

BOOT CAMP 1631

Chapter 1631: Let the Male Soldiers Experience More

Everyone was still pushing forward and aiming. She didn't even take a step and completed her first bullet at 300 meters!

Now, the rifles they were carrying were developed by the country. Their first appearance was when they came back from Harbour City. The initial speed of the bullets was 930 meters per second. The combat shooting speed was 40 points per second. The shooting range was 375 meters. The effective range was 400 meters. The maximum range was 600 meters.

The combat shooting speed was 40 points. If it were a blind shot, the firepower would be amazing. However, when the range was 300 meters, and there was no aiming device, you had to rely on your vision to complete an accurate shooting. At least you had to have a preliminary aiming action. You still had to raise the gun and shoot two bullets like her!

Did she aim? Did she aim just now?

No!

She didn't even complete her aiming, and she completed her shooting accurately!

Li Jinnian caught up with her speed quickly. The two of them pushed forward and fired quickly!

This was a time-limit shooting. The rifle in his hand was a conductive automatic. The head of the machine was turned and locked. It could fire single shots continuously. The shooting speed was 100 shots per minute. The shooting speed of single shots was 40 shots per minute.

They were shooting at the speed of a single bullet. Their supply cartridges were 70 bullets. They still needed to exchange their rifles. They needed to be fast and sharp to complete the 300-meter target shooting within the time limit of four minutes!

The magazine could hold seventy rounds which needed to be changed twice, and the rule was that the gun must be changed when in the 50 round. This rule was extremely harsh!

However, the training of a Special Forces soldier was harsh. If you couldn't complete the mission, you couldn't be considered a Special Forces soldier. If you wanted to become an outstanding Special Forces soldier, you had no choice!

Ye Jian would face the harsh training that allowed her to escape unscathed on the battlefield in the future. She would face all kinds of seemingly impossible missions. Besides this, she had no other choice.

"Completed 40 shots! Demon King, it's your turn!" Ye Jian reminded Li Jinnian beside her. Then, she completed 50 shots and quickly changed her magazine. With a clicking sound, the magazine was loaded. Li Jinnian completed 50 shots and took the rifle from Ye Jian on time!

The entire process didn't stop at all. The two of them worked together like comrades for many years. Their cooperation was flawless.

Ye Jian took over the automatic rifle in his hand and changed its magazine again. She completed the action of resisting the recoil and correcting the rifle. Then, she caught up with Li Jinnian's shooting speed and number of bullets.

In the command center, the technicians passed the data of the two of them changing their ammunition to the high-ranking officers of the two armies. The major general of the army took the data and looked at it. His furrowed brows relaxed a little. He turned sideways and said to the navy commander, "Not bad. There's only a 0.5-second interval in between. Complete control to complete the shooting within ten seconds."

"I didn't expect the two of them to be so cooperative. They can even calculate the number of bullets fired by each other to achieve a coherent shooting." The smile on the navy commander's face was extraordinarily deep, filled with great satisfaction.

Looking at the comprehensive data of the two of them, the navy commander smiled and teased, "They are perfect like lovers. It's to the point of having telepathy! The interval of 0.5 seconds is faster than changing the magazine. Unfortunately, the Demon King's first bullet deviated because he needed to correct his actions after changing the gun.. Otherwise, it would have been perfect."

Chapter 1632: Don't Be Too Warm

The major general ignored the first half of the navy commander's sentence and only heard the second half. He nodded and said, "It's normal for there to be a deviation when changing guns. However, it's not bad since he can maintain his shooting speed and accuracy."

Even so, the navy commander felt a little regretful.

After thinking for a moment, he smiled and sighed. "But he's still a little lacking when compared to Azure Bird. I'll have to ask Azure Bird to teach him in the future. It's good for young people to interact more and promote their relationships. The two of them are outstanding soldiers. They must have many common topics to talk about. They won't be awkward when they're together. They can help each other normally. It's a good thing if they can be together."

Seeing how outstanding Ye Jian was, the navy commander couldn't bear to let her go. Last time, he asked Jinnian to ask her if she had any intention of staying in the navy. Until now, he hadn't received any reply. After this mission ended, he might as well ask her personally.

The major general saw that the navy commander was trying to matchmake the two of them. He felt that he couldn't continue the conversation.

He reminded him directly, "Old Dong, you can't eat hot tofu if you're anxious. The two young people don't even have their eight characters. Aren't you a little too enthusiastic? Don't be picky and end up embarrassing the two young people."

