

BOOT CAMP 1661

### **Chapter 1661: Deal With It Directly**

What was waiting for her was definitely not a good thing. Based on her understanding of him, he would not let her off easily.

Ye Jian lowered her eyes slightly to hide the coldness in them.

She was the target of the captive plan. He would never change it. At the same time, he might learn from White Crane and make more detailed arrangements.

Li Jinnian didn't say anything.

He didn't tell his comrades that Xia Jinyuan had contacted him. He didn't tell Ye Jian what would happen next either.

As they got closer and closer to the final location, Ye Jian, who was walking in the middle, tensed up. "Someone is hiding!"

With a whoosh, a total of ten team members instantly pulled away and hid at the fastest speed. "There's no need to waste bullets. Just kill the two sentries."

The closer they got to the base, the more dangerous it was. The Storm Commando Brigade, who also liked to assassinate, would not alert the enemy if they could solve the problem quietly. In Special Forces combat, they liked to assassinate first and kill the sentry so that it would be easier for the brothers behind them to enter.

The team led by Big Shark had already exchanged fire. The sound of bullets was heard from the north side for less than two minutes.

Bang! Bang! Bang!

The sound of gunshots caused Ye Jian's eyes to light up.

"There's no movement from the west side for now. Take over the position first!" Li Jinnian, who had knocked down a sentinel, quickly ordered his team members to take over the position before Big Shark pulled away.

Xia Jinyuan needed to capture Azure Bird. He wouldn't let Ye Jian fall into the hands of the other party because he knew about it. He would only follow his original plan. Xia Jinyuan said something wrong. He never thought of protecting Azure Bird.

Because they were partners now. On the battlefield, he had the responsibility to protect his partner.

On the north side, Big Shark was suddenly attacked while moving. He brought his 12 team members and immediately hid at the nearest cover.

After confirming the general direction and position of the enemy, they immediately led their team members to engage in intermittent shooting. While suppressing the enemy's firing point with firepower, they sent five members to move forward again.

"Go around the left and clear the path for the Demon King. Hurry!"

"Gunner, sniper, kill him!"

"Immediately!" The sniper in the same team crawled on the ground and rolled skillfully to take cover. After confirming that there was a clear target at 11 o'clock, the enemy machine gunner was killed.

The branches in front rustled. Someone cursed in a low voice and retracted his machine gun. He was dead.

"Demon King, we are about 1000 meters away from the final location. There's a platoon of soldiers. There's little cover in front. The field of vision is wide while the number of ambushes has increased."

Li Jinnian and the rest were already quite close to the location. There was no cover in front. They were either crawling forward or suppressing the firepower.

After observing a slope, Li Jinnian contacted Big Shark. "Restrain the main firepower. We are about 500 meters away from the base."

The sentinels around them had all been killed. A few rows of wooden houses were not far away. At this moment, they saw sentinels walking back and forth.

"Okay!" Big Shark immediately asked his five comrades to pull out the firepower and pull the main firepower of the entire wooden house over so that the other party would think that this was their main firepower.

Hearing the sound of bullets getting more and more concentrated, Li Jinnian led his team to cover the slope.

### **Chapter 1662: One Against Four**

The closer they got to the enemy, the more dangerous it was to be hit. At the same time, they could hit the enemy more accurately.

The ten figures lowered their center of gravity and moved, using the slope terrain and the snow-covered bushes as cover.

As she moved, a bullet suddenly shot out. Bang! It hit the snow-covered bushes and caused snowflakes to fly up instantly. Ye Jian, who was moving stealthily, laid in the snow.

Then, numerous blank cartridges were fired from the roof of the wooden house.

She was discovered!

This time, they couldn't move secretly. They could only suppress their firepower and move. Everyone laid on the snow and used the slope to attack the wooden house.

Listening to the sounds of bullets coming from the north and east, Xia Jinyuan smiled and said to his comrades, "Let the Storm Commando Brigade suppress it first. We will attack in five minutes. Leave Azure Bird to me, Pigeon, T6, and J5. Main firepower and reinforcement firepower will be maintained."

