

BOOT CAMP 1641

Chapter 1641: The Attacking Female Soldier

After climbing up the slope, Li Jinnian immediately released his grip. Then, he made a prostrating gesture at Ye Jian. He pulled out a bush that was pressing on the snow and slowly bent his back.

According to the analysis of the combat map, less than 300 meters away from them was the first intersection of the two teams.

Li Jinnian used the snow and bushes as a cover and carefully used his binoculars to observe the situation in front. The mountain was quiet. Everything was silent. Occasionally, snow would fall from the trees and make muffled sounds. In the blink of an eye, it would calm down again.

Ye Jian bent her back and squatted beside him. She said softly, "Q King will not let go of the chance to kill our soldiers. If he arrived before us, he would have laid an ambush and would be waiting for us to enter the net."

There was only a white world in the telescope. There was no abnormality. However, the more she didn't notice anything, the more it meant that something was wrong.

Li Jinnian lowered his head and slowly moved his body so that he was completely hidden behind the bushes. He crawled to Ye Jian's side. "It's normal. If it was me, I wouldn't let go of the chance to destroy the other party's forces."

Li Jinnian turned on the communication device and contacted the team members behind him. "We will move forward in a net formation. Maintain a distance of ten meters between each team. Big Shark, your team will rush to the final stronghold. Our team will stay behind. The two scouts will not move."

Then, he said to Ye Jian, "Go with the scout. You will be one step behind Big Shark and the rest."

At this moment, Azure Bird was the main target of the opposite team. How could Q King allow someone familiar with his team alive? Their first target was definitely Azure Bird.

Ye Jian knew why this was the case. However, she had her own thoughts too.

Since she was already targeted, avoiding them was not a good idea. Besides, she didn't have the habit of hiding. On the battlefield, offense was always the best defense.

Ye Jian sighed softly and expressed her opinion. "Since it's a hunting mission, Demon King, I don't plan to avoid it. Let's face it head-on."

She rarely expressed her opinion while executing her orders. Now that she had opened her mouth, it meant that she had thought about it carefully. Li Jinnian pursed his thin lips and paused for a few seconds before saying, "If you're not worried about being captured, you can continue following me."

They had captured a member of the Snow Region Brigade previously. The other party would definitely take revenge. Azure Bird was their target.

Ye Jian didn't hesitate and chose to act.

On the snow, a few sparrows were jumping around happily. Their light bodies became the only vivid scenery in the snow. There were also small claw marks left behind.

Xia Jinyuan used a tree branch to pick out the snow under his military boots to make it easier to act later.

"Q King, there's a situation." White Crane's voice came from the earpiece. It was low and contained excitement. "There's movement. We didn't waste half an hour guarding."

Half an hour ago, the Snow Region Brigade arrived at the first intersection and laid an ambush.

"J5, I'll leave Azure Bird to you." Xia Jinyuan threw the tree branch into the bushes. The sound of snow falling covered his tracks.

A few disguised figures flashed past the white world. They were as light as birds flying in the snow. They disappeared silently.

Ye Jian leaned against the tree trunk behind her and panted softly. She turned on her communication device and contacted her team members. "Five minutes or so. It's about time." White Crane and Pigeon were scouts. Xia Jinyuan once told her that they were like fish in the water as long as they were in the snow. It wasn't easy for her to pass under their radar.

Chapter 1642: 'Hunting' Operation

The Snow Region Brigade's target was her. Her target was White Crane or Pigeon. She didn't have the confidence to kill both of them at once.

Li Jinnian was about five meters away from Ye Jian. The dagger in his hand was ready. He was waiting for the members of the Snow Region Brigade to come.

The wind carried the snow as it whistled over. When it blew on the goggles, it blocked his vision. White Crane, who was wearing a white camouflage uniform, moved carefully. His military boots didn't make any sound when they stepped on the snow.

He was in charge of reconnaissance. He told his comrades what he saw so that they could take action.