This Old Dong really knew how to do things smoothly. Many single men in the Snow Region Brigade had not taken care of their relationship. Xia Jinyuan was one of them. If they really wanted to matchmake Ye Jian, Xia Jinyuan would have to be the first. Li Jinnian would have to be at the back.

The navy commander smiled but didn't say anything. He needed to expose this. If he didn't, with Jinnian's cold personality, would he take the initiative to woo Ye Jian?

That was impossible.

As long as she set him on fire, she would force him to have no way out.

Besides, he wasn't a hot-headed person. He could tell that Jinnian had feelings for Ye Jian because he admired her. Of course, this was a matter of mutual consent. If Ye Jian weren't interested, he wouldn't force her to accept Jinnian.

The major general could only smile and shake his head when he saw this. However, Old Dong reminded him that Ye Jian was indeed likable. If anyone in the military unit liked her, he wouldn't interfere.

"Let's not discuss personal feelings today. If there's a chance later, we will ask the person involved. I will definitely not mention it in front of Azure Bird. I will only secretly remind the man." After the navy commander finished speaking, he placed the data in his hand on the table and carefully studied Ye Jian's data.

The major general didn't know whether to laugh or cry. He was the one who brought up his personal feelings first. Now, he wasn't going to discuss it anymore.

There was indeed nothing worth discussing about this matter. If they have feelings and they're willing, they can hit it off immediately. If there are no feelings, it's useless to matchmake you.

Ye Jian had known Xia Jinyuan for many years. When it came to personal feelings, he felt that the two of them were more suitable.

As for Li Jinnian, although he was outstanding, he wasn't suitable for Ye Jian.

There was no reason. His instincts told him so.

The navy commander looked at him and pondered for a moment. He looked up and asked the major general, "Old Yang, Azure Bird changed her magazine very quickly. Her speed is unbelievable. Have you seen how she changes her magazine?"

Chapter 1633: New Records

"This..." The major general recalled for a moment and shook his head. "Now that I think about it, I didn't really look at how Ye Jian changed her magazine. Her data is really unbelievable. Did you notice a problem..."

Picking up a pencil on the table, the navy general drew a line in the data that Ye Jian had completed the 49th bullet and the 50th bullet. "When she was preparing to change her magazine, she unloaded the

empty magazine and installed the new one. If she didn't exchange guns with the Demon King, the 51st bullet and the 50th bullet would be connected. She changed her magazine in the middle so that she could complete the 50th bullet in one go!"

"A soldier who is very familiar with firearms will change the magazine one-handed when there are only three to four bullets in the first magazine. This way, you won't even need to pull the bolt with your left hand, and the firepower will continue."

"But that's not the case for Azure Bird. She started preparing in the 49th round. When 50 rounds of bullets were fired, the magazine was already filled. This is the most special thing about her. You can see that she's already proficient in firearms."

"If she can finish 100 shots within 300 meters and not miss a single bullet... I think she can break the shooting record in the military unit."

Ye Jian could indeed set a new record. It wasn't time for her to finish her shooting. She gave Li Jinnian an 'OK' sign and carried her assault rifle to the side to rest.

After firing 100 rounds, her shoulders were sore from the recoil. She waved her hand and walked to the designated area to relax her tense muscles.

Bang, bang, bang. Gunshots were heard continuously in the forest. The 44 members needed to fire 4,400 bullets. It was like a huge firefight. If civilians heard that sound, they would faint from fright.

To not disturb the civilians, the military chose the fourth combat area close to the inside. There was no one around for hundreds of kilometers.

Four-thousand bullets were being fired. Even if she didn't see it with her own eyes, she would feel that it was a magnificent scene just by thinking about it. As for her, her blood was still boiling as she listened to the continuous sound of bullets.

After shooting, Xia Jinyuan walked over with his gun on his back. He couldn't help but laugh when he saw his girlfriend staring at the front with her eyes lit up.

Little Fox was definitely a hot-blooded soldier. She was even fiercer than the male soldiers! This could be seen from the fact that she wasn't afraid when she heard the gunshots.

"Still watching. One hundred bullets didn't satisfy you?"

Ye Jian, who felt that she was still shooting, immediately turned her head when she heard the sound of the bullet. She saw Xia Jinyuan walking towards her with a calm gait and a faint smile on his handsome face. Ye Jian smiled and replied, "It's satisfying. I'm still reminiscing about it."