"Q King, don't be too heartless." J5 knew that he was going to teach Azure Bird a lesson. He couldn't stop him but he still reminded him.

Xia Jinyuan smiled at him. He rubbed the snow with his combat boots. Although he didn't say anything, his actions and gaze... J5 couldn't help but pat his helmet. Brother, this is all I can help you with.

You can provoke anyone but Q King. Sigh, bear with it. He's doing this for your own good.

J5 saw that there was no room for discussion so he didn't say anything else. It was useless to say anything. As for the Azure Bird issue... he should clean it up. She was young and didn't have any individual combat experience. It was good to be taught a lesson.

J5 wasn't worried anymore.

The major general and the navy commander paid close attention to Xia Jinyuan's movements. When they saw him leading three members to the location of Azure Bird the major general couldn't help but sit up straight.

"It will be hard for Azure Bird to escape." The navy commander sighed softly. Group B went to the command center for the sake of capturing Azure Bird. It could be seen that Xia Jinyuan was going to show his true colors.

The major general of the army pursed his lips and said in a tense voice, "Azure Bird's individual combat ability is powerful. It's just that she lacks experience. Although it's one against four, she might not be captured."

Once people saw each other's true colors, they wouldn't treat the competition as a competition. They would fight to the death.

The potential of a Special Forces soldier was limitless, and Azure Bird's potential was unfathomable. She might not necessarily lose if she fought against four.

"They are here!"

Suddenly, the navy commander's expression changed. He stared at the big screen and saw a member of the Snow Region Brigade with the codename 'T6' less than three meters away from Azure Bird.

Ye Jian was covering up for Li Jinnian and the rest. At this moment, she was at the same position as Big Prawn who went around the battlefield. She was protecting all her comrades, including the reinforcements of the machine gunners.

When she saw her comrades moving towards the wooden house, she suddenly felt as if she was being stared at by a ferocious beast. If she turned her head, her neck would be bitten and she would die on the spot.

"I'm being targeted. The main force is attacking. Don't care about me!" Ye Jian didn't move immediately. She needed to destroy a machine gun. She had already found her target. If she moved now, it would bring destruction to her comrades!

She didn't have a choice. She needed to finish off the machine gun.

Ye Jian used the infrared laser aiming device to aim at a machine gun on the window sill on the left side of the wooden house. She silently counted the number of seconds the 'beast' would attack her and pulled the trigger.

### **Chapter 1663: Danger!**

Amidst the sound of bullets, Ye Jian's single shot wasn't abrupt. The bystanders wouldn't be able to sense the effect of the bullet.

While they were moving, Li Jinnian and the rest could feel that the firepower from the wooden house had instantly relaxed. Without the suppressive fire of the machine guns, they could move quickly and fight.

"Be careful, Azure Bird. Once you're captured, think of a way to escape!" Li Jinnian didn't change his plan. He didn't ask Ye Jian to stay behind to cover for him either. This was his plan before he spoke to Xia Jinyuan.

Ye Jian, who was rolling in the snow, replied with a simple 'okay' and cut off the communication.

T6, who was preparing to pounce on Ye Jian, was waiting for her to jump into the air to catch her. He didn't expect such a huge change to happen in three seconds. Ye Jian picked up her rifle and rolled down the slope.

...

Wasn't she afraid of rolling into a human-shaped snowball?!

"Okay!"

"Impressive!"

The navy commander and the major general, who had been observing the entire time, were all cheering for Ye Jian's calmness. What an interesting evasion!

If she was just three seconds slower, T6 would have captured her!

"Why does it feel like she knew in advance? Before she shot, her lips seemed to move. Was she telling her comrades?" After the navy commander finished cheering, he started to have questions again.

Also, he realized that every time he saw Ye Jian fighting, he would have countless questions.

Actually, the major general had the same question as the navy commander. He also felt that Ye Jian knew that someone was targeting her and calculated the time. The moment the bullet was fired, she hugged her rifle and rolled... dodging T6's bare-handed attack!