"There's nothing abnormal ahead. Brothers, be careful of the traps." White Crane carefully passed through the crossfire point and hid behind the trees. From afar, his figure seemed to have merged with the white world. "Push left and bypass the point where you notice something abnormal."

As a scout, White Crane had entered the range of the Storm Commando Brigade. His main mission was to go deep into the enemy's rear and scout all the enemy's military operations. He would also capture the enemy and obtain information that was beneficial to them.

White Crane and Pigeon didn't directly hunt their targets. They only needed to provide their comrades with favorable information and scout the other party's movements. Hence, they didn't have any offensive missions. On the contrary, they needed to avoid meeting the Storm Commando Brigade.

Therefore, White Crane and Pigeon were more careful and cautious than any other team member to avoid being discovered by the Storm Commando Brigade.

Li Jinnian agreed to let Ye Jian participate in the 'hunting' mission. At the same time, the mission assigned to Ye Jian was to kill or capture a scout from the Snow Region Brigade.

After observation, he realized that Ye Jian's reconnaissance ability was quite good. They were on par with her shooting skills.

Xia Jinyuan predicted that Ye Jian would definitely participate in the 'hunting' mission. However, he couldn't predict what Li Jinnian would order Ye Jian. He didn't expect Ye Jian to have her eyes on White Crane, the scout he sent.

The mountain was very quiet, but the atmosphere was filled with killing intent. The little sparrows playing in the snow seemed to have sensed something and flew away from the forest.

Ye Jian narrowed her eyes and stared at a white figure. She gave her position to Li Jinnian and lowered her voice until it was almost inaudible. "I've found the target. He's about three meters away from me. Cooperate with me."

"Roger that."

She received Li Jinnian's order and heard the other Water Ghost on her earpiece. The three of them laid an ambush for the two of them. Li Jinnian went in to lure the enemy and cooperated with Ye Jian to complete the hunt.

At this moment, the sky was gradually turning dark. It was around 4:30 PM. The cold wind that hurt her face was stronger than before. Her body temperature seemed to be dropping.

Ye Jian, who had merged with the snow, waited quietly for the opportunity to come. Her entire body was buried in the snow. Even as the sky gradually turned dark, as long as she remained still, no one would know that the 'snow hill' in the distance was actually Ye Jian's disguise.

At least White Crane won't notice it.

However, he was very cautious. After entering the range of the Storm Commando Brigade, he would lurk and observe every meter he walked.

Ten meters, nine meters, eight meters...., four meters, three meters, two meters, one meter. The target was close. Ye Jian held her breath and listened to the sound of military boots stepping on the snow.

White Crane passed in front of her. It was less than 50 centimeters away. Ye Jian didn't move. She couldn't confirm if there was anyone behind White Crane for the time being. She needed to wait for Li Jinnian and the rest to send a message.

Chapter 1643: A Born Soldier

Her target was the scout of the Snow Region Brigade, and Li Jinnian's target was Xia Jinyuan. She thought that Xia Jinyuan's target must be Li Jinnian too. There would be a decisive battle between kings.

The sound of fighting suddenly came from behind. Ye Jian felt her scalp turning numb. The Storm Commando Brigade had been surrounded!

Even though she knew that she was being flanked, Ye Jian maintained her current position so that White Crane, who was less than a meter away from her, didn't notice anything. She even held her breath as she heard White Crane say, "Five meters away from me. Target found at seven o'clock. K7, flank. T6, take the front!" White Crane quickly located his position and informed his comrades behind him to move quickly.

As soon as Ye Jian heard this, she knew that the Snow Region Brigade had entered their hiding spot. Like Li Jinnian said, the Snow Region Brigade would not miss the opportunity to 'kill' them. This was a first-rate unit that was good at infiltration and assassination. They would only attack and not stay at their original spot.

Two members of the Snow Region Brigade entered the vision of Li Jinnian and the other two Water Ghosts. As the command was sent over, Ye Jian jumped up from the snow like a hidden snow leopard, showing her sharp claws to her prey.