When he walked closer, Ye Jian narrowed her eyes and said softly, "But I still feel that 75 bullets are more satisfying than single shots."

This was his girlfriend, a bold girl who wasn't afraid of bullets or shells.

He raised his head and knocked her helmet lightly with his slender fingers. Major Xia gave a faint smile and said, "If you have more guts, you will be able to fly. You still want to play the drums quickly. Bear with it.. I will bring you to train next time."

Chapter 1634: That's What's Awesome

One second ago, he was lecturing her. The next second, he pampered her!

Ye Jian pursed her lips and smiled. Her eyes were bright as she looked at him. It seemed as if she was holding a handful of water from the spring. She looked exceptionally energetic. "Yes, I'll wait."

Sometimes, Major Xia really felt that his girlfriend was easy to please. Every time he went back to the capital city to play with his good-for-nothing friends, the women they brought would either ask for money or jewelry. As for his girlfriend... bullets could make her happy.

No wonder the old man said that it was his blessing to be able to catch Ye Jian. If he didn't catch this good lady, he might as well not go back to the Xia family.

The old man had sharp eyes. One look, and he could tell that the Little Fox was a good woman. As for him, there was no need to mention him. He was even more brilliant than the old man. He acted first to prevent any accidents from happening.

How good was it now? He could fight alongside her and discuss the topics they liked together. Who said that the love of a Special Forces soldier wasn't romantic?

Could the love of a Special Forces soldier be romantic?

I would never be a normal romance. It was a love that was intertwined with blood. It was a love based on trust. A love that depended on each other for life and death.

Even the topics they discussed were topics that ordinary people could not join.

Ye Jian was talking about her completion of the shooting when Xia Jinyuan smiled. "You completed the shooting thirty-one seconds in advance. It looks like you have learned Uncle Chen's move. This move will help you to maintain the firepower on the battlefield. It can reduce the time between bullets."

As he spoke, he seemed to be in deep thought. After pondering for a while, he said to Ye Jian, "Next time, you will be in charge of a lesson. You can teach. As long as you master the shooting, we will think about how to increase our speed."

Should I do it? Ye Jian thought for a moment and shook her head. "There's nothing to teach. I just need to know how to count the time. I need to know how long it will take for each bullet to hit the target. Then, I calculate how long it will take for me to change the magazine. I will directly change the magazine with one hand to achieve the continuity between bullets and maintain the firepower."

...

It was easier said than done. Xia Jinyuan had already started holding two empty magazines and experimenting. The first thing he needed to do when changing the magazine with one hand was hit the magazine and change the magazine. All his comrades in the Snow Region Brigade knew how to do it. The entire process took around two to three seconds.

It was difficult to calculate the distance between the bullet and the target and how long it would take to hit it. At the same time, he needed to calculate the last bullet and be precise hitting the “point” when changing the magazine immediately!

This ‘point’ directly affected the connection between bullets!

Ye Jian finished watching his actions and said seriously, “Yes, I did the same thing too. I changed the magazine with one hand. My speed was similar to yours. I finished it within two seconds. Then, I knew when the bullets would shoot out. I just needed to keep the entire action in place.”

“After you go back, demonstrate to us. We will aim at a distance of 300 meters.” Xia Jinyuan tried two times and knew that he couldn’t lock the ‘points’ properly. He couldn’t connect the bullets of the previous magazine with the bullets of the next one.

This was not a problem. Ye Jian accepted it happily.

It was time. The gunshots in the forest disappeared instantly. One second ago, the gunshots were still loud. The next second, other than the smell of gunpowder in the air, no other sound could be heard.. It was so quiet that it seemed like nothing had happened.

Chapter 1635: Deep reflection

The snow was falling heavily. The north wind blew past the forest, blowing away the thick smell of gunpowder. About two kilometers away from the shooting location of the two teams, the local forces heard the concentrated gunfire and knew that it was their turn.

This was a natural protection zone. Although it was a temporary combat zone for the two teams, they still had to pay attention to what they should be paying attention to. The local forces needed to help keep all the bullets in.

The 44 comrades had 4400 bullets. These were all missions for the local military unit.

“Gather!” As the platoon leader’s whistle was heard, the two squad leaders and their comrades quickly gathered. “Attention, turn back!” They led their comrades to their destination.