"If she didn't notice anything, she would have stopped for a few seconds after she finished shooting. Then, she would have moved and met up with her comrades instead of hugging her rifle and rolling down, far away from her comrades," The major general analyzed seriously. "It's possible that she already noticed the danger around her and calculated the time to dodge after she finished shooting."

That was the only explanation.

The navy commander grabbed the cup and gave himself a sip of thick tea that was as cold as ice. The cold energy engulfed his mouth and his stomach was stimulated by the cold tea. He was a hundred times more awake. He said, "How bold!"

"This is a must. Demon King led his troops to attack the wooden house. As the reinforcement to cover her comrades, she knew that she was in danger, but she still had to complete her mission first. Also..."

The major general pondered for a moment before continuing, "Azure Bird should be able to calculate how long it will take for T6 to attack from a distance. She will evade immediately after completing the mission in seconds."

"Not only is she bold, but she's also meticulous!"

Every time he watched her fight, he would always find her strengths. He even felt that when he watched her fight, he had a sense of trust that she was invincible.

Xia Jinyuan was right. Because she was outstanding, she needed to be polished into a weapon.

As long as she made the slightest mistake, she must be taught a lesson immediately so that she wouldn't harm herself and lose her life.

At this moment, Xia Jinyuan didn't smile because of Ye Jian's reaction. Instead, his expression became more serious.

He understood that Ye Jian was outstanding. Hence, he mustn't let anything happen to her on the battlefield. If not, it would be a huge loss to the country and the military unit.

The young major ordered his comrade, "T6, force her over!"

### **Chapter 1664: Fighting Alone**

Ye Jian knew that she was surrounded. The blank cartridges on the slope were hitting her blindly. It was obvious that they wanted to force her to a certain place.

She needed to think of a way to escape!

"Get out. Ye Jian, run down the slope!" Li Jinnian's cold voice came from the earpiece. He told Ye Jian calmly, "Avoid the empty area and run east!"

The east was facing the sun. The trees were more dense than the dark side. There were more bushes to use for cover too. As long as she entered a complicated area, her chances of escaping would increase.

“Okay, I understand!!” Ye Jian, who had already climbed up from the ground, ran towards the east. As she ran, she didn’t forget to voice her suspicion. “They came directly to my location. Demon King, cut off the communication. I suspect that they have radar! If I didn’t contact the team, I would still be entangled with them. Once I escape, I will contact the team immediately!”

It was possible to be detected by the radar. Li Jinnian said calmly, “Remember, never stay in the same position! Try to escape while running. Use your pistol to suppress the distance. Don’t let them get close easily!”

This time, Ye Jian was really fighting alone. This was her first time. Let’s see what the result will be.

He didn’t want to see her captured.

At this moment, Ye Jian had already cut off the communication. As she ran, her mind was thinking at high speed. East. No, she can’t run east.

Everyone knew that the trees in the east were lush. Normally, they would choose to run here. Hence, the members of the Snow Region Brigade would think the same way too. This way, they might ambush her in the east.

Thinking about this, Ye Jian gave up the east without any hesitation.

Then, she remembered that the Snow Region Brigade still needed to complete their operations with the local forces. They might not be able to send too many members to catch her. There were too many people. She would have a chance to escape.

The east wasn’t her choice, but she needed to test if anyone was ambushing her. She also needed to see how many people were ambushing her.

If three or four people came out, Captain Xia thought too highly of her!

“She ran faster than a rabbit. Q King, she’s coming down!” T6 hit the ground directly. The blank cartridges splattered everywhere. After a series of gunshots, there were many bullet holes in the fluffy snow.

T6 slowed down when he saw Ye Jian running towards the east.

His reaction was too fast. Just as he pounced over, Azure Bird, who was shooting, suddenly hugged her rifle and rolled down the mountain. It happened so suddenly that he almost fell into the snow.

Xia Jinyuan knew that it wasn’t easy to catch that Little Fox. They needed to capture her, so they couldn’t shoot at her directly. If she died on the spot, it would be meaningless!

