. Mountains made of fir wood appeared in front of everyone.

"I feel that it's about to start." The scout's voice came from the earpiece. They were in charge of scouting and had extremely sharp judgment. "There was a heavy fire in the mountain. The fir tree inside broke and fell."

Li Jinnian didn't let his team members continue moving forward. At this moment, they had already walked for four hours. Their stamina had obviously decreased. If they entered the mountain directly, they would be dragged down due to their stamina.

He immediately gave an order. "Rest for twenty minutes to replenish your energy."

Ye Jian heaved a sigh of relief when she heard that. She had been walking while carrying 25 kilograms of combat equipment. She felt that her stamina had dropped.

After all, they had been walking for four hours without rest.

Chapter 1599: The Most Outstanding Her

Now, she had twenty minutes to adjust. It was enough for her to regain some stamina.

However, before she could put down her equipment, Li Jinnian's indifferent voice came from the earpiece. "Azure Bird, come and see me in ten minutes."

After their discussion, Li Jinnian continued to keep in contact with Ye Jian. After seeing Ye Jian's shooting speed, he placed her in the assault and sniping position. She could adjust her position according to the combat situation.

She calculated her shooting time and how long it would take for him to shoot every bullet. When he changed his gun, she gave him the gun that she had already loaded.

This was their first cooperation, but they were like comrades who had fought together for many years. She exchanged guns, adjusted her positions, and finished shooting. Everything was done perfectly. There were almost no mistakes.

Demon King Li felt that it was a pleasure to fight alongside such a soldier.

Ye Jian, who was preparing to rest, immediately replied, "I'm coming over now." It was better to go over now than ten minutes later.

The distance was less than one meter. Ye Jian bent over and saw him opening the combat map. Under the helmet, he was frowning.

"Come over and take a look. Tell me your suggestion." Li Jinnian raised his head and looked at her. According to the scouts' feedback, he said in a low voice, "The target might be underway. You and I will attack in front and destroy a portion of the targets first."

His slender fingers pointed at the area marked with a red symbol on the map. Li Jinnian narrowed his eyes and said in a cold voice, "From here, we will enter the battle zone. We will arrive at around six tonight. If we arrive earlier than the Snow Region Brigade, it will be more advantageous for us to enter the battlefield."

“There is an inner lake in the battle area. Water assault is our team’s strength. However, since Q King knows about it, he will definitely arrange for snipers around the inner lake. Once our team members surface, they will die.”

“Abandon the inner lake and save the time on the detour. The time will be distributed evenly.”

She relied on her time to gain the upper hand.

Ye Jian nodded. “The Snow Region Brigade is good at assassinations. Once they take over the combat area, we will only be on the move. We can only occupy the advantageous terrain first and reduce the number of casualties to a certain extent.”

She didn’t say that they could avoid casualties because that was impossible.

“Your analysis is correct. That’s why we need to shorten our march time. There are still 15 minutes left. Let’s rest for a while.” Li Jinnian put away the map and asked the scout in front, “How many routes have you found? Are there three?”

The radio in his earpiece crackled. Two minutes later, the scout’s voice was heard. “There are only two. One is near the edge of the forest, and the other is abandoned.”

There were only two places where the fire wasn’t serious. Under the cover of trees and withered grass, they entered the pitch-black forest.

The forest that the fire had burned was so quiet that it was frightening. It shouldn’t have been long since it was burnt. After entering, they could still smell the smoke from the fire.

Some of the low bushes were burnt to ashes. The shorter trees were burnt until only their protruding trunks were left. Their mood seemed to be much heavier.

Chapter 1600: They’re All Special Forces

It was as quiet as death on the mountain. The fire didn’t just burn the trees. It also took away the vitality of this place. Scorched and withered trees were everywhere. When the combat boots stepped on them, the soles of their feet made creaking sounds.

A burnt pheasant was pressed under a bush. Only two feathers were still bright.

Ye Jian and the rest were currently in a certain mountain forest in Sichuan Province. Their location was at the border between the two provinces. There were many resources in the forest. The wild chicken that was burnt by the fire was the precious white-bellied pheasant protected by the country.

Not only were there precious pheasants that were burnt to death but there were also small animals like rabbits. It was obvious how fierce the fire was.

Hiding behind a withered tree, Ye Jian raised her head and looked at a small snake that was burnt until only its tail was left. Her gaze passed through the side of the snake and landed somewhere.

"I have discovered a target. Be careful," she said in a low voice. At the same time, she aimed and fired her first shot of the 'hostage target'!

Bang!

All the members heard the muffled sound of gunshots. The forest, which was originally dead silent, suddenly became more murderous.

The suppressed space, the smell of burning charcoal, and the gunshots were filled with killing intent. The figures moving behind the scorched trees made the atmosphere in the forest even more tense and suffocating.

The soldier who was shot touched his chest and looked a little stunned.

He lowered his head and looked at the blank cartridge beside his feet. The soldier gritted his teeth angrily and picked up the blank cartridge. He was so angry he wanted to vomit blood!

It wasn't easy for him to be selected as the 'bad guy' who pretended to be a hostage during the competition between two top special forces. In the end, he was shot before he could see the mysterious Special Forces soldier!

"Squad leader, one of our brothers, died. I feel so indignant. He was killed in one shot." A soldier squatted under a pitch-black fir tree that could still grow. He contacted his squad leader in a low voice. "I'm the closest to him. I don't even know where the bullet came from."

The squad leader scolded him and consoled him, "It's normal not to know. They are all Special Forces soldiers. If we know where they are, they shouldn't create trouble. Fine, why are you still frustrated? Wait for them to come and collect the hostages. Keep a close eye on them. Don't embarrass our military unit."

The hostages were disguised soldiers and paper targets.

Not only did Ye Jian and the rest need to complete the hostage shooting, but they also needed to take back the hostage targets. This way, the chances of them being exposed would be much higher. Those soldiers who were disguised could discover them and shoot at them.

The soldier closest to the 'dead' brother blinked. He wanted to answer his squad leader, but he couldn't!

"Don't move, brother." A soft voice came from behind him. Then, he felt something cold and hard pressing against his neck. It was the feeling of a dagger.

A Special Forces soldier caught him from behind.

The Special Forces soldier turned off the earpiece, and the communication was cut off. The Special Forces soldier smiled and said, "I won't waste the blank cartridge. I'm afraid that I will hurt you if I shoot you at a close distance. Anyway, you know that I have to slit your throat."