At this moment, White Crane received Xia Jinyuan's cold and ruthless order. "White Crane, retreat!" There was no time to explain, but it was already too late

As he listened to his captain's orders through his earpiece, a surge of killing intent pounced from his back, causing White Crane to leap forward and narrowly avoid the killing intent.

He turned around and saw who it was.

"J5, where did you go? Azure Bird has her eyes on me!" White Crane felt that something bad was about to happen when he saw that it was Ye Jian. He had never seen Azure Bird's capabilities, but after cooperating with her once, he felt that she was unfathomable!

J5, who was stuffing a ball of snow into his mouth and was about to chew it to quench his thirst, choked violently. He contacted Xia Jinyuan, who was far away from him and said, "Azure Bird targeted White Crane. She's really ruthless. She gouged our eyes out!"

"Let's bet. Let's see if White Crane will kill the Azure Bird or Azure Bird will kill White Crane."

Xia Jinyuan saw that his comrade was still in the mood to make a bet. He smiled and said, "As an officer, if you get captured a second time, J5, you won't be able to escape the 20-page reflection."

J5 trembled.

Although he was an instructor, he was also afraid of writing reports! One of the reasons why he wanted to change jobs was that he wasn't good at writing reports!

If he was captured again, he would slap himself 50 times!

“Hold the Demon King back for at least half an hour!” Xia Jinyuan held his rifle and started moving towards White Crane. Demon King directly asked Azure Bird to kill the scout.

J5 didn't stay any longer. He immediately went to delay the Demon King. He knew that Q King wanted to kill or catch Azure Bird first.

How could Ye Jian wait for the Snow Region Brigade to reinforce White Crane and kill her along the way? Her sneak attack didn't work. She pounced on White Crane again and blocked him with a bloody killing intent.

At this moment, White Crane finally understood why K7 and the rest said that Ye Jian was a natural soldier.. That was because the vicious aura around her was enough to scare her enemies.

Chapter 1644: Brutal Attack

White Crane knew that his comrades would come and support him because Q King's goal was to catch Azure Bird.

Although he didn't understand why he insisted on capturing Azure Bird first, he would definitely support Q King's decision.

Even if this was an elimination round, he would support Q King's decision unconditionally.

Hence, Ye Jian wanted to end the battle quickly, while he wanted to drag the time and wait for his comrades to come.

“Azure Bird, are you sure you can beat me?” White Crane was a Special Forces soldier who had undergone professional and systematic training. He knew very well that communication was the real way to buy time for himself.

He avoided Ye Jian's sneak attack and gave his position to all his comrades nearby. That way, whoever was closest to him would be able to rush over immediately.

However, Ye Jian wouldn't give him a chance. The two of them were already facing each other. Ye Jian's heart moved and she knew what White Crane wanted to do.

“You want to capture me? I'm sorry, White Crane. I really don't want to be a captive.” Ye Jian smiled at him. The dagger in her hand that didn't have an edge flashed quickly in the snow. The dark sky couldn't hide the cold light from the dagger. Ye Jian, who was lightly armed, attacked again.

Every member of the Snow Region Brigade had to pass the combat test. Although Ye Jian didn't officially become a member of the Snow Region Brigade, her combat skills weren't bad. Ye Jian wouldn't be afraid if she fought White Crane or any other member of the Snow Region Brigade.

This was a competition and a war. How could she be afraid on the battlefield?

Soldiers trained their horses and rested their heads on their weapons. Soldiers were mobilized on the battlefield. When the horn of the battlefield sounded, the brutal flames of war and gunpowder didn't allow you to be timid. It didn't allow you to have any thoughts of retreat.

Why did she need to be strict with her training?

It was so that she could return safely when she went to the battlefield to protect the country.

During the 'hunting' mission, as long as the members of both sides were facing each other head-on, they were not allowed to use guns and ammunition when they were less than three meters away. If they used blank cartridges to shoot within three meters, it would hurt people too.