This was how cats play with rats.

Trying to be smart? She didn’t have any smarts to play with. She relied on her intelligence, reaction speed, mobility, judgment, and individual combat skills to escape!

The land was vast but there were few people. It was easy to escape. Let's see if she has the ability.

There was movement in front. Pigeon, who was hiding, saw a figure running towards him.

That was Ye Jian.

"She is here. Get ready." Pigeon reminded Xia Jinyuan who was about five meters behind him. "Ten meters, nine meters, eight, seven, six..."

The count stopped. A few seconds later, Pigeon said hurriedly, "T6, go south!"

### **Chapter 1665: She Will Kill One**

Ye Jian avoided him. They were forcing her to walk towards the east. She definitely wouldn't do it!

There were three people. Captain Xia really thought highly of her. He sent three people to catch her alive!

If she didn't go east, she would go south!

The combat map indicated that there was a cliff in the south! As long as she approached the cliff, she could use the cliff to hide. As long as she successfully evaded, she could come up from the north and meet up with Demon King Li.

Not only could she assemble with the Demon King, but they could also attack the Snow Region Brigade from behind.

"Be careful of the gun in her hand. It's not a rifle. It's a pistol." Xia Jinyuan reacted faster than the two of them. He hunched his back and rushed a few meters away as if there was a spring under his feet.

Ye Jian wasn't restrained by anyone. There was a combat map and a topographic map in her mind. The reaction of the body would always follow the brain. The reaction of the brain would always allow the body to move closely. There would never be a time where the reaction of the brain and the body were opposite.

This was Ye Jian's reaction and judgment. She didn't need to stop and think. She could run, think, and deploy at the same time.

Hence, she gave the command center an illusion. She was very familiar with this place. She was so familiar that no matter where she ran, she would be right. She wouldn't enter a dead end.

"She has memorized the combat map and topographic map." The major general talked to the navy commander in a low voice. "Only those who are familiar with the route can move like this. If not, they wouldn't be able to find the exit accurately every time."

The navy commander didn't need the strong tea anymore. He looked at Ye Jian and felt excited.

He couldn't bear to shift his spirited gaze away from the screen. He was afraid that he would miss something important. "She saw the combat map and the topographic map three times. If she really remembers them, her memory is quite amazing."

"Yes, her memory is amazing. That's why I said that she might not lose in a one versus four battle." There was a smile in the major general's eyes. Xia Jinyuan wanted to teach Azure Bird a lesson, but it would not be easy. He would have to suffer in the early stages.

The major general smiled.

The navy commander, who was focused on the screen, didn't notice it. He saw Ye Jian shaking off T6 and shooting behind her.

This time, she used a pistol instead of a rifle.

T6 was the closest to her. The range of the pistol was shorter. Although the accuracy was low, the gun was small and suitable for running.

To avoid being hit, T6 had to slow down and find cover.

Whether it was a pistol, a rifle, a machine gun, or a sniper rifle, as long as the gun was in Ye Jian's hands, she would be able to familiarize herself with the operation. Her shooting motions were very smooth and could make the other party tremble in fear.

"Surround her. If we don't, she might kill one of us!" T6 evaded the bullets and panted. "She fired her pistol!"

The shooting was smooth. The time between firing was not too long. That was why T6 was frightened.

Xia Jinyuan knew that it was hard to catch Ye Jian alive. If not, he wouldn't have gone personally and let J5 fight Demon King. Hearing that, he took out his pistol and fired in the direction where Ye Jian escaped.

Bang!

A blank cartridge hit the tree on the right. Ye Jian's expression changed slightly. She ran even faster. Her slender figure was like a rabbit. She moved left and right in the shape of a 'Z..' The people behind her couldn't complete their aiming and could only shoot blindly.

### **Chapter 1666: Catch a Bird**

Before the gunshots disappeared, the second, third, and third shots were fired. Ye Jian, who was already running fast enough, suddenly sped up again.