It would take some time to finish firing the 4000 bullets. With the help of the local forces, the two teams were able to save some time.

The results were out. Li Jinnian and Ye Jian managed to miss two of the two hundred shots. They were ranked first, while Xia Jinyuan and K7 were ranked second.

K7's thin face was a little tense. His killing intent was revealed. He said to Xia Jinyuan, "It's my problem. Sorry, Captain!"

"Azure Bird's shooting skills are above all of us. It's not too bad for us to be ranked second." Xia Jinyuan patted his comrade's shoulder and smiled. "Continue working hard next time and take back what you lost."

The two bullets missed their targets because Li Jinnian and Ye Jian got affected by the wind and snow when they changed their guns. Their situation was similar. They both got affected by the wind and snow when they changed their guns.

These were uncontrollable factors. It was understandable that she made a mistake, but understanding was one thing. The main thing was that her shooting skills were the best.

They were holding the same gun and shooting at the same time. Why was Azure Bird able to hit the bull's eye? It was because her shooting skills were too good, and she was no longer affected by the weather.

"Azure Bird has talent. Do you remember the mission in Pakistan? Normal people aim first before shooting. She's different. When she pulls the trigger, she can aim directly at the target and shoot. This is the biggest difference. She has a unique talent. It's difficult for us to have her talent!"

Xia Jinyuan bent down and picked up two bullets from the snow. There was a sharp look in his handsome eyes. "We don't have the talent like her, but we need to learn shooting skills from her. We can't find excuses for our failure. We admit that we lost, but we can't keep losing."

The snow was extremely heavy. The goose feather-like snowflakes decorated the mountain into a white world. Holding two bullets in his hand, Xia Jinyuan looked at his comrade. His sharp gaze was like the cold light on the blade. It was frightening. "So, K7, we can admit defeat, but we can't keep losing."

Even if the person who surpassed them was Ye Jian, his girlfriend, he wouldn't admit defeat because of this. He wouldn't find excuses for himself either. Winning was their goal. They wouldn't change because of anyone.

Ye Jian knew that her 100 bullets weren't wasted. She stepped on a bullet and bent down to pick it up. When she raised her head, she saw Li Jinnian standing in front of the target. He was looking at her results.

He was the one who caused the two missed shots.. He needed to reflect on himself.

Chapter 1636: Too Shocking

Not only was Li Jinnian reviewing his results, but he was also studying Ye Jian's shooting skills. Ye Jian's amazing shooting skills had completely conquered him. He didn't know how she was able to shoot consecutively without any error!

"Demon King, let Azure Bird teach us another day. With her shooting standard, I'm afraid no one in our two teams can be compared to her." Big Shark walked over and said in a low voice, "Since we can't keep her, it's enough if we can learn from her shooting skills."

After Li Jinnian received Ye Jian's rejection, he told Big Shark even though he didn't contact the navy commander.

As for the navy commander, he would wait until the "hunting" mission ended tomorrow.

Li Jinnian shifted his gaze away from the target and said to Big Shark, "Do you think anyone can shoot accurately without aiming at the target?"

"How is that possible?" Big Shark laughed. Why did the Demon King suddenly ask this? "That's impossible. Until now, our army didn't have such a sharpshooter."

Everyone knew that they had to aim before shooting. Without any aiming action, how could they accurately shoot? It wasn't blindly suppressing firepower. As long as they wanted to shoot accurately, they had to aim first. This was an unbreakable law.

Li Jinnian didn't think that it was possible either. He was probably overthinking. However, when he thought about Ye Jian's shooting, he felt she was really shooting without aiming.

His eyebrow furrowed as if he was thinking about a huge problem. Big Shark couldn't help but look over. "What's wrong? You look like you have something on your mind. Did you encounter something troublesome? The competition? The 300-meter shooting?"

Besides these two matters, he couldn't think of a reason why the Demon King would be troubled.

"If I say that Azure Bird didn't aim before shooting, would you believe me?" As if sensing that someone was looking at him, Li Jinnian moved his feet slightly. His military boots made creaking sounds as they stepped on the snow. He turned around and looked at Ye Jian from afar.

Carrying combat equipment, Ye Jian stood in the snow with a helmet on her head. She smiled at the man, who turned around and looked at her calmly. Then, she continued picking up the bullets.

The heavy snow blurred her facial features. Then, Li Jinnian felt that he could see the smile on her face clearly. It was like a red plum blooming in the snow. It stood against the wind and emitted a cold fragrance.