In a short distance, the only tools you can use are your hands and your dagger. This is the best weapon you can use to defeat your opponent.

White Crane was shocked by Ye Jian's ferocious and almost cruel attack. She actually chose to fight with him alone without the Water Ghosts providing support!

This was not a simple battle. This was a life-and-death battle.

The movements were not elegant, but powerful and ferocious. Relying on her agility, Ye Jian approached White Crane at her fastest speed and stabbed her dagger towards White Crane's chest.

White Crane, who was a scout, came from a scholarly family. The girls he interacted with since he was young were all refined and delicate. Although he knew that Ye Jian was different from those girls, when he met Ye Jian alone, he was still surprised by her fierce gaze and bloody actions.

He kicked his military boots furiously in the snow. Large pieces of snow flew towards Ye Jian. When something flew towards you from the front, no matter if it was light or heavy, the body would always involuntarily try to dodge.

Chapter 1645: Gathering Soldiers

White Crane wanted to make use of Ye Jian's few seconds of dodging to become an attacker.

Unfortunately, he miscalculated. Ye Jian wasn't a soldier who acted according to common sense. She didn't dodge at all. Instead, she chose a more direct way to fight.

The snow hit her shoulder. Even though she was wearing a thick winter jacket, her shoulder still hurt a little. However, it didn't force Ye Jian to stop. She continued her frontal attack fearlessly.

She knew that if she didn't speed up and kill White Crane, the Snow Region Brigade would come and support him very soon. At that time, she would be surrounded. She wouldn't be able to escape even if she wanted to.

Ye Jian, who had lived two lifetimes, knew how to 'give' and 'take' the most. At this moment, she needed to bear with the pain and risk it all to get the ending she wanted.

Only the winners had the right to continue fighting!

White Crane's fists were on her lower abdomen, shoulders, calves, and arms. When kicked by military boots, a man's strength would always be greater than a woman's. When the kick landed on her body, Ye Jian felt as if her bones were about to split open. She held White Crane's wrist with one hand and punched his armpit violently while her right leg kicked White Crane's knee.

She didn't show any mercy. Similarly, White Crane didn't show any mercy either. Both of them used their greatest strength to knock the other party down.

The two of them engaged in close combat. Ye Jian wasn't as strong as a male soldier, but she was very good at using her strength. She used her agility to make up for her shortcomings and disrupt White Crane's defense.

Special Forces soldiers didn't have any fancy moves. All their moves were based on speed, accuracy, and ruthlessness. They wanted to use their fastest speed to finish their opponents.

"I'll be there in five minutes." Xia Jinyuan's low and calm voice came from White Crane's earpiece. He needed to bypass the Water Ghost of the Storm Commando Brigade and avoid confronting Li Jinnian at the same time. Hence, he couldn't rush over immediately.

White Crane didn't reply. He was frightened by Ye Jian's actions.

"Azure Bird!" He shouted and tried to stop Ye Jian from hurting herself!

When Xia Jinyuan heard this, his handsome face sank. White Crane's shout was filled with worry. He was stopping Ye Jian... Why was he trying to stop Ye Jian? What happened?

The sound of someone dying could be heard from the north wind. Someone died in the 'hunting' mission.

Xia Jinyuan, who needed five minutes to reach, arrived one minute ahead of time. He saw a figure lying in the pure white snow. His eyes were dark as he walked over.

White Crane, who was lying in the snow, looked at his comrade who had appeared above him. The corner of his mouth was bleeding from Ye Jian's punch. He let out a long sigh. "A heroine. She's ruthless to herself."

"Ha." Xia Jinyuan chuckled. His gaze was a little cold as he looked at his comrade. "You lost to Azure Bird twice. White Crane, I need to send you back to the company to train."

White Crane, who was lying on the ground, changed his expression abruptly. He jumped up. Q King was not joking with him. Although he liked to joke, he would never make such jokes!