Then, like a swimming champion, she jumped over a fallen tree and rolled on the ground.

"Hide!" Xia Jinyuan warned T6 and Pigeon. He knew that she was going to retaliate!

She still had a rifle and pistol on her. As for the capacity of the bullets, it was unknown. However, one thing was certain. The capacity of the bullets was definitely not as much as the three of them!

Pigeon and T6 rolled in the snow and avoided the blind bullets that Ye Jian used to suppress them. Pigeon, who was half-squatting behind a tree, whispered, "As expected of Azure Bird. She's quite difficult to deal with. Q King, can the three of us capture her alive?"

"She's too familiar with the terrain. Her running was accurate and she didn't miss a step. Although she's running now, it's equivalent to us chasing her using the escape route we set. We're not chasing her using the route we planned."

It felt like they were being led by the nose.

Xia Jinyuan replied, "Only five minutes have passed. You want to catch Azure Bird within five minutes? Do you really think that you are catching a 'bird'? An azure bird is the predecessor of the phoenix. Do you understand?"

"Phoenixes are birds too," T5 replied seriously. "I feel like I'm catching a bird. It's just a little difficult."

Pigeon wanted to laugh but didn't dare to.

"If you catch her, I will give you ten days of leave when I go back. I will let you chase your girlfriend!" Xia Jinyuan was magnanimous. He threw out such a bait so that T6 would be willing to take the bait.

"Come on, Q King. What are your orders?"

Xia Jinyuan didn't stand on ceremony. "You can use your firepower to suppress her. Pigeon and I will attack from the left and right. Don't be too polite with your bullets. Don't waste them. Don't shoot until the end."

"Sure! Sure! I still have two magazines. I have enough bullets." T6 smiled. After he finished laughing, he raised his rifle and quickly covered his comrades.

Ye Jian wouldn't fight with them so hard. There were three people chasing her but only one opened fire. It was obvious that they wanted to exhaust all her bullets so that the three of them could catch her alive.

Ye Jian pursed her lips. She didn't hide after firing four shots. Instead, she moved her body carefully and continued running.

She ran all the way down the slope. Her legs were stuck in the snow, so she couldn't stop. She ran towards the south with all her might.

She couldn't stop. If she did, she would be surrounded!

"She ran away again. She's not a bird. She's a rabbit, right?" T6 was stunned. "How long can we chase her? J5 is facing the Demon King. Let's not lose."

Pigeon, who was chasing after him, replied, "Now, we need to consume Azure Bird's stamina and bullets. We won't lose even if we have a captive!"

Xia Jinyuan didn't reply. His combat boots stepped into the snow. When he pulled them out, he felt vicious.

Azure Bird was groomed by a Class A Master Sergeant and a world-class sniper. If she was caught by the three of them in less than ten minutes, she would not be the pride of everyone. She would disappoint Uncle Gen and Uncle Chen.

At this moment, Ye Jian realized that as a Special Forces soldier, she mustn't fight with the enemy unless she had no other choice. If she could carry out an assassination, she must do it.. That was the smart thing to do.

### **Chapter 1667: Female Soldiers Are So Hard to 'Eat'**

She also understood that when she was fighting alone, she could only rely on herself. She shouldn't expect any timely support.

Even if there were reinforcements, she was the only one who could save herself when there were no reinforcements.

Run.

Now, she could only run. She would hide in the next advantageous position and counterattack!

The navy commander narrowed his eyes. He saw Xia Jinyuan accelerating and trying to block Azure Bird.

Then, T6 fired at the back again. Pigeon cooperated with the entire operation. Occasionally, he would shoot to distract Ye Jian. She didn't have the time to take care of her surroundings.

"She keeps running towards the south. If she's heading towards the south..." The major general looked at the combat map on the table carefully. Then, he looked at the topographic map. He pointed his finger at a spot and understood why Ye Jian was running towards the south.

There was a cliff in the south. To outsiders, it was a hopeless place. To the Special Forces, it was a good place.