He retracted his gaze calmly and looked at Big Shark, who was shocked by his words. "I'm shocked too, but it's possible. After the training ends, I will verify if my guess is correct."

The command center was so quiet that you could hear a pin drop because of the navy general's words. The technicians felt that the atmosphere was a little subtle. When they pressed the operating button, they couldn't help but lower their strength to avoid alarming the high-ranking officers.

The navy commander looked at the astonished major general and took a deep breath. His gaze landed on Ye Jian's shooting data again. He took a pencil and wrote for a while. Then, he said to the admin officer beside him, "We will reanalyze the data. I need to know how many bullets were used together."

“Yes!” The admin officer took the data and immediately passed it to the technician. He started analyzing it again.

Chapter 1637: Unbelievable Shooting

After the navy commander finished speaking, he knocked on the table lightly with his fingers. His face, which was tanned by the sun, was tense. Just like Li Jinnian, he seemed to have encountered a difficult problem.

Knock, knock. The navy general raised his head and looked at the major general who was still staring at the data. “Old Yang, if this is true... It’s a huge surprise! One soldier that is worth hundreds of soldiers.”

The major general was also stunned by the guess. However, he couldn’t deny that Ye Jian was indeed capable. In addition, she was a sniper. She was able to fight against hundreds of soldiers.

He said, “She’s a sniper. We put in a lot of effort to groom her. It’s our hope that she can match a row of soldiers. The person who groomed her placed all their effort on Azure Bird so that she could reach a high level of sniping. That’s how she became who she is today.”

“If she has extraordinary talent, it’s possible that she can beat a few hundred soldiers. However, it’s just our speculation for now. We need to confirm it.”

During the Pakistani war, Xia Jinyuan told him that Ye Jian’s shooting skills were different. However, he didn’t explain in detail what was different. Later, he realized that the person who groomed Ye Jian was the “world-class sniper” of the 1970s. Hence, he naturally thought that Ye Jian’s shooting skills were different.

After all, until now, the title ‘world-class sniper’ was still accrued to that legend that no one could pull down.

The navy commander knew that the major general wouldn’t say such an impossible speculation for no reason. There must be some evidence. However, he needed to confirm it now.

“Let’s confirm it now so that I won’t have to think about it with you,” The navy commander said and immediately contacted Li Jinnian who was preparing to leave.

Li Jinnian had already finished assembling his team. The soldiers from the local forces would start collecting all the bullets after they left. It was not early. They needed to go to the fifth Combat Area immediately.

On the other side, Xia Jinyuan handed over more than a hundred bullets to the platoon leader of the local forces. Because of Ye Jian, the Storm Commando Brigade didn’t appear again. The Snow Region Brigade and the local forces completed their mission.

The distance of ten meters in the heavy snow blurred everyone's vision. Fu Dong looked forward again. He could faintly see a figure that was thinner than a male soldier standing in front. He observed that there was only one female soldier in the two special forces.

"Fu Dong, your class will be in charge from west to north. Class Monitor Liu, your class will be in charge from east to south! Four thousand four hundred bullets must be collected. Don't miss a single bullet. Do you understand?"

"Yes!"

"Yes!" Fu Dong retracted his gaze. Until now, he still felt that he didn't recognize the wrong person. That female soldier was Ye Jian.

Xia Jinyuan's gaze slid past Fu Dong's face. He remembered Little Fox's middle school classmate. He didn't expect to meet him here. It was fate.

This male soldier should still have his suspicions. If not, he wouldn't be looking around. They hadn't seen each other for more than three years. Her face was covered with thick paint. This male soldier could still vaguely feel that the female soldier was Ye Jian. He had to admit that Little Fox had a huge influence in her class in the past.. She left a deep impression on people.

Chapter 1638: Full of Anticipation

At this moment, the command center had already contacted Ye Jian. The commander's authoritative voice came from the earpiece. "Azure Bird, we have the data analysis of your shooting. Now, the command center has a huge question to ask you. You need to answer it."

"According to our analysis, we concluded that every bullet of yours was fired at almost the same speed without any pause. How did you do it, Azure Bird?"

So that was the reason. Ye Jian thought for a moment and replied seriously, "It's not easy to explain it directly. I can demonstrate it again. This way, it will be clearer."