"That's right. Azure Bird is a fierce fighter. That's because she knows when to be ruthless to herself and to her enemies!" Xia Jinyuan's voice turned cold. "As for you, not only can't you be ruthless to yourself, but you can't be ruthless to your opponents! White Crane, since when did the Snow Region Brigade need soldiers who show off their benevolence on the battlefield?"

Chapter 1646: Cruel Boyfriend

He was happy that Ye Jian managed to escape and disappointed that his comrade died.

If his comrade failed when he tried his best, he would smile and say that he was not as good as her and that she wasn't easy to deal with. However, it was obvious that his comrade didn't 'lose.' . It was a huge taboo.

It was true that Azure Bird was someone they were familiar with, but at this moment, she belonged to the Storm Commando Brigade. In this match, she was standing opposite them!

White Crane didn't refute the captain's accusation. He accepted the criticism humbly.

After Xia Jinyuan finished criticizing him with a cold face, White Crane reflected on himself seriously. "I will accept any punishment. I will always remember today's mistake and never make it again!"

Wrong was wrong. There was no excuse.

After he finished, Xia Jinyuan looked at the row of footprints that disappeared into the forest. He couldn't help but smile. He turned his head and asked his comrade calmly, "What did Azure Bird do just now?"

"I grabbed her shoulder. When the dagger was placed horizontally on her neck, she actually placed her neck on the dagger. Although there was no blade, the force of her collision was quite strong. I was shocked. When I shouted, my hand movements naturally slowed down." When he mentioned what happened just now, White Crane still had a lingering fear. After he finished speaking, he let out a long sigh. "It was so ruthless that it made people afraid."

Xia Jinyuan didn't get frightened. Instead, he smiled.

"If she wasn't ruthless just now, she might have been the one who died." Xia Jinyuan admired his girlfriend's dangerous behavior. His Little Fox was indeed smart.

White Crane seemed to want to say something, but Xia Jinyuan didn't listen. It would be against the rules if he continued talking with a 'dead' comrade.

After successfully escaping, Ye Jian hid her position and sent it to Li Jinnian. She adjusted her breathing and waited for Li Jinnian to come over and meet her.

There would be no more 'hunting' at the first crossfire point because everyone knew that the other party was moving around here. In order to occupy the last position, they wouldn't waste any more time and chose to move forward.

Li Jinnian didn't ask Ye Jian about the scout from the Snow Region Brigade for the time being. She entered the public channel and told the news to all the members of the Storm Commando Brigade. Instantly, a series of clicking sounds came from his earpiece as a compliment.

It was a piece of good news to be able to kill a scout.

When J5 from the Snow Region Brigade couldn't contact White Crane, he knew that something might happen. When Xia Jinyuan told them that White Crane was dead and the person who killed him was none other than Azure Bird, everyone gasped.

"Was he taken care of by a bullet? If it was taken care of by a bullet, it wouldn't be a waste," said G3. Everyone knew how fast Azure Bird could shoot. No one in the team could compare to her.

It would be good if he was killed by a bullet. Unfortunately, he wasn't.

"Close combat," Xia Jinyuan calmly said. He heard his comrades sucking in a breath of cold air. He smiled gently and said, "The target of the captive plan has not changed. Last time, she killed Pigeon and White Crane with a sniper rifle. This time, she still killed White Crane. Brothers, you must bring Azure Bird to me."

K7 and G3 were together. Hearing that, the two of them exchanged glances. Q King really didn't plan to be considerate. This way, they couldn't be considerate too. They had to catch Azure Bird whenever they saw her. It didn't matter if they knew each other or not.

Chapter 1647: It's Over, Something Happened

K7 was a forensic expert and had always been calm. He turned off his communication device and said to G3, "Q King wants to use this competition to train Azure Bird's individual combat experience. It looks like he really wants to place Azure Bird in the Snow Region Brigade."