What did the special forces soldiers train normally? Climbing mountains and cliffs was part of their training!

When the Snow Region Brigade was guarding a base station on the highlands, they would climb the steep mountains that were often piled with snow and were heavily weathered. Even snow leopards would find it hard to climb.

Azure Bird followed the soldier king, Old Chen, and walked through the forest of the western province. How could she not have gone to the cliff? She ran there because she knew that there was a cliff in the south!

She knew it. Xia Jinyuan knew it too. He barged into the command center and pulled out all the surveillance cameras. Then, he connected to the satellite map and looked at the terrain of the entire base. Then, he asked his comrade to draw the map. It could be seen that he had a plan.

After discovering Ye Jian's intention, he immediately chased after her and intercepted her path.

This match was extremely exciting!

Xia Jinyuan and Li Jinnian's match was exciting. The two teams' match was exciting! And now, Ye Jian's match was exciting too!

On the other side, Li Jinnian was already facing J5 and the rest. The two of them moved like ghosts in the forest. They quietly landed beside each other. Then, their fists met and their feet collided. After the close combat ended, one of them died.

Li Jinnian looked cold, but when he was hunting, he was unexpectedly 'refined.' He liked to shoot from a distance. Once he heard the 'beep' sound, he would immediately leave the battlefield, not giving the Snow Region Brigade any chance to search for him.

To be called the 'Demon King' and be respected by his team members, his individual combat ability was definitely terrifying.

Now, he was facing the members of the Snow Region Brigade. It was up to the Snow Region Brigade to delay him.

The members of the Snow Region Brigade were all elites of the Special Forces. They weren't afraid when they fought with the Demon King. Instead, they were all excited and their eyes were filled with viciousness.

"As expected of the Demon King. He came and went without a trace. Just now, a brother was killed because he was shot in the back. That means that the Demon King's range of activity is in this area." J5 squatted with his four comrades and started deploying. The brothers in charge of vigilance kept an eye on their surroundings to prevent sneak attacks.

"We will flank him from outside his range of activity. Kite, you will attack. Eagle will cover the back. V8 and I will be in charge of the peripheral search. Now, four members of the Storm Commando Brigade have died. Two of our brothers have died. We need to prevent the Demon King from launching a sneak attack from behind."

### **Chapter 1668: The Most Ruthless Boyfriend**

After arranging the five-person team, J5 said to his comrades, "Two-person team. If there are no special circumstances, don't pull too far away. The Water Ghosts are used to touching the water. They like to shoot from behind."

Actually, they liked to use cold weapons behind their backs too. The difference was that they liked to touch their enemies in close combat and use their daggers to kill them directly. They also liked to press their enemies' heads with their hands and twist them violently. If their necks were dislocated, they didn't need to bleed.

The Snow Region Brigade had arranged a 'hunting' deployment. Li Jinnian and the rest were the same. It looked like the members of the Storm Commando Brigade were acting alone, but in actual fact, there was always someone waiting for an opportunity to strike.

Underwater combat was different from land combat. During underwater combat, the Water Ghosts would never act alone. They needed two people to act. At the same time, one was in the open while the other was cooperating secretly.

Li Jinnian was in the open while Big Whale was in the dark beside him. The two of them moved around to find their 'prey.'

His communication with Ye Jian had been cut off. Ye Jian was the one who took the initiative to cut off his communication device. She hadn't contacted him for a long time. It could be seen that she still hadn't escaped.

Q King was personally capturing Azure Bird alive. Azure Bird was afraid that she would implicate the Storm Commando Brigade, so she even turned off her communication device... He needed to make use of the time to kill more members of the Snow Region Brigade. That way, he would be able to answer to Azure Bird.

What he didn't know was that Ye Jian was completely blocked.

When Ye Jian saw the tall figure standing in the snow, about four meters away from her, she narrowed her eyes. At the same time, there was a bright light in her black eyes. Captain Xia, he came personally to block her!

When did she meet him?

That's right. When she was 14 years old. She was training with the soldiers from Fujun Town in the forest. When Captain Xia suddenly barged in, he started to oppose her.