It was tough to explain. She couldn't tell the navy commander like the last time and say that she relied on her feelings.

However, the live demonstration was more direct. No one would have too many questions.

When Uncle Chen found out that she could shoot like this, he was surprised. He thought that it was an impossible miracle.

That's right. Uncle Chen said that this was a miracle that came from talent.

She didn't know if it was a miracle, but she had a strong feeling every time she finished shooting. It was as if the gun was one with her, and the bullet was like an obedient child. She looked at the target, raised her hand to aim at the target, and the bullet could hit the target accurately.

There was no way to explain it. Only a live demonstration would make things clear.

The navy commander had high hopes for this.

The cold wind blew on her face. It felt like a knife was cutting her skin. Ye Jian entered the fifth combat area and exhaled a breath of hot air to warm her fingers.

Beside her, Li Jinnian turned around and glanced at her. "Rub your hands if you're cold."

She felt cold while her hand and feet were frozen stiff. It was as if her joints were watered with rust.

It was four in the afternoon. The 'hunting' mission had started.

The heat-proofing on her body couldn't withstand the cold wind. Ye Jian raised her hand and rubbed her ears. She gritted her teeth and dug her hands into her collar to warm her hands with her body temperature.

The temperature in the mountains was negative 10 degrees. There was nothing they could do. The members of the Storm Commando Brigade, who were used to training at the seaside, gritted their teeth and endured the cold wind head-on.

It wasn't snowing anymore, but the north wind was blowing so hard that the snowflakes were flying everywhere. Her vision was still white, making it very difficult for her to scout.

After Li Jinnian finished reconnaissance, he signaled to Ye Jian, and the two of them continued moving forward.

On the other side, J5 said to Xia Jinyuan, "Demon King Li and Azure Bird were left to me. Why did you give me two powerful characters? You think too highly of me."

J5, who had already been captured once, felt the pressure. Demon King Li was on par with Q King, and Azure Bird's assassination skills were even better. He really felt that he was weaker among the four of them.

Xia Jinyuan bent over and observed the lake with his binoculars. A cold smile appeared on his thin lips. He said calmly, "The more you are afraid, the more I want you to do it. If someone captures you, won't you take revenge?"

A black shadow flashed past the lake. Xia Jinyuan immediately put down his binoculars and contacted his brother. "Group D, pay attention.. The scout is here! Tighten up. Whoever becomes the first captive, run 20 kilometers with weights on your shoulders!"

Chapter 1639: It's Not That Simple

All the members of the Snow Region Brigade trembled. Q King was extremely ruthless. He was able to skin a person alive!

Twenty kilometers wasn't a big deal. The main point was how much weight they had to carry to run 20 kilometers!

“Pigeon, White Crane, you two go and lure the enemy.” Xia Jinyuan lowered his voice and arranged the battle. The two of them were good at fighting in the snow. As long as they reached a place with snow, they would be no different from fish in water.

Xia Jinyuan wanted to start his ‘captive’ plan after arranging the two of them to lure the enemy,

After the two of them left, Xia Jinyuan spread the combat map out on the snow and looked at it. He frowned slightly. The Fifth Combat Area was huge. Why did he have the feeling that the command center had another move?

Wasn’t it too easy?

“I’m afraid that the command center still has a secret card. We can’t spread our forces for the time being.” After Xia Jinyuan finished making his judgment, he immediately switched to the public channel. He whispered to all the members of the Snow Region Brigade, “Maintain your forces in a triangle formation. Don’t focus on the other side of the lake.”

Then, he continued, “The major general is someone who doesn’t release his hawk until he sees the rabbit. The same goes for the navy commander. The Fifth Combat Area is so vast. It’s impossible for them to arrange a simple hunting mission for us. To prevent any accidents, brothers, collect some of the troops.”

Just like the Storm Commando Brigade, they were getting ready to complete their hunt. No one was waiting for the other party to send themselves to their door. Everyone was completing the hunt in their own way.

Li Jinnian laid the combat map on the ground too. He ran his finger across the entire combat area and asked Ye Jian, “Don’t you feel that this hunting mission is too simple?”

It was so simple that it didn’t seem like the commander’s style.

Ye Jian didn’t know how to answer this question. This was her first time participating in a competition like this. She shook her head and answered him truthfully, “I’m sorry. This is my first time participating in a competition like this. I’m not familiar with the combat styles of the two leaders. I can’t give you any advice.”