"That was his plan from the start. Do you think that he was just saying it casually in the past?" G3 wasn't surprised. He already knew Q King's plan when they cooperated in the Southern Province. "Q King isn't the only one. The military and the major general have the same plan too. If not, why would they bring Azure Bird to train with us?"

It wasn't that he was just saying it casually. It was just that he felt that... After pondering for a while, K7 continued, "They are too strict with Azure Bird. I feel that they have a deeper plan."

"Really?" G3 thought for a moment and didn't feel anything amiss. He said, "Azure Bird will be our comrade in the future. It's good that we are training her now. Q King probably feels that her ability has reached a bottleneck and needs to break through."

If he really felt anything, the only thing he felt was that Azure Bird's comprehensive ability had reached a bottleneck. Only by breaking through this bottleneck could she reach Q King's and the major general's requirements.

But then again, Azure Birds' individual combat ability was already strong enough. It had reached the requirement of joining the Snow Region Brigade. Q King seemed to have some far-reaching plans.

"No matter what their arrangements are, we will cooperate with them." G3 didn't overthink it. He said calmly, "If anything happens, Q King will communicate with the military at any time. The military and the major general will tell Q King what their plans are, so we will know when we have to."

“Now, let’s think about how to capture Azure Bird. If it doesn’t succeed once, it will be very difficult to do it again. The Demon King and Azure Bird are not easy to deal with.”

G3 analyzed the situation directly. At the same time, he turned on his communication device and said to Xia Jinyuan, “Killing White Crane is the Demon King’s warning to us. We should at least return Demon King’s warning.”

Xia Jinyuan liked what he heard. He smiled elegantly and dangerously. “That’s right. It’s 5:27 PM now. Let’s try to give the Demon King a huge present before 8:00 PM.”

“Agreed.”

“I agree.”

“I have no objections.”

The comrades from the Snow Region Brigade expressed their opinions. Xia Jinyuan, who was walking in the snow, smiled and said, “Remember this. Azure Bird is our opponent now. She’s not someone we know. If anyone shows her any mercy, go back and clean the bathroom!”

His white teeth reflected the cold light. He looked like a wolf on a snowy night, exuding a vicious aura.

T6 secretly clicked his tongue when he heard that. He said to Z7, “You still want to cherish her? Q King won’t be happy. It looks like when we see Azure Bird later, we will have to think of a way to kill her.”

“Brothers, don’t be too brutal. Be gentle. Don’t extinguish the signal.”

T6, who was still thinking about how to kill Ye Jian in one go, froze when he heard this. He rubbed his frozen nose and felt that this mission was a little difficult.

No one knew what Xia Jinyuan’s expression was like when he spoke. He was expressionless. The elegant man was cold. There was no warmth in his body.. Even his black eyes, which were usually gentle as water, were frozen.

Chapter 1648: Green Bird, You Have To Hold On

Little Fox, you have to be prepared.

If you want to enter the Snow Region Brigade, this is not a simple matter.

There is no such thing as luck in a real war. No one would show mercy just because they know you.

Winning against White Crane this time was purely a small trick, and it just so happened that your small trick might take your life at any moment on the battlefield! If you want to complete your mission successfully and come back alive, you need to rely on your accumulated combat experience!

Xia Jinyuan was genuinely happy that Ye Jian had escaped from her first ‘hunt.’ However, he wasn’t just happy. He analyzed Ye Jian’s combat style calmly. Through his analysis, he accurately found Ye Jian’s flaws so that she could correct them.

He couldn't accept the bad news that he would one day hear about her. Hence, he would rather be harsh to her now and train her. He would rather let her practice her skills than to be afraid of her joining the Snow Region Brigade in the future.

The solo combat on the battlefield was many times more dangerous than the missions they carried out together.

White Crane's ability was not bad. He could definitely delay Ye Jian for five minutes. She must have heard his order and decided to do this in order to leave as soon as possible. She was betting that White Crane might panic because of her actions.

She made the right bet. White Crane indeed panicked. Thus, White Crane died and she escaped.