Many years had passed, but Ye Jian could still remember every minute and second clearly.

"There's no way to escape, Azure Bird," said Xia Jinyuan calmly. He looked at the female soldier who made a mistake and needed to be taught a lesson. There was no gentleness in his black eyes. "Next, you will be a 'captive.' You will experience what it's like to be one."

His voice was very cold. There was no gentleness in it. This was because they were on the battlefield. They were enemies now!

Then, he signaled to T6 and Pigeon who were surrounding her. The three of them pointed at each other and approached Ye Jian in a triangle.

"Azure Bird, there are no familiar faces on the battlefield. No matter how familiar someone is, as long as the camp is different, they are enemies. As enemies, we will not give you preferential treatment just because you are someone we know."

“There’s only one principle on the battlefield. Who wins and who loses!” Xia Jinyuan said calmly as he walked. Every word was cold.

The four of them got closer and closer. Ye Jian pursed her lips and touched her left wrist... The silver wire had not been used for a long time.

In the end, they faced each other head-on. Two of the three people threw punches and one kicked. They attacked Ye Jian without any mercy.

From the start, this was a battle of numbers and strength. However, Ye Jian was not someone easy to deal with. Since there was no way to escape, she would fight to the death to win a chance for herself!

### **Chapter 1669: Too Ruthless**

The dagger that didn’t have an edge slashed open Xia Jinyuan’s leg at the fastest speed. That’s right, the most ruthless one among the three was Xia Jinyuan. He attacked with his leg.

His actions shocked T6 and Pigeon. He was too ruthless. Did he really think that she was their enemy?

After forcing Xia Jinyuan, Ye Jian used her dagger to quickly open T6’s fist. Facing Xia Jinyuan’s kick again, she raised her left leg and slashed down without any hesitation. At the same time, she tilted her body to ensure that she could dodge and retaliate.

At this moment, flexibility played a huge role too. Ye Jian raised her right leg almost above her head and struck Xia Jinyuan’s calf with lightning speed. Then, she used the strength of her leg to turn her body around. Just like a video on a computer, she twisted her body and avoided T6’s fist again.

Xia Jinyuan pursed his thin lips. When he retracted his leg, he clenched his fist secretly.

It was quite... painful.

“The rabbit has become a snake!” T6 retracted his fist and attacked with Pigeon again.

Ye Jian’s first agile evasion made Xia Jinyuan sneer softly. It was a smile but not a smile. It was filled with cruelty.

Compared to the fight when he was 14 years old, Xia Jinyuan didn’t tease her at all. He used his attitude on the battlefield to force Ye Jian.

“Q King, don’t be too ruthless. Do you really plan to beat her to death?” Pigeon leaned close to Xia Jinyuan and frowned. He whispered, “Three against one. We already have the upper hand. You’re too...”

Xia Jinyuan moved his wrist and glanced at Pigeon with a sharp and cold gaze. He said indifferently, “Too much? Have we never encountered a three-on-one situation? Is this the real three-on-one situation?”

“A real three versus one is even more ruthless than now! They don’t even have lives at any time! What am I? Heh, Azure Bird should be glad that we are all soldiers from the same country now. We are wearing the same military uniform and having a competition between soldiers.”

“If we really had a confrontation on the battlefield, would you still be like this? You will only be more ruthless than me and try your best to get rid of your target.”

T6’s calf was kicked by Ye Jian. The combat boots had a small weight but the head and heels were very hard. In addition, Ye Jian’s legs were weighted when she was training with Uncle Chen. This kick caused T6 to feel so much pain that his calf bones seemed to have cracked.

When he evaded the kick, he saw Xia Jinyuan moving his ankle secretly. T6 was gloating. It turned out that Q King was in pain too. He thought that he wasn’t.

“Don’t let her have the chance to kick you!” Xia Jinyuan reminded his comrade when he felt that the pain in his calf had subsided a little. This was the first time he experienced her leg strength.