“It’s a little too simple. The commander’s style is fiercer. Now, it’s a little like boiling a frog in warm water.” After Li Jinnian finished speaking, he contacted the entire team. “Focus your forces. Big Eel will stop luring the enemy.”

Fighting in the snow was the weak point of the Storm Commando Brigade. They were much more cautious than the Snow Region Brigade.

Seeing that the red and green dots representing the two armies suddenly slowed down, the navy commander exclaimed repeatedly. These two guys are really not easy to deal with!

“They have come, Old Dong. It’s about time. Tell them the requirements.” The major general shook his head and smiled when he saw the pity on the other’s face. “The hunting mission is too simple. Based on our training style in the past, they will definitely guess it.”

Just as the members of the two teams were guessing that the command center might have further instructions for their next move, the latest instructions came.

There was a final place in the Fifth Combat Area. Whoever could enter the final place first and take over while completing the hunting mission would win the competition.

The commanders of the two teams weren’t surprised when they received this order. Instead, they heaved a sigh of relief.

The final place was not in this area at all. There would be an intersection point when they headed to the final place. This intersection point was where the two teams would exchange fire.

Chapter 1640: Wake Up

There was no time to lose. The commanders of the two teams quickly adjusted their combat strategy. Xia Jinyuan immediately called White Crane and Pigeon back. Li Jinnian immediately stopped his ‘bait’ tactic and led his team to the final place.

The place was surrounded by barbed wire. There was high-voltage electricity on the wire. Besides the Storm Commando Brigade and the Snow Region Brigade members, no one else could enter.

There were a few wooden houses inside. These wooden houses were the resting points for the forest police when they patrolled the mountain. Now, they were taken in as a stronghold. A stronghold that will be attacked by the Snow Region Brigade and the Storm Commando Brigade.

There were two rows of soldiers in the base and two rows of soldiers outside. One row had thirty people. There were four rows of 120 targets.

After the two teams finished guarding the base, they would face each other.

At this moment, both sides were tired and hungry. At the same time, their stamina was severely depleted. The command center didn’t leave much time for everyone to rest to understand each of their combat abilities. They needed to end the five-day competition before 6:00 PM tomorrow. If they didn’t take down the stronghold by then, both teams would lose.

The temperature in the wooden house was slightly better than outside, but the north wind still came in through the gaps in the wood. A sentinel who was on guard pushed open the wooden door and walked over. He patted the snow off his body and walked to his platoon leader. “Platoon Leader, let’s wait for tonight.”

They had been waiting for three days, but they hadn’t seen the so-called Special Forces.

“It’s almost night. Everyone, be alert tonight. Don’t let anyone touch your neck from behind.” The platoon leader had been keeping an eye on his soldiers for the past few days. It was better in the day, but he was afraid that he would be ‘killed’ at night.

This time, they brought their soldiers here to broaden their horizons. They wanted to see how the Special Forces fought. They were really lucky to have such an opportunity.

The wind outside the wooden house kept blowing. The wind blew into the house and caused the rainproof cloth to rustle. The platoon leader couldn't help but stand up and look outside. The wind was so strong that it should stop at night.

When the snow wind blew on their faces, it felt like someone was slapping them. It was painful and itchy. In the end, even their noses were numb. Besides Li Jinnian, who was slightly fairer, the Water Ghosts' skin was dark. Their noses weren't as obvious as the radishes.

Ye Jian was different. When she stood among the Water Ghosts, she was like a graceful swan mixed with black swans. Her nose was bright red.

Li Jinnian couldn't help but want to laugh a few times when he spoke to her, but he controlled himself.

After walking for so long, Ye Jian didn't feel cold. She couldn't help but cover her nose. She touched her nose lightly with her gloved fingers. She didn't know whether to laugh or cry.

She didn't seem to feel anything. It was so cold she felt like she was touching someone else's nose.

"Don't touch it. Go back and get some boiled radishes. It will be fine." Li Jinnian couldn't help but remind her in a low voice. He reached out his hand. They were climbing the mountain now. The snow was too thick. They needed to help each other.

Ye Jian reached out her hand and grabbed it tightly. She pulled her feet out of the snow and followed him.

Her hand was very small. It was obviously different from a male soldier's hand. Sometimes, Li Jinnian even wondered if he would break her hand if he used too much force.

She was the only female soldier on both teams. In such a harsh environment, she didn't complain. This was admirable.