This was because White Crane knew her, so she won. But, if she was on the battlefield? Perhaps she wouldn't do this, but now that she did, he had to tell her that she didn't care about her family on the battlefield. This lesson would be enough for her to remember for the rest of her life.

Xia Jinyuan could treat Ye Jian well, but once it involved training and future battles, he would be impartial and almost heartless.

At this moment, Ye Jian was already reflecting on herself. Li Jinnian's cold face made Ye Jian understand why he got the nickname 'Demon King.'

It was very cold. The pressure was very low. Every cell and every pore of his body was emitting a sinister aura that made people's hair stand on end. When he glanced over, his gaze was like a small knife. As long as he was glanced at by this gaze, that area would hurt as if her flesh was cut.

This was physical pain.

The scariest thing was his aura was getting closer. It was so heavy that you couldn't raise your head at all. You could only stand in front of him in fear and spend your last moments under a thousand cuts.

"Are you kidding me?"

After some time, Li Jinnian finally opened his mouth. Ye Jian, who had lived two lifetimes, shivered.

Actually, when Li Jinnian asked her how she got rid of White Crane, she realized that she had made a huge mistake. She thought that she was smart, but what she did was a huge taboo on the battlefield!

If you really go to the battlefield, will the other party stop you from hurting yourself because they know you?

No!

It would only make it easier for them to stab you in the neck. They wouldn't stop you or even avoid you.

Ye Jian didn't raise her head. She was wrong.

"No," she replied bluntly without defending herself.

There was nothing to explain. If you made a huge mistake, you could only correct it. There was no way to explain it. Li Jinnian didn't fly into a rage or mock her.. Instead, he said in a cold tone, "Throwing your neck at your enemy's blade, Azure Bird, you are indeed not afraid of death."

Chapter 1649: Move Out

Ye Jian felt that this was the calm before the storm.

"A soldier doesn't fear death and has the spirit of sacrifice. That's right. Unfortunately, you only think about how to die and not how to solve it. Azure Bird, is this your combat ability?" Li Jinnian wasn't angry. His expression was colder than usual.

Azure Bird was his soldier now. If she made a mistake, it was because he didn't teach her properly. Her mistake was his too.

Ye Jian pursed her lips and replied seriously, "I made a huge mistake. I didn't protect myself well. Instead, I handed my life to someone else. I thought that the other party knew me and wouldn't really hurt me!"

"In a real battlefield, what I did just now was dying! Not only did I rush to die, but I also implicated my comrades behind me!"

Snow floated into her eyes. The cold touch stimulated Ye Jian's taut heartstrings. She couldn't help but shiver when she felt the evil aura from the Demon King. This was the Demon King that all the Storm Commando Brigade feared and respected.

It was like the arrival of a king. His tone was calm, but you could only feel a bone-chilling viciousness.

"Very good." Li Jinnian only said these two words before leaving.

Standing in the snow, Ye Jian was stunned. Very good?

What was good?

Impossible!

Why was that good?

Ye Jian had just taken a few steps when she stopped abruptly. She understood why he said 'very good.'

She committed a crime and knew why!!

That was what he meant when he said 'very good.'

In this lifetime, Ye Jian, who had never made a mistake in any major matters, knew that she had finally fallen hard today. This fall was a little hard, and she fell until her face was bruised.

Not only would she be taught a lesson by Demon King Li, but there would also be Xia Jinyuan, the commander of the navy, the major general of the army, and the military! She would pay for her mistake!

For a moment, Ye Jian, who had always been calm, felt gloomy. Her expression was as cold as ice.

She was extremely wrong!

However, there was no medicine for regret. The only thing she could do was not to do it again in the future. At the same time, she could use her true strength to defeat her opponent!

At this moment, the snow on the mountain had stopped. Ye Jian, who was following closely beside Demon King, let out a low sigh. Li Jinnian heard it clearly and couldn't help but smile.

This kind of mistake happened too smoothly.