Once he was kicked, the pain... was indescribable.

Hearing that, Ye Jian’s gaze moved slightly. She set Pigeon as her first target. Before the three of them could attack again, Ye Jian, who was holding one end of the silver wire in her hand, landed on the ground and kicked Pigeon continuously with killing intent.

In the snow, her figure was as agile as a cheetah. She attacked with the ferocity of a beast.

Uncle Chen said that the only way to survive was to retaliate!

She needed to win a chance for herself. She needed to retaliate.

Pigeon’s expression changed when he saw this.

### **Chapter 1670: Still Not Admitting Defeat**

At this moment, Ye Jian had already entered a state where she was facing off against her enemies. She was using her true ability to fight against the three!

If he still accepted the challenge with the mentality that they were all acquaintances, he would be the first one to be killed.

Moreover, her target was him.

Pigeon stopped being influenced by his personal feelings.

At this moment, a smile flashed past Xia Jinyuan’s eyes. Very good. She was surrounded but she was still able to find the weak spot quickly. This meant that she didn’t panic. She was still calm.

Then, let him see how far she could go!

“T6, block her path of retreat!” The cold-faced Captain Xia didn’t even remember that he was her boyfriend.

His only goal now was to teach this soldier a lesson! Let her learn her lesson!

As an all-rounded soldier, how could Xia Jinyuan's close combat skills be bad? When he saw Ye Jian using Pigeon as a breakthrough point to attack, he aimed his fist at Ye Jian's shoulder.

Ye Jian ignored his attack. She kicked Pigeon continuously and forced him to dodge left and right. Suddenly, she grabbed something with her left hand and threw it forward. Something unexpected happened!

Pigeon felt something cold and soft like silk wrapping around the back of his neck. Then, he saw Ye Jian pulling his right hand. In the blink of an eye, his neck was tied up by the foreign object.

Instinctively, Pigeon wanted to pull off the foreign object around his neck. However, the object was thin and slippery. He couldn't pull it out with his bare hands.

At the same time, Xia Jinyuan punched Ye Jian's shoulder. T6 kicked Ye Jian's knee.

The moment Ye Jian released the silver wire, she was knocked down by two Special Forces soldiers.

Even so, Ye Jian didn't fall down because she couldn't move. Instead, she quickly supported herself with her elbow and rolled in the snow.

"I've been taken care of." Pigeon took off the thing that was wrapped around his neck. If Ye Jian didn't release her hand when she fell, he might have been suffocated by this thing.

It was not to the extent of suffocation. It was not so easy to deal with him. However, if they were on the battlefield, Ye Jian would not let go of the chance to deal with her enemies.

Xia Jinyuan was a little surprised. Not bad. She was able to kill Pigeon under such circumstances. Not only was she calm, but she also knew how to plan.

"Not bad. Continue," he said in a low voice. Without waiting for Ye Jian, who had rolled on the snow, to get up, he started attacking Ye Jian again like a wolf pouncing on its prey. Ye Jian, who was rolling continuously, was forced into an extremely sorry state by him.

When his military boots kicked her back, Ye Jian thought that she would vomit blood.

That kind of pain was even more intense than the pain of getting hurt during training. It came and went as it wished. After a long time, she still maintained the intense pain when she was kicked. It was like she was pressing on a certain acupuncture point that hurt the most. She couldn't calm down at all.

Her brain received the pain transmitted by the neurons. Ye Jian's cerebral cortex was so tense that she felt that her helmet was a hindrance.

Twenty-seven minutes had passed since they were discovered. T6 and Xia Jinyuan attacked Ye Jian from both sides. Their fists and legs landed on Ye Jian. They weren't kicking randomly. They were all skilled. Ye Jian didn't remember how many times she rolled in the snow. Every time she rolled and stood up, she gritted her teeth and fought back with all her might.

"Are you still not going to admit defeat?" Xia Jinyuan smiled and asked. He punched Ye Jian's face. Little Fox, you dared to use your life to test White Crane. Do you still dare to use the same method?