He must let her realize his mistake!

He believed that Xia Jinyuan wouldn't sit back and do nothing. He would definitely make a huge move so that she would learn her lesson. Whether during exercises, competitions, or training, she would never forget that there are no friendly enemies on the battlefield. There were only life and death enemies!

At 7:00 pm, the sky in the mountain had already turned dark. Only the faint light of snow could illuminate the outline of the mountain. At this moment, the snow had stopped. Walking in the mountain, one's visibility was even better than during the day.

The night-vision goggles weren't working at this moment. Ye Jian stepped on the soft snow and slowly squatted down. She gestured to Li Jinnian beside her. Suppress, there's a situation.

They were very close to the final location.

Chapter 1650: Combat Style

As Ye Jian's hand signal came over, Li Jinnian quickly lowered his body. When he saw Ye Jian's hand signal, he immediately informed his comrades, "There are four people in front. Everyone, hide."

The members of the Storm Commando Brigade, whose bodies were faster than their brains, were all extremely agile. They found an advantageous location to hide. After a series of rustling sounds, there was silence.

Li Jinnian hunched his back as he approached Ye Jian. He laid beside Ye Jian silently and looked at the four people around 13 meters away.

"It's not the Snow Region Brigade." Ye Jian tilted her head slightly towards Li Jinnian's shoulder so that he could hear her clearly. At the same time, she maintained a certain distance. "It should be the soldiers stationed at the final location."

Li Jinnian nodded slightly. They were not far from the final location. These people should be patrolling soldiers.

“Big Squid, contact Big Shark.” Li Jinnian, who was hiding, asked Big Squid in charge of communication to contact the group that set off first. He needed to know if their group had successfully infiltrated the final location.

Within two minutes, Big Shark’s low voice was heard. “After completing the infiltration from the east, there are about three to four rows of soldiers. Demon King, I suspect that the command center is in the final location.”

As long as they entered the base, they would be fine. Li Jinnian didn’t have any intention of touching the command center for the time being. However, he needed to pay attention just in case. He said, “After confirming the location of the command center, send someone to keep an eye on it.”

“The Snow Region Brigade might infiltrate. If we meet them, we will fight them directly. We will be on guard to prevent us from getting attacked.”

Li Jinnian, who hadn’t entered the final target place, didn’t hesitate at all. He immediately deployed his forces to deal with the possible problems.

Tonight was a huge battle and the climax of the competition. It was not impossible for the command center to be set up as the final location. It would depend on which team found the command center in advance.

The scout’s voice came from the earpiece. “There are surveillance cameras and infrared sensors. I will dismantle the infrared first and take care of the alarm. Keep the surveillance cameras in check. I will give you the location. Brothers, stay away.”

The infrared sensor was just a sensor. Their camouflage uniforms were all equipped with the new anti-inflammatory infrared coating. To them, this thing was just a decoration.

However, it was better to disassemble it when they saw it. There was no need to be afraid.

The surveillance cameras would be a problem. They didn’t have any shielding equipment on them. Once the surveillance cameras malfunctioned, the soldiers guarding the surveillance cameras would definitely be alerted as well as the high-ranking commander in the command center.

After ending the call with Big Shark and the rest, Li Jinnian said to Ye Jian, “Don’t alarm them. Let’s go around them”

His combat style was a little different from Xia Jinyuan’s. It was probably because of underwater operations. That was why he paid more attention to immersive combat. Without alerting any sentinels, he would sneak inside and carry out a mission silently.

At this moment, Ye Jian would definitely listen to the commander’s arrangements. She nodded lightly and laid in the snow with him, waiting for the four patrolling soldiers to leave.

While waiting, Ye Jian couldn’t help but think about Xia Jinyuan’s side. She wondered how their situation was. They must be at a certain mountain peak, staring at this place like wolves.

They preferred to assassinate directly. Once they found the sentinels, they would kill them. They wouldn't let anyone off.. They would clean up the place without leaving any traces.
